tv patrol live news today: Once Upon a Blue Dot Cesar Fernando Lumba, 2015-11-06 What was it like for the former American colony, the islands of the Philippines, waking up one day in September 1972 and all the democratic institutions had ceased functioning, replaced by a military dictatorship? What was it like for the men and women, especially the women, who had the misfortune of being on the dictator Marcos' vaunted list of enemies and subversives? And what was it like when the Marcos dictatorship finally crumbled, laid waste by a housewife who had acted as a giant killer seeking to break the shackles that had bound the Filipino people hand and foot and in the process finding restitution for the murder of her husband? And how sweet was the sweet bird of revenge (to borrow from playwright Tennessee Williams) when a posse was formed to hunt down the soldiers responsible for the torture and rape of the captured enemies of the state? This is an epic story of the struggle between good and evil. It is also the story of two friends: Gus Liloan and Vic Lucero. Liloan, a man stranded in a foreign land, unable to return to his country, where a police

state awaited him, should have gotten his wish as circumstances changed, but he could not find the will to abandon America, partly because he realized that he had already found a new home. But his dream of going home would not die. It had been merely shelved in a remote corner of his soul. Vic Lucero, one of the soldiers charged with the interrogation and torture of political prisoners during the Marcos dictatorship, went into hiding and incognito ownership of a piggery after the dictatorship unraveled.

To understand the competing ideologies that underlie this switching between languages, this book looks at the language situation from multiple perspectives. Part A reviews the social and political forces that have propelled English through its life cycle in the Philippines from the 1898 arrival of Admiral Dewey to the 1998 election of Joseph Estrada. Part B looks at the social support for English in Metro Manila and the provinces with a focus on English teachers and their personal and public use of English. Part C examines the language of television sport broadcasts, commercials, interviews, sitcoms, and movies, and the language of newspapers from various linguistic, sociolinguistic, and sociocultural perspectives. The results put into perspective the short-lived language revolution that took place at the turn of the twenty-first century.

tv patrol live news today: Southeast Asian Migration Khatharya Um, Sofia Gaspar, 2015-10-01 Southeast Asia has long been a crossroad of cultural influence and transnational movement, but the massive migration of Southeast Asians throughout the world in recent decades is historically unprecedented. Dispersal, compelled by economic circumstance, political turmoil, and war, engenders personal, familial, and spiritual dislocation, and provokes a questioning of identity and belonging. This volume features original works by scholars from Asia, America, and Europe that highlight these trends and perspectives on Southeast Asian migration within and beyond the Asia-Pacific region. Adopting an interdisciplinary approach -- with contributions from sociology, political science, anthropology, and history -- and anchored in empirical case studies from various Southeast Asian countries, it extends the scope of inquiry beyond the economic concerns of migration, and beyond a single country source or destination, and disciplinary focus. Analytic focus is placed on the forces and factors that shape migration trajectories and migrant incorporation experiences in Asia and Europe; the impact of migration and immigration status on individuals, families, and institutions, on questions of equity, inclusion, and identity; and the triangulated relationships between diasporic communities, the sending and receiving countries. Of particular importance is the scholarly attention to lesser known populations and issues such as Vietnamese in Poland, children and the 1.5 generation immigrants, health and mental consequences of state sponsored violence and protracted encampment, ethnic media, and the challenges of both transnational parenting and family reunification. In examining the complex and creative negotiations that immigrants engage locally and transnationally in their daily lives, it foregrounds immigrant resilience in the strategies they adopt not only to survive but thrive in displacement.

tv patrol live news today: *Great Plains Weather* Kenneth F. Dewey, 2019-05-01 The weather of the Great Plains is extreme and highly variable, from floods to droughts, blizzards to tornadoes. In *Great Plains Weather* Kenneth F. Dewey explains what makes this region's climate unique by presenting a historical climatology of extreme weather events. Beginning with tornadoes--perhaps the most formidable plains weather phenomena--he describes the climatology of these storms and discusses memorable tornadoes of the plains. As one of the storm chasers who travels the Great Plains in the spring and summer tracking severe weather, Dewey also shares some of his experiences on the road. Dewey then goes on to discuss famous blizzards, from the School Children's Storm of 1888 to more recent storms, along with droughts and floods. Precipitation, or the lack thereof, has long determined human activity in the region; exacerbated by the vagaries of climate change, it continues to have a significant economic and cultural impact on the people of the plains. Dewey's absorbing narrative is complemented by images of tornadoes, snowstorms, and flash floods that he amassed in forty years of climatological research.

