## Overview of the Animal Protection Society of Durham

The Animal Protection Society of Durham (APSD) is a leading animal shelter and adoption center in Durham, North Carolina. Established to improve the lives of homeless and abandoned animals, the society is committed to animal rescue, care, and rehoming. With a team of dedicated staff, volunteers, and veterinary partners, APSD provides a safe haven for dogs, cats, and other small animals while working tirelessly to find them permanent, loving homes. The organization is known for its transparent adoption process, high-quality

animal care, and community outreach programs that promote responsible pet ownership and animal welfare.

## **The Adoption Process Explained**

### **Initial Inquiry and Application**

The animal protection society of durham adoption process begins with an initial inquiry, where prospective adopters can learn about the available pets. Interested individuals are encouraged to visit the shelter or view adoptable animals online. A simple adoption application must be completed, providing information about the adopter's lifestyle, home environment, and previous experience with pets.

### **Screening and Counseling**

After submission, APSD staff review the application and conduct interviews to ensure a good match between the adopter and the animal. Counselors discuss the needs of each animal, answer questions, and provide guidance on selecting the right pet. This personalized approach helps ensure successful, lifelong adoptions.

### **Meet-and-Greet Sessions**

Adopters are invited to meet the animals in a comfortable setting at the shelter. These sessions allow families to interact with potential pets, assess compatibility, and ask further questions. The society encourages all household members, including other pets, to participate in this step if possible.

### **Finalization and Adoption Fees**

Once a suitable match is found, the adoption is finalized through a contract. Adoption fees cover vaccinations, microchipping, spay/neuter surgery, and veterinary care, ensuring each animal is healthy and ready for a new home.

- Fill out the adoption application
- Participate in screening and counseling

- Attend meet-and-greet sessions
- Finalize the adoption and pay applicable fees

## **Types of Animals Available for Adoption**

### **Dogs and Puppies**

The Animal Protection Society of Durham offers a wide selection of dogs and puppies for adoption. These range from playful puppies to mature dogs of various breeds, sizes, and personalities. Each canine is evaluated for temperament, health, and suitability for different home environments.

### **Cats and Kittens**

A significant portion of APSD's adoptable animals are cats and kittens. Whether you prefer an energetic kitten or a calm, affectionate adult cat, the society provides detailed profiles to help you find your perfect feline companion.

### **Other Small Animals**

In addition to cats and dogs, APSD occasionally has small animals such as rabbits, guinea pigs, and hamsters available for adoption. These pets are cared for with the same level of attention and receive thorough health checks before being offered for adoption.

## **Benefits of Adopting from the Society**

### **Comprehensive Health Care**

Every animal adopted from the Animal Protection Society of Durham receives comprehensive veterinary care, including vaccinations, spaying or neutering, and microchipping. This ensures that all pets are healthy and ready to transition into their new homes.

## **Supportive Adoption Counselors**

APSD's adoption counselors provide ongoing support to adopters, assisting with advice on pet care, behavior, and integration into the family. This guidance helps ensure a smooth transition and reduces the likelihood of animals being returned to the shelter.

## **Positive Community Impact**

Choosing to adopt from APSD helps reduce pet overpopulation, supports local animal welfare initiatives, and gives deserving animals a second chance at life. Adopters also become part of a compassionate community dedicated to animal protection.

## **Preparing for Pet Adoption**

### **Home Preparation**

Before bringing a new pet home, it is essential to prepare your living space. Remove hazards, secure trash bins, and create a safe, comfortable area for your new companion. Gather supplies such as food, bedding, toys, and grooming tools.

### **Understanding Pet Needs**

Prospective adopters should research the species and breed they are interested in, considering activity levels, grooming requirements, and potential health issues. APSD provides educational resources to help adopters make informed decisions.

### **Family Readiness**

Discuss the responsibilities of pet ownership with all household members. Ensure everyone is prepared for the commitment and understands the care, time, and financial investment involved in adopting a pet.

## **Support and Resources for Adopters**

## **Post-Adoption Guidance**

After adoption, the Animal Protection Society of Durham offers ongoing support to new pet owners. This includes behavioral advice, training recommendations, and resources for local veterinary care.

## **Training and Socialization**

APSD encourages adopters to enroll pets in training and socialization classes when appropriate. These classes help pets adjust to their new homes and strengthen the bond between pet and owner.

