The bed creaks under Santiago's shivering body. They say a person's life flashes by before dying. But it's not his whole life. Just the events that led to this. The important ones, and the ones Santiago would rather forget. The coins in Santiago's hand are meant for the bus fare back to his abusive abuela's house. Except he refuses to return; he won't be missed. His future is uncertain until he meets the kind, maternal María Dolores and her young daughter, Alegría, who help Santiago decide what comes next: He will accompany them to el otro lado, the United States of America. They embark with little, just backpacks with water and a bit of food. To travel together will require trust from all parties, and Santiago is used to going it alone. None of the three travelers realizes that the journey through Mexico to the border is just the beginning of their story.

Compelled to pursue the perpetrators but with no police in sight, Alvarez enlists the help of a gun-toting cousin. While the two men scour the cemetery for clues, they stumble upon a body crammed in a sack. After it is identified, Philippine Constabulary investigators descend on the province, focusing on Gabriels relations and his past dalliance with a mysterious woman. Desperate and on the run, he gets help from a powerful politician with a great debt of gratitude to pay...but one who has much to lose. As the story unfolds and secrets come to light, Barrio Captain Alvarez realizes that the past has come to revisit him, and that he has become a pawn in one mans grand ambition. His only hope of salvation lies in a faith healer whose unusual methods border the bizarre. From the beaches of Zambales to the Hundred Islands of Lingayen; from the seedy strips of Subic to the slopes of a dormant volcano, Alvarez races for his life, his pursuers never far behind. Meanwhile, in their midst lives a woman trapped in a nightmare whose dark tortured mind has a story to tell. Love, heroism and diseased souls - La Paz has it all.

Ricardo López-Pedrerros, Claudia Stern, 2022-07-13 As a collective effort, this volume locates the formation of the middle classes at the core of the histories of Latin America in the last two centuries. Featuring scholars from different places across the Americas, it is an interdisciplinary contribution to the world histories of the middle classes, histories of Latin America, and intersectional studies. It also engages a larger audience about the importance of the middle classes to understand modernity, democracy, neoliberalism, and decoloniality. By including research produced from a variety of Latin American, North American, and other audiences, the volume incorporates trends in social history, cultural studies and discursive theory. It situates analytical categories of race and gender at the core of class formation. This volume seeks to initiate a critical and global conversation concerning the ways in which the analysis of the middle classes provides crucial re-readings of how Latin America, as a region, has historically been understood.
