oyster society happy hour menu: Fear of a Queer Planet Michael Warner, 1993 In recent years, lesbians and gay men have developed a new, aggressive style of politics. At the same time, innovative intellectual energies have made queer theory an explosive field of study. In *Fear of a Queer Planet*, Michael Warner draws on emerging new queer politics, and shows how queer activists have come to challenge basic assumptions about the social and political world. Existing traditions of theory - Marxism, cultural studies, psychoanalysis, anthropology, legal theory, nationalism, and antinationalism - have too often presupposed a heterosexual society, as the essays in this volume demonstrate. *Fear of a Queer Planet* suggests a new agenda for social theory. It moves beyond the idea that lesbians and gay men share a minority identity and special interests and that their issues can be subordinated to more general social conflicts. Instead, Warner and the other contributors to this volume show that queer sexualities take many forms, are the subject of many kinds of conflict and struggles, and must be taken as a starting point in thinking about cultural politics. This collection explores the impact of ACT UP, Queer Nation, multiculturalism, the new religious right, outing, queerness, postmodernism, and other shifts in the politics of sexuality. The authors featured speak from different backgrounds of gender, race, nationality, and discipline. Together, they show how struggles over sexuality have profound implications for progressive politics, social theory, and cultural studies. Michael Warner has written extensively on censorship and the public sphere, the construction of American literary history, and the social and political implication of literary theories. He is author of *The Letter of the Republic: Publication and the Public Sphere in Eighteenth-Century America* and co-editor of *The Origins of Literary Studies in America: A Documentary Anthology*.

Introduced by editor Jan Cohen-Cruz, the essays are organized into thematic sections: Agitating; Witnessing; Involving; Imagining; and Popularizing. *Radical Street Performance* is an inspiring testimony to this international performance phenomenon, and an invaluable record of a form of theatre which continues to flourish in a televisual age.

oyster society happy hour menu: *Shucked* Erin Byers Murray, 2011-10-11 Bill Buford's *Heat* meets Phoebe Damrosch's *Service Included* in this unique blend of personal narrative, food miscellany, and history In March of 2009, Erin Byers Murray ditched her pampered city girl lifestyle and convinced the rowdy and mostly male crew at Island Creek Oysters in Duxbury, Massachusetts,

to let a completely unprepared, aquaculture-illiterate food and lifestyle writer work for them for a year to learn the business of oysters. The result is *Shucked*—part love letter, part memoir and part documentary about the world's most beloved bivalves. Providing an in-depth look at the work that goes into getting oysters from farm to table, *Shucked* shows Erin's full-circle journey through the modern day oyster farming process and tells a dynamic story about the people who grow our food, and the cutting-edge community of weathered New England oyster farmers who are defying convention and looking ahead. The narrative also interweaves Erin's personal story—the tale of how a technology-obsessed workaholic learns to slow life down a little bit and starts to enjoy getting her hands dirty (and cold). This is a book for oyster lovers everywhere, but also a great read for locavores and foodies in general.

oyster society happy hour menu: Bien Cuit Zachary Golper, 2015-11-17 One of the world's most celebrated bakers in America shares his insider's secrets to making his delicious, artisanal bread that will have home bakers creating professional-quality products in no time—and inexpensively. *Bien Cuit* introduces a new approach to a proudly old-fashioned way of baking bread. In the oven of his Brooklyn bakery, Chef Zachary Golper creates loaves that are served in New York's top restaurants and sought by bread enthusiasts around the country. His secret: long, low-temperature fermentation, which allows the dough to develop deep, complex flavors. A thick mahogany-colored crust is his trademark—what the French call *bien cuit*, or “well baked.” This signature style is the product of Golper's years as a journeyman baker, from his introduction to baking on an Oregon farm—where they made bread by candlelight at 1 a.m.—through top kitchens in America and Europe and, finally, into his own bakery in the heart of our country's modern artisanal food scene. *Bien Cuit* tells the story of Golper's ongoing quest to coax maximum flavor out of one of the world's oldest and simplest recipes. Readers and amateur bakers will reap the rewards of his curiosity and perfectionism in the form of fifty bread recipes that span the baking spectrum from rolls and quick breads to his famous 24-day sourdough starter. This book is an homage to tradition, but also to invention. Golper developed many new recipes for this book, including several “bread quests,” in which he brilliantly revives some of New York City's most iconic breads (including Jewish rye, Sicilian lard bread, Kaiser rolls, and, of course, bagels). You will also find palate-pleasing and innovative “gastronomic breads” that showcase his chef's intuition and mastery of ingredients. Golper's defining technique comes at a time when American home cooks are returning to tradition-tested cooking methods and championing the DIY movement. Golper's methods are relatively simple and easy to master, with recipes that require no modern equipment to make at home: just a bowl, an oven, and time—the dough does most of the work.

oyster society happy hour menu: *We Believe You* Annie E. Clark, Andrea L. Pino, 2016-04-12 From young activists at the forefront of the movement to end sexual assault on college campuses, a collection of survivor stories that will connect with students and inform and inspire us all Across the U.S. student activists are exposing a pervasive cover-up of sexual assault on college campuses. Every day more survivors come forward. But other survivors choose not to. *We Believe You* elevates the stories the headlines about this issue have been missing--more than 30 experiences of trauma, healing and everyday activism, representing a diversity of races, economic and family backgrounds, gender identities, immigration statuses, interests, capacities and loves. More than 1 in 5 women and 5 percent of men are sexually assaulted at college, a shocking status quo that might have stayed largely hidden and unaddressed but for the two authors of *We Believe You*. In 2013, Annie E. Clark and Andrea L. Pino, then 23 and 20, building on the work of earlier activists, outed themselves as assault survivors and filed a federal complaint against the University of North Carolina (Chapel Hill) for mishandling such crimes; within a month, the U.S. government began to investigate UNC. Within

a year, dozens of colleges were under federal investigation. But Clark and Pino rightly see themselves as two among many. Students from every kind of college and university--large and small, public and private, highly selective and less so--are sounding alarms and staking claims to justice by filing complaints, by pressing charges, and by simply living beyond the effects of assault and the betrayals of their schools. A sampling of their voices speak out in this book--
