OVERVIEW OF COMMUNIST CHINA IN HOI4

COMMUNIST CHINA IN **HEARTS OF IRON IV** REPRESENTS THE CHINESE COMMUNIST PARTY UNDER MAO ZEDONG, LOCATED IN THE NORTHWEST OF CHINA. AT THE START OF THE GAME IN 1936, COMMUNIST CHINA FACES SIGNIFICANT CHALLENGES: LIMITED TERRITORY, A SMALL INDUSTRIAL BASE, AND HOSTILE NEIGHBORS. THE NATION IS SURROUNDED BY VARIOUS WARLORDS AND THE MUCH LARGER NATIONALIST CHINA. ITS UNIQUE FOCUS TREE OFFERS PATHS FOR BOTH COOPERATIVE AND CONFRONTATIONAL STRATEGIES. SURVIVAL AND EVENTUAL DOMINANCE REQUIRE CAREFUL MANAGEMENT OF LIMITED RESOURCES, EFFECTIVE MILITARY DOCTRINES, AND STRATEGIC ALLIANCES. UNDERSTANDING THE UNIQUE POSITION, STRENGTHS, AND WEAKNESSES OF COMMUNIST CHINA IS ESSENTIAL FOR A SUCCESSFUL CAMPAIGN.

EARLY GAME STRATEGIES AND SURVIVAL

MANAGING LIMITED RESOURCES

IN THE EARLY GAME, HOI4 COMMUNIST CHINA HAS VERY FEW FACTORIES AND SCARCE MANPOWER. EFFICIENT RESOURCE ALLOCATION IS CRUCIAL. PRIORITIZE BUILDING MILITARY FACTORIES OVER CIVILIAN FACTORIES TO STRENGTHEN YOUR ARMY RAPIDLY. USE YOUR LIMITED POLITICAL POWER TO SECURE ADVISORS AND MILITARY STAFF WHO BOOST ARMY PERFORMANCE AND RESOURCE PRODUCTION. AVOID RECKLESS EXPANSION UNTIL YOUR POSITION IS MORE SECURE.

- FOCUS ON MILITARY FACTORIES TO ENHANCE EQUIPMENT PRODUCTION
- ASSIGN ADVISORS THAT INCREASE POLITICAL POWER AND DIVISION ORGANIZATION
- TRADE FOR ESSENTIAL RESOURCES WHEN NECESSARY

DEALING WITH NATIONALIST CHINA AND WARLORDS

NATIONALIST CHINA AND SURROUNDING WARLORDS CAN THREATEN YOUR SURVIVAL. EARLY ON, AIM FOR DEFENSIVE STRATEGIES, USING TERRAIN TO YOUR ADVANTAGE. MOUNTAINS AND RIVERS PROVIDE NATURAL BARRIERS. CONSIDER FORMING TEMPORARY NON-AGGRESSION PACTS WITH NEARBY WARLORDS TO BUY TIME FOR MILITARY BUILDUP. MONITOR NATIONALIST CHINA'S ACTIONS, AS THEY MAY ATTEMPT ENCIRCLEMENT OR DIRECT ATTACKS.

FOCUS TREE ANALYSIS

KEY FOCUS PATHS FOR COMMUNIST CHINA

THE COMMUNIST CHINA FOCUS TREE IN HOI4 IS DESIGNED TO REFLECT HISTORICAL AND ALTERNATIVE PATHS TO POWER. THE MAIN BRANCHES INCLUDE POLITICAL CONSOLIDATION, MILITARY REFORM, ECONOMIC DEVELOPMENT, AND UNIFICATION EFFORTS. THE "CENTRALIZE STATE" BRANCH STRENGTHENS GOVERNMENT CONTROL AND STABILITY, WHILE "MILITARY REORGANIZATION" ENHANCES ARMY CAPABILITIES. EARLY FOCUSES SHOULD PRIORITIZE STABILITY AND MILITARY STRENGTH BEFORE ATTEMPTING EXPANSION OR IDEOLOGICAL PUSHES.

