Understanding "A People's History of the United States"

"A People's History of the United States" is a seminal work that examines American history through the lens of common people, including workers, enslaved individuals, women, immigrants, and indigenous communities. Unlike traditional history books that often focus on presidents, generals, and influential politicians, this book prioritizes the experiences and struggles of those frequently left out of mainstream narratives. Howard Zinn's approach emphasizes the importance of examining history from the ground up, offering a more inclusive and comprehensive view of the nation's development. By highlighting social movements, grassroots activism, and the role of marginalized groups, Zinn challenges readers to rethink accepted historical accounts and consider the broader impact of events on ordinary citizens.

Howard Zinn: Author and Historian

Background and Academic Career

Howard Zinn was a historian, playwright, and social activist whose work transformed the way American history is taught and understood. Born in 1922 to working-class parents, Zinn served in World War II before earning a Ph.D. in history from Columbia University. His experiences as a bombardier and later as a professor at Spelman College, a historically black college, deeply influenced his perspective on power, justice, and historical narrative.

Philosophy and Approach

Zinn believed that history should serve as a tool for social change and empower people to question authority. He advocated for the inclusion of voices traditionally excluded from historical records, arguing that the stories of laborers, activists, and minorities are essential for a full understanding of the United States. His philosophy is rooted in the idea that history is not neutral and that historians have a responsibility to expose injustices and challenge dominant ideologies.

Key Themes and Chapters

Focus on Marginalized Groups

A major theme in "A People's History of the United States" is the centrality of marginalized groups in shaping American history. Zinn dedicates significant attention to Native Americans, African Americans, women, and immigrant populations, detailing their resistance, resilience, and contributions to social progress.

Critique of Traditional Narratives

The book consistently critiques the traditional heroification of political leaders and military figures. Instead, Zinn highlights the consequences of government policies, wars, and economic decisions on everyday people, urging readers to question official accounts of progress and patriotism.

Major Chapters and Events

- The arrival of Columbus and the impact on indigenous peoples
- The development of slavery and struggles for abolition
- Labor movements and worker uprisings

- Women's rights and suffrage
- Civil rights movements and racial justice
- Anti-war protests and the Vietnam era
- Recent social movements and political activism

Each chapter provides detailed accounts of protests, strikes, and reform efforts, emphasizing how collective action has shaped the nation's trajectory.

Impact on Historical Scholarship

Changing the Narrative

"A People's History of the United States" has had a profound impact on historical scholarship by shifting attention to social history and the lived experiences of ordinary Americans. Zinn's work has inspired historians to explore topics such as labor history, civil rights, and grassroots activism more deeply, leading to a broader understanding of America's past.

Popularization of Social History

The popularity of Zinn's book has helped popularize social history in academic circles and among general audiences. It has encouraged the publication of similar works focusing on underrepresented groups and has made historical scholarship more accessible to a wider readership.

Controversies and Criticism

Critiques from Historians

Despite its influence, "A People's History of the United States" has faced criticism from some historians who argue that its narrative is overly selective and ideologically driven. Critics claim that Zinn sometimes omits nuance in favor of emphasizing injustice and conflict, potentially oversimplifying complex events.

Debates on Objectivity

The book has sparked debates over the role of objectivity in historical writing. While Zinn openly acknowledges his perspective, some scholars question the balance between advocacy and scholarly rigor. These debates have fueled ongoing discussions about how history should be taught and whose stories deserve prominence.

Influence on Education and Society

Use in Classrooms

"A People's History of the United States" is widely used in high school and college classrooms to supplement traditional textbooks. Educators utilize it to encourage critical thinking, promote discussion about historical bias, and expose students to multiple perspectives on key events.

Impact on Public Discourse

The book has influenced public discourse by empowering individuals to question official narratives and advocate for social justice. Its legacy can be seen in contemporary movements for equality, labor rights, and political reform, as activists draw inspiration from the stories highlighted within its pages.

Legacy and Continued Relevance

Enduring Popularity

"A People's History of the United States" remains one of the most widely read history books in America. Its message resonates in classrooms, libraries, and among activists seeking to understand and address present-day inequalities. The book continues to inspire new scholarship and adaptations, including documentaries, plays, and educational programs.

Influence on Historical Perspective

The legacy of Zinn's work is evident in the growing emphasis on inclusive history and the recognition of diverse voices. As debates about historical memory and representation persist, "A People's History of the United States" serves as a reminder of the importance of examining the past through multiple lenses, ensuring that history remains dynamic, relevant, and reflective of all its people.

Trending Questions and Answers about "A People's History of the United States"

Q: What is the main focus of "A People's History of the

United States"?

A: The main focus of "A People's History of the United States" is to present American history from the viewpoint of ordinary citizens, especially those who have been marginalized or excluded from traditional historical narratives.

