primer paso answers: The Answer / La Respuesta (Expanded Edition) Sor Juana Inés de la Cruz, 2009-06-01 Defiant writing by the first feminist of the Americas—the Mexican nun Sor Juana Inés de la Cruz—in response to the church officials that tried to silence her. Known as the first feminist of the Americas, the Mexican nun Sor Juana Inés de la Cruz enjoyed an international reputation as one of the great lyric poets and dramatists of her time. The Answer/La Respuesta (1691) is Sor Juana's impassioned response to years of attempts by church officials to silence her. While earlier translators have ignored Sor Juana's keen awareness of gender, this volume brings out her own emphasis and diction, and reveals the remarkable scholarship, subversiveness, and even humor she drew on in defense of her cause. This expanded, bilingual edition combines new research and perspectives on an inspired writer and thinker. It includes the fully annotated primary text responding to the church officials; the letter that ultimately provoked the writing of The Answer; an expanded selection of poems; an updated bibliography; and a new preface.

primer paso answers: Four Dichotomies in Spanish: Adjective Position, Adjectival Clauses, Ser/Estar, and Preterite/Imperfect Luis H. González, 2020-11-29 Examining four dichotomies in Spanish, this book shows how to reduce the six to ten rules common in textbooks for each contrast to a single binary distinction. That distinction is a form of totality vs. part, easier to see in some of the dichotomies, but present in all of them. Every chapter is example-driven, and many of those examples come from writing by students. Readers can test out for themselves the explanation at work in the examples provided. Then, those examples are explained step by step. In addition to examples from writing by college students, there are examples from RAE (Real Academia Española), from scholars, from writers, from Corpes XXI (RAE), from the Centro Virtual Cervantes, and from the Internet. Many of those examples are presented to the reader as exercises, and answers are provided. This book was written for teachers of Spanish as a second language (L2) and for minors or majors of Spanish as an L2. It will also benefit teachers and learners of other L2s with some of these dichotomies.

Pero este poder no radica únicamente en la acumulación de datos, sino en la capacidad de analizarlos, interpretarlos y convertirlos en decisiones informadas. Este libro, Estadística Descriptiva Aplicada en Python para las Ciencias Sociales y Educativas, se concibe como una herramienta fundamental para estudiantes, investigadores y profesionales de las ciencias sociales y educativas que desean adquirir o reforzar habilidades en el análisis estadístico utilizando Python, uno de los lenguajes de programación más populares y poderosos en el campo del análisis de datos. El propósito de este texto es doble. En primer lugar, aspiramos a proporcionar una comprensión sólida de los principios y métodos de la estadística descriptiva, que son la base para cualquier tipo de análisis estadístico. En segundo lugar, buscamos enseñar cómo aplicar estos conceptos utilizando Python, haciendo que los procesos de análisis sean más eficientes y reproducibles. Abordamos este desafío presentando ejemplos relevantes y actuales que resuenan con problemas y situaciones típicas en las ciencias sociales y la educación. Nos enfocaremos en las medidas de tendencia central y dispersión, la construcción de tablas de frecuencias, y la interpretación de los resultados estadísticos a través de la visualización de datos. Asimismo, discutiremos cómo la correlación y la covarianza pueden revelar relaciones interesantes entre variables sociales y educativas.

primer paso answers: The Maya Art of Speaking Writing Tiffany D. Creegan Miller, 2022-05-24 Challenging the distinctions between “old” and “new” media and narratives about the deprecation of orality in favor of inscribed forms, The Maya Art of Speaking Writing draws from Maya concepts of tz’ib’ (recorded knowledge) and tzij, choloj, and ch’owen (orality) to look at expressive work across media and languages. Based on nearly a decade of fieldwork in the Guatemalan highlands, Tiffany D. Creegan Miller discusses images that are sonic, pictorial, gestural, and alphabetic. She reveals various forms of creativity and agency that are woven through a rich media landscape in Indigenous Guatemala, as well as Maya diasporas in Mexico and the United States. Miller discusses how technologies of inscription and their mediations are shaped by human editors, translators, communities, and audiences, as well as by voices from the natural world. These texts push back not just on linear and compartmentalized Western notions of media but also on the idea of the singular author, creator, scholar, or artist removed from their environment. The persistence of orality and the interweaving of media forms combine to offer a challenge to audiences to participate in decolonial actions through language preservation. The Maya Art of Speaking Writing calls for centering Indigenous epistemologies by doing research in and through Indigenous languages as we engage in debates surrounding Indigenous literatures, anthropology, decoloniality, media studies, orality, and the digital humanities.

Other chapters explore female eroticism, from contemporary female hip hop artists to Latin American women seeking to express their eroticism in

the midst of sexual repression. Medieval and Early Modern medical conceptions of the female body are explored, as are ancient Greek erotic practices. Finally, the controversial area of teenage girls' erotic representation is analysed.