1. CENTRALIZE STATE: BOOSTS STABILITY AND POLITICAL POWER
2. MILITARY REORGANIZATION: IMPROVES ARMY EFFICIENCY AND UNLOCKS NEW UNITS
3. LAND REFORM: PROVIDES ECONOMIC BONUSES AND BOOSTS SUPPORT AMONG PEASANTS
4. UNITE CHINA: SETS THE STAGE FOR WAR AGAINST THE NATIONALISTS AND WARLORDS

UNLOCKING POWERFUL DECISIONS

COMPLETING CERTAIN FOCUSES UNLOCKS DECISIONS AND EVENTS THAT CAN DRAMATICALLY IMPROVE YOUR POSITION. LAND REFORMS, FOR EXAMPLE, PROVIDE INCREASED MANPOWER AND SUPPORT. MILITARY REFORMS OFFER ACCESS TO BETTER EQUIPMENT AND DOCTRINES. KEEP AN EYE ON NATIONAL SPIRITS AND TIMED EVENTS TO MAXIMIZE YOUR STRATEGIC OPTIONS.

MILITARY TACTICS AND ARMY COMPOSITION

BUILDING A COMPETITIVE ARMY

COMMUNIST CHINA'S INITIAL FORCES ARE SMALL AND UNDER-EQUIPPED COMPARED TO THEIR RIVALS. FOCUS ON INFANTRY DIVISIONS WITH SUPPORT COMPANIES SUCH AS ENGINEERS AND ARTILLERY. USE THE "MASS MOBILIZATION" DOCTRINE TO COMPENSATE FOR EQUIPMENT SHORTAGES WITH LARGER NUMBERS OF TROOPS. DEFENSIVE TACTICS ARE CRUCIAL IN THE EARLY

YEARS, ESPECIALLY IN MOUNTAINOUS TERRAIN.

- INFANTRY-HEAVY DIVISIONS WITH SUPPORT ARTILLERY
- ENGINEER COMPANIES FOR ENHANCED DEFENSE
- EXPAND ARMY SIZE GRADUALLY TO AVOID SUPPLY ISSUES

EFFECTIVE DEFENSIVE AND OFFENSIVE OPERATIONS

UNTIL YOU GROW STRONGER, PRIORITIZE DEFENSIVE OPERATIONS. FORTIFY KEY MOUNTAIN PASSES AND RIVER CROSSINGS. ONCE YOUR ARMY IS SUFFICIENTLY BUILT UP, PLAN LIMITED OFFENSIVES AGAINST ISOLATED WARLORDS. USE ENCIRCLEMENT TACTICS TO ELIMINATE ENEMY DIVISIONS AND CAPTURE EQUIPMENT. WHEN FACING NATIONALIST CHINA, COORDINATE ATTACKS WITH OTHER WARLORDS OR EXPLOIT THEIR DISTRACTIONS.

ECONOMIC AND INDUSTRIAL MANAGEMENT

IMPROVING INFRASTRUCTURE AND PRODUCTION

ECONOMIC DEVELOPMENT IS A MAJOR CHALLENGE FOR HOI4 COMMUNIST CHINA. EARLY FOCUSES AND DECISIONS SHOULD IMPROVE INFRASTRUCTURE AND FACTORY OUTPUT. CONSTRUCT RAILWAYS AND ROADS TO CONNECT YOUR TERRITORY AND FACILITATE TROOP MOVEMENTS. ONCE YOU HAVE STABILIZED, INVEST IN CIVILIAN FACTORIES TO SUPPORT LONG-TERM GROWTH.

- BUILD INFRASTRUCTURE TO SPEED UP ARMY MOVEMENT AND SUPPLY
- PRIORITIZE MILITARY FACTORIES EARLY, THEN SHIFT TO CIVILIAN FACTORIES
- USE LAND REFORMS TO BOOST MANPOWER AND PRODUCTION

RESOURCE MANAGEMENT AND TRADE

RESOURCE SCARCITY, ESPECIALLY STEEL AND OIL, CAN HINDER PRODUCTION. USE TRADE DEALS TO IMPORT VITAL MATERIALS FROM THE SOVIET UNION OR OTHER FRIENDLY NATIONS. AVOID OVEREXTENDING YOUR TRADE IF IT RISKS DEPLETING CIVILIAN FACTORIES. CONSIDER CONQUERING RESOURCE-RICH TERRITORIES AS PART OF YOUR EXPANSION PLANS.

