laz alonso stomp the yard: *The Hollywood Jim Crow* Maryann Erigha, 2019-02-05 The story of racial hierarchy in the American film industry The #OscarsSoWhite campaign, and the content of the leaked Sony emails which revealed, among many other things, that a powerful Hollywood insider didn't believe that Denzel Washington could "open" a western genre film, provide glaring evidence that the opportunities for people of color in Hollywood are limited. In *The Hollywood Jim Crow*, Maryann Erigha tells the story of inequality, looking at the practices and biases that limit the production and circulation of movies directed by racial minorities. She examines over 1,300 contemporary films, specifically focusing on directors, to show the key elements at work in maintaining "the Hollywood Jim Crow." Unlike the Jim Crow era where ideas about innate racial inferiority and superiority were the grounds for segregation, Hollywood's version tries to use economic and cultural explanations to justify the underrepresentation and stigmatization of Black filmmakers. Erigha exposes the key elements at work in maintaining Hollywood's racial hierarchy, namely the relationship between genre and race, the ghettoization of Black directors to black films, and how Blackness is perceived by the Hollywood producers and studios who decide what gets made and who gets to make it. Erigha questions the notion that increased representation of African Americans behind the camera is the sole answer to the racial inequality gap. Instead, she suggests focusing on the obstacles to integration for African American film directors. Hollywood movies have an expansive reach and exert tremendous power in the national and global production, distribution, and exhibition of popular culture. *The Hollywood Jim Crow* fully dissects the racial inequality embedded in this industry, looking at alternative ways for African Americans to find success in Hollywood and suggesting how they can band together to forge their own career paths.

In 1995, Jean-Dominique Bauby was the editor-in-chief of French *Elle*, the father of two young children, a 44-year-old man known and loved for his wit, his style, and his impassioned approach to life. By the end of the year he was also the victim of a rare kind of stroke to the brainstem. After 20 days in a coma, Bauby awoke into a body which had all but stopped working: only his left eye functioned, allowing him to see and, by blinking it, to make clear that his mind was unimpaired. Almost miraculously, he was soon able to express himself in the richest detail: dictating a word at a time, blinking to select each letter as the alphabet was recited to him slowly, over and over again. In the same way, he was able eventually to compose this extraordinary book. By turns wistful, mischievous, angry, and witty, Bauby bears witness to his determination to live as fully in his mind as he had been able to do in his body. He explains the joy, and deep sadness, of seeing his children and of hearing his aged father's voice on the phone. In magical sequences, he imagines traveling to other places and times and of lying next to the woman he loves. Fed only intravenously, he imagines preparing and tasting the full flavor of delectable dishes. Again and again he returns to an inexhaustible reservoir of sensations,

keeping in touch with himself and the life around him. Jean-Dominique Bauby died two days after the French publication of *The Diving Bell and the Butterfly*. This book is a lasting testament to his life.

An unforgettable literary crime debut that brings the darkness in an Australian country town vividly to life, as it slowly reveals its devastating secrets. In the long, hot summer of 1989, Ben and Fab are best friends. Growing up in a small country town, they spend their days playing cricket, yabbing in local dams, wanting a pair of Nike Air Maxes and not talking about how Fab's dad hits him, or how the sudden death of Ben's next-door neighbour unsettled him. Almost teenagers, they already know some things are better left unsaid. Then a newcomer arrived in the Wimmera. Fab reckoned he was a secret agent and he and Ben staked him out. Up close, the man's shoulders were wide and the veins in his arms stuck out, blue and green. His hands were enormous, red and knotty. He looked strong. Maybe even stronger than Fab's dad. Neither realised the shadow this man would cast over both their lives. Twenty years later, Fab is still stuck in town, going nowhere but hoping for somewhere better. Then a body is found in the river, and Fab can't ignore the past any more. 'Very little fiction is as emotionally true as this. WIMMERA is a dark and disturbing story from a substantial new talent.'
