senior night speeches examples: *You Are Not Special and Other Encouragements* David McCullough Jr, 2014-05-01 An inspirational and timely reflection on the way we bring up children that will resonate with parents everywhere. 'Longtime high school English teacher McCullough scores an A+ with this volume for teens and parents. Rich in literary references and poetic in cadence, the author also offers plenty of hilarious and pointed comments on teens and today's society.' - Publishers Weekly So you think you're special? Well, think again: you're not. David McCullough Jr, a US high-school English teacher, found himself suddenly famous in 2012 when his commencement address to graduating high-school seniors went viral on Youtube. the main theme of that speech, 'You're not special', seemed to hit a nerve and validate a sense among people worldwide that something is deeply and fundamentally wrong with the way children are being raised today. From infancy, he observed, children are taught to believe they are unique and special, deserving of every advantage, destined for success. Consequently they learn to work hard and distinguish themselves for the sake of status and material reward rather than for the benefit of others - the larger community; the world. Success is defined as something almost entirely selfish. there is little attention or time given to the pursuit of education for the sake of wisdom, or even real happiness. Drawing from his long career as an educator and experience as a father of teenage boys, McCullough will expand upon the ideas laid out in his radical twelve-minute speech and argue that we can do better - as parents and as teachers - than fostering in our children a sense of privilege and entitlement. senior night speeches examples: The Art of Doing Science and Engineering Richard W. Hamming , 2020-05-26 A groundbreaking treatise by one of the great mathematicians of our time, who argues that highly effective thinking can be learned. What spurs on and inspires a great idea? Can we train ourselves to think in a way that will enable world-changing understandings and insights to emerge? Richard Hamming said we can, and first inspired a generation of engineers, scientists, and researchers in 1986 with You and Your Research, an electrifying sermon on why some scientists do great work, why most don't, why he did, and why you should, too. The Art of Doing Science and Engineering is the full expression of what You and Your Research outlined. It's a book about thinking; more specifically, a style of thinking by which great ideas are conceived. The book is filled with stories of great people performing mighty deeds--but they are not meant to simply be

admired. Instead, they are to be aspired to, learned from, and surpassed. Hamming consistently returns to Shannon's information theory, Einstein's relativity, Grace Hopper's work on high-level programming, Kaiser's work on digital filters, and his own error-correcting codes. He also recounts a number of his spectacular failures as clear examples of what to avoid. Originally published in 1996 and adapted from a course that Hamming taught at the U.S. Naval Postgraduate School, this edition includes an all-new foreword by designer, engineer, and founder of Dynamicland Bret Victor, and more than 70 redrawn graphs and charts. The Art of Doing Science and Engineering is a reminder that a childlike capacity for learning and creativity are accessible to everyone. Hamming was as much a teacher as a scientist, and having spent a lifetime forming and confirming a theory of great people, he prepares the next generation for even greater greatness.

senior night speeches examples: 'Half-London' in Zambia: contested identities in a Catholic mission school Anthony Simpson, 2019-08-07 This book describes and analyses life in 'St Antony's', a Zambian Catholic boys' mission boarding school in the 1990s, using the context-sensitive methods of social anthropology. Drawing upon Michel Foucault's notion of the panoptic gaze, Anthony Simpson demonstrates how students are both drawn to mission education as a 'civilising process', yet also resist many of the lessons that the official institution offers, particularly with respect to claims of 'true' Christian identity and educated masculinity. The phrase 'Half-London' reflects the boys' own perception of their privileged but very partial grasp, in the Zambian context of acute socio-economic decline, of 'civilised' status. The book offers unparalleled detail and insight into the contribution of mission schooling to the processes of postcolonial identity formation in Africa. Its rich and compelling ethnography opens up a strong sense of everyday life within the school and raises compelling questions about identity in plural societies beyond the confines of St Antony's. Anthony Simpson taught at the Zambian Catholic mission boys' boarding school from 1974 to 1997. He arrived in Zambia as an English teacher, but his involvement in the day-to-day life of St Antony's led him to an interest in anthropology and psychology. Key features A lively account of African mission schooling, examining the process of postcolonial education A practical demonstration of Michel Foucault's discussion of subjectivity and the invention of self A detailed demonstration of religious plurality in an African setting

