History of Area 51 and Its Connection to UFOs

Area 51, located in the Nevada desert, has long been shrouded in secrecy. Established by the U.S. government in the 1950s, its primary purpose was to test cutting-edge military aircraft and technology. However, the facility's clandestine nature quickly attracted public suspicion, leading to speculation about UFOs and extraterrestrial encounters. Over decades, reports of strange lights, unidentified flying objects, and hushed military activities fueled the belief that Area 51 was more than just a testing ground. The association between Area 51 and UFOs intensified after declassified documents and eyewitness accounts suggested that the government may have recovered alien spacecraft and possibly made contact with non-human intelligence.

The Alleged Alien Interview: Origins and Details

The Emergence of the Alien Interview Footage

The “alien interview” allegedly conducted at Area 51 first surfaced in the 1990s. A mysterious videotape, often referred to as the “Grey Alien Interview,” purportedly shows a non-human entity being questioned by government officials. The footage, which remains unverified, depicts a humanoid figure with large eyes and an elongated head, commonly associated with the “Grey alien” archetype. According to claims, the interview was part of a larger effort to communicate with extraterrestrials and extract information about their origins and intentions.

Claims and Controversies Surrounding the Interview

Despite the sensational nature of the video, experts and skeptics have raised questions about its authenticity. The origins of the tape remain unclear, and no definitive evidence links the footage to Area 51 or any official government operation. Some researchers argue that the interview is a hoax, designed to perpetuate existing myths about alien encounters. Others maintain that the secrecy surrounding Area 51 makes it impossible to confirm or deny such extraordinary claims.

Key Witnesses and Testimonies

Bob Lazar’s Revelations

One of the most prominent figures in the Area 51 alien narrative is Bob Lazar, who claims to have worked at a site adjacent to Area 51 known as S-4. Lazar alleges that he was involved in reverse-engineering alien technology and witnessed nine extraterrestrial craft. He also suggests that government

scientists conducted interviews with alien beings to learn about their advanced propulsion systems. While Lazar's story remains controversial, it has fueled ongoing interest in the possibility of alien contact at Area 51.

Other Eyewitness Accounts

Several individuals, including former military personnel and contractors, have come forward with accounts of unusual activities at Area 51. Some describe seeing unidentified objects, while others claim to have overheard conversations about secret meetings with non-human entities. Although these testimonies are often anecdotal and lack physical evidence, they contribute to the mystique surrounding the facility and the alleged alien interview.

Scientific and Government Perspectives

Official Statements and Denials

The U.S. government has consistently denied any involvement in extraterrestrial research at Area 51. Official statements describe the facility as a site for testing experimental aircraft and national security projects. Despite public curiosity, authorities maintain strict secrecy, citing the need to protect classified programs. The government's refusal to comment on alien-related questions has only heightened speculation and fueled conspiracy theories.

Scientific Analysis of the Alien Interview Footage

Experts in video forensics and biological sciences have analyzed the alleged alien interview footage. Most conclude that the video lacks verifiable details and exhibits signs of manipulation. Skeptics point out inconsistencies in lighting, anatomy, and movement that suggest the figure may be a puppet or CGI creation. While no definitive explanation has emerged, the consensus among scientists is that extraordinary claims require extraordinary evidence, which is currently lacking for the Area 51 alien

interview.

Area 51: The Alien Interview - Declassified Truth or Elaborate Hoax?

For decades, Area 51 has been synonymous with extraterrestrial life, conspiracy theories, and government secrecy. The very name conjures images of hushed whispers, blurry photographs, and the tantalizing possibility of alien encounters. This post delves deep into the persistent rumors of "the alien interview," exploring the evidence (or lack thereof), the psychology behind the belief, and the enduring fascination with Area 51's enigmatic role in popular culture. We'll examine the purported interview transcripts, analyze the motivations behind the alleged cover-up, and ultimately, invite you to form your own informed opinion on this captivating enigma.

