Renowned writer Meghan O'Rourke delivers a revelatory investigation into this elusive category of "invisible" illness that encompasses autoimmune diseases, post-treatment Lyme disease syndrome, and now long COVID, synthesizing the personal and the universal to help all of us through this new frontier. Drawing on her own medical experiences as well as a decade of interviews with doctors, patients, researchers, and public health experts, O'Rourke traces the history of Western definitions of illness, and reveals how inherited ideas of cause, diagnosis, and treatment have led us to ignore a host of hard-to-understand medical conditions, ones that resist easy description or simple cures. And as

America faces this health crisis of extraordinary proportions, the populations most likely to be neglected by our institutions include women, the working class, and people of color. Blending lyricism and erudition, candor and empathy, O'Rourke brings together her deep and disparate talents and roles as critic, journalist, poet, teacher, and patient, synthesizing the personal and universal into one monumental project arguing for a seismic shift in our approach to disease. The Invisible Kingdom offers hope for the sick, solace and insight for their loved ones, and a radical new understanding of our bodies and our health.

Mild-mannered American Hawley Crippen had killed his wife, buried her remains in the cellar of their North London home and then gone on the run with his young mistress, his secretary Ethel Le Neve. A Scotland Yard inspector, already famous for his part in the Ripper investigation, discovered the murder and launched an international hunt for Crippen that climaxed in a trans-Atlantic chase between two ocean liners. The chase itself was novel, but what captured the imagination was the role played by a new and little understood technology: the wireless.
