nassau county police exam 2023: Varieties of Police Behavior James Q. WILSON, 2009-06-30 The patrolman has the most difficult, complex, and least understood task in the police department. Much less is known of him than of his better publicized colleague, the detective. In this important and timely book, James Q. Wilson describes the patrolman and the problems he faces that arise out of constraints imposed by law, politics, public opinion, and the expectations of superiors. The study considers how the uniformed officer in eight communities deals with such common offenses as assault, theft, drunkenness, vice, traffic, and disorderly conduct. Six of the communities are in New York State: Albany, Amsterdam, Brighton, Nassau County, Newburgh, and Syracuse. The others are Highland Park, Illinois, and Oakland, California. Enforcing laws dealing with common offenses is especially difficult because it raises the question of administrative discretion. Murder, in the eyes of the police, is unambiguously wrong, and murderers are accordingly arrested; but in cases such as street-corner scuffles or speeding motorists, the patrolman must decide whether to intervene (should the scuffle be stopped? should the motorist be pulled over?) and, if he does, just how to intervene (by arrest? a warning? an interrogation?). In most large organizations, the lowest-ranking members perform the more routinized tasks and the means of accomplishing these tasks are decided by superiors, but in a police department the lowest-ranking officer--the patrolman--is almost solely responsible for enforcing those laws which are the least precise, the most ambiguous. Three ways or styles of policing--the watchman, the legalistic, and the service styles--are analyzed and their relation to local politics is explored. In the final chapter, Mr. Wilson discusses if and how the patrolman's behavior can be changed and examines some current proposals for reorganizing police departments. He observes that the ability of the patrolman to do his job well may determine our success in managing social conflict and our prospects for maintaining a proper balance between liberty and order. nassau county police exam 2023: *Health Communism* Beatrice Adler-Bolton, Artie Vierkant, 2022-10-18 A searing analysis of health and illness under capitalism from hosts of the hit podcast "Death Panel" In this fiery, theoretical tour-de-force, Beatrice Adler-Bolton and Artie Vierkant offer an overview of life and death under capitalism and argue for a new global left politics aimed at severing the ties between capital and one of its primary tools: health. Written by co-hosts of the hit "Death Panel" podcast and longtime disability justice and healthcare activists Adler-Bolton and Vierkant, Health Communism first examines how capital has instrumentalized health, disability, madness, and illness to create a class seen as "surplus," regarded as a fiscal and social burden. Demarcating the healthy from the surplus, the worker from the "unfit" to work, the authors argue, serves not only to undermine solidarity but to mark whole populations for extraction by the industries that have emerged to manage and contain this "surplus" population. Health Communism then looks to the grave threat capital poses to global public health, and at the rare movements around the world that have successfully challenged the extractive economy of health. Ultimately,

Adler-Bolton and Vierkant argue, we will not succeed in defeating capitalism until we sever health from capital. To do this will require a radical new politics of solidarity that centers the surplus, built on an understanding that we must not base the value of human life on one's willingness or ability to be productive within the current political economy. Capital, it turns out, only fears health.

nassau county police exam 2023: *The Challenge of Crime in a Free Society* United States. President's Commission on Law Enforcement and Administration of Justice, 1967 This report of the President's Commission on Law Enforcement and Administration of Justice -- established by President Lyndon Johnson on July 23, 1965 -- addresses the causes of crime and delinquency and recommends how to prevent crime and delinquency and improve law enforcement and the administration of criminal justice. In developing its findings and recommendations, the Commission held three national conferences, conducted five national surveys, held hundreds of meetings, and interviewed tens of thousands of individuals. Separate chapters of this report discuss crime in America, juvenile delinquency, the police, the courts, corrections, organized crime, narcotics and drug abuse, drunkenness offenses, gun control, science and technology, and research as an instrument for reform. Significant data were generated by the Commission's National Survey of Criminal Victims, the first of its kind conducted on such a scope. The survey found that not only do Americans experience far more crime than they report to the police, but they talk about crime and the reports of crime engender such fear among citizens that the basic quality of life of many Americans has eroded. The core conclusion of the Commission, however, is that a significant reduction in crime can be achieved if the Commission's recommendations (some 200) are implemented. The recommendations call for a cooperative attack on crime by the Federal Government, the States, the counties, the cities, civic organizations, religious institutions, business groups, and individual citizens. They propose basic changes in the operations of police, schools, prosecutors, employment agencies, defenders, social workers, prisons, housing authorities, and probation and parole officers.

nassau county police exam 2023: A Criminal Injustice Richard Firstman, Jay Salpeter, 2008-12-30 When he went to bed on the night of September 6, 1988, seventeen-year-old Marty Tankleff was a typical kid in the upscale Long Island community of Belle Terre. He was looking forward to starting his senior year at Earl L. Vandermeulen High School the next day. But instead, Marty woke in the morning to find his parents brutally bludgeoned, their throats slashed. His mother, Arlene, was dead. His father, Seymour, was barely alive and would die a month later. With remarkable self-possession, Marty called 911 to summon help. And when homicide detective James McCready arrived on the scene an hour later, Marty told him he believed he knew who was responsible: Jerry Steuerman, his father's business partner. Steuerman owed Seymour more than half a million dollars, had recently threatened him, and had been the last to leave a high-stakes poker game at the Tankleffs' home the night before. However, McCready inexplicably dismissed Steuerman as a suspect. Instead, he fastened on Marty as the prime suspect--indeed, his only one. Before the day was out, the police announced that Marty had confessed to the crimes. But Marty insisted the confession was fabricated by the police. And a week later, Steuerman faked his own death and fled to California under an alias. Yet the police and prosecutors remained fixated on Marty--and two years later, he was convicted on murder charges and sentenced to fifty years in prison. But Marty's unbelievable odyssey was just beginning. With the support of his family, he set out to prove his innocence and gain his freedom. For ten years, disappointment followed disappointment as appeals to state and federal courts were denied. Still, Marty never gave up. He persuaded Jay Salpeter, a retired NYPD detective turned private eye, to look into his case. At first it was just another job for Salpeter. As he dug into the evidence, though, he began to see signs of gross ineptitude or worse: Leads ignored. Conflicts of interest swept under the rug. A shocking betrayal of public trust by Suffolk County law enforcement that went well beyond a simple miscarriage of justice. After Salpeter's discoveries brought national media attention to the case, Marty's conviction was finally vacated in 2007, and New York's governor appointed a special prosecutor to reopen the twenty-year-old case. At the same time, the State Investigation Commission announced an inquiry into Suffolk County's handling of what has come to be widely viewed as one of America's most disturbing wrongful conviction cases. As gripping as a Grisham novel, *A Criminal Injustice* is the story of an innocent man's tenacious fight for freedom, an investigator's dogged search for the truth. It is a searing indictment of justice in America.