The Genesis of the "Alien Interview" Myth

The idea of an "Area 51 alien interview" isn't tied to a single source but rather a confluence of factors fueling public imagination. It's a tapestry woven from eyewitness accounts (often unsubstantiated), leaked documents (frequently declassified but misinterpreted), and the fertile ground of conspiracy theories thriving online and in popular media. The lack of official confirmation from the US government only adds fuel to the fire, allowing speculation to flourish unchecked.

The Bob Lazar Factor: A Key Catalyst

Robert Lazar's claims in the late 1980s significantly contributed to the Area 51 alien interview narrative. Lazar, a self-proclaimed physicist, asserted he worked at a secret facility near Area 51, where he reverse-engineered extraterrestrial technology. While his story captivated the public, lack of verifiable evidence and inconsistencies in his accounts have led many to dismiss his claims as fabrications. However, Lazar's story remains a crucial component of the overall "Area 51 alien interview" mythology.

The Power of Suggestion and Confirmation Bias

The human desire for answers to the great unknown, particularly the question of extraterrestrial life, plays a significant role in the persistence of the "alien interview" narrative. People often seek out information that confirms their pre-existing beliefs (confirmation bias), latching onto any evidence, however flimsy, that supports their convictions. This psychological predisposition makes the Area 51 mythology particularly potent and resistant to contradictory evidence.

Analyzing the Purported Interview Transcripts

Numerous purported transcripts of alien interviews allegedly conducted at Area 51 circulate online. These documents vary greatly in quality and credibility, ranging from seemingly fabricated accounts to those attempting to mimic legitimate interview formats. Critically analyzing these transcripts reveals several common flaws:

Lack of Verifiable Source Material

Almost without exception, these transcripts lack verifiable sources and chain of custody. Their origins are shrouded in mystery, making independent verification practically impossible. This lack of

provenance is a significant red flag, suggesting the documents are likely fabrications or misrepresentations.

Inconsistencies and Contradictions

Many purported transcripts contain internal inconsistencies and contradictions, further undermining their authenticity. Discrepancies in timelines, descriptions of events, and the aliens' alleged communication styles often reveal the amateurish nature of the forgeries.

The Role of Deliberate Misinformation

It's also important to consider the possibility of deliberate misinformation campaigns. Individuals or groups may intentionally create and disseminate false information to capitalize on public interest in Area 51 and extraterrestrial life. Such actions can further muddy the waters, making it difficult to discern fact from fiction.

The Enduring Appeal of Area 51: A Cultural Phenomenon

Area 51's enduring appeal transcends the simple pursuit of alien truth. It represents a broader societal fascination with the unknown, with government secrecy, and with the possibility of defying conventional wisdom. The mystery surrounding the base taps into a deep-seated human desire for wonder and the inexplicable.

The persistent rumors surrounding "the alien interview" serve as a powerful illustration of this fascination. Whether or not an actual interview ever occurred remains a matter of debate, but its enduring presence in popular culture highlights the power of myth and the enduring human fascination with the possibility of extraterrestrial contact.

Conclusion

The "Area 51 alien interview" narrative, while captivating, lacks the concrete evidence necessary to substantiate its claims. The purported transcripts are rife with inconsistencies and lack verifiable sources. While the allure of extraterrestrial life and government secrecy remains powerful, a critical approach is essential when evaluating such claims. Ultimately, the truth behind the "Area 51 alien interview" may forever remain shrouded in mystery, leaving the story open to interpretation and endless speculation.