DIPLOMACY AND FACTION BUILDING

FORMING ALLIANCES AND FACTIONS

DIPLOMACY IS A CRITICAL ASPECT FOR COMMUNIST CHINA IN HOI4. YOU CAN CHOOSE TO ALLY WITH THE SOVIET UNION OR REMAIN INDEPENDENT. JOINING THE COMINTERN PROVIDES ACCESS TO MILITARY AID AND TECHNOLOGY, BUT MAY COMPLICATE RELATIONS WITH OTHER CHINESE FACTIONS. ALTERNATIVELY, CREATE YOUR OWN FACTION FOR GREATER AUTONOMY IN DIRECTING CHINA'S FUTURE.

- JOIN THE COMINTERN FOR SOVIET SUPPORT
- CREATE YOUR OWN FACTION FOR INDEPENDENT DIPLOMACY
- NEGOTIATE NON-AGGRESSION PACTS TO AVOID MULTI-FRONT WARS

INFLUENCING OTHER NATIONS

USE DIPLOMATIC PRESSURE, SUPPORT COUPS, OR SEND VOLUNTEERS TO INFLUENCE REGIONAL POLITICS. SUPPORTING COMMUNIST MOVEMENTS IN NEIGHBORING COUNTRIES CAN YIELD FUTURE ALLIES. CAREFULLY MONITOR WORLD TENSION AND THE ACTIONS OF JAPAN, THE UNITED STATES, AND OTHER GLOBAL POWERS, AS THEIR INTERVENTIONS CAN DRAMATICALLY SHIFT THE BALANCE OF POWER IN ASIA.

UNIFICATION OF CHINA

STRATEGIES FOR UNIFYING THE NATION

UNIFYING CHINA UNDER COMMUNIST RULE IS THE CENTRAL OBJECTIVE

Hearts of Iron IV: Mastering Communist China - A Guide to Conquest and Consolidation

The People's Republic of China. A nation teeming with potential, poised on the precipice of revolution in Hearts of Iron IV (HOI4). But navigating the complexities of leading Communist China to glory requires strategic foresight and meticulous planning. This comprehensive guide will equip you with the knowledge to successfully guide China through the turbulent waters of war and revolution, transforming it into a global superpower. We'll delve into crucial aspects like early game strategies, military buildup, technological advancement, and effective diplomatic maneuvering. Prepare to conquer Asia and beyond!

Early Game Strategies: Building a Foundation for Power

The initial phase of your Communist China campaign in HOI4 is critical. Your starting position presents unique challenges and opportunities.

Stabilizing the Nation: Internal Affairs First

Don't rush into immediate expansion. Prioritize internal stability. Focus on:

Suppression of dissent: Early game focuses on eliminating opposition factions through efficient purges and robust internal security measures. This ensures political stability crucial for economic growth.

Economic development: Invest heavily in industry and infrastructure. Prioritize resource extraction and construction of factories to fuel your military machine. Focus on building up your steel and oil production, as these are critical for military expansion.

Research: Prioritize research that enhances your industrial capacity and early-war military technology, particularly infantry and artillery improvements.

Securing Your Borders: A Defensive Stance

Initially, a defensive posture is advisable. Focus on consolidating your existing territories and fortifying key areas. Avoid provoking unnecessary conflicts, particularly with Japan.

Fortification: Invest in fortifications along your borders with Japan and other potential threats. This provides a valuable buffer against early aggression.

Military organization: Begin building up your army, focusing on sufficient numbers of well-equipped infantry divisions. Avoid spreading your forces too thinly.

Military Build-up: The Might of the Red Army

The power of Communist China rests on the strength of its military.

Division Templates: Optimized for Efficiency

Create efficient division templates optimized for combined arms warfare. A well-balanced mix of infantry, artillery, and support units is essential for success. Experiment to find the best templates based on your available resources and strategic objectives.

Technological Advancement: A Constant Pursuit

Constant technological advancement is crucial for outmaneuvering opponents. Prioritize research in areas that directly enhance your military capabilities. Focus on crucial technologies like improved artillery, tank design, and air power.

Strategic Deployment: Controlling Key Regions

Strategically deploy your forces to effectively defend your borders and launch future offensives. Concentrate your forces in areas of critical importance, such as major cities and industrial centers.