Q: Who wrote "A People's History of the United States"?

A: Howard Zinn, a renowned historian and social activist, wrote "A People's History of the United States."

Q: Why is "A People's History of the United States" considered controversial?

A: The book is considered controversial because it challenges traditional historical accounts, emphasizes social and economic injustice, and openly adopts a critical perspective toward government and elite power structures.

Q: How has "A People's History of the United States" influenced education?

A: The book has influenced education by encouraging critical thinking, promoting discussions about bias in historical writing, and providing a more inclusive curriculum that highlights diverse perspectives.

Q: What are some major themes explored in "A People's History of the United States"?

A: Major themes include the struggles of marginalized groups, critiques of political and economic elites, labor movements, civil rights, and the importance of collective action in shaping American history.

Q: Is "A People's History of the United States" used in schools?

A: Yes, it is used in many high schools and colleges to supplement traditional textbooks and foster a deeper understanding of American history.

Q: What criticisms have been made against Howard Zinn's approach?

A: Critics argue that Zinn's approach is sometimes too selective, ideologically driven, and lacks nuanced analysis of complex historical events.

Q: How does "A People's History of the United States" differ from traditional history books?

A: It differs by prioritizing the experiences of common people and marginalized communities rather than focusing mainly on presidents, generals, and political leaders.

Q: What impact has "A People's History of the United States" had on public discourse?

A: The book has empowered individuals to question official narratives, advocate for social justice, and engage more deeply with issues of equality and historical representation.

Q: Can "A People's History of the United States" help understand current social movements?

A: Yes, the book provides historical context for current social movements by highlighting the role of activism, protest, and collective action throughout American history.

A People's History of the United States: A Critical Examination

Introduction:

Howard Zinn's *A People's History of the United States* isn't just a history book; it's a challenge. Since its publication, it has sparked countless debates, ignited passions, and fundamentally altered the way many view American history. This post delves into Zinn's controversial masterpiece, exploring its central arguments, its impact, and the ongoing relevance of its perspective. We'll unpack its key themes, examine criticisms leveled against it, and ultimately, consider its enduring contribution to the national conversation. This isn't a simple summary; it's an analysis designed to help you understand why *A People's History* remains a powerful and often-debated text.

H2: Challenging the Traditional Narrative

Zinn's central argument is a direct challenge to the dominant, often celebratory, narrative of American history. Traditional textbooks, he argued, focused heavily on the actions of presidents and prominent figures, neglecting the experiences and perspectives of marginalized groups – enslaved people, Native Americans, women, and working-class individuals. He posited that a true understanding of American history requires centering the voices and stories of those whose lives were most profoundly impacted by the nation's development, often in ways that contradict the official narrative. This bottom-up approach dramatically reshapes our understanding of events like the American Revolution, westward expansion, and the Civil Rights movement.

H2: Key Themes Explored in Zinn's Work

H3: Indigenous Peoples and Colonization: Zinn dedicates significant space to the brutal realities of colonization, highlighting the near-genocidal policies inflicted upon Native American populations. He details land grabs, broken treaties, and the systemic destruction of Indigenous cultures, challenging the romanticized vision often presented in traditional accounts.

H3: Slavery and its Legacy: The institution of slavery is not a footnote in Zinn's history; it's a central theme. He meticulously documents the horrors of slavery, the resistance of enslaved people, and the enduring legacy of racism that continues to shape American society. He emphasizes the active agency of enslaved people in fighting for their freedom, offering a stark contrast to narratives that often minimize their role.

H3: The Working Class and Labor Movements: Zinn chronicles the struggles of working-class Americans, highlighting the exploitation and oppression they faced throughout American history. He showcases the rise of labor unions, strikes, and the ongoing fight for worker's rights, presenting them not as isolated incidents, but as integral parts of the nation's social and political development.

H3: War and Imperialism: Zinn's work critically examines American foreign policy and its role in shaping global power dynamics. He exposes the often-violent and exploitative nature of American imperialism, illustrating its profound impact on both domestic and international affairs.

H2: Criticisms and Counterarguments

A People's History has not been without its critics. Some argue that Zinn's focus on the negative aspects of American history overshadows its achievements and progress. Others claim his interpretations are biased, selective, and lack sufficient historical nuance. Some historians critique his reliance on anecdotal evidence and his tendency to generalize about large and diverse groups. These critiques are important to consider, highlighting the complexities of historical interpretation and the ongoing debate surrounding Zinn's work. However, these criticisms do not negate the profound impact his book has had on shaping a more inclusive and critical understanding of American history.

