where the mountain meets the moon: The Subtle Art of Not Giving a Fk** Mark Manson, 2016-09-13 #1 New York Times Bestseller Over 10 million copies sold In this generation-defining self-help guide, a superstar blogger cuts through the crap to show us how to stop trying to be positive all the time so that we can truly become better, happier people. For decades, we've been told that positive thinking is the key to a happy, rich life. F**k positivity, Mark Manson says. Let's be honest, shit is f**ked and we have to live with it. In his wildly popular Internet blog, Manson doesn't sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. *The Subtle Art of Not Giving a F**k* is his antidote to the coddling, let's-all-feel-good mindset that has infected American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—not everybody can be extraordinary, there are winners and losers in society, and some of it is not fair or your fault. Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f**k about so we need to figure out which ones really matter, Manson makes clear. While money is nice, caring about what you do with your life is better, because true wealth is about experience. A much-needed grab-you-by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, *The Subtle Art of Not Giving a F**k* is a refreshing slap for a generation to help them lead contented, grounded lives.

where the mountain meets the moon: Young Adult Literature and Spirituality William Boerman-Cornell, Deborah Vriend Van Duinen, Kristine Alatheia Mensonides Gritter, Xu Bian, 2022-09-28 This book offers revolutionary approaches to in-class discussions about young adult literature. It shows teachers how to think more widely than the themes of a book to consider how they might operate as prayers of lament, yearning, anger, confession, thankfulness, reconciliation, joy, obedience, pilgrimage, contemplation, and equanimity. It also offers a variety of ways for classroom discussion to consider a representative sentence or two from a young adult novel, and from that allow students to connect to linked passages in the rest of the novel. These approaches for classroom discussion are drawn from a variety of contemplative traditions, including Jewish and Christian faith traditions and include florilegium, lectio divina, PaRDeS, Ignatian Imagination, havruta, and marginalia. Drawing from a range of in-class experiences, the authors explain each approach in the context of twelve popular and critically interesting young adult novels including The Hate U Give, Long Way Down, Speak, The Poet X, The Fault in our Stars, Brown Girl Dreaming, and others. This book will transform discussions that are disconnected from the book, lacking in relevance, or missing the energy that drives good conversation into meaningful and energetic class discussions that students and teachers alike will value.

where the mountain meets the moon: *Fantasy Literature* Mark A. Fabrizi, 2016-10-11

Fantasy literature, often derided as superficial and escapist, is one of the most popular and enduring genres of fiction worldwide. It is also—perhaps surprisingly—thought-provoking, structurally complex, and relevant to contemporary society, as the essays in this volume attest. The scholars, teachers, and authors represented here offer their perspectives on this engaging genre. Within these pages, a reader will find a wealth of ideas to help teachers use these texts in the classroom, challenging students to read fantasy with a critical eye. They employ interdisciplinary, philosophical, and religious lenses, as well as Marxist and feminist critical theory, to help students unlock texts. The books discussed include epic fantasy by such authors as Tolkien and Le Guin, children's fantasy by Beatrix Potter and Saint-Exupéry, modern fantasy by Rowling and Martin, and even fairy tales and comic books. The contributors offer provocations, questioning the texts and pushing the boundaries of meaning within the fantasy genre. And in doing so, they challenge readers themselves to ponder these tales more deeply. But through each of these chapters runs a profound love of the genre and a respect for those who produce such beautiful and moving stories. Furthermore, as with all the books in this series, this volume is informed by the tenets of critical pedagogy, and is focused on re-envisioning fantasy literature through the lens of social justice and empowerment. Prepare to be challenged and inspired as you read these explorations of a much-loved genre.

where the mountain meets the moon: *Atlas of Imagined Places* Matt Brown, Rhys B. Davies, 2021-09-28 WINNER, Edward Stanford Travel Writing Awards 2022: Illustrated Travel Book of the Year. HIGHLY COMMENDED, British Cartographic Society Awards 2022. From Stephen King's Salem's Lot to the superhero land of Wakanda, from Lilliput of Gulliver's Travels to Springfield in The Simpsons, this is a wondrous atlas of imagined places around the world. Locations from film, tv, literature, myths, comics and video games are plotted in a series of beautiful vintage-looking maps. The maps feature fictional buildings, towns, cities and countries plus mountains and rivers, oceans and seas. Ever wondered where the Bates Motel was based? Or Bedford Falls in It's a Wonderful Life? The authors have taken years to research the likely geography of thousands of popular culture locations that have become almost real to us. Sometimes these are easy to work out, but other times a bit of detective work is needed and the authors have been those detectives. By looking at the maps, you'll find that the revolution at Animal Farm happened next to Winnie the Pooh's home. Each location has an extended index entry plus coordinates so you can find it on the maps. Illuminating essays accompanying the maps give a great insight into the stories behind the imaginary places, from Harry Potter's wizardry to Stone Age Bedrock in the Flintstones. A stunning map collection of invented geography and topography drawn from the world's imagination. Fascinating and beautiful, this is an essential book for any popular culture fan and map enthusiast.

where the mountain meets the moon: Connecting Children with Classics Meagan Lacy, Pauline Dewan, 2018-03-14 This guide identifies hundreds of books that can help children develop into engaged readers. Children's librarians, collection development specialists in public libraries, as well as K-8 school librarians and teachers will choose from the best in children's titles. This unique readers' advisory and collection development guide for librarians and others who work with children focuses on readers and their needs, rather than simply categorizing books by their characteristics and features as traditional literature guides do. Taking this unusual perspective brings forth powerful new tools and curricular ideas on how to promote the classics, and how to best engage with young readers and meet their personal and emotional needs to boost interest and engagement. The guide identifies seven reader-driven appeals, or themes, that are essential to successful readers' advisory: awakening new perspectives; providing models for identity; offering reassurance, comfort, strength, and confirmation of self-worth; connecting with others; giving courage to make a change; facilitating acceptance; and building a disinterested understanding of the world. By becoming aware of and tapping into these seven themes, librarians and other educators can help children more deeply connect with books, thereby increasing the odds of becoming lifelong readers. The detailed descriptions of each book provide plot summaries as well as notes on themes, subjects, reading interest levels, adaptations and alternative formats, translations, and read-alikes. This informative

guide will also aid librarians in collection development and bibliotherapy services.

where the mountain meets the moon: Making Sense of Genesis J. Wilson, 2017-04-25 Early Genesis is like a table of contents for the rest of the book, a seed from which the rest of Scripture and history unfolds: so many ideas, images, and events can be traced back to it. Like the seeds that are so often our staple for life, Genesis also provides food for the soul, true wisdom, and the big picture we need to live in this world. But its message can be hindered by misunderstanding its purpose. Making Sense of Genesis looks at what works and what doesn't work when interpreting Genesis. It's not a commentary, so it doesn't interact with all of Genesis or much that has been written about it. Rather, it observes how the ideas and images in early Genesis unfold and are fulfilled, and how they are just as true and fresh for us now as they were in the beginning.