## **Emergency Assistance**

In case of emergencies or unforeseen challenges, APSD staff can provide referrals to animal behaviorists, veterinarians, or other support services. The society aims to give every adoption the best chance of success.

## **How to Get Involved: Volunteering and Donations**

### **Volunteering Opportunities**

The Animal Protection Society of Durham relies on volunteers for daily operations, animal care, event organization, and community outreach. Volunteering is a rewarding way to support the mission and make a direct impact on animal welfare.

### **Ways to Donate**

Financial contributions, supply donations, and fundraising support are essential to APSD's ability to care for animals and provide adoption services. Donors can contribute one-time gifts, monthly support, or sponsor specific animals in need.

### **Fostering Programs**

Foster volunteers provide temporary homes for animals that need extra care, such as young kittens or those recovering from medical procedures. Fostering helps prepare pets for adoption and frees up shelter space for additional

rescues.

## **Impact of Adoption on the Community**

The animal protection society of durham adoption program positively influences the Durham community by promoting responsible pet ownership, reducing the stray animal population, and fostering compassion for animals. Adopted pets enrich the lives of their new families and contribute to a safer, healthier community. APSD's efforts extend beyond the shelter, including education programs and partnerships with local organizations to advance animal welfare throughout the region.

## **Frequently Asked Questions about Animal Protection Society of Durham Adoption**

### **Q: What is the adoption process at the Animal Protection Society of Durham?**

A: The adoption process involves submitting an application, participating in screening and counseling, attending meet-and-greet sessions, and finalizing the adoption with a contract and adoption fee.

### **Q: What types of animals can I adopt from APSD?**

A: APSD offers dogs, puppies, cats, kittens, and occasionally small animals such as rabbits and guinea pigs for adoption.

### **Q: Are all adopted animals spayed or neutered?**

A: Yes, all animals adopted from the Animal Protection Society of Durham are spayed or neutered before going to their new homes.

### **Q: What is included in the adoption fee?**

A: The adoption fee includes vaccinations, microchipping, spay/neuter surgery, and veterinary care to ensure the pet is healthy and ready for adoption.

## **Q: Can I meet the animals before deciding to adopt?**

A: Yes, prospective adopters are encouraged to schedule meet-and-greet sessions with the animals to ensure a good match.

## **Q: What support does APSD provide after adoption?**

A: APSD offers post-adoption support, including advice on pet care, training resources, and referrals to veterinary services.

## **Q: How can I volunteer with the Animal Protection Society of Durham?**

A: Interested individuals can apply to volunteer in various roles, including animal care, event organization, and community outreach.

## **Q: Are there fostering opportunities available?**

A: Yes, APSD has a fostering program for individuals who can temporarily care for animals in need, such as young kittens or those recovering from medical procedures.

## **Q: How can I donate to the Animal Protection Society of Durham?**

A: Donations can be made in the form of monetary contributions, supplies, or by sponsoring specific animals at the shelter.

## **Q: Why should I adopt from APSD instead of buying a pet?**

A: Adopting from APSD saves lives, supports animal welfare efforts, and ensures that animals receive necessary medical care and are matched with responsible, loving homes.

# **Animal Protection Society of Durham Adoption: Find Your Furry Best Friend**

Are you looking to open your heart and home to a loving companion? The Animal Protection Society of Durham (APSD) offers a heartwarming opportunity to adopt a deserving animal in need. This comprehensive guide will walk you through the adoption process at APSD, covering everything from finding the perfect pet to navigating the adoption paperwork. We'll explore the types of animals available, the requirements for adoption, and what you can expect after bringing your new furry, feathered, or scaled friend home. Get ready to embark on a journey that could change both your life and the life of a wonderful animal!

## **Finding Your Perfect Match at the Animal Protection Society of Durham**

The Animal Protection Society of Durham boasts a diverse population of animals waiting for their forever homes. Before you visit, take some time for self-reflection. Consider your lifestyle, living situation (apartment vs. house, yard space, etc.), and the time commitment you can realistically offer. Are you prepared for the energy level of a playful puppy, or would a calmer senior cat be a better fit?

### **#### Types of Animals Available for Adoption**

APSD typically houses a range of animals, including:

**Dogs:** From tiny Chihuahuas to majestic Great Danes, you'll find a variety of breeds and ages. Their website often features detailed profiles with photos and personality descriptions.

