rincon del bago: *Markets in Chaos* Brendan Hughes, 2023-11-10 This book is useful for those seeking to learn about the history of market crises and individuals that want to learn about protection against downside risks for an investment portfolio. The purpose of this book is not to convince the reader to attempt to anticipate the timing of the next market crash, but rather for the reader to be able to draw parallels (and some contrasts) between the different crises in history. The book reviews case studies related to specific macroeconomic event triggers ranging from COVID-19 to hyperinflation. Readers will come away with extensive knowledge of different market crisis events spread across countries and timelines. The reader will be well versed on important macroeconomic topics such as the history of currencies. Perhaps most importantly, readers will feel better prepared to handle the next market catastrophe. Audiences such as business school students and those that are a part of organizations such as the Chartered Financial Analyst Institute will find this book of interest.

rincon del bago: *Information Literacy in Higher Education* Fabiola Cabra-Torres, Gloria Patricia Marciales Vivas, Harold Castañeda-Peña, Jorge Winston Barbosa-Chacón, Leonardo Melo González, Oscar Gilberto Hernández Salamanca, 2020-08-07 This book presents an innovative theoretical and methodological approach to study information literacy in higher education contexts. While mainstream studies tend to see information literacy as a technical and universal process, this book proposes a theoretical and methodological framework to study information literacy from a sociocultural perspective, highlighting the importance of the social and cultural contexts in which information literacy develops. This situated approach demands that research data must be analysed in relation to the contexts in which they emerge, so the book proposes a research method based on the study of personal histories and stories, learning situations and intersubjective relationships to characterize the different information profiles of different information users. Adopting a multidisciplinary approach that combines contributions from educational research, psychology and information sciences, the authors first present a theoretical discussion to argue in favor of the sociocultural paradigm to study information literacy, then present their methodological proposal to observe informational competencies among higher education students, and finally present the results of an empirical study to identify different information literacy profiles among Latin American students and teachers. Breaking with the hegemonic paradigm in the field, *Information Literacy in Higher Education – A Sociocultural Perspective* provides useful and innovative tools to researchers working in different areas of the social sciences, such as education, psychology, linguistics and information sciences.

rincon del bago: *Eliseo Subiela in Life and Cinema* Nancy J. Membrez, 2022-02-25 Audiences never have a lukewarm opinion of a Subiela film. They either love it passionately or hate it profoundly. That Eliseo Subiela (Buenos Aires, 1944-2016), an original and sensitive thinker, survived, and indeed thrived in economically challenged Argentina while garnering more accolades

abroad than in his own country, is a tribute to his grit, intelligence, imagination and persistence of vision. With an astounding list of prizes and honors, he was a world-class auteur. Even when he was making a TV commercial, his surreal style and poetic sensibility were unmistakable. This book represents the culmination of 20 years of research and personal correspondence with Eliseo Subiela. Through ten scholarly studies and five interviews, it sheds light on his life, esthetics, obsessions, struggles with madness, and, of course, his films. It addresses his earlier career in advertising, lifelong artistic influences, screenwriting techniques, critical reactions to his films, and what Subiela's example has to offer aspiring filmmakers, especially those in Latin America.

Given the size of the world's Spanish-speaking population (some 350 million people) and the importance of the Spanish language in global publishing, it appeals to publishers, cultural agents and translators, as well as to Canadianists and Translation Studies scholars. By analyzing more than 100 sources of online and print reviews, this volume covers a wide-range of areas and offers an ambitious scope that goes from the institutional side of the Spanish-Anglo-Canadian exchange to issues on the insertion of CanLit in the Spanish curriculum; from 'nation branding', translation, and circulation of Canadian authors in autonomous communities (such as Catalonia) to the official acknowledgement of some authors by the Spanish literary system -Margaret Atwood and Leonard Cohen were awarded the prestigious Prince of Asturias prize in 2008 and 2011, respectively.

