Wood's interest in horror spanned his entire career and was a form of popular cinema to which he devoted unwavering attention. *Robin Wood on the Horror Film: Collected Essays and Reviews* compiles over fifty years of his groundbreaking critiques. In September 1979, Wood and Richard Lippe programmed an extensive series of horror films for the Toronto International Film Festival and edited a companion piece: *The American Nightmare: Essays on the Horror Film* — the first serious collection of critical writing on the horror genre. *Robin Wood on the Horror Film* now contains all of Wood's writings from *The American Nightmare* and nearly everything else he wrote over the years on horror—published in a range of journals and magazines—gathered together for the first time. It begins with the first essay Wood ever published, *Psychoanalysis of Psycho*, which appeared in 1960 and already anticipated many of the ideas explored later in his touchstone book, *Hitchcock's Films*. The volume ends, fittingly, with, *What Lies Beneath?*, written almost five decades later, an essay in which Wood reflects on the state of the horror film and criticism since the genre's renaissance in the 1970s. Wood's prose is eloquent, lucid, and convincing as he brings together his parallel interests in genre, authorship, and ideology. Deftly combining Marxist, Freudian, and feminist theory, Wood's prolonged attention to classic and contemporary horror films explains much

about the genre's meanings and cultural functions. Robin Wood on the Horror Film will be an essential addition to the library of anyone interested in horror, science fiction, and film genre.

jason myers greys: *Grey Aliens and the Harvesting of Souls* Nigel Kerner, 2010-01-19 Exposes the agenda behind the bio-robotic grey aliens' genetic manipulation of certain human races • Reveals the Grey's nature as sophisticated self-aware machines created by a long vanished extraterrestrial civilization • Explains how their quest to capture human souls appears in the historical record from biblical times • Explains how the phenomenon of racism is a by-product of their genetic tampering In 1997 Nigel Kerner first introduced the notion of aliens known as Greys coming to Earth, explaining that Greys are sophisticated biological robots created by an extraterrestrial civilization they have long since outlived. In this new book Kerner reveals that the Greys are seeking to master death by obtaining something humans possess that they do not: souls. Through the manipulation of human DNA, these aliens hope to create their own souls and, thereby, escape the entropic grip of the material universe in favor of the timeless realm of spirit. Kerner explains that genetic manipulation by the Greys has occurred since biblical times and has led to numerous negative qualities that plague humanity, such as violence, greed, and maliciousness. Racism, he contends, was developed by the aliens to prevent their genetic experiments from being compromised by breeding with others outside their influence. Examining historical records, Kerner shows that Jesus, who represented an uncorrupted genetic line, warned his disciples about the threat posed by these alien interlopers, while Hitler, a pure product of this alien intelligence, waged genocide in an attempt to rid Earth of all those untouched by this genetic tampering. Despite the powerful grip the Greys have on humanity, Kerner says that all hope is not lost. Greys exist wholly in the material world, so if we follow the spiritual laws of reincarnation and karma, aiming for enlightenment and rising above the material--a state the Greys are unable to reach--we can free ourselves from their grasp.

jason myers greys: *The Last True Love Story* Brendan Kiely, 2016-09-13 From the New York Times bestselling and critically acclaimed coauthor of *All American Boys* and author of *The Gospel of Winter* comes a cool, contemplative spin on hot summer nights and the classic teen love story as two teens embark on a cross-country journey of the heart and soul. The point of living is learning how to love. That's what Gpa says. To Hendrix and Corrina, both seventeen but otherwise alike only in their loneliness, that sounds like another line from a pop song that tries to promise kids that life doesn't actually suck. Okay, so: love. Sure. The thing about Corrina—her adoptive parents are suffocating, trying to mold her into someone acceptable, predictable, like them. She's a musician, itching for any chance to escape, become the person she really wants to be. Whoever that is. And Hendrix, he's cool. Kind of a poet. But also kind of lost. His dad is dead and his mom is married to her job. Gpa is his only real family, but he's fading fast from Alzheimer's. Looking for any way to help the man who raised him, Hendrix has made Gpa an impossible promise—that he'll get him back east to the hill where he first kissed his wife, before his illness wipes away all memory of her. One hot July night, Hendrix and Corrina decide to risk everything. They steal a car, spring Gpa from his assisted living facility, stuff Old Humper the dog into the back seat, and take off on a cross-country odyssey from

LA to NY. With their parents, Gpa's doctors, and the police all hot on their heels, Hendrix and Corrina set off to discover for themselves if what Gpa says is true—that the only stories that last are love stories.

jason myers greys: Flower Diary Molly Peacock, 2021-09-14 "Graceful yet precise, poetic yet deeply rooted in research, this exploration of an overlooked painter is gorgeous — a joy to read. Molly Peacock's insights and empathy with her subject bring to life both Mary Hiester Reid and her luscious flower paintings." — Charlotte Gray, author of *The Massey Murder* Molly Peacock uncovers the history of neglected painter Mary Hiester Reid, a trailblazing artist who refused to choose between marriage and a career. Born into a patrician American family in the middle of the nineteenth century, Mary Hiester Reid was determined to be a painter and left behind women's design schools to enter the art world of men. After she married fellow artist George Reid, she returned with him to his home country of Canada. There she set about creating over 300 stunning still life and landscape paintings, inhabiting a rich, if sometimes difficult, marriage, coping with a younger rival, exhibiting internationally, and becoming well-reviewed. She studied in Paris, traveled in Spain, and divided her time between Canada and the United States where she lived among America's Arts and Crafts movement titans. She left slender written records; rather, her art became her diary and *Flower Diary* unfolds with an artwork for each episode of her life. In this sumptuous and precisely researched biography, celebrated poet and biographer Molly Peacock brings Mary Hiester Reid, foremother of painters such as Georgia O'Keefe, out of the shadows, revealing a fascinating, complex woman who insisted on her right to live as a married artist, not as a tragic heroine. Peacock uses her poet's skill to create a structurally inventive portrait of this extraordinary woman whom modernism almost swept aside, weaving threads of her own marriage with Hiester Reid's, following the history of empathy and examining how women manage the demands of creativity and domesticity, coping with relationships, stoves, and steamships, too. How do you make room for art when you must go to the market to buy a chicken for dinner? Hiester Reid had her answers, as Peacock gloriously discovers.
