examples of class president speeches: *Considering Class* Kevin Cahill, Kevin M. Cahill, Lene Johannessen, 2007 In the 21st century hardly any aspects of human existence are left unexplored by postmodern theories and discourses of subjectivity and individuality, of hybridity and identity, of race, gender and ethnicity. Conspicuous, however, among these critical inquiries is the relatively little attention devoted to the category of class. This absence is particularly alarming at a time when neo-liberalism and post- capitalism feed on cultural fragmentation and ideological relativism. The contributions in *Considering Class: Essays on the Discourse of the American Dream* address the (dys)functional position of class in American socio-political and cultural reality from a variety of disciplinary perspectives. While it is open to debate whether class is more resistant to being relativized than other categories, there is increasing recognition that class remains a critical category with the potential to transcend the rifts and divisions that run along lines of race, ethnicity and gender, and with the potential to reconfigure the current American political landscape.

And that was what I did, sitting at the kitchen table, pencil in hand, Oxford Dictionary of Current English and a pencil sharpener beside me. It was daunting at the beginning, putting pencil to paper, and I could not remember the number of times I stared blankly at the refrigerator facing me in the kitchen, scouring my mind to recollect memories of past events. After his death, it became a treasured piece of writing reprinted in The Wall Street Journal and the London Times, commented on endlessly in blogs, and emailed from friend to friend. examples of class president speeches: Death by a Thousand Cuts Michael J. Graetz, Ian Shapiro, 2011-01-11 This fast-paced book by Yale professors Michael Graetz and Ian Shapiro unravels the following mystery: How is it that the estate tax, which has been on the books continuously since 1916 and is paid by only the wealthiest two percent of Americans, was repealed in 2001 with broad bipartisan support? The mystery is all the more striking because the repeal was not done in the dead of night, like a congressional pay raise. It came at the end of a multiyear populist campaign launched by a few individuals, and was heralded by its supporters as a signal achievement for Americans who are committed to the work ethic and the American Dream. Graetz and Shapiro conducted wide-ranging interviews with the relevant players: members of congress, senators, staffers from the key committees and the Bush White House, civil servants, think tank and interest group representatives, and many others. The result is a unique portrait of American politics as viewed through the lens of the death tax repeal saga. Graetz and Shapiro brilliantly illuminate the repeal campaign's many fascinating and unexpected turns--particularly the odd end result whereby the repeal is slated to self-destruct a decade after its passage. They show that the stakes in this fight are exceedingly high; the very survival of the long standing American consensus on progressive taxation is being threatened. Graetz and Shapiro's rich narrative reads more like a political drama than a conventional work of scholarship. Yet every page is suffused by their intimate knowledge of the history of the tax code, the transformation of American conservatism over the past three decades, and the wider political implications of battles over tax policy.

examples of class president speeches: The Politics of Persuasion Anthony R. DiMaggio, 2017-02-21 Tracking the effects of media content on the public is a difficult endeavor, and media effects vary on a subject-to-subject basis. To address this challenge, *The Politics of Persuasion* employs a multifaceted, mixed method approach to studying mass media and public attitudes. Anthony R. DiMaggio analyzes more than a dozen case studies covering US domestic economic policy and examines a wide range of theories of how bias operates in mass media with regard to coverage of these issues. While some research claims that journalists are overly negative and biased against government officials, some reveals that journalists favor citizens groups. Still other studies contend there is a liberal bias in the media, a progovernment bias, or a bias in favor of advertisers and business interests. Through his analysis, DiMaggio is the first to systematically examine all of these competing interpretations. He concludes that reporters tailor stories to corporate and government interests, but argues that the ability to manufacture consent from the public in favor of these elite views is far from guaranteed. According to DiMaggio, citizens often make use of their own personal experiences and prior attitudes to challenge official narratives.

examples of class president speeches: At the Schoolhouse Gate Nancy C. Patterson, Prentice T. Chandler, 2022-01-01 The objective of this edited volume is to shed light upon K-12 perspectives of various school stakeholders in the current unique context of increasing political polarization and heightened teacher and student activism. It is grounded in academic freedom case law and the majority of opinion of the Supreme Court in the *Tinker v. Des Moines Independent Community School District* (1969) that held that certain forms of expression are protected by the First Amendment. Justice Fortas wrote in the majority opinion that "it can hardly be argued that either students or teachers shed their constitutional rights to freedom of speech or expression at the schoolhouse gate." This volume is timely and instructive, as protections afforded by the First Amendment are a topic of enduring concern, with such freedoms requiring vigilant advocacy and protection from each generation. Paulo Freire stated, "Citizenship is not obtained by chance: It is a construction that, never finished, demands we fight for it" (1998, p. 90). There is confusion and much debate in and outside of schools about how and when these and other rights described in the First Amendment may or may not be limited, and the time is now to clarify the place of such rights in public education. *At the Schoolhouse Gate* is divided into three sections: Foundations, Case Studies of Rights in Schools, and Choices to Act. The "Foundations" section presents the case law pertaining to the rights of both teachers and students, setting the tone for what presently is permissible and chronicling the ongoing struggle with defining rights and responsibilities in schools. In "Case Studies of Rights in Schools," various authors examine teacher and student interactions with rights and responsibilities in schools, including the interest of students in participating with their teachers in the democratic experiment of schooling, the promise of student-led conferences, a new teacher's success with democratizing her classroom, and student views of news and technology. "Choices to Act" includes a portrait of teacher activism during the Oklahoma Walkout, a general counsel's advice to teachers for availing themselves of their rights, a story of a civic education curriculum generating student agency, and vignettes of two public high school students who took action in their schools and communities.