Specific legal statutes vary, but the overarching goal is to maintain operational security.

area 51 the alien interview: Alien Interview Lawrence R. Spencer, 2008-01-01 The content of this book is the letter, Top Secret interview transcripts and personal notes received from the late Matilda O'Donnell MacElroy, an Army Air Force nurse who stationed at the Roswell Army Air Field 509th Bomb Group. Her letter asserts that this material is based on a series of interviews she conducted with an extraterrestrial being as part of her official duty as a nurse in the U.S. Army Air Force. During July and August she interviewed a saucer pilot who crashed near Roswell, New Mexico on July 8th, 1947. area 51 the alien interview: Area 51 Annie Jacobsen, 2011-05-17 This compellingly hard-hitting bestseller from a Pulitzer Prize finalist gives readers the complete untold story of the top-secret military base for the first time (New York Times). It is the most famous military installation in the world. And it doesn't exist. Located a mere seventy-five miles outside of Las Vegas in Nevada's desert, the base has never been acknowledged by the U.S. government — but Area 51 has captivated imaginations for decades. Myths and hypotheses about Area 51 have long abounded, thanks to the intense secrecy enveloping it. Some claim it is home to aliens, underground tunnel systems, and nuclear facilities. Others believe that the lunar landing itself was filmed there. The prevalence of these rumors stems from the fact that no credible insider has ever divulged the truth about his time inside the base. Until now. Annie Jacobsen had exclusive access to nineteen men who served the base proudly and secretly for decades and are now aged 75-92, and unprecedented access to fifty-five additional military and intelligence personnel, scientists, pilots, and engineers linked to the secret base, thirty-two of whom lived and worked there for extended periods. In Area 51, Jacobsen shows us what has really gone on in the Nevada desert, from testing nuclear weapons to building super-secret, supersonic jets to pursuing the War on Terror. This is the first book based

on interviews with eye witnesses to Area 51 history, which makes it the seminal work on the subject. Filled with formerly classified information that has never been accurately decoded for the public, Area 51 weaves the mysterious activities of the top-secret base into a gripping narrative, showing that facts are often more fantastic than fiction, especially when the distinction is almost impossible to make.

area 51 the alien interview: Invoking the Beyond: Paul D. Collins, Phillip D. Collins, 2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the "Kantian Rift," an epistemological barrier between external reality and the mind of the percipient. Arbitrarily proclaimed by German philosopher Immanuel Kant, this barrier rendered the world as a terra incognita. Suddenly, the world "out there" was deemed imperceptible and unknowable. In addition to the outer world, the cherished metaphysical certainties of antiquity—the soul, a transcendent order, and God—swiftly evaporated. The way was paved for a new set of modern mythmakers who would populate the world "out there" with their own surrogates for the

Divine. Collectively, these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity. In recent years, the Beyond has been invoked by theoreticians, literary figures, intelligence circles, and deep state operatives who share some variant of a technocratic vision for the world. In turn, these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man. Their hegemony has been legitimized through the invocation of a wrathful earth goddess, a technological Singularity, a superweapon, and extraterrestrial "gods." All of these are merely masks for the same counterfeit divinity... the Beyond.

In more recent years, Area 51 has spurred public interest from its role in the government's \$30 billion Black Budget, from legal claims of worker illness due to toxic burning, and from sensational charges about captured alien spacecraft. It has also given birth to a feisty guerrilla subculture bent on exploding the secrecy surrounding this mysterious spot. David Darlington unfolds the history, legs, and characters involved with Area 51, weaving a weird tale of intrigue and outrage and UFOs that speaks volumes about popular culture and American democracy at the of the twentieth century.

area 51 the alien interview: *Dreamland* Bob Lazar, 2019-10-15 Bob Lazar is the reason Area 51 became infamous in the 1980s and his recent appearance on Joe Rogan's podcast with 7 million listeners is credited with inspiring the Storm Area 51 phenomenon. In his DREAMLAND autobiography, Lazar reveals every detail of his highly controversial story about being an insider within the world's most legendary military research base. Bob Lazar was a brilliant young physicist that found himself employed at a top secret facility in the middle of the desert outside Las Vegas. Under the watchful eye of the government elite, he is tasked with understanding an exotic propulsion system being used by an advanced aerospace vehicle he is told came from outer space. The stressful work and long, odd hours start to wear on Bob and he becomes concerned for his safety. He tells his wife and a couple close friends about what he's doing in the desert, and his employers find out and are furious. When they station goons outside his house, Bob seeks help from wealthy UFOlogist, John Lear, who encourages Bob to take his story to award-winning investigative journalist George Knapp at KLAS-TV, a CBS affiliate. To prove he's telling the truth, Bob takes a group of people out into the desert to watch a test flight of the flying saucer. On the way home, they are stopped by the police, who notify the base, and Bob loses his job. In a series of interviews with CBS TV, Bob Lazar then blows the lid off Area 51, blows the whistle on the effort to conceal this craft from the American people, and blows up his career as a top physicist. Bob Lazar's reports have been the subject of intense controversy for decades. He has been interviewed numerous times and his story has been corroborated by other individuals he worked with and who were present when these events happened. But until now, Bob Lazar has never told his own story, in every detail in his own words, about those exciting days in the desert outside of Las Vegas and how the world came to learn about the experiments being conducted at Area 51.