**Cats:** Independent felines, playful kittens, and cuddly seniors – APSD caters to every cat lover. Many cats have already been assessed for their temperament and social skills.

**Small Animals:** Depending on availability, you might find rabbits, guinea pigs, hamsters, or other small animals seeking loving homes.

**Occasionally other animals:** The shelter may occasionally care for birds, reptiles, or other animals, depending on rescue situations.

### **#### Browsing Animals Online: A Head Start on Your Search**

Before your visit, explore the APSD website. They likely have an online database of adoptable animals with pictures, descriptions, and sometimes even videos! This allows you to pre-select potential companions and make your visit more efficient.

## **The Animal Protection Society of Durham Adoption Process: A Step-by-Step Guide**

The APSD adoption process aims to ensure a successful match for both the animal and the adopter. Expect a thorough but friendly process designed to guarantee a happy ending.

#### #### Step 1: Application and Pre-Screening

You'll likely need to fill out an application online or at the shelter. This application gathers information about your living situation, experience with pets, and lifestyle. This helps APSD staff determine if you're a suitable match for a specific animal.

#### #### Step 2: Meeting Your Potential Pet

Once your application is approved, you'll have the opportunity to meet the animals that caught your eye. Spend quality time interacting with them to assess compatibility. Don't hesitate to ask questions about the animal's history, temperament, and needs.

#### #### Step 3: Adoption Counseling and Decision-Making

APSD staff are invaluable resources. They can provide insights into each animal's personality and help you find the best fit. Take your time; choosing a pet is a big decision!

#### #### Step 4: Adoption Fee and Paperwork

There will be an adoption fee, which contributes to the shelter's operating costs and helps them continue to rescue and care for animals. You'll need to complete the necessary paperwork and agree to the terms of adoption.

#### #### Step 5: Bringing Your New Friend Home

Congratulations! You're ready to bring your new companion home. Remember that it takes time to adjust. Be patient, provide plenty of love, and enjoy the journey of building a special bond with your new family member.

## Post-Adoption Support and Resources

APSD often provides post-adoption support, offering advice and resources to ensure a smooth transition. This might include access to training classes, veterinary resources, or simply a helpful ear to listen to your questions and concerns. Check their website or contact them directly for details.

## Conclusion

Adopting a pet from the Animal Protection Society of Durham is a rewarding experience that changes the lives of both you and your new companion. By following the steps outlined above, and by carefully considering your lifestyle and the needs of the animal, you can find your perfect furry,

feathered, or scaled friend. Remember to be patient, responsible, and prepared for the joy and responsibility that pet ownership entails.

## FAQs

1. What is the adoption fee at the Animal Protection Society of Durham? The adoption fee varies depending on the animal and may cover vaccinations, spaying/neutering, and microchipping. Check their website or contact them directly for current pricing.
2. Do I need to have a fenced yard to adopt a dog? This depends on the specific dog. Some dogs are perfectly happy in apartment living, while others require more space. APSD staff will help match you with a dog whose needs align with your lifestyle.
3. What if I need to return my adopted pet? While APSD hopes every adoption is successful, they understand that sometimes things don't work out. Contact them immediately to discuss your situation; they may offer guidance or support.
4. What kind of vetting process do the animals go through? APSD typically provides necessary vaccinations, spaying/neutering, and medical checkups before adoption. Details may vary depending on the animal's individual needs.
5. How can I contact the Animal Protection Society of Durham? Their website will likely have contact information, including phone number, email address, and physical location. You can also find them on social media platforms.

**animal protection society of durham adoption:** **The Lives and Deaths of Shelter Animals**  
Katja M Guenther, 2020-08-18 "By investigating the . . . connection between the . . . shelter and the community . . . vastly expands . . . notions of intersectionality, democracy, and inclusivity." —Leslie Irvine, American Journal of Sociology Monster is an adult pit bull, muscular and grey, who is impounded in a large animal shelter in Los Angeles. Like many other dogs at the shelter, Monster is associated with marginalized humans and assumed to embody certain behaviors because of his breed. And like approximately one million shelter animals each year, Monster will be killed. The Lives and Deaths of Shelter Animals takes us inside one of the country's highest-intake animal shelters. Katja M. Guenther witnesses the dramatic variance in the narratives assigned different animals, including Monster, which dictate their chances for survival. She argues that these

