Thornton, 2021-02-02 A 2021 Foreword INDIES Award Winner in Romance and Finalist in Fantasy A 2022 Benjamin Franklin Award Runner-Up in Best New Voice: Fiction "The heat and romance of the desert, the push and the pull of Emel's desperation, and the magic and humanity of a caustic jinni make Daughter of the Salt King an irresistible ride." —Amy Harmon, New York Times bestselling author "This riveting debut novel will leave readers eagerly awaiting Thornton's future works." —Booklist A girl of the desert and a jinni born long ago by the sea, both enslaved to the Salt King—but with this capricious magic, only one can be set free. As a daughter of the Salt King, Emel ought to be among the most powerful women in the desert. Instead, she and her sisters have less freedom than even her father's slaves . . . for the Salt King uses his own daughters to seduce visiting noblemen into becoming powerful allies by marriage. Escape from her father's court seems impossible, and Emel dreams of a life where she can choose her fate. When members of a secret rebellion attack, Emel stumbles upon an alluring escape route: her father's best-kept secret—a wish-granting jinni, Saalim. But in the land of the Salt King, wishes are never what they seem. Saalim's magic is volatile. Emel could lose everything with a wish for her freedom as the rebellion intensifies around her. She soon finds herself playing a dangerous game that pits dreams against responsibility and love against the promise of freedom. As she finds herself drawn to the jinni for more than his magic, captivated by both him and the world he shows her outside her desert village, she has to decide if freedom is worth the loss of her family, her home and Saalim, the only man she's ever loved. For readers who enjoy epic desert fantasies and forbidden romance like *The Forbidden Wish* by Jessica Khoury, *The Wrath & the Dawn* by Renée Ahdieh, and *Empire of Sand* by Tasha Suri.

author of *The Love Hypothesis* comes a new STEM-inist rom-com in which a scientist is forced to work on a project with her nemesis—with explosive results. Like an avenging, purple-haired Jedi bringing balance to the mansplained universe, Bee Königswasser lives by a simple code: What would Marie Curie do? If NASA offered her the lead on a neuroengineering project—a literal dream come true after years scraping by on the crumbs of academia—Marie would accept without hesitation. Duh. But the mother of modern physics never had to co-lead with Levi Ward. Sure, Levi is attractive in a tall, dark, and piercing-eyes kind of way. And sure, he caught her in his powerfully corded arms like a romance novel hero when she accidentally damseled in distress on her first day in the lab. But Levi made his feelings toward Bee very clear in grad school—archenemies work best employed in their own galaxies far, far away. Now, her equipment is missing, the staff is ignoring her, and Bee finds her floundering career in somewhat of a pickle. Perhaps it's her occipital cortex playing tricks on her, but Bee could swear she can see Levi softening into an ally, backing her plays, seconding her ideas...devouring her with those eyes. And the possibilities have all her neurons firing. But when it comes time to actually make a move and put her heart on the line, there's only one question that matters: What will Bee Königswasser do?

Which is why she hires escort Michael Phan. The Vietnamese and Swedish stunner can't afford to turn down Stella's offer, and agrees to help her check off all the boxes on her lesson plan—from foreplay to more-than-missionary position...