H2: The Enduring Legacy of A People's History

Despite the criticisms, A People's History of the United States remains a remarkably influential book. It continues to inspire critical thinking about the past and inform ongoing dialogues about social justice, equality, and the complexities of the American experience. Its impact is evident in the increased attention given to marginalized voices in historical scholarship and the growing awareness of the ongoing legacy of systemic inequalities in American society. Zinn's work succeeded in making history accessible and relevant to a broad audience, prompting a much-needed reassessment of

traditional historical narratives.

Conclusion:

A People's History of the United States is more than a textbook; it's a call to action. It compels readers to critically examine the dominant narratives of American history and to consider the perspectives and experiences of those traditionally excluded from the official story. While criticisms exist, its impact on shaping a more inclusive and nuanced understanding of the nation's past is undeniable, making it a vital and ongoing source of discussion and debate.

FAQs:

1. Is A People's History accurate? Accuracy in history is complex. Zinn's interpretation emphasizes marginalized voices, sometimes at the expense of a completely balanced presentation of all perspectives. It's essential to read it critically and compare it to other historical accounts.

2. Is A People's History biased? Yes, it undeniably has a clear bias towards highlighting the experiences of the oppressed and marginalized. This bias, however, is a conscious choice to counterbalance the often-overlooked perspectives in traditional historical narratives.

3. Who should read A People's History? Anyone interested in a more complete and critical understanding of American history should read it. It's especially valuable for students, educators, and anyone seeking a more inclusive perspective on the nation's past.

4. What are some alternative perspectives to Zinn's work? Numerous historians offer counterpoints and alternative interpretations. Exploring works by authors like [mention 2-3 relevant historians] can provide a more comprehensive understanding of the complexities of American history.

5. How has A People's History influenced modern society? The book has significantly impacted social justice movements, curriculum development, and public discourse on issues of race, class, and inequality, inspiring a more inclusive and critical approach to understanding the American past.

A People's History of the United States: Uncovering the Untold Stories

Introduction:

Howard Zinn's A People's History of the United States isn't just a book; it's a cultural phenomenon. Since its publication in 1980, it has challenged conventional narratives of American history, sparking countless discussions and inspiring a new generation of historians and activists. This post delves into the core arguments of Zinn's work, exploring its impact, criticisms, and lasting legacy. We'll unpack its key themes, consider its methodology, and ultimately assess its place in the ongoing conversation surrounding American history. Whether you're a seasoned history buff or just beginning to explore the complexities of the American past, this comprehensive guide will equip you with a deeper understanding of this seminal text.

Challenging the Dominant Narrative: Zinn's Central Argument

Zinn's central thesis is a radical departure from traditional American historical accounts. Instead of focusing solely on the actions and perspectives of presidents, generals, and other powerful figures, *A People's History* prioritizes the experiences of marginalized groups: Native Americans, enslaved people, women, working-class individuals, and immigrants. He argues that the "official" story, often celebratory and triumphant, systematically ignores or downplays the suffering and resistance of these populations, creating a profoundly incomplete and misleading picture of the nation's past.

The Voices of the Silenced

Zinn painstakingly gathers accounts from letters, diaries, speeches, and other primary sources to give voice to those typically excluded from history books. This approach, emphasizing lived experiences, makes the past feel visceral and immediate, allowing readers to connect with the struggles and triumphs of ordinary people in extraordinary circumstances. He highlights the brutality of colonialism, the horrors of slavery, and the ongoing fight for civil rights, painting a picture far removed from the often-sanitized versions found in mainstream textbooks.

Key Themes Explored in *A People's History*

The Conquest of Native Americans: Zinn dedicates significant space to the systematic dispossession and near-genocide of Native American populations, meticulously detailing the violence and injustice inflicted upon them throughout American history. He forcefully challenges the romanticized narratives often presented, showcasing the brutal reality of westward expansion.

The Institution of Slavery: The book vividly portrays the brutal realities of slavery, not simply as an economic system, but as a

system of oppression that dehumanized millions and left a lasting scar on American society. He explores the resilience and resistance of enslaved people, emphasizing their agency and contributions to the fight for freedom.

The Labor Movement and Class Struggle: Zinn emphasizes the constant struggle between capital and labor, portraying the working class's fight for better working conditions, fair wages, and the right to organize. He connects these struggles to broader social and political movements, highlighting the interconnectedness of class, race, and gender oppression.

Methodology and Criticisms

Zinn's methodology, while deeply impactful, has faced criticism. Some historians argue that his focus on marginalized groups inadvertently leads to an unbalanced portrayal of American history, potentially neglecting the complexities and achievements of other segments of society. Others critique his selection of sources, suggesting a potential bias in his choice of primary materials. However, these criticisms often fail to account for the deliberate counter-narrative Zinn was aiming to construct. His work was not intended to be a comprehensive history, but rather a corrective lens through which to view the dominant narrative.

