While the first collection focused on the conventions of superhero comics, this new book expands its horizon to include edgier genres, from hard-boiled pulp to horror, adventure, fantasy, and science fiction. Using this darker range of hues, it seeks to subvert—to shatter—the hidebound stereotypes that have obscured the Asian image since the earliest days of immigration: the stoic brute, the prodigious brain, the exotic temptress, the inscrutable alien, the devious manipulator. The eclectic and impressive lineup of contributors includes leading Asian American comics creators Bernard Chang (*Supergirl*), Sean Chen (*Iron Man*), Cliff Chiang (*Wonder Woman*), Larry Hama (*G.I. Joe*), Sonny Liew (*Malinky Robot*), Takeshi Miyazawa (*Runaways*), Christine Norrie (*Hopeless Savages*), Greg Pak (*The Hulk*), G.B. american born chinese online: The Children of Chinatown Wendy Rouse, 2009-10-01 Revealing the untold stories of a pioneer generation of young Chinese Americans, this book places the children and families of early Chinatown in the middle of efforts to combat American policies of exclusion and segregation. Wendy Jorae challenges long-held notions of early Chinatown as a bachelor community by showing that families--and particularly children--played important roles in its daily life. She explores the wide-ranging images of Chinatown's youth created by competing interests with their own agendas--from anti-immigrant depictions of Chinese children as filthy and culturally inferior to exotic and Orientalized images that catered to the tourist's ideal of Chinatown. All of these representations, Jorae notes, tended to further isolate Chinatown at a time when American-born Chinese children were attempting to define themselves as Chinese American. Facing barriers of immigration exclusion, cultural dislocation, child labor, segregated schooling, crime, and violence, Chinese American children attempted to build a world for themselves on the margins of two cultures. Their story is part of the larger American story of the struggle to overcome racism and realize the ideal of equality.

These case studies of first- and second-generation Asian Americans deal with a range of difficulties, from depression, suicide, and the politics of coming out to broader issues of the model minority stereotype, transnational adoption, parachute children, colorblind discourses in the United States, and the rise of Asia under globalization. american born chinese online: The King's Touch Tom Sleigh, 2022-02-01 A profound encounter with the hyperreality of our time of global upheaval, violence, and pandemic. Tom Sleigh's poems are skeptical of the inevitability of our fate, but in this brilliant new collection, they are charged with a powerful sense of premonition, as if the future is unfolding before us, demanding something greater than the self. Justice is a prevailing force, even while the poems are fully cognizant of the refugee crisis, war, famine, and the brutal reality of a crowded hospital morgue. *The King's Touch* collides the world of fact and the world of mystery with a resolutely secular register. The title poem refers to the once-held belief that the king, as a divine representative, is imbued with the power of healing touch. Sleigh turns this encounter between illness and human contact toward his own chronic blood disease and the ongoing COVID-19 pandemic and its mounting death tolls. One poem asks, "isn't it true that no matter how long you / wear them, masks don't grieve, only faces do?" In this essential new work, Sleigh shows how the language of poetry itself can revive and recuperate a sense of a future under the conditions of violence, social unrest, and global anxiety about the fate of the planet.

The men's varsity team, the Dragons, is having a phenomenal season that's been decades in the making. Each victory brings them closer to their ultimate goal: the California State Championships. Once Gene gets to know these young all-stars, he realizes that their story is just as thrilling as anything he's seen on a comic book page. He knows he has to follow this epic to its end. What he doesn't know yet is that this season is not only going to change the Dragons's lives, but his own life as well.

american born chinese online: *Chasing the American Dream in China* Leslie Kim Wang, 2021-04-16 Few studies have highlighted the stories of middle-class children of immigrants who move to their ancestral homelands—countries with which they share cultural ties but haven't necessarily had direct contact. *Chasing the American Dream in China* addresses this gap by examining the lives of highly educated American-born Chinese (ABC) professionals who "return" to the People's Republic of China to build their careers. Analyzing the motivations and experiences of these individuals deepens our knowledge about transnationalism among the second-generation as they grapple with complex issues of identity and societal belonging in the ethnic homeland. This book demonstrates how these professional migrants maneuver between countries and cultures to further their careers and maximize opportunities in the rapidly changing global economy. When used strategically, the versatile nature of their ethnic identities positions them as indispensable bridges between the global superpowers of China and the United States in their competition for global dominance.