area 51 the alien interview: *They Are Already Here* Sarah Scoles, 2021-06-08 An anthropological look at the UFO community, told through first-person experiences with researchers in their element as they pursue what they see as a solvable mystery—both terrestrial and cosmic. More than half a century since Roswell, UFOs have been making headlines once again. On December 17, 2017, the New York Times ran a front-page story about an approximately five-year Pentagon program called the Advanced Aerospace Threat Identification Program. The article hinted, and its sources clearly said in subsequent television interviews, that some of the ships in question couldn't be linked to any country. The implication, of course, was that they might be linked to other solar systems. The UFO community—those who had been thinking about, seeing, and analyzing supposed flying saucers (or triangles or chevrons) for years—was surprisingly skeptical of the revelation. Their incredulity and doubt rippled across the internet. Many of the people most invested in UFO reality weren't really buying it. And as Scoles did her own digging, she ventured to dark, conspiracy-filled corners of the internet, to a former paranormal research center in Utah, and to the hallways of the Pentagon. In *They Are Already Here* we meet the bigwigs, the scrappy upstarts, the field investigators, the rational people, and the unhinged kooks of this sprawling community. How do they interact with each other? How do they interact with “anomalous phenomena”? And how do they (as any group must) reflect the politics and culture of the larger world around them? We will travel along the Extraterrestrial Highway (next to Area 51) and visit the UFO Watchtower, where seeking lights in the sky is more of a spiritual quest than a “gotcha” one. We meet someone who, for a while, believes they may have communicated with aliens. Where do these alleged encounters stem from? What are the emotional effects on the experiencers?

area 51 the alien interview: Inside the Real Area 51 Thomas J. Carey, Donald R. Schmitt, 2013-08-20 The true nature of what actually crashed in Roswell, New Mexico, in 1947 remains classified. Only a select few have ever had access to the truth about what became known as Area 51. But what happened to the remnants of that crash is shrouded in even greater mystery. What began in the high desert of New Mexico ended at Wright-Patterson, an ultra top-secret Air Force base in Dayton, Ohio. The physical evidence of extraterrestrial visitation was buried deep within this nuclear stronghold. How tragic that such seismic news should be kept from the people of the world...pieces of history, now quickly dwindling into oblivion as the last of the secret-keepers passes on. In spite of its rich history of military service to our nation, Wright-Patterson also stands as the secret tomb of one of the greatest occurrences in recorded history. But be prepared...the real Area 51--Wright-Patterson's vault--is about to be opened.