senior night speeches examples: *How Churchill Waged War* Allen Packwood, 2018-10-30 An analytical investigation into Prime Minister Winston Churchill's decision-making process during every stage of World War II. When Winston Churchill accepted the position of Prime Minister in May 1940, he insisted in also becoming Minister of Defence. This, though, meant that he alone would be responsible for the success or failure of Britain's war effort. It also meant that he would be faced with many monumental challenges and utterly crucial decisions upon which the fate of Britain and the free world rested. With the limited resources available to the UK, Churchill had to pinpoint where his country's priorities lay. He had to respond to the collapse of France, decide if Britain should adopt a defensive or offensive strategy, choose if Egypt and the war in North Africa should take precedence over Singapore and the UK's empire in the East, determine how much support to give the Soviet Union, and how much power to give the United States in controlling the direction of the war. In this insightful investigation into Churchill's conduct during the Second World War, Allen Packwood, BA, MPhil (Cantab), FRHistS, the Director of the Churchill Archives Centre, enables the reader to share the agonies and uncertainties faced by Churchill at each crucial stage of the war. How Churchill responded to each challenge is analyzed in great detail and the conclusions Packwood draws are as uncompromising as those made by Britain's wartime leader as he negotiated his country through its darkest days.

senior night speeches examples: On an Auspicious Day, at Dawn - Heidrun Brückner, 2009 The book consists of a collection of essays on aspects of Tulu oral literature and its cultural and religious context. Taking sung poetic ritual texts from the west coast of South India (coastal Karnataka) as her starting point, the author addresses the relationship between text structure and the social and geographical distribution of particular local and subregional cults; questions of gender and genre, of the correlation between narrative and ritual dramatization especially with respect to death, and of success and failure of rituals in the local perception. One essay studies features of South Indian popular cults in a wider perspective. Two of the nine essays discuss historical material relating to Basel Mission activities in the area and compare texts collected in the 19th century with versions collected by the author in the 1980s. The last paper provides a short synopsis of the author's 1995 German monograph on the topic.

senior night speeches examples: Disobedience and Conspiracy in the German Army, 1918-1945 Robert B. Kane, 2008-04-10 This work examines, among other topics, the personal oath of loyalty that the officers of the German army swore to Adolf Hitler on August 2, 1934. It discusses how the majority of officers--those who did not become conspirators against him--complied with Hitler's orders until May 1945 despite his cruel treatment of soldiers, militarily unsound strategy and tactics, and the widespread destruction and crimes he and his forces committed. The oath taken by the officers had a strong psychological effect among a proud corps with a long history of obedience and honor. They followed Hitler to the end even though they knew they were fighting a losing battle. The author also examines why and how only a few officers, the conspirators, began to break away, lose trust in Hitler, oppose him and finally stage an assassination attempt. This history traces the development within the German army from 1918 of the philosophies of loyalty and disloyalty--and obedience and disobedience--as challenged by the Hitlerian oath of loyalty.

senior night speeches examples: The Paramilitary Hero on Turkish Television Berfin Emre Çetin, 2015-02-05 The Paramilitary Hero on Turkish Television: A Case Study on Valley of the Wolves explores the representation and reception of nationalism and masculinity in Turkey through an examination of the popular television serial, Valley of the Wolves which has been aired on Turkish television since 2003. This detailed examination of the show demonstrates a particular discourse of nationalism, namely the Turkish Islam synthesis embedded in a gender-specific regime in which the paramilitary hero is placed at the centre. The study draws on thirty-seven in-depth interviews with viewers of the programme from different social backgrounds. These viewers read the serial from various perspectives in the light of their gendered experiences, suggesting that the relationship between text and audience is not necessarily predetermined by the former, but is rather constructed through an interdiscursive process. The book also examines the pleasures of the "contesting" readers of Valley of the Wolves, drawing on the audience interviews, and argues that critical approaches to a particular media text do not present a barrier to audience pleasures.