The Enduring Legacy of A People's History

Despite the criticisms, *A People's History of the United States* remains a powerful and influential work. Its impact extends far beyond academia, inspiring social movements, influencing pedagogy, and prompting a broader reassessment of American historical narratives. It has challenged the very definition of what constitutes "patriotic" history, forcing readers to confront uncomfortable truths and engage in a more nuanced understanding of the nation's past. The book's success lies in its ability to make history accessible and relevant, reminding us that history is not just about dates and names, but about the ongoing struggle for justice and equality.

Conclusion

A People's History of the United States is a vital contribution to the ongoing dialogue surrounding American history. While not without its flaws, its enduring influence stems from its commitment to amplifying marginalized voices and challenging established narratives. It serves as a powerful reminder that understanding the past requires acknowledging the full spectrum of human experience, including the suffering and resistance of those who have been historically silenced. By centering the experiences of the oppressed, Zinn's work provides a critical framework for understanding the complexities of American identity and the persistent struggle for social justice.

FAQs

1. Is A People's History a balanced account of American history? No, it's intentionally unbalanced, aiming to counteract the dominant narrative that often overlooks the experiences of marginalized groups.
2. What are the main criticisms of Zinn's work? Some critics argue for a lack of balance and question his source selection, suggesting potential bias.
3. Who is Howard Zinn's intended audience? While scholars read it, Zinn primarily wrote for a broad audience, hoping to make history more accessible and engaging.
4. How has A People's History impacted education? It has significantly influenced history pedagogy, encouraging a more inclusive and critical approach to teaching American history.
5. Why is A People's History still relevant today? Its focus on social justice, inequality, and the ongoing struggle for human rights remains highly relevant in contemporary society.

a peoples history of the united states: A People's History of the United States Howard Zinn, 2003-02-04 Since its original landmark publication in 1980, A People's History of the United States has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, A People's History is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, A People's History of the United States, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new afterword by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

a peoples history of the united states: A People's History of the United States Howard Zinn, 1980 The New Press's Abridged Teaching Edition of A People's History of the United States has made Howard Zinn's original text available specifically for classroom use. With exercises and teaching materials to accompany each chapter, this edition spans American Beginnings, Reconstruction, the Civil War and through to the present, with new chapters on the Clinton Presidency, the 2000 elections, and the War on Terrorism.

a peoples history of the united states: Voices of a People's History of the United States Howard Zinn, Anthony Arnove, 2011-01-04 Here in their own words are Frederick Douglass, George Jackson, Chief Joseph, Martin Luther King Jr., Plough Jogger, Sacco and Vanzetti, Patti Smith, Bruce Springsteen, Mark Twain, and Malcolm X, to name just a few of the hundreds of voices that appear in Voices of a People's History of the United States, edited by Howard Zinn and Anthony Arnove. Paralleling the twenty-four chapters of Zinn's A People's History of the United States, Voices of a People's History is the long-awaited companion volume to the national bestseller. For Voices, Zinn and Arnove have selected testimonies to living history—speeches, letters, poems, songs—left by the people who make history happen but who usually are left out of history books—women, workers, nonwhites. Zinn has written short introductions to the texts, which range in length from letters or poems of less than a page to entire speeches and essays that run several pages. Voices of a People's History is a symphony of our nation's original voices, rich in ideas and actions, the embodiment of the power of civil disobedience and dissent wherein lies our nation's true spirit of defiance and resilience.

a peoples history of the united states: A People's History of American Empire Howard Zinn, Mike Konopacki, Paul Buhle, 2008-04-01 Adapted from the bestselling grassroots history of the United States, the story of America in the world, told in comics form Since its landmark publication in 1980, A People's History of the United States has had six new editions, sold more than 1.7 million copies, become required classroom reading throughout the country, and been turned into an acclaimed play. More than a successful book, A People's History triggered a revolution in the way history is told, displacing the official versions with their emphasis on great men in high places to chronicle events as they were lived, from the bottom up. Now Howard Zinn, historian Paul Buhle, and cartoonist Mike Konopacki have collaborated to retell, in vibrant comics form, a most immediate and relevant chapter of A People's History: the centuries-long story of America's actions in the world. Narrated by Zinn, this version opens with the events of 9/11 and then jumps back to explore the cycles of U.S. expansionism from Wounded Knee to Iraq, stopping along the way at World War I, Central America, Vietnam, and the Iranian revolution. The book also follows the story of Zinn, the son of poor Jewish immigrants, from his childhood in the Brooklyn slums to his role as one of America's leading historians. Shifting from world-shattering events to one family's small revolutions, A People's History of American Empire presents the classic ground-level history of America in a dazzling new form.