rincon del bago: *Guia Bilingue Legal Para Todos/ Bilingual Legal Guide for All* Yolanda J. Izurieta, 2014-03-04 Superior education can only be obtained by acquiring information. Laws are fundamental parts of our lives. Knowing them should be a requisite of basic knowledge and indispensable for each individual who lives in the United States. The primary objective of this book is to make a bilingual legal book available to all who enjoy learning and need information about the legal world: judges, lawyers, legal secretaries, law students, paralegals, students in the political sciences, employees of the court, and any individual who is interested in understanding the rights and laws of a citizen of the United States. As you know, the vocabulary used in law books, whether it is written in Spanish or English, is very technical and therefore difficult to understand. Learning law terminology can be compared to learning a foreign language. As a knowledgeable professional, I encountered these problems when I was reading various law books, and it is one of the reasons that I was motivated to write this book. When I worked at the Norwalk Superior Court in Norwalk, California, under the supervision of Mr. Edward Hinz, I was privileged to become acquainted with the various judges, district attorneys, paralegals, clerks, legal secretaries, and officers. Although I realized that most were well acquainted with English legal terminology, I also observed that many people who came to court to represent themselves in propria persona didnt know or understand the correct legal terminology to be able to present their simple cases nor could they understand how to fill out the technical forms required. I am confident that this book will be a useful resource and that it can be easily used by all who want to become familiar with legal terms in English and Spanish. This book covers nine areas of law: alternative dispute resolutions, bankruptcy, business law, criminal law, family law, juvenile procedures, probate, real estate law/landlord and tenant, and wills and trusts. The terms are presented in English and Spanish. It is organized in such a manner that every term can be easily translated and understood. Each division contains the terms that are necessary for each area of law. Obviously, individuals who are already bilingual will have an advantage. Nevertheless, those who are not bilingual but who are interested in learning legal terms in Spanish or English, for one reason or another, will benefit from this book as well.

rincon del bago: *Diasporic Generations* Mette Louise Berg, 2011-10-01 Interpretations of the background to the Cuban diaspora – a political revolution and the subsequent radical transformation of the society and economy towards socialism – are politicised and highly contested. The Miami-based Cuban diaspora has had extraordinary success in putting its case high on the US political agenda and in capturing world media attention, but in the process the multiplicity of

experiences within the diaspora has been overshadowed. This book gives voice to diasporic Cubans living in Spain, the former colonial ruler of Cuba. By focusing on their lived experiences of displacement, the book brings to light imaginative, narrative re-creations of the nation from afar. Drawing on extensive ethnographic fieldwork, the book argues that the Cuban diaspora in Spain consists of three diasporic generations, generated through distinct migratory experiences. This constitutes an important step forward in understanding the dynamics of memory-making and social differentiation within diasporas, and in appreciating why people within the same diaspora engage in different modes of transnational practices and homeland relations.

rincon del bago: *The Politics of Memory in Post-Authoritarian Transitions, Volume One* Joanna Marszałek-Kawa, Joanna Piechowiak-Lamparska, Anna Ratke-Majewska, 2017-01-06 History is a powerful tool in the hands of politicians, and can be a destructive weapon since power over the past is the power to decide who is a hero and who is a traitor. Tradition, the memory of ancestors, and the experience of previous generations are the keys that unlock the door to citizens' minds, and allow certain ideas, visions and political programs to flourish. However, can history be a proper political weapon during democratisation processes when the past is clearly separated from the present? Are the new order and society founded on the basis of some interpretation of the past, or, rather, are they founded only with reference to the imagined future of the nation? This book explores such questions through a detailed description of the use of remembrance policies during political transformations. It discusses how interpretations of the past served the accomplishment of transitional objectives in countries as varied as Chile, Estonia, Georgia, Poland, South Africa and Spain. The book is a unique journey through different parts of the world, different cultures and

different political systems, investigating how history was remembered and forgotten by certain democratic leaders. Individual chapters discuss how governments' remembrance policies were used to create a new citizen, to change a political culture, and to justify the vision of the society promoted by the new elites. They explain why some difficult topics were avoided by politicians, and why sometimes there was no transitional justice or punishment of the leaders of the authoritarian state. The book will be of interest to anyone wishing to explore policies of remembrance, democratisation, and the role of memory in contemporary societies.