Expansion and Diplomacy: A Calculated Approach

While focusing on internal strength is paramount, strategic expansion and diplomatic maneuvering are crucial for long-term dominance.

Dealing with Japan: A Cautious Approach

Japan represents a significant threat. Assess the international situation. If the Soviet Union is also engaged in a war, it is crucial to avoid directly confronting Japan until you have a sufficient military advantage.

The Soviet Union: A Complex Relationship

Your relationship with the Soviet Union can be complex. Maintaining good relations can provide technological assistance and prevent conflict on your northern borders, but they can also be a source of ideological tension.

Expansion Strategy: Step-by-Step Conquest

Expansion should be approached incrementally. Focus on consolidating control over neighboring territories and regions before embarking on larger-scale campaigns. Avoid overextending your forces.

Late Game Strategies: Global Dominance

As you gain strength, your ambitions should turn towards global influence.

Global Conflicts: Engaging on the World Stage

Participating in global conflicts, such as World War II, provides an opportunity to expand your influence and acquire resources. Alliances with other communist nations can significantly boost your power.

Maintaining Internal Order: The Long Game

Even as you expand your influence, maintaining internal order remains crucial. Continue to invest in infrastructure, suppression of dissent, and economic development to sustain your growing empire.

Conclusion

Mastering Communist China in Hearts of Iron IV requires a strategic approach balancing internal development with aggressive expansion. By following these guidelines, you can effectively build a formidable military, establish strong alliances, and ultimately conquer the world, forging a new era of communist dominance. Remember, adaptability is key. The international landscape is constantly shifting, requiring you to adjust your strategy to maintain your advantage.

FAQs

1. What is the best ideology for Communist China in HOI4? The best ideology depends on your playstyle and strategic goals. However, sticking to the base communist ideology generally allows for the greatest flexibility and support from the Soviet Union.

While expansion is important, prioritizing internal stability and economic development in the early game forms a stronger foundation for future expansion. Focus on consolidating your power before aggressively pursuing foreign territories.

hoi4 communist china: China's Wars Philip Jowett, 2013-11-20 This new history of China's pivotal wars from 1894 to 1949 explains how China was transformed from a isolated and ramshackle medieval empire into a fledgling new world power. China is one of the great powers of the modern world. Yet in the late 19th century China was a ramshackle and isolated medieval empire upon whom the European colonial powers could impose their wishes at will. China's Wars describes the series of conflicts from 1894 to 1949 that forged modern China, from colonial clashes such as the Boxer Rebellion, through the chaotic years of warlord domination to the Japanese invasion, the Second World War and the bitter Civil War that followed. Previously unpublished photographs, contemporary pictures and specially-commissioned maps illustrate these tumultuous events and the men who fought them, events that would end with the eventual triumph of the Communist Party and the rise of modern China.

hoi4 communist china: Stalin Leon Trotsky, 2019-07-02 On 20th August 1940 Trotsky's life was brutally ended when a Stalinist agent brought an ice pick crashing down on his head. Among the works left unfinished was the second part of his biography of Stalin. Trotsky's Stalin is unique in Marxist literature in that it attempts to explain some of the most decisive events of the 20th century, not just in terms of epoch-making economic and social transformations, but in the individual psychology of one of the protagonists in a great historical drama. It is a fascinating study of the way in which the peculiar character of an individual, his personal traits and psychology, interacts with great events. How did it come about that Stalin, who began his political life as a revolutionary and a Bolshevik, ended as a tyrant and a monster? Was this something pre-ordained by genetic factors or childhood upbringing? Drawing on a mass of carefully assembled material from his personal archives and many other sources, Trotsky provides the answer to these questions. In the present edition we have brought together all the material that was available from the Trotsky archives in English and supplemented it with additional material translated from Russian. It is the most complete version of the book that has ever been published.

hoi4 communist china: China's Warlords David Bonavia, 1995 The warlord period - from 1912 until roughly the beginning of the Second World War - is one of the most extraordinary and colourful in the whole of Chinese history. Yet most English-language studies of the period have focused on either individual warlords or on warlords as a socio-political phenomenon. This book profiles all the prominent warlords of the period, retelling their most notorious exploits and attempting an analysis of their longevity and motivations. Included here are Yuan Shikai, who shared leadership of the Republic with Sun Yatsen before attempting to establish a new dynasty with himself as emperor; the 'Christian warlord' Feng Yuxiang, who stands out for his recognition of the benefits to morale of more humane treatment of his troops; and a host of others from throughout the country. Illustrated with photographs of each of the primary characters discussed, *China's Warlords* will bring the period alive both to new readers and experienced scholars of Chinese history.