a peoples history of the united states: A People's History of the U.S. Military Michael A. Bellesiles, 2012-09-11 In A People's History of the U.S. Military, historian Michael A. Bellesiles draws from three centuries of soldiers' personal encounters with combat—through fascinating excerpts from letters, diaries, and memoirs, as well as audio recordings, film, and blogs—to capture the essence of the American military experience firsthand, from the American Revolution to the wars in Iraq and Afghanistan. Military service can shatter and give meaning to lives; it is rarely a neutral encounter, and has contributed to a rich outpouring of personal testimony from the men and women who have literally placed their lives on the line. The often dramatic and always richly textured first-person accounts collected in this book cover a wide range of perspectives, from ardent patriots to disillusioned cynics; barely literate farm boys to urbane college graduates; scions of founding families to recent immigrants, enthusiasts, and dissenters; women disguising themselves as men in order to serve their country to African Americans fighting for their freedom through military service. A work of great relevance and immediacy—as the nation grapples with the return of thousands of men and women from active military duty—A People's History of the U.S. Military will become a

major new touchstone for our understanding of American military service.

a peoples history of the united states: An Indigenous Peoples' History of the United States (10th Anniversary Edition) Roxanne Dunbar-Ortiz, 2023-10-03 New York Times Bestseller Now part of the HBO docuseries *Exterminate All the Brutes*, written and directed by Raoul Peck Recipient of the American Book Award The first history of the United States told from the perspective of indigenous peoples Today in the United States, there are more than five hundred federally recognized Indigenous nations comprising nearly three million people, descendants of the fifteen million Native people who once inhabited this land. The centuries-long genocidal program of the US settler-colonial regimen has largely been omitted from history. Now, for the first time, acclaimed historian and activist Roxanne Dunbar-Ortiz offers a history of the United States told from the perspective of Indigenous peoples and reveals how Native Americans, for centuries, actively resisted expansion of the US empire. With growing support for movements such as the campaign to abolish Columbus Day and replace it with Indigenous Peoples' Day and the Dakota Access Pipeline protest led by the Standing Rock Sioux Tribe, *An Indigenous Peoples' History of the United States* is an essential resource providing historical threads that are crucial for understanding the present. In *An Indigenous Peoples' History of the United States*, Dunbar-Ortiz adroitly challenges the founding myth of the United States and shows how policy against the Indigenous peoples was colonialist and designed to seize the territories of the original inhabitants, displacing or eliminating them. And as Dunbar-Ortiz reveals, this policy was praised in popular culture, through writers like James Fenimore Cooper and Walt Whitman, and in the highest offices of government and the military. Shockingly, as the genocidal policy reached its zenith under President Andrew Jackson, its ruthlessness was best articulated by US Army general Thomas S. Jesup, who, in 1836, wrote of the Seminoles: "The country can be rid of them only by exterminating them." Spanning more than four hundred years, this classic bottom-up peoples' history radically reframes US history and explodes the silences that have haunted our national narrative. *An Indigenous Peoples' History of the United States* is a 2015 PEN Oakland-Josephine Miles Award for Excellence in Literature.

a peoples history of the united states: A People's History of the United States Howard Zinn, 2012-11 The Abridged Teaching Edition of *A People's History of the United States* has made Howard Zinn's original text available specifically for classroom use. With exercises and teaching materials to accompany each chapter, this edition spans American Beginnings, Reconstruction, the Civil War and through to the present, with new chapters on the Clinton Presidency, the 2000 elections, and the War on Terrorism.

a peoples history of the united states: A People's History for the Classroom Bill Bigelow, Howard Zinn, 2008 Presents a collection of lessons and activities for teaching American history for students in middle school and high school.

a peoples history of the united states: What's My Name, Fool? Dave Zirin, 2011-02 In *Whats My Name, Fool?* sports writer Dave Zirin shows how sports express the worst - and at times the most creative, exciting, and political - features of our society. Zirins sharp and insightful commentary on the personalities, politics, and history of American sports is unlike any sports writing being done today. Zirin explores how NBA brawls highlight tensions beyond the arena, how the bold stances taken by sports unions can chart a path for the entire labor movement, and the unexplored political stirrings of a new generation of athletes who are no longer content to just "play one game at a time." *Whats My Name, Fool?* draws on original interviews with former heavyweight champ George Foreman, Olympic athlete John Carlos, NBA player and anti-death penalty activist Etan Thomas, antiwar womens college hoopster Toni Smith, Olympic Project for Human Rights leader Lee Evans and many others. It also unearths a history of athletes ranging from Jackie Robinson to Muhammad Ali to Billie Jean King, who charted a new course through their athletic ability and their outspoken views.

