sparknotes the sun also rises: Old School Tobias Wolff, 2005 It's 1960, in America, at a prestigious boys' public school, a place of privilege that places great emphasis on its democratic ideals. A teenage boy in his final year, on a scholarship, has learned to fit in with his adoptive tribe while concealing as much as possible about himself and his background. Class is ever present, but the only acknowledged snobbery is a literary snobbery. These boys' heroes are writers - Fitzgerald, Cummings, Kerouac. They want to be writers themselves, and the school has a tradition whereby once a term big names from the literary world are invited to visit. A contest takes place with the boys admitting a piece of writing and the winner having a private audience with the visitor. When it is announced that Hemingway will be the next to come to the school, competition among the boys is intense, and the morals the school and the boys hold dear - honour, loyalty and friendship - are tested. No one writes more astutely than Wolff about the process by which character is formed, and here he illuminates the irresistible strength, even the violence, of the self-creative urge. This is a novel that, in its power and its beauty, in its precision and its humanity, is at once contemporary and timeless.

In *Banal Story*, Hemingway offers a lasting tribute to the famed matador Maera. In *Another Country* tells of an Italian major recovering from war wounds as he mourns the untimely death of his wife. *The Killers* is the hard-edged story about two Chicago gunmen and their potential victim. Nick Adams makes an appearance in *Ten Indians*, in which he is presumably betrayed by his Indian girlfriend, Prudence. And *Hills Like White Elephants* is a young couple's subtle, heart-wrenching discussion of abortion. Pared down, gritty, and subtly expressive, these stories show the young Hemingway emerging as America's finest short story writer.

Lots and lots of emails. And we all want to write better. Benjamin Dreyer is here to help. As Random House's copy chief, Dreyer has upheld the standards of the legendary publisher for more than two decades. He is beloved by authors and editors alike—not to mention his followers on social media—for deconstructing the English language with playful erudition. Now he distills everything he has learned from the myriad books he has copyedited and overseen into a useful guide not just for writers but for everyone who wants to put their best prose foot forward. As authoritative as it is amusing, *Dreyer's English* offers lessons on punctuation, from the underloved semicolon to the enigmatic en dash; the rules and nonrules of grammar, including why it's OK to begin a sentence with "And" or "But" and to confidently split an infinitive; and why it's best to avoid the doldrums of the Wan Intensifiers and Throat Clearers, including "very," "rather," "of course," and the dreaded "actually." Dreyer will let you know whether "alright" is all right (sometimes) and even help you brush up on your spelling—though, as he notes, "The problem with mnemonic devices is that I can never remember them." And yes: "Only godless savages eschew the series comma." Chockful of advice, insider

wisdom, and fun facts, this book will prove to be invaluable to everyone who wants to shore up their writing skills, mandatory for people who spend their time editing and shaping other people's prose, and—perhaps best of all—an utter treat for anyone who simply revels in language. Praise for Dreyer's English "Playful, smart, self-conscious, and personal . . . One encounters wisdom and good sense on nearly every page of Dreyer's English."—The Wall Street Journal "Destined to become a classic."—The Millions "Dreyer can help you . . . with tips on punctuation and spelling. . . . Even better: He'll entertain you while he's at it."—Newsday

Nothing is sacred in this deliciously irreverent, witty, and deeply intelligent retelling of modern Indian history and the ancient Indian epic The Mahabharata. Alternately outrageous and instructive, hilarious and moving, it is a dazzling tapestry of prose and verse that satirically, but also poignantly, chronicles the struggle for Indian freedom and independence.

Foster, 2024-11-05 Thoroughly revised and expanded for a new generation of readers, this classic guide to enjoying literature to its fullest—a lively, enlightening, and entertaining introduction to a diverse range of writing and literary devices that enrich these works, including symbols, themes, and contexts—teaches you how to make your everyday reading experience richer and more rewarding. While books can be enjoyed for their basic stories, there are often deeper literary meanings beneath the surface. *How to Read Literature Like a Professor* helps us to discover those hidden truths by looking at literature with the practiced analytical eye—and the literary codes—of a college professor. What does it mean when a protagonist is traveling along a dusty road? When he hands a drink to his companion? When he's drenched in a sudden rain shower? Thomas C. Foster provides answers to these questions as he explores every aspect of fiction, from major themes to literary models, narrative devices, and form. Offering a broad overview of literature—a world where a road leads to a quest, a shared meal may signify a communion, and rain, whether cleansing or destructive, is never just a shower—he shows us how to make our reading experience more intellectually satisfying and fun. The world, and curricula, have changed. This third edition has been thoroughly revised to reflect those changes, and features new chapters, a new preface and epilogue, as well as fresh

teaching points Foster has developed over the past decade. Foster updates the books he discusses to include more diverse, inclusive, and modern works, such as Angie Thomas's *The Hate U Give*; Emily St. John Mandel's *Station Eleven*; Neil Gaiman's *Neverwhere*; Elizabeth Acevedo's *The Poet X*; Helen Oyeyemi's *Mr. Fox and Boy*, *Snow, Bird*; Sandra Cisneros's *The House on Mango Street*; Zora Neale Hurston's *Their Eyes Were Watching God*; Maggie O'Farrell's *Hamnet*; Madeline Miller's *Circe*; Pat Barker's *The Silence of the Girls*; and Tahereh Mafi's *A Very Large Expanse of Sea*.