inequalities are powerfully linked to human ideas about race, class, gender, ability, and species. Guenther deftly explores internal hierarchies, breed discrimination, and importantly, instances of resistance and agency. "Powerful and timely. . . . Katja M. Guenther unlocks the shelter door and eloquently explains this complicated and contested multispecies space, as she reflects on issues such as witnessing, vulnerability, advocacy, grievability, compassion, and animal resistance." —Carol J. Adams, author of *The Sexual Politics of Meat* "In this compassionate, incisive ethnography . . . Katja M. Guenther illuminates the entangled injustices that shape human relationships with other animals." —Lori Gruen, author of *Entangled Empathy* "With the perfect balance of intimacy and analytical depth, the author reminds us of how messy things can get when caring and killing become one, or when the value of the animal companion's life is measured by the race, gender, and zip code of the owner." —Bénédicte Boisseron, author of *Afro-Dog*

**animal protection society of durham adoption:** *Saving Sadie* Joal Derse Dauer, Elizabeth Ridley, 2017-09-26 "I fell in love with Sadie as you will, too."—Fern Michaels Joal Derse Dauer was donating blankets at a local no-kill shelter when an injured and despondent dog caught her eye. With three "fur babies" already at home, Joal wasn't looking to adopt another dog. But there was something special about Sadie . . . With patience, hope, and plenty of love, Joal saw her canine companion grow in strength and joy. And before long, she discovered that sweet Sadie had transformed her life in ways she never could have imagined. Joyous and inspiring, *Saving Sadie* is a triumphant story about the power of unconditional love and second chances—for humans and animals alike. "A triumphant tale of second chances that shows how patience, hope, compassion and love can truly transform lives." —Modern Dog "An uplifting story with tremendous heart. I couldn't put it down." —Helen Brown "Saving Sadie will lift your spirit and open your heart. A must-read." —Jodee Blanco "What a wonderful book—moving and inspirational, touching and heartwarming." —Sue Pethick

**animal protection society of durham adoption:** *Animal Cruelty* Mary P. Brewster, Cassandra Reyes, 2016 *Animal Cruelty* is an anthology that addresses all critical aspects of animal cruelty including: its history and prevalence; related legislation; special types of cruelty (hoarding, poaching, blood sports, etc.); its link to other types of violence and crime; theories used to explain animal cruelty; the role of the media; and emerging issues related to animal cruelty. The text is suitable for undergraduate and graduate classes in criminal justice, criminology, psychology, law, sociology, animal studies, and other disciplines, and is especially well-suited for use in classes on such topics as animal cruelty, animal welfare, deviant behavior, animal law, violent crime, veterinary studies, abnormal psychology, and animal husbandry. This second edition includes chapter updates related to legislation, prevalence and incidence of animal cruelty, and research findings, as well as the addition of two completely new chapters related to veterinary forensics and cruelty towards roaming dogs.

**animal protection society of durham adoption:** **Happily Ever Esther** Steve Jenkins, Derek Walter, 2018-07-10 From the New York Times bestselling authors and loving owners of Esther the Wonder Pig, comes a memoir about their new life on the Happily Ever Esther Farm Sanctuary, which is anything but boring. Steve Jenkins and Derek Walter, had their lives turned upside down when they adopted their pig-daughter Esther--the so-called micro pig who turned out to be a full-sized commercial pig growing to a whopping 600 pounds--as they describe in their bestselling memoir *Esther the Wonder Pig*. The book ends with them moving to a new farm, and starting a new wonderful life where they will live on the Happily Ever Esther Farm Sanctuary to care for other animals and just live happily ever after... Or so they thought. People often think about giving it all up and just moving to a farm. In theory it sure does sound great. But as Derek and Steve quickly realized, the realities of being a farmer--especially when you have never lived on a farm let alone

outside of the city--can be frantic, crazy, and even insane. Not only are they adjusting to farm life and dutifully taking care of their pig-daughter Esther (who by the way lives in the master bedroom of their house), but before they knew it their sanctuary grew to as many as 42 animals, including: pigs, sheep, goats, rabbits, chickens, cows, roosters, a peacock, a duck, a horse, a donkey, and a barn cat named Willma Ferrell. Written with joy and humor, and filled with delicious Esther-approved recipes dispersed throughout the book, this charming memoir captures an emotional journey of one little family advocating for animals everywhere.