a peoples history of the united states: A Young People's History of the United States Howard Zinn, 2011-01-04 *A Young People's History of the United States* brings to US history the viewpoints of workers, slaves, immigrants, women, Native Americans, and others whose stories, and

their impact, are rarely included in books for young people. A Young People's History of the United States is also a companion volume to *The People Speak*, the film adapted from *A People's History of the United States* and *Voices of a People's History of the United States*. Beginning with a look at Christopher Columbus's arrival through the eyes of the Arawak Indians, then leading the reader through the struggles for workers' rights, women's rights, and civil rights during the nineteenth and twentieth centuries, and ending with the current protests against continued American imperialism, Zinn in the volumes of *A Young People's History of the United States* presents a radical new way of understanding America's history. In so doing, he reminds readers that America's true greatness is shaped by our dissident voices, not our military generals.

a peoples history of the united states: A Patriot's History of the United States Larry Schweikart, Michael Patrick Allen, 2004-12-29 For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. *A Patriot's History of the United States* corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.

a peoples history of the united states: An Indigenous Peoples' History of the United States for Young People Roxanne Dunbar-Ortiz, 2019-07-23 2020 American Indian Youth Literature Young Adult Honor Book 2020 Notable Social Studies Trade Books for Young People, selected by National Council for the Social Studies (NCSS) and the Children's Book Council 2019 Best-Of Lists: Best YA Nonfiction of 2019 (Kirkus Reviews) · Best Nonfiction of 2019 (School Library Journal) · Best Books for Teens (New York Public Library) · Best Informational Books for Older Readers (Chicago Public Library) Spanning more than 400 years, this classic bottom-up history examines the legacy of Indigenous peoples' resistance, resilience, and steadfast fight against imperialism. Going beyond the story of America as a country "discovered" by a few brave men in the "New World," Indigenous human rights advocate Roxanne Dunbar-Ortiz reveals the roles that settler colonialism and policies of American Indian genocide played in forming our national identity. The original academic text is fully adapted by renowned curriculum experts Debbie Reese and Jean Mendoza, for middle-grade and young adult readers to include discussion topics, archival images, original maps, recommendations for further reading, and other materials to encourage students, teachers, and general readers to think critically about their own place in history.

a peoples history of the united states: A People's History of the United States Howard Zinn, 1999-12-01 Presents the history of the United States from the point of view of those who were exploited in the name of American progress

a peoples history of the united states: A People's History of Poverty in America Stephen Pimpare, 2011-06-07 In *A People's History of Poverty in America*, political scientist Stephen Pimpare brings the human lives and real-life stories of those who struggle with poverty in America to the foreground, vividly describing life as poor and welfare-reliant Americans experience it, from the big city to the rural countryside. Prodigious research, *A People's History of Poverty in America* unearths rich, poignant, and often surprising testimonies—both heart-wrenching and humorous—that range from the early days of the United States to the present day. Pimpare shows us how the poor have found food, secured shelter, and created community, and, most important, he illuminates their battles for dignity and respect in the face of the judgment, control, and disdain that are all too often the price they must pay for charity and government aid. In telling these hidden stories, Pimpare argues eloquently for a fundamental rethinking of poverty, one that includes both a more nuanced understanding of the history of the American welfare state, and a meaningful—and

truly accurate—new definition of the poverty line. Hailed by Kirkus Reviews as an “illuminating history of America's poor” and a “useful counter against those who blame the poor for their bad luck,” *A People's History of Poverty in America* reminds us that poverty is not in itself a moral failure, but our failure to understand it may well be.

a peoples history of the united states: *A People's History of the United States* Howard Zinn, 2010-01-26 “It’s a wonderful, splendid book—a book that should be read by every American, student or otherwise, who wants to understand his country, its true history, and its hope for the future.” —Howard Fast, author of *Spartacus* and *The Immigrants* “[It] should be required reading.” —Eric Foner, *New York Times Book Review* Library Journal calls Howard Zinn’s iconic *A People's History of the United States* “a brilliant and moving history of the American people from the point of view of those...whose plight has been largely omitted from most histories.” Packed with vivid details and telling quotations, Zinn’s award-winning classic continues to revolutionize the way American history is taught and remembered. Frequent appearances in popular media such as *The Sopranos*, *The Simpsons*, *Good Will Hunting*, and the History Channel documentary *The People Speak* testify to Zinn’s ability to bridge the generation gap with enduring insights into the birth, development, and destiny of the nation.