hoi4 communist china: Dialogue with Stalin Amadeo Bordiga, 2020-07-30 Amadeo Bordiga (1899-1970) was an Italian Marxist theoretician, who played a major role in the ideological development of the post-1917 Socialist revolution. He is well known as one of the last Comintern members to criticize Stalin to his face and live to tell the tale, most notably referred to as the gravedigger of the revolution during a 1926 party conference. In *Dialogue with Stalin*, Bordiga carefully dissects the economic state of the USSR under Stalin, and lays forward the capitalist nature of the USSR.

hoi4 communist china: Mao Lee Feigon, 2003-07-24 In recent years historians and political observers have vilified Mao Tse-tung and placed him in a class with tyrants like Hitler and Stalin. But, as Lee Feigon points out in his startling revision of Mao, the Chinese leader has been tainted by the actions and policies of the same Soviet-style Communist bureaucrats he came to hate and attempted to eliminate. Mr. Feigon argues that the movements for which Mao is almost universally condemned today—the Great Leap Forward and especially the Cultural Revolution—were in many ways beneficial for the Chinese people. They forced China to break with its Stalinist past and paved the way for its great economic and political strides in recent years. While not glossing over Mao's mistakes, some of which had heinous consequences, Mr. Feigon contends that Mao should be largely praised for many of his later efforts—such as the attacks he began to level in the late 1950s on those bureaucrats responsible for many of the problems that continue to plague China today. In reevaluating Mao's contributions, this interpretive study reverses the recent curve of criticism, seeing Mao's late-in-life contributions to the Chinese revolution more favorably while taking a more critical view of his earlier efforts. Whereas most studies praise the Mao of the 1930s and 1940s as an original and independent thinker, Mr. Feigon contends that during this period his ideas and actions were fairly ordinary—but that he depended much more on Stalin's help than has been acknowledged. *Mao: A Reinterpretation* seeks a more informed perspective on one of the most important political leaders of the twentieth century.

It is the thesis of this major work that the American, French, and Polish revolutions, and the movements for political change in Britain, Ireland, Holland, Belgium, Switzerland, Sweden, and other countries, though each distinctive in its own way, were all manifestations of recognizably similar political ideas, needs, and conflicts.

Nolte responded, a correspondence ensued, and the result was the remarkable exchange presented in this volume. *Fascism and Communism* offers readers the rare opportunity to witness and learn from a confrontation between two of the world’s most distinguished historians over one of the most serious subjects of our time. Each from a different perspective, Furet and Nolte offer compelling arguments for the common genealogy of these two ideologies as well as reasons for the intellectual community’s rejection of this explosive thesis throughout the twentieth century. This discussion leads to a deeper understanding of the nature of totalitarianism as well as the trajectory and interpretation of modern European history.

hoi4 communist china: Practise to Deceive Estate of Barton Whaley, 2016-01-15 Written by the undisputed dean of U.S. denial and deception experts, *Practise to Deceive* is the most in-depth look at deception as a military strategy. Barton Whaley knew the history of denial and deception across time, disciplines, and culture. He was the foremost authority on the intricacies of denial and deception strategy and tactics. For Whaley, deception was a mind-game, requiring imagination, deep critical thought, a profound understanding of the enemy as well as one's self (a variation of Sun Tzu), and patience and fortitude. This book presents 88 vividly descriptive case studies to serve as a handbook for intelligence and military professionals. In Whaley's analysis, variations in guilefulness between opposing individuals or groups can be crucial in deciding who achieves victory in combat.