La escuela, los padres, la economía, la publicidad, dejaron de entender a un grupo de personas que empezaban a formar, como se forman las nebulosas, una nueva generación, la generación Y. De pronto los adolescentes se comunicaban de otra forma, compraban de otra forma, pensaban de otra forma, sentían de otra forma. Este libro no es fruto de la improvisación, está milimétricamente estructurado, tanto con el hemisferio izquierdo-lógico como con el hemisferio derecho-holístico. Un libro para conocer lo que ahora mismo se está cocinando.

rincon del bago: Todos los nombres del cielo Modesto Téllez Alba, 2014-04-16 Jesús Abajo es testigo y cómplice del robo de las bragas de la chica más hermosa del instituto. Este hecho delictivo, perpetrado por su mejor amigo, Jac Schmitt, solo es el pistoletazo de salida de una serie de acontecimientos que van a marcar el futuro próximo de los dos amigos. El adolescente, insatisfecho consigo mismo y con el mundo que lo rodea, a duras penas soporta la soledad que los reveses del destino le ha reservado. Aunque aún le quedan los sueños, entre los que se siente seguro. Su falta de voluntad para escapar de una realidad que ve como un desierto vulgar e inamovible, es puesta a prueba cuando aparece Celia, la chica nueva, cuyo nombre contiene todos los nombres del cielo. Debatiéndose entre la realidad y el deseo, y con el amor como parte de la ecuación, la anodina vida de Jesús Abajo empieza a complicarse. Las letras de las canciones, las tramas de las novelas, las viñetas de los cómics y las secuencias de las películas que conforman el universo ficticio de Abajo, se enredan entre los acontecimientos de su propia vida. Y el desierto, que es otra forma de ser alguien en el mundo, deja de estar tan deshabitado.

Algunos de los temas tratados en este libro son: el manejo de las fuentes, cómo hacer referencias bibliográficas, el uso de recursos informáticos como Google o Wikipedia, las ventajas de funcionar en grupo o en solitario, reglas y errores ortográficos comunes y otros que serán de gran utilidad para que los lectores elaboren un buen trabajo universitario.

rincon del bago: La investigación sobre el uso del tiempo Jesús Rogero García, 2009-12 El objetivo de este libro es fomentar la investigación sobre el uso del tiempo, mostrando la riqueza y complejidad de la vida social más allá de los intercambios económicos. El lector encontrará una descripción asequible de las técnicas más utilizadas actualmente y de las entidades y grupos de investigación a los que puede dirigirse, tanto en España como en otros países. Se abordan algunos

aspectos básicos de la investigación habitualmente poco tratados en los manuales de metodología, como los presupuestos de ejecución de los proyectos en tiempo y dinero. Se analizan detalladamente algunas encuestas del uso del tiempo realizadas por el INE y el Grupo Tiempo y Sociedad (CSIC). Finalmente, el volumen ofrece un análisis de los derechos constitucionalmente protegidos (igualdad, trabajo, educación, ocio, salud, etc.) y su operacionalización a través de indicadores de uso del tiempo.