"Cisneros draws on her rich [Latino] heritage...and seduces with precise, spare prose, creat[ing] unforgettable characters we want to lift off the page. She is not only a gifted writer, but an absolutely essential one." —The New York Times Book Review *The House on Mango Street* is one of the most cherished novels of the last fifty years. Readers from all walks of life have fallen for the voice of Esperanza Cordero, growing up in Chicago and inventing for herself who and what she will become. "In English my name means hope," she says. "In Spanish it means too many letters. It means sadness, it means waiting. Told in a series of vignettes—sometimes heartbreaking, sometimes joyous—Cisneros's masterpiece is a classic story of childhood and self-discovery and one of the greatest neighborhood novels of all time. Like Sinclair Lewis's *Main Street* or Toni Morrison's *Sula*, it makes a world through people and their voices, and it does so in language that is poetic and direct. american born chinese online: *Blankets* Craig Thompson, 2023-07-03 *Blankets* is the story of a young man coming of age and finding the confidence to express his creative voice. Craig Thompson's poignant graphic memoir plays out against the backdrop of a Midwestern winterscape: finely-hewn linework draws together a portrait of small town life, a rigorously fundamentalist Christian childhood, and a lonely, emotionally mixed-up adolescence. Under an engulfing blanket of snow, Craig and Raina fall in love at winter church camp, revealing to one another their struggles with faith and their dreams of escape. Over time though, their personal demons resurface and their relationship falls apart. It's a universal story, and Thompson's vibrant brushstrokes and unique page designs make the familiar heartbreaking all over again. This groundbreaking graphic novel, winner of two Eisner and three Harvey Awards, is an eloquent portrait of adolescent yearning; first love (and first heartache); faith in crisis; and the process of moving beyond all of that. Beautifully rendered in pen and ink, Thompson has created a love story that lasts.

american born chinese online: *Eat a Bowl of Tea* Louis Chu, 2020-04-30 At the close of the Second World War, racist immigration laws trapped enclaves of old men in Chinatowns across the United States, preventing their wives or families from joining them. They took refuge from loneliness in the repartee and rivalries exchanged over games of mahjong in the backrooms of barbershops or at the local tong. These bachelors found hope in the nascent marriages and future children who

would someday grow roots in American soil, made possible at last by the repeal of the Chinese Exclusion Act in 1943. Louis Chu tells the story of a newlywed couple that inherits the burden of this tightly bonded community's expectations. Returning soldier Ben Loy travels to China to marry Mei Oi, a beautiful, intelligent woman who then emigrates to New York. After their honeymoon, Ben Loy becomes impotent, and his inability to father a child frustrates both Mei Oi and the Chinatown bachelors. This discontent boils over when Mei Oi has an affair and the community learns of Ben Loy's humiliation. *Eat a Bowl of Tea* remains a groundbreaking and influential work. The first novel to capture the tone and sensibility of everyday life in an American Chinatown, it is an incisive portrayal of Chinese America on the brink of change. A new foreword by Fae Myenne Ng explores the depth and meaning of Mei Oi's lust and elucidates the power of Chu's uncompromising writing.

american born chinese online: Using Graphic Novels in the English Language Arts

Classroom William Boerman-Cornell, Jung Kim, 2020-10-01 Shortlisted for the UK Literacy Association's Academic Book Award 2021 There is an increasing trend in teachers using graphic novels to get their students excited about reading and writing, using both original stories and adaptations of classic works by authors such as Homer, Shakespeare, and the Brontes. However, there is surprisingly little research available about which pedagogies and classroom practices are proven to be effective. This book draws on cutting-edge research, surveys and classroom observations to provide a set of effective methods for teaching with graphic novels in the secondary English language arts classroom. These methods can be applied to a broad base of uses ranging from understanding literary criticism, critical reading, multimodal composition, to learning literary devices like foreshadowing and irony. The book begins by looking at what English language arts teachers hope to achieve in the classroom. It then considers the affordances and constraints of using graphic novels to achieve these specific goals, using some of the most successful graphic novels as examples, including *Maus*; *Persepolis*; *The Nameless City*; and *American Born Chinese* and series such as *Manga Shakespeare*. Finally, it helps the teacher navigate through the planning process to figure out how to best use graphic novels in their own classroom. Drawing on their extensive teaching experience, the authors offer examples from real classrooms, suggested lesson plans, and a list of teachable graphic novels organized by purpose of teaching.

american born chinese online: Fun Home Alison Bechdel, 2007 A fresh and brilliantly told memoir from a cult favorite comic artist, marked by gothic twists, a family funeral home, sexual angst, and great books. This breakout book by Alison Bechdel is a darkly funny family tale, pitch-perfectly illustrated with Bechdel's sweetly gothic drawings. Like Marjane Satrapi's *Persepolis*, it's a story exhilaratingly suited to graphic memoir form. Meet Alison's father, a historic preservation expert and obsessive restorer of the family's Victorian home, a third-generation funeral home director, a high school English teacher, an icily distant parent, and a closeted homosexual who, as it turns out, is involved with his male students and a family babysitter. Through narrative that is alternately heartbreaking and fiercely funny, we are drawn into a daughter's complex yearning for her father. And yet, apart from assigned stints dusting caskets at the family-owned fun home, as Alison and her brothers call it, the relationship achieves its most intimate expression through the shared code of books. When Alison comes out as homosexual herself in late adolescence, the

denouement is swift, graphic -- and redemptive.