a peoples history of the united states: *A People's History of the Civil War* David Williams, 2011-05-10 “Does for the Civil War period what Howard Zinn’s *A People’s History of the United States* did for the study of American history in general.” —Library Journal Historian David Williams has written the first account of the American Civil War as viewed through the eyes of ordinary people—foot soldiers, slaves, women, prisoners of war, draft resisters, Native Americans, and others. Richly illustrated with little-known anecdotes and firsthand testimony, this path-breaking narrative moves beyond presidents and generals to tell a new and powerful story about America’s most destructive conflict. *A People’s History of the Civil War* is a “readable social history” that “sheds fascinating light” on this crucial period. In so doing, it recovers the long-overlooked perspectives and forgotten voices of one of the defining chapters of American history (*Publishers Weekly*). “Meticulously researched and persuasively argued.” —The Atlanta Journal-Constitution

a peoples history of the united states: *A People's History of the United States* Howard Zinn, Kathy Emery, Ellen Reeves, 2003 Presents the history of the United States from the point of view of those who were exploited in the name of American progress.

a peoples history of the united states: *A True History of the United States* Daniel A. Sjsursen, 2021-06-01 “Thought-provoking—a must read for [everyone] seeking a firm grasp of accurate American history. —Kirkus (starred review) Brilliant, readable, and raw. Maj. (ret.) Danny Sjsursen, who served combat tours in Iraq and Afghanistan and later taught history at West Point, delivers a true epic and the perfect companion to Howard Zinn’s *A People’s History of the United States*. Sjsursen shifts the lens and challenges readers to think critically and to apply common sense to their understanding of our nation's past—and present—so we can view history as never before. *A True History of the United States* was inspired by a course that Sjsursen taught to cadets at West Point, his alma mater. With chapter titles such as *Patriots or Insurgents?* and *The Decade That Roared and Wept*, *A True History* is accurate with respect to the facts and intellectually honest in its presentation and analysis. Essential reading for every American with a conscience. Meticulously researched, Sjsursen provides a more complete sense of history and encourages readers to view our country objectively. Sjsursen’s powerful storytelling reveals balanced portraits of key figures and the role they played. Sjsursen exposes the dominant historical narrative as at best myth, and at times a lie . . . He brings out from the shadows those who struggled, often at the cost of their own lives, for equality and justice. Their stories, so often ignored or trivialized, give us examples of who we should emulate and who we must become. —Chris Hedges, author of *Empire of Illusion* and *America: The Farewell Tour*

a peoples history of the united states: *Truth Has a Power of Its Own* Howard Zinn, 2019-09-03 American history told from the bottom up by Howard Zinn himself—and the perfect all-ages introduction to his eye-opening viewpoint, published on Zinn’s hundredth birthday *Truth*

Has a Power of Its Own is an engrossing collection of conversations with the late Howard Zinn and “an eloquently hopeful introduction for those who haven’t yet encountered Zinn’s work” (Booklist). Here is an unvarnished, yet ultimately optimistic, tour of American history—told by someone who was often an active participant in it. Viewed through the lens of Zinn’s own life as a soldier, historian, and activist and using his paradigm-shifting *A People’s History of the United States* as a point of departure, these conversations explore the American Revolution, the Civil War, the labor battles of the nineteenth and twentieth centuries, U.S. imperialism from the Indian Wars to the War on Terrorism, World Wars I and II, the Cold War, and the fight for equality and immigrant rights—all from an unapologetically radical standpoint. Longtime admirers and a new generation of readers alike will be fascinated to learn about Zinn’s thought processes, rationale, motivations, and approach to his now-iconic historical work. Zinn’s humane (and often humorous) voice—along with his keen moral vision—shine through every one of these lively and thought-provoking conversations. Battles over the telling of our history still rage across the country, and there’s no better person to tell it than Howard Zinn.

a peoples history of the united states: *“Exterminate All the Brutes”* Sven Lindqvist, 2021-03-30 Now part of the eponymous HBO docuseries written and directed by Raoul Peck, “Exterminate All the Brutes” is a brilliant intellectual history of Europe’s genocidal colonization of Africa—and the terrible myths and lies that it spawned “A book of stunning range and near genius. . . The catastrophic consequences of European imperialism are made palpable in the personal progress of the author, a late-twentieth-century pilgrim in Africa. Lindqvist’s astonishing connections across time and cultures, combined with a marvelous economy of prose, leave the reader appalled, reflective, and grateful.” —David Levering Lewis “Exterminate All the Brutes,” Sven Lindqvist’s widely acclaimed masterpiece, is a searching examination of Europe’s dark history in Africa and the origins of genocide. Using Joseph Conrad’s *Heart of Darkness* as his point of departure, the award-winning Swedish author takes us on a haunting tour through the colonial past, interwoven with a modern-day travelogue. Retracing the steps of European explorers, missionaries, politicians, and historians in Africa from the late eighteenth century onward, “Exterminate All the Brutes” exposes the roots of genocide in Africa through Lindqvist’s own journey through the Saharan desert. As he shows, fantasies not merely of white superiority but of actual extermination—“cleansing” the earth of the so-called lesser races—deeply informed the colonialism and racist ideology that ultimately culminated in Europe’s own Holocaust. Conquerors’ stories are the ones that inform the self-mythology of the West—whereas the lives and stories of those displaced, enslaved, or killed are too often ignored and forgotten. “Exterminate All the Brutes” forces a crucial reckoning with a past that still echoes in our collective psyche—a reckoning that compels us to acknowledge the exploitation and brutality at the heart of our modern, globalized society. As Adam Hochschild has written, “Lindqvist’s work leaves you changed.”