La transformación digital del aprendizaje, de la educación y de la escuela Mariano Fernández Enguita, 2023-04-17 Somos productos, y agentes, de las sucesivas olas transformadoras de la información, la comunicación y el aprendizaje. La primera ola, impulsada por el lenguaje y la educación, integró y produjo la hominización. La segunda, por la escritura y la escuela artesanal, hizo posible la civilización. La tercera, con la imprenta y los sistemas escolares, fue parte vertebral de la modernización. La cuarta, con la explosión de los medios de comunicación de masas y las reformas escolares comprensivas, ha sido y es un periodo de desencuentro. La quinta ola, la transformación digital ubicua que vivimos, más amplia, más rápida y más profunda que cualquier otra anterior, cuestiona profundamente la organización educativa heredada, abriendo un sinfín de oportunidades, desatando no pocos riesgos y descolocando a quienes crecimos en un sistema y nos vemos ya en otro. Esta obra analiza los elementos esenciales de esta ola transformadora: el artilugio o la tríada digital formada por el dispositivo personal, el software como metamedio y la conectividad ubicua; el hipertexto y su extensión a los hipermedia, frente al languideciente dominio del libro de texto; la hiperaula, como radical transformación del aula, es decir, de la arquitectura física y organizativa del espacio, el tiempo, los recursos y la actividad escolares; la codocencia y la ciborgdocencia, que se abren paso entre el paisaje heredado de la docencia balcanizada y fragmentaria; la inteligencia aumentada de la profesión, gracias al desarrollo de la inteligencia artificial desde las primitivas máquinas de enseñar hasta los tan espectaculares como inciertos modelos generativos actuales.

rincon del bago: **Ser padres, hoy: en busca del sentido común** Purificació Biniés Lanceta, 2010-06-07 En estos tiempos de cambios e incertidumbre que vivimos, parece que hemos pasado de la autoridad paterna incuestionable, gracias al argumento irrefutable del tortazo, a la autoridad

paterna inexistente porque queremos ser padres / guais / y modernos y simpáticos... Adjetivos que quedan eclipsados siempre que de la boca del padre o de la madre surge un no rotundo dirigido a los hijos. Un no que comporta un mar de gritos, lloros y pataletas que, a poder ser, nos quisiéramos ahorrar... Pero el peligro de ahorrarnos la pataleta que sigue al no es que nuestros hijos no aprendan que existen límites que conviene no atravesar. Todos, padres e hijos, deberíamos saber que sin este aprendizaje básico nada funciona, ni en la vida de los padres ni en la de los hijos. Libro imprescindible para impregnar de sentido común las relaciones padres-hijos.

rincon del bago: Reflexions sobre l'educació en una societat coresponsable Jordi Riera i Enric Roca, Jordi Garriga i Andreu, 2007 A principis del segle XXI s'imposa repensar l'educació en un sentit ampli. Els reptes que planteja un món global a països com Catalunya són diversos i de gran complexitat. Aquesta obra, fruit d'un treball de reflexió i participació de prop d'un parell d'anys, a partir de les accions endegades dins el Projecte Edu21, vol contribuir al diàleg educatiu dins una societat que la voldríem coresponsable del projecte de formació de tots els seus ciutadans. Les xarxes de coresponsabilitats socioeducatives; les relacions entre els termes d'inclusió, excel·lència, identitat i diversitat; les noves formes d'ensenyar en una escola digital, la importància de l'aprenentatge de l'anglès; l'escola com una organització que aprèn i que gestiona eficaçment els seus recursos humans, són els temes tractats pels diferents autors d'aquesta obra. El Projecte Edu21 (www.edu21.cat) és una iniciativa del Centre d'Estudis Jordi Pujol i té com a principal objectiu esperar la reflexió profunda i el debat serà sobre els temes educatius a Catalunya i al món, en una època de canvis i transformacions i, alhora, de grans reptes i oportunitats.

