the gift of the magi answer key: The Baby Party F. Scott Fitzgerald, 2018-11-28 *The Baby Party* (+Biography and Bibliography) (6X9po Glossy Cover Finish): When John Andros felt old he found solace in the thought of life continuing through his child. The dark trumpets of oblivion were less loud at the patter of his child's feet or at the sound of his child's voice babbling mad non sequiturs to him over the telephone. The latter incident occurred every afternoon at three when his wife called the office from the country, and he came to look forward to it as one of the vivid minutes of his day. He was not physically old, but his life had been a series of struggles up a series of rugged hills, and here at thirty-eight having won his battles against ill-health and poverty he cherished less than the usual number of illusions. Even his feeling about his little girl was qualified. She had interrupted his rather intense love-affair with his wife, and she was the reason for their living in a suburban town, where they paid for country air with endless servant troubles and the weary merry-goround of the commuting train. It was little Ede as a definite piece of youth that chiefly

interested him. He liked to take her on his lap and examine minutely her fragrant, downy scalp and her eyes with their irises of morning blue. Having paid this homage John was content that the nurse should take her away. After ten minutes the very vitality of the child irritated him; he was inclined to lose his temper when things were broken, and one Sunday afternoon when she had disrupted a bridge game by permanently hiding up the ace of spades, he had made a scene that had reduced his wife to tears

the gift of the magi answer key: *Modes of Discourse* Carlota S. Smith, 2003-04-17 In studying discourse, the problem for the linguist is to find a fruitful level of analysis. Carlota Smith offers a new approach with this study of discourse passages, units of several sentences or more. She introduces the key idea of the 'Discourse Mode', identifying five modes: Narrative, Description, Report, Information, Argument. These are realized at the level of the passage, and cut across genre lines. Smith shows that the modes, intuitively recognizable as distinct, have linguistic correlates that differentiate them. She analyzes the properties that distinguish each mode, focusing on grammatical rather than lexical information. The book also examines linguistically based features that appear in passages of all five modes: topic and focus, variation in syntactic structure, and subjectivity, or point of view. Operating at the interface of syntax, semantics, and pragmatics, the book will appeal to researchers and graduate students in linguistics, stylistics and rhetoric.