area 51 the alien interview: We Are All Made of Stars Rowan Coleman, 2016-07-26 "Fans of Jojo Moyes will love We Are All Made of Stars" (Good Housekeeping). "A beautiful web of a book" (Jodi Picoult), this life-affirming novel tells an unforgettable story about second chances, the power of words, and the resilience of the heart. A dedicated nurse, Stella finds comfort at the hospice where she works the late shift, especially since her husband returned from Afghanistan—cold, distant, and shattered by painful memories he refuses to share. The hospice at night is another world, where the dying receive closure by creating the letters that Stella helps them write. The pages are filled with love and humor, sometimes regret, and, occasionally, even instructions for a perplexed husband on how to run appliances. There's one rule: The letters are mailed only after the patient has passed. Suddenly Stella is faced with a dilemma: A woman under her care, Grace, has written a confession to the son she abandoned many years before. The letter clearly needs to be read before Grace dies. But if Stella mails it now, she breaks the rule—and risks tampering not only with Grace's wishes but also with fate. Navigating passion and grief, loyalty and loss, and a marriage threatened by silence and secrets, Stella discovers that letters hold a special power: granting solace, saving memories, nurturing relationships. area 51 the alien interview: American Cosmic D.W. Pasulka, 2019-01-23 More than half of American adults and more than seventy-five percent of young Americans believe in intelligent extraterrestrial life. This level of belief rivals that of belief in God. American Cosmic examines the mechanisms at work behind the thriving belief system in extraterrestrial life, a system that is changing and even supplanting traditional religions. Over the course of a six-year ethnographic study, D.W. Pasulka interviewed successful and influential scientists, professionals, and Silicon Valley entrepreneurs who believe in extraterrestrial intelligence, thereby disproving the common misconception that only fringe members of society believe in UFOs. She argues that widespread belief in aliens is due to a number of factors including their ubiquity in modern media like The X-Files, which can influence memory, and the believability lent to that media by the search for planets that might support life. American Cosmic explores the intriguing question of how people interpret unexplainable experiences, and argues that the media is replacing religion as a cultural authority that offers believers answers about non-human intelligent life.

area 51 the alien interview: Alien Invasion - Inside Area 51 Patrick M. Mariano, 2014-02-22 This book is a set of interviews I made across the United States and the United Kingdom and I'm probably the very first journalist to have accessed Area 51. I didn't know, when I started this investigation, where it would lead me, but what I've seen in the underground levels is really scary. If you ever wondered if we are alone in this universe, the answer is No. Aliens are closer than you could imagine. I have dedicated my entire life to reporting stories and events through newspapers and that's what I do for a living; I'm not going to stop now. However, in order to protect my life, I decided to have this book written under a pseudonym. Throughout the course of this book I will make specific reference to facts that are clearly recognisable and that you can cross-reference. My only hope is that you will take action NOW and start protecting yourselves and the people around you.

area 51 the alien interview: Extraterrestrial Avi Loeb, 2021-01-26 New York Times Bestseller | Wall Street Journal Bestseller | Publishers Weekly Bestseller | Publishers Marketplace 2020 Buzz Book | Amazon Best Book of the Year | Longlisted for the 2022 PEN/E.O. Wilson Literary Science Writing Award “Provocative and thrilling ... Loeb asks us to think big and to expect the unexpected.” —Alan Lightman, New York Times bestselling author of *Einstein’s Dreams* and *Searching for Stars on an Island in Maine* Harvard’s top astronomer lays out his controversial theory that our solar system was recently visited by advanced alien technology from a distant star. In late 2017, scientists at a Hawaiian observatory glimpsed an object soaring through our inner solar system, moving so quickly that it could only have come from another star. Avi Loeb, Harvard’s top astronomer, showed it was not an asteroid; it was moving too fast along a strange orbit, and left no trail of gas or debris in its wake. There was only one conceivable explanation: the object was a piece of advanced technology created by a distant alien civilization. In *Extraterrestrial*, Loeb takes readers inside the thrilling story of the first interstellar visitor to be spotted in our solar system. He outlines his controversial theory and its profound implications: for science, for religion, and for the future of our species and our planet. A mind-bending journey through the furthest reaches of science, space-time, and the human imagination, *Extraterrestrial* challenges readers to aim for the stars—and to think critically about what’s out there, no matter how strange it seems.