rincon del bago: México, manual de usuario Chumel Torres, 2022-09-29 El país -como cada seis años, o mejor dicho: cada año- se encuentra en un momento crítico de inestabilidad económica, corrupción, deshonestidad política, indolencia ante los problemas sociales...¿y ahora quién podrá defendernos? Fiel a su estilo y con un humor salvaje, Chumel Torres ofrece en este libro una reflexión sobre lo que nos distingue como mexicanos: Quiénes son nuestros héroes, por qué ya no creemos en las instituciones, a quién veneramos y por qué sentimos rencor a los gringos cuando adoptamos su cultura capitalista sin chistar. El libro es una burla y una serie de sarcasmos bien documentados, pero también es una reflexión profunda del México violento, trágico y delirante donde reina la impunidad, la trampa, el desfalco, a pesar de tener seres humanos grandiosos en las ciencias y en las artes. El país se caen pedazos, la 4T se aferra a sus mentiras, la economía se encuentra en niveles alarmantes y las desgracias en materia de seguridad nacional, salud y transparencia están a la orden del día. Con humor corrosivo, desafiante y artero, Chumel Torres elabora un manual cínico y divertido para vivir -mejor dicho, sobrevivir-en este México de políticos corruptos, narco-reyes, partidos de oposición ahogados en sus propias miserias y un tejido social tocado por la pobreza, la violencia y la injusticia. México: manual de usuario es una reflexión corrosiva sobre nuestra realidad nacional, una explicación de por qué vivimos esta desgracia política y qué hacer como sociedad para frenar la destrucción social, económica y política del país. A manera de un delirante libro de Civismo 3 de nuestra secundaria pública, Chumel Torres habla de los nuevos héroes nacionales, de los deportistas que alcanzaron la gloria y de personajes que dan relumbré a nuestro cine nacional, no sólo Carmen Salinas y Alfonso Zayas, rescata de la sombra a quienes se esfuerzan por dignificar la palabra mexicano y mediante el dato duro, la estadística y la indagación rigurosa nos dice qué tan lejos está México de los niveles de felicidad mundial, por qué en materia de Salud somos una desgracia y con quiénes competimos por ser los número uno del mundo en obesidad, delincuencia organizada o corrupción, sin duda, un libro feroz, súper divertido e implacable.

rincon del bago: *Temas del comercio y la economía en la narrativa hispana* Carlos Mateo Coria-Sánchez, Germán Torres, 2008-01-01 Through a study of literature, the social and cultural issues that help form the identity of a people can be revealed and examined. The ten essays in *Temas del comercio y la economía en la narrativa hispana* investigate the relation between the Hispanic narrative and the economic and commercial concerns of Spanish-speaking peoples around the world from a variety of historical periods. Balancing a study of writers' perspectives on current economic

conditions with a look at literary versions of economic events, this anthology provides a window into Hispanic culture for both the student of Hispanic literature and the student of business in the Spanish-speaking markets. The essays in *Temas del comercio y la economía en la narrativa hispana* embrace an interdisciplinary approach and address topics as diverse as the attitude toward businessmen and the accumulation of wealth, the popular reaction against foreign investment, the role of women in a commercial context, the plight of Latino immigrants in the United States, and the social distortions created by rampant consumerism. Readers interested in Hispanic literature or international business will find useful tools accompanying each essay, including · questions for comprehension, · themes for discussion, · post-reading exercises, · extensive bibliographies for further study, · web addresses for organizations in the Spanish-speaking world. *Temas del comercio y la economía en la narrativa hispana* will provide students in a wide range of disciplines with interesting, new, and perhaps unexpected perspectives on the subject of business and economic activity in Hispanic cultures.