Karen and I wanted to write this book so that our fellow techies would have a comprehensive resource to help them with their own public speaking endeavors. So many folks in the tech industry have amazing ideas and experience, but they often feel stuck on how to present them effectively. Also, our hope is that more women will be inspired by our stories and encouraged to get out there and share their own valuable expertise through public speaking in order to boost representation of women tech speakers, Poornima said. *Present!* covers public speaking from A to Z. Through stories, examples, and interactive exercises, Poornima and Karen dive into topics including, overcoming stage fright, exploring personal speaking style, creating the right talk for the right audience, polishing presence and delivery, and nailing any type of talk, whether it's a lightning or long-form talk or being part of a panel. Karen said, Even though Poornima and I are professional speakers, we felt it was important to share our own feelings of nerves and uncertainty, and bumps we've had along the way - and sometimes continue to experience. It was important for us to communicate that no one is perfect and it really is okay when talks don't always go according to plan. Our hope is that by being open, we'll be able to give others the confidence and the techniques to handle situations when they arise, deliver an amazing presentation, and most importantly, have FUN!

senior night speeches examples: Political Campaigns in the United States Richard K. Scher, 2016-02-19 A Choice Highly Recommended Title—January 2017 This book is an interpretive analysis of political campaigns in America: instead of focusing on how campaigns are designed and run, it investigates the role campaigns play in our American politics, and the close symbiosis between campaigns and those politics. The text examines how campaigns are an important manifestation of how we do politics in this country. Hallmarks of this text include: showing how campaigns can undermine our democracy and asking how democratic they—and by extension, our politics—really are; demonstrating that the ability of the media to accurately, fairly, and deeply report on campaigns has been severely compromised, both because of the growing distance between campaigns and media outlets and because of the structure of Big Media corporate ownership and its tight relationship to Big Money. It asks important questions about the media including: How do the media, reporters in particular, cover campaigns? What pressures and forces shape what and how they present campaigns? What is the impact of the ever-increasing chasm separating campaigns and the media? How does the close tie between corporate mainstream media and Super PAC money affect campaign coverage? How does the ability of campaigns and media to segment voters into ever-smaller slices influence how campaigns are covered? tracking the continuing growth of

unregulated, private, unaccountable dark money in campaigns as a threat to our democratic elections and politics. Democracy rests fundamentally on transparency and accountability – sunlight – and our campaign laws and norms now allow and encourage exactly the opposite, largely because of decisions by the United States Supreme Court.

senior night speeches examples: You Can Do Anything George Anders, 2017-08-08 In a tech-dominated world, the most needed degrees are the most surprising: the liberal arts. Did you take the right classes in college? Will your major help you get the right job offers? For more than a decade, the national spotlight has focused on science and engineering as the only reliable choice for finding a successful post-grad career. Our destinies have been reduced to a caricature: learn to write computer code or end up behind a counter, pouring coffee. Quietly, though, a different path to success has been taking shape. In You Can Do Anything, George Anders explains the remarkable power of a liberal arts education - and the ways it can open the door to thousands of cutting-edge jobs every week. The key insight: curiosity, creativity, and empathy aren't unruly traits that must be reined in. You can be yourself, as an English major, and thrive in sales. You can segue from anthropology into the booming new field of user research; from classics into management consulting, and from philosophy into high-stakes investing. You will be ready for anything.

senior night speeches examples: Nehru Walter Crocker, 2011-11-20 Elegant, perceptive, and startlingly prophetic, Nehru: A Contemporary's Estimate is one of the finest accounts of Nehru ever written. Walter Crocker, the Australian high commissioner to India, admired Nehru the man—his grace, style, intelligence and energy—and was deeply critical of many of his political decisions—the invasion of Goa, India's Kashmir policy, the Five Year Plans. This book, written shortly after Nehru's death, is full of invaluable first hand observations about the man and his politics. Many of Crocker's points, too—especially the implications of the Five Year Plans and of the introduction of democracy to India—are particularly relevant today. Out of print for many years, this classic biography has been reissued with an authoritative foreword by Ramachandra Guha.