area 51 the alien interview: The Central Intelligence Agency and Overhead

Reconnaissance Gregory Pedlow, Donald Welzenbach, 2016-03-15 The CIA's 2013 release of its book *The Central Intelligence Agency and Overhead Reconnaissance 1954-1974* is a fascinating and important historical document. It contains a significant amount of newly declassified material with respect to the U-2 and Oxcart programs, including names of pilots; codenames and cryptonyms; locations, funding, and cover arrangements; electronic countermeasures equipment; cooperation with foreign governments; and overflights of the Soviet Union, Cuba, China, and other countries. Originally published with a Secret/No Foreign Dissemination classification, this detailed study describes not only the program's technological and bureaucratic aspects, but also its political and international context, including the difficult choices faced by President Eisenhower in authorizing overflights of the Soviet Union and the controversy surrounding the shoot down there of U-2 pilot Francis Gary Powers in 1960. The authors discuss the origins of the U-2, its top-secret testing, its specially designed high-altitude cameras and complex life-support systems, and even the possible use of poison capsules by its pilots, if captured. They call attention to the crucial importance of the U-2 in the gathering of strategic and tactical intelligence, as well as the controversies that the program unleashed. Finally, they discuss the CIA's development of a successor to the U-2, the Oxcart, which became the world's most technologically advanced aircraft. For the first time, the more complete 2013 release of this historical text is available in a professionally typeset format, supplemented with higher quality photographs that will bring alive these incredible aircraft and the story of their development and use by the CIA. This edition also includes a new preface by author Gregory W. Pedlow and a foreword by Chris Pocock. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

area 51 the alien interview: Wonders in the Sky Jacques Vallee, Chris Aubeck, 2010-10-28

One of the most ambitious works of paranormal investigation of our time, here is an unprecedented compendium of pre-twentieth-century UFO accounts, written with rigor and color by two of today's leading investigators of unexplained phenomena. In the past century, individuals, newspapers, and military agencies have recorded thousands of UFO incidents, giving rise to much speculation about flying saucers, visitors from other planets, and alien abductions. Yet the extraterrestrial phenomenon did not begin in the present era. Far from it. The authors of *Wonders in the Sky* reveal a thread of vividly rendered-and sometimes strikingly similar- reports of mysterious aerial phenomena from antiquity through the modern age. These accounts often share definite physical features- such as the heat felt and described by witnesses-that have not changed much over the centuries. Indeed, such similarities between ancient and modern sightings are the rule rather than the exception. In *Wonders in the Sky*, respected researchers Jacques Vallee and Chris Aubeck examine more than 500 selected reports of sightings from biblical-age antiquity through the year 1879-the point at which the Industrial Revolution deeply changed the nature of human society, and the skies began to open to airplanes, dirigibles, rockets, and other opportunities for misinterpretation represented by military prototypes. Using vivid and engaging case studies, and more than seventy-five illustrations, they reveal that unidentified flying objects have had a major impact not only on popular culture but on our history, on our religion, and on the models of the

world humanity has formed from deepest antiquity. Sure to become a classic among UFO enthusiasts and other followers of unexplained phenomena, *Wonders in the Sky* is the most ambitious, broad-reaching, and intelligent analysis ever written on premodern aerial mysteries.

area 51 the alien interview: Grey Aliens and the Harvesting of Souls Nigel Kerner, 2010-01-19 Exposes the agenda behind the bio-robotic grey aliens' genetic manipulation of certain human races • Reveals the Grey's nature as sophisticated self-aware machines created by a long vanished extraterrestrial civilization • Explains how their quest to capture human souls appears in the historical record from biblical times • Explains how the phenomenon of racism is a by-product of their genetic tampering In 1997 Nigel Kerner first introduced the notion of aliens known as Greys coming to Earth, explaining that Greys are sophisticated biological robots created by an extraterrestrial civilization they have long since outlived. In this new book Kerner reveals that the Greys are seeking to master death by obtaining something humans possess that they do not: souls. Through the manipulation of human DNA, these aliens hope to create their own souls and, thereby, escape the entropic grip of the material universe in favor of the timeless realm of spirit. Kerner explains that genetic manipulation by the Greys has occurred since biblical times and has led to numerous negative qualities that plague humanity, such as violence, greed, and maliciousness. Racism, he contends, was developed by the aliens to prevent their genetic experiments from being compromised by breeding with others outside their influence. Examining historical records, Kerner shows that Jesus, who represented an uncorrupted genetic line, warned his disciples about the threat posed by these alien interlopers, while Hitler, a pure product of this alien intelligence, waged genocide in an attempt to rid Earth of all those untouched by this genetic tampering. Despite the powerful grip the Greys have on humanity, Kerner says that all hope is not lost. Greys exist wholly in the material world, so if we follow the spiritual laws of reincarnation and karma, aiming for enlightenment and rising above the material--a state the Greys are unable to reach--we can free ourselves from their grasp.