**animal protection society of durham adoption: Preventing HIV Transmission** National Research Council and Institute of Medicine, Institute of Medicine, Panel on Needle Exchange and Bleach Distribution Programs, 1995-09-14 This volume addresses the interface of two major national problems: the epidemic of HIV-AIDS and the widespread use of illegal injection drugs. Should communities have the option of giving drug users sterile needles or bleach for cleaning needs in order to reduce the spread of HIV? Does needle distribution worsen the drug problem, as opponents of such programs argue? Do they reduce the spread of other serious diseases, such as hepatitis? Do they result in more used needles being carelessly discarded in the community? The panel takes a critical look at the available data on needle exchange and bleach distribution programs, reaches conclusions about their efficacy, and offers concrete recommendations for public policy to reduce the spread of HIV/AIDS. The book includes current knowledge about the epidemiologies of HIV/AIDS and injection drug use; characteristics of needle exchange and bleach distribution programs and views on those programs from diverse community groups; and a discussion of laws designed to control possession of needles, their impact on needle sharing among injection drug users, and their implications for needle exchange programs.

**animal protection society of durham adoption:** The Educational Significance of Human and Non-Human Animal Interactions Suzanne Rice, A. G. Rud, 2016-04-29 The Educational Significance of Human and Non-Human Animal Interactions explores human animal/non-human animal interactions from different disciplinary perspectives, from education policy to philosophy of education and ecopedagogy. The authors refute the idea of anthropocentrism (the belief that human beings are the central or most significant species on the planet) through an ethical investigation into animal and human interactions, and 'real-life' examples of humans and animals living and learning together. In doing so, Rice and Rud outline the idea that interactions between animals and humans are educationally significant and vital in the classroom.

**animal protection society of durham adoption: Transforming the Workforce for Children Birth Through Age 8** National Research Council, Institute of Medicine, Board on Children, Youth, and Families, Committee on the Science of Children Birth to Age 8: Deepening and Broadening the Foundation for Success, 2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. Transforming the Workforce for Children Birth Through Age 8 explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive

relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

**animal protection society of durham adoption:** *The Forever Dog* Rodney Habib, Karen Shaw Becker, 2021-10-12 THE INSTANT #1 INTERNATIONAL BESTSELLER In this path-breaking guide, two of the world's most popular and trusted pet-care advocates reveal how to delay aging and provide a long, happy, healthy life for our canine companions Like their human counterparts, dogs have been getting sicker and dying prematurely over the past few decades. Why? Scientists are beginning to understand that the chronic diseases afflicting humans—cancer, obesity, diabetes, organ degeneration and autoimmune disorders—also beset canines. As a result, our beloved companions struggle with preventable health problems throughout much of their lives. Because dogs can't make health and lifestyle decisions for themselves, it's up to pet parents to make smart, science-backed choices on their behalf. Rodney Habib and Karen Becker, DVM, travelled the world collecting wisdom from top geneticists, microbiologists and longevity researchers. They also interviewed people whose dogs have lived into their twenties and even thirties. The result is this unprecedented and comprehensive guide, filled with surprising information, invaluable advice and inspiring stories about dogs and the people who love them. The Forever Dog prescriptive plan can be tailored to the genetic predisposition of particular breeds or mixes. The authors discuss various types of food—including details commercial manufacturers don't want us to know—and offer recipes, tips and easy solutions for ensuring our dogs obtain the nutrients they need. They also explore how external factors that we often overlook can greatly affect a dog's overall health and well-being—including the role our own lifestyles and our vets' choices play. Indeed, the health equation works both ways and can travel "up the leash." This definitive dog-care guide empowers us with the knowledge we need to make wise choices and keep our dogs healthy and happy for years to come.

**animal protection society of durham adoption:** *Can Animals Be Moral?* Mark Rowlands, 2015-03 Can animals act morally? Philosophical tradition answers no, and has apparently convincing arguments on its side. Cognitive ethology supplies a growing body of empirical evidence that suggests these arguments are wrong. This groundbreaking book assimilates both philosophical and ethological frameworks into a unified whole and argues for a qualified yes.