tv patrol live news today: *The Patchwork City* Marco Z. Garrido, 2019-08-05 In contemporary Manila, slums and squatter settlements are peppered throughout the city, often pushing right up against the walled enclaves of the privileged, creating the complex geopolitical pattern of Marco Z. Garrido's "patchwork city." Garrido documents the fragmentation of Manila into a mélange of spaces defined by class, particularly slums and upper- and middle-class enclaves. He then looks beyond urban fragmentation to delineate its effects on class relations and politics, arguing that the proliferation of these slums and enclaves and their subsequent proximity have intensified class relations. For enclave residents, the proximity of slums is a source of insecurity, compelling them to impose spatial boundaries on slum residents. For slum residents, the regular imposition of these boundaries creates a pervasive sense of discrimination. Class boundaries then sharpen along the housing divide, and the urban poor and middle class emerge not as labor and capital but as squatters and "villagers," Manila's name for subdivision residents. Garrido further examines the politicization of this divide with the case of the populist president Joseph Estrada, finding the two sides drawn into contention over not just the right to the city, but the nature of democracy itself. *The Patchwork City* illuminates how segregation, class relations, and democracy are all intensely connected. It makes clear, ultimately, that class as a social structure is as indispensable to the study of Manila—and of many other cities of the Global South—as race is to the study of American cities.

tv patrol live news today: Media, Central American Refugees, and the U.S. Border Crisis

Robin Andersen, Adrian Bergmann, 2019-06-13 This book identifies the history, conventions, and uses of security discourses, and argues that such language and media frames distort information and mislead the public, misidentify the focus of concern, and omit narratives able to recognize the causes and solutions to humanitarian crises. What has been identified as a crisis at the border is better understood as an on-going crisis of violence, building over decades, that has forced migrants from their homes in the countries of the Northern Triangle. Authors Robin Andersen and Adrian Bergmann look back to U.S. military policies in the region and connect this legacy to the cross-border development of transnational gangs, government corruption, and on-going violence that often targets environmental and legal defenders. They argue that the discourses of demonization and securitization only help perpetuate brutality in both Central America and the United States, especially in the desert borderlands of the southwest. They offer ways in which stories of migrants can be reframed within the language of justice, empathy, and humanitarianism. A compelling examination of language, media, and politics, this book is both highly contemporary and widely applicable, perfect for students and scholars of global media, political communications, and their many intersections.

tv patrol live news today: Watching the Cops Marcus K. Harmes,, Barbara Harmes, Meredith A. Harmes, 2023-10-10 Globally, police officers are the object of unprecedented visual scrutiny. The use of mobile phones, CCTV and personal body cams means that police are not only being filmed on the job but are also filming themselves. In popular culture, police have featured heavily on the big screen since the era of silent shorts and on television since the 1930s. Their fictional portrayals today take on added significance in light of social unrest surrounding cases of police brutality and discrimination. These essays explore 21st century portrayals of police on film and television. Chapters often emphasize the Black Lives Matter movement and consider the tone, quality, appropriateness and intention of film and television featuring police activity. Extensively covered works include *Mindhunter*, *Brooklyn Nine-Nine*, *Cops*, *Criminal Minds* and *RoboCop*, and among the major topics addressed are policing communities, hunting serial killers, police animals, and police in historic settings ranging from the 19th century through the present day and into science fiction futures.

tv patrol live news today: Cold War Country Joseph M. Thompson, 2024-03-22 Country music maintains a special, decades-long relationship to American military life, but these ties didn't just happen. This readable history reveals how country music's Nashville-based business leaders on Music Row created partnerships with the Pentagon to sell their audiences on military service while selling the music to servicemembers. Beginning in the 1950s, the military flooded armed forces airwaves with the music, hosted tour dates at bases around the world, and drew on artists from Johnny Cash to Lee Greenwood to support recruitment programs. Over the last half of the twentieth century, the close connections between the Defense Department and Music Row gave an economic boost to the white-dominated sounds of country while marginalizing Black artists and fueling divisions over the meaning of patriotism. This story is filled with familiar stars like Roy Acuff, Elvis Presley, and George Strait, as well as lesser-known figures: industry executives who worked the halls of Congress, country artists who dissented from the stereotypically patriotic trappings of the genre, and more. Joseph M. Thompson argues convincingly that the relationship between Music Row and the Pentagon helped shape not only the evolution of popular music but also race relations,

partisanship, and images of the United States abroad.