area 51 the alien interview: Dreamland Phil Patton, 2012-10-31 There is a place in the Nevada desert the size of Belgium that doesn't officially exist. It is the airbase where test flights of our top-secret experimental military aircraft are conducted and --not coincidentally--where the conspiracy theorists insist the Pentagon is hiding UFOs and aliens. This is Dreamland--or Area 51. For Phil Patton, the idea of writing a travel account of a place he couldn't actually visit was irresistible. What he found was a world where Chick Yeager and the secret planes of the Cold War converged with the Nevada Test Site and alien landings at Roswell. A think tank for aviation engineering, Dreamland can be seen from a summit outside the base's perimeter, a hundred miles north of Las Vegas. On Freedom Ridge, groups of airplane buffs gather with their camouflage outfits and binoculars. These are the Stealth chasers, the Skunkers, guys with code names like Agent X and Zero, hoping for a glimpse of the rumored raylike shapes of planes like Black Manta and the mother ship. The most mysterious craft is Aurora, the successor to the legendary U-2, said to run on methane and fly as fast as Mach 6. Scanning the same horizon, the UFO buffs are looking for the hovering lights and doughnut-shaped contrails of alien aircraft. Are they looking at something sinister and mysterious? Imagined? Or more terrestrial than they think? Dreamland shows how much we need mystery in the information age, and how the cultures of nuclear power and airpower

merge with the folklores of extraterrestrials and earthly conspiracies. Patton found people who found themselves in the mysteries of the place. John Lear, the son of aviation pioneer Bill Lear--who gave his name to the jet--served as a pilot for the CIA's Air America, but back home, he became fascinated by UFOs and eventually believed in it all: the underground bases, the alien-human hybrids, the secret treaties. But was he a true believer, or part of a disinformation campaign? Bob Lazar seems to know when the saucers will come, and has made three clear sightings at night along Dreamland's perimeter, but is his story real, or a vision of what's possible? Dreamland is an exploration of America's most secret place: the base for our experimental airplanes, the fount of UFO rumors, an offshoot of the Nevada Test Site. How this blackspot came to exist--its history, its creators, its spies and counterspies--is Phil Patton's tale. He tunnels into the subcultures of the conspiracy buffs, the true believers, and the aeronautic geniuses, creating a novelistic tour de force destined to make us all rethink our convictions about American know-how--and alien inventiveness.

area 51 the alien interview: *The UFO Files* David Clarke, 2013-03-30 'What does all this stuff about flying saucers amount to? What can it mean? What is the truth?' Winston Churchill, prime minister's personal minute, 28th July 1952 *The UFO Files* tells the story of over 100 years of UFO sightings, drawing on formerly secret government documents at the National Archives in London. Alongside extraordinary reports by ordinary people, it reveals details of official interest and investigations stretching back more than 80 years. In this remarkable book, fully updated for this second edition, David Clarke reveals an array of startling stories from possible UFO reports hidden among Met Office investigations of aerial phenomena in the 1920s to the conclusions of Project Condign, the secret British Intelligence UFO study completed in 2000. As well as covering Roswell and Britain's own Rendlesham Forest mystery, Clarke raids the records for dramatic stories of abductions and close encounters, ghost aircraft and crop circles, and UFO reports by both civilian aircrew and military personnel. Dramatic witness statements and interviews combine with rarely seen photographs, drawings and newly available documents to offer a unique guide to one of our most intriguing mysteries.