rincon del bago: La forma del futuro Gerardo Enrique Garibay Camarena, 2024-01-16
Nuestro futuro está marcado por la incertidumbre. La tierra de lo que vendrá es una tierra de marañas, rebujos y fantasmas. Sin embargo, no nos rendimos ante sus banderas de sombra. Queremos saber qué hay en el mañana para nuestras familias y naciones, qué sigue para nosotros mismos. La buena noticia es que, aunque los detalles quedan fuera del nuestro alcance, hay algo que sí podemos visualizar: Las formas del futuro. Es decir, las líneas generales, las grandes tendencias, los temas clave que definirán el rostro del mundo en lo que queda de nuestro siglo. Los grandes motores ya están en marcha, ya están entre nosotros, ya son negocio y se consolidan como economías de escala: Los macrodatos, el metaverso, el aprendizaje automatizado, la impresión en tres dimensiones y la civilización espacial, acompañadas de la flexibilización de roles y procesos, la agonía de muchas tradiciones y el surgimiento de nuevas lealtades con la fuerza para redefinir el mundo. Comprender estas grandes revoluciones y sus consecuencias es indispensable para afrontar el futuro sin quedar condenados al papel de víctimas, testigos o instrumentos. ¡Seamos protagonistas!

rincon del bago: Supremacía de la moral sobre el derecho Aidee Galvez De Valdez, 2007-10
Una opinion divergente acerca de la clasificacion sobre la relacion existente entre la moral y el derecho. Algunos autores sostienen que la moral y el derecho son cosas distintas desde el momento en que una regula la conducta interna del individuo y la otra, su comportamiento externo. Para otros, se apoyan entre si para dar cuenta de las actitudes del sujeto. Unir los dos terminos, fusionarlos para extraer como resultado la supremacia de la moral sobre el derecho es la tesis de esta obra. Las acciones malas y buenas que brotan del corazon del hombre son el resultado del comportamiento guiado por nuestra conciencia. La moral y el derecho son herramientas seguras para ella si deseamos lograr nuestros objetivos de vida transitando por el camino mas sencillo y placentero, como nos lo aconsejan los que ya lo experimentaron. Estas dos disciplinas poseen entonces, segun la clasificacion tomada como parametro: bilateralidad, interioridad y exterioridad, coercibilidad y heteronomia.

rincon del bago: **El lugar de la apariencia** Federico Ferroggiaro, 2023-11-08 EL LUGAR DE LA APARIENCIA reúne diez relatos que sintetizan los avatares del proyecto estético que Federico Ferroggiaro ha desarrollado desde sus primeras publicaciones, reunidas en El pintor de delirios (2009), hasta Punto de Fuga (2019). En sus relatos, Ferroggiaro se desplaza por las fronteras del realismo y recrea con la misma precisión espacios ciudadanos tanto como ambientes rurales. Las atmósferas inquietantes que así crea enmarcan conflictos en los que los personajes se debaten entre el infortunio, la miseria y la grandeza humana. De igual forma, los narradores de Ferroggiaro son contundentes, seducen al lector, lo sorprenden, lo desgajan. En todas las historias, sea una apuesta límite, una obsesión amorosa, una paternidad postergada o la búsqueda de la consagración literaria, se impone la tensión entre la verdad silenciada y el lugar de la apariencia.

rincon del bago: **El libro inútil de la política chilena** Anónimo, 2015-12-01 Como dice el refrán: dale un pescado a un hombre y comerá un día, enséñele a pescar y se morirá de hambre gracias a la ley de pesca. ¿Está, usted, interesado en ayudar a los más necesitados, despojarse del éxito propio en pos del bien común y ayudar para que Chile sea un país más igualitario? Si la respuesta es no, usted tiene lo que se necesita para ser un buen servidor público. Esta guía ideológicamente falsa lo ayudará a tratar de entender el arte de gobernar a punta de sátira, humor negro e incorrección. Sacar a relucir las chifladuras, fundamentalismos, incongruencias y metidas de pata de nuestra fauna política. ¿Cuánto sabemos de cómo funciona la política en Chile? Esta dinámica y entretenida guía le enseña todo lo que hay que (des)conocer si quiere dedicarse a tan altruista y respetada profesión, la más antigua del mundo; o bueno, casi. Aprenda a hacer facturas falsas, a decir lo que los demás quieren escuchar y todo lo necesario para dedicarse a luchar por lo más importante en la vida: el interés personal.