hoi4 communist china: The Wars for Asia, 1911-1949 S. C. M. Paine, 2014-10-09 *The Wars for Asia, 1911-1949* shows that the Western treatment of World War II, the Second Sino-Japanese War and the Chinese Civil War as separate events misrepresents their overlapping connections and causes. The Chinese Civil War precipitated a long regional war between China and Japan that went global in 1941 when the Chinese found themselves fighting a civil war within a regional war within an overarching global war. The global war that consumed Western attentions resulted from Japan's peripheral strategy to cut foreign aid to China by attacking Pearl Harbour and Western interests throughout the Pacific in 1941. S. C. M. Paine emphasizes the fears and ambitions of Japan, China and Russia, and the pivotal decisions that set them on a collision course in the 1920s and 1930s. The resulting wars together yielded a viscerally anti-Japanese and unified Communist China, the still-angry rising power of the early twenty-first century.

hoi4 communist china: Every Man A King Huey P. Long, 2008-08-01 Huey Long (1893-1935) was one of the most extraordinary American politicians, simultaneously cursed as a dictator and applauded as a benefactor of the masses. A product of the poor north Louisiana hills, he was elected governor of Louisiana in 1928, and proceeded to subjugate the powerful state political hierarchy after narrowly defeating an impeachment attempt. The only Southern popular leader who truly delivered on his promises, he increased the miles of paved roads and number of bridges in Louisiana tenfold and established free night schools and state hospitals, meeting the huge costs by taxing corporations and issuing bonds. Soon Long had become the absolute ruler of the state, in the process lifting Louisiana from near feudalism into the modern world almost overnight, and inspiring poor whites of the South to a vision of a better life. As Louisiana Senator and one of Roosevelt's most vociferous critics, *The Kingfish*, as he called himself, gained a nationwide following, forcing Roosevelt to turn his New Deal significantly to the left. But before he could progress farther, he was assassinated in Baton Rouge in 1935. Long's ultimate ambition, of course, was the presidency, and it was doubtless with this goal in mind that he wrote this spirited and fascinating account of his life, an autobiography every bit as daring and controversial as was *The Kingfish* himself.

hoi4 communist china: The Cambridge History of Communism Norman Naimark, Silvio Pons, Sophie Quinn-Judge, 2017-09-21 The second volume of *The Cambridge History of Communism* explores the rise of Communist states and movements after World War II. Leading experts analyze archival sources from formerly Communist states to re-examine the limits to Moscow's control of its satellites; the de-Stalinization of 1956; Communist reform movements; the rise and fall of the Sino-Soviet alliance; the growth of Communism in Asia, Africa and Latin America; and the effects of the Sino-Soviet split on world Communism. Chapters explore the cultures of Communism in the United States, Western Europe and China, and the conflicts engendered by nationalism and the

continued need for support from Moscow. With the danger of a new Cold War developing between former and current Communist states and the West, this account of the roots, development and dissolution of the socialist bloc is essential reading.

hoi4 communist china: A Bitter Revolution Rana Mitter, 2004 China is now poised to take a key role on the world stage, but in the early twentieth century the situation could not have been more different. Rana Mitter goes back to this pivotal moment in Chinese history to uncover the origins of the painful transition from a premodern past into a modern world. By the 1920s the seemingly civilized world shaped over the last two thousand years by the legacy of the great philosopher Confucius was falling apart in the face of western imperialism and internal warfare. Chinese cities still bore the imprints of its ancient past with narrow, lanes and temples to long-worshipped gods, but these were starting to change with the influx of foreign traders, teachers, and missionaries, all eager to shape China's ancient past into a modern present. Mitter takes us through the resulting social turmoil and political promise, the devastating war against Japan in the 1940s, Communism and the Cultural Revolution of the 1960s, and the new era of hope in the 1980s ended by the Tian'anmen uprising. He reveals the impetus behind the dramatic changes in Chinese culture and politics as being China's New Culture - a strain of thought which celebrated youth, individualism, and the heady mixture of strange and seductive new cultures from places as far apart as America, India, and Japan.

Communist archives, J. Arch Getty shows how these political practices and traditions from old Russia have persisted throughout the twentieth-century Soviet Union and down to the present day. Getty examines a number of case studies of political practices in the Stalin era and after. These include cults of personality, the transformation of Old Bolsheviks into noble grandees, the Communist Party's personnel selection system, and the rise of political clans (family circles) after the 1917 Revolutions. Stalin's conflicts with these clans, and his eventual destruction of them, were key elements of the Great Purges of the 1930s. But although Stalin could destroy the competing clans, he could not destroy the historically embedded patron-client relationship, as a final chapter on political practice under Putin shows.
