Provocative and empowering." —The New York Times Book Review The Black Jacobins, by Trinidadian historian C. L. R. James, was the first major analysis of the uprising that began in the wake of the storming of the Bastille in France and became the model for liberation movements from Africa to Cuba. It is the story of the French colony of San Domingo, a place where the brutality of plantation owners toward enslaved people was horrifyingly severe. And it is the story of a charismatic and barely literate enslaved person named Toussaint L'Ouverture, who successfully led the Black people of San Domingo against successive invasions by overwhelming French, Spanish, and English forces—and in the process helped form the first independent post-colonial nation in the Caribbean. With a new introduction (2023) by Professor David Scott.

nys notary exam study guide 2022: *Indiana Notary Public Guide* Indiana Secretary of State, 2019-04-06 A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.

nys notary exam study guide 2022: *I Love Capitalism!* Ken Langone, 2018-05-15 New York Times Bestseller Iconoclastic entrepreneur and New York legend Ken Langone tells the compelling story of how a poor boy from Long Island became one of America's most successful businessmen. Ken Langone has seen it all on his way to a net worth beyond his wildest dreams. A pillar of corporate America for decades, he's a co-founder of Home Depot, a former director of the New York Stock Exchange, and a world-class philanthropist (including \$200 million for NYU's Langone Health). In this memoir he finally tells the story of his unlikely rise and controversial career. It's also a passionate defense of the American Dream -- of preserving a country in which any hungry kid can reach the maximum potential of his or her talents and work ethic. In a series of fascinating stories, Langone shows how he struggled to get an education, break into Wall Street, and scramble for an MBA at night while competing with privileged competitors by day. He shares how he learned how to evaluate what a business is worth and apply his street smarts to 8-figure and 9-figure deals . And he's not shy about discussing, for the first time, his epic legal and PR battle with former NY Governor Eliot Spitzer. His ultimate theme is that free enterprise is the key to giving everyone a leg up. As he writes: This book is my love song to capitalism. Capitalism works! And I'm living proof -- it works for everybody. Absolutely anybody is entitled to dream big, and absolutely everybody should dream big. I did. Show me where the silver spoon was in my mouth. I've got to argue profoundly and passionately: I'm the American Dream.

nys notary exam study guide 2022: U.S. Navy Program Guide - 2017 Department Of the Navy, 2019-03-12 The U.S. Navy is ready to execute the Nation's tasks at sea, from prompt and sustained combat operations to every-day forward-presence, diplomacy and relief efforts. We operate worldwide, in space, cyberspace, and throughout the maritime domain. The United States is and will remain a maritime nation, and our security and prosperity are inextricably linked to our ability to operate naval forces on, under and above the seas and oceans of the world. To that end, the Navy executes programs that enable our Sailors, Marines, civilians, and forces to meet existing and emerging challenges at sea with confidence. Six priorities guide today's planning, programming, and budgeting decisions: (1) maintain a credible, modern, and survivable sea based strategic deterrent; (2) sustain forward presence, distributed globally in places that matter; (3) develop the capability and capacity to win decisively; (4) focus on critical afloat and ashore readiness to ensure the Navy is adequately funded and ready; (5) enhance the Navy's asymmetric capabilities in the physical domains as well as in cyberspace and the electromagnetic spectrum; and (6) sustain a relevant industrial base, particularly in shipbuilding.
