honkai star rail museum event guide: *The Rule of Law and the Separation of Powers* Richard Bellamy, 2017-07-05 The rule of law is frequently invoked in political debate, yet rarely defined with any precision. Some employ it as a synonym for democracy, others for the subordination of the legislature to a written constitution and its judicial guardians. It has been seen as obedience to the duly-recognised government, a form of governing through formal and general rule-like laws and the rule of principle. Given this diversity of view, it is perhaps unsurprising that certain scholars have regarded the concept as no more than a self-congratulatory rhetorical device. This collection of eighteen key essays from jurists, political theorists and public law political scientists, aims to explore the role law plays in the political system. The introduction evaluates their arguments. The first eleven essays identify the standard features associated with the rule of law. These are held to derive less from any characteristics of law per se than from a style of legislating and judging that gives equal consideration to all citizens. The next seven essays then explore how different ways of separating and dispersing power contribute to this democratic style of rule by forcing politicians and judges alike to treat people as equals and regard none as above the law.

honkai star rail museum event guide: Sara Baartman and the Hottentot Venus Clifton Crais, Pamela Scully, 2021-10-12 Displayed on European stages from 1810 to 1815 as the Hottentot Venus, Sara Baartman was one of the most famous women of her day, and also one of the least known. As the Hottentot Venus, she was seen by Westerners as alluring and primitive, a reflection of their fears and suppressed desires. But who was Sara Baartman? Who was the woman who became the Hottentot Venus? Based on research and interviews that span three continents, *Sara Baartman and the Hottentot Venus* tells the entwined histories of an elusive life and a famous icon. In doing so, the book raises questions about the possibilities and limits of biography for understanding those who live between and among different cultures. In reconstructing Baartman's life, the book traverses the South African frontier and its genocidal violence, cosmopolitan Cape Town, the ending of the slave trade, the Industrial Revolution, the French Revolution, the Napoleonic Wars, London and Parisian

high society, and the rise of racial science. The authors discuss the ramifications of discovering that when Baartman went to London, she was older than originally assumed, and they explore the enduring impact of the Hottentot Venus on ideas about women, race, and sexuality. The book concludes with the politics involved in returning Baartman's remains to her home country, and connects Baartman's story to her descendants in nineteenth- and twentieth-century South Africa. Sara Baartman and the Hottentot Venus offers the authoritative account of one woman's life and reinstates her to the full complexity of her history.

honkai star rail museum event guide: E-Commerce Changing the Lives of Farmers: Taobao Villages of China Lili Cui, 2019-10-31 Taobao is China's largest consumer-to-consumer marketplace. At the time of Alibaba Group's IPO, alexa.com listed it as one of the ten most-visited websites in the world. Everyday more than 100 million people visit Taobao to buy and sell just about every product or service imaginable, accounting for an estimated 80 percent of the online retail sales in China. Taobao has become a part of everyday life for the Chinese people, who use it for everything from being up-to-date in fashion trends to buying movie tickets to groceries. Moreover, as Chinese consumers have been increasingly going in for smartphones, Taobao's mobile app has seen a huge increase in volume of sale and purchase. Taobao's website reflects the local culture and shopping habits of Chinese consumers. But, who is the vendor at Taobao? Is there any possibility of some villagers using Taobao to make money? We selected 14 Chinese villages which have been remarkably successful, using the Taobao platform. Not all these villages were developed before they started using the Taobao service. However, the internet and e-commerce have changed the lives of the farmers of these villages, just as Mr. Jack Ma had predicted in 1995. We hope that such a change will encourage more and more farmers to further use the internet to develop their enterprises.