a peoples history of the united states: *A People’s History of the World* Chris Harman, 2017-05-02 Building on *A People’s History of the United States*, this radical world history captures the broad sweep of human history from the perspective of struggling classes. An “indispensable volume” on class and capitalism throughout the ages—for readers reckoning with the history they were taught and history as it truly was (Howard Zinn) From the earliest human societies to the Holy Roman Empire, from the Middle Ages to the Enlightenment, from the Industrial Revolution to the end of the twentieth century, Chris Harman provides a brilliant and comprehensive history of the human race. Eschewing the standard accounts of “Great Men,” of dates and kings, Harman offers a groundbreaking counter-history, a breathtaking sweep across the centuries in the tradition of “history from below.” In a fiery narrative, he shows how ordinary men and women were involved in creating and changing society and how conflict between classes was often at the core of these developments. While many scholars see the victory of capitalism as now safely secured, Harman explains the rise and fall of societies and civilizations throughout the ages and demonstrates that history moves ever onward in every age. A vital corrective to traditional history, *A People’s History of the World* is essential reading for anyone interested in how society has changed and developed

and the possibilities for further radical progress.

a peoples history of the united states: *A People's History of Computing in the United States* Joy Lisi Rankin, 2018-10-08 Silicon Valley gets all the credit for digital creativity, but this account of the pre-PC world, when computing meant more than using mature consumer technology, challenges that triumphalism. The invention of the personal computer liberated users from corporate mainframes and brought computing into homes. But throughout the 1960s and 1970s a diverse group of teachers and students working together on academic computing systems conducted many of the activities we now recognize as personal and social computing. Their networks were centered in New Hampshire, Minnesota, and Illinois, but they connected far-flung users. Joy Rankin draws on detailed records to explore how users exchanged messages, programmed music and poems, fostered communities, and developed computer games like *The Oregon Trail*. These unsung pioneers helped shape our digital world, just as much as the inventors, garage hobbyists, and eccentric billionaires of Palo Alto. By imagining computing as an interactive commons, the early denizens of the digital realm seeded today's debate about whether the internet should be a public utility and laid the groundwork for the concept of net neutrality. Rankin offers a radical precedent for a more democratic digital culture, and new models for the next generation of activists, educators, coders, and makers.

a peoples history of the united states: *A People's Future of the United States* Charlie Jane Anders, Lesley Nneka Arimah, Charles Yu, 2019-02-05 A glittering landscape of twenty-five speculative stories that challenge oppression and envision new futures for America—from N. K. Jemisin, Charles Yu, Jamie Ford, G. Willow Wilson, Charlie Jane Anders, Hugh Howey, and more. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY PUBLISHERS WEEKLY In these tumultuous times, in our deeply divided country, many people are angry, frightened, and hurting. Knowing that imagining a brighter tomorrow has always been an act of resistance, editors Victor LaValle and John Joseph Adams invited an extraordinarily talented group of writers to share stories that explore new forms of freedom, love, and justice. They asked for narratives that would challenge oppressive American myths, release us from the chokehold of our history, and give us new futures to believe in. They also asked that the stories be badass. The result is this spectacular collection of twenty-five tales that blend the dark and the light, the dystopian and the utopian. These tales are vivid with struggle and hardship—whether it's the othered and the terrorized, or dragonriders and covert commandos—but these characters don't flee, they fight. Thrilling, inspiring, and a sheer joy to read, *A People's Future of the United States* is a gift for anyone who believes in our power to dream a just world. Featuring stories by Violet Allen • Charlie Jane Anders • Lesley Nneka Arimah • Ashok K. Banker • Tobias S. Buckell • Tananarive Due • Omar El Akkad • Jamie Ford • Maria Dahvana Headley • Hugh Howey • Lizz Huerta • Justina Ireland • N. K. Jemisin • Alice Sola Kim • Seanan McGuire • Sam J. Miller • Daniel José Older • Malka Older • Gabby Rivera • A. Merc Rustad • Kai Cheng Thom • Catherynne M. Valente • Daniel H. Wilson • G. Willow Wilson • Charles Yu

a peoples history of the united states: *The Southern Mystique* Howard Zinn, 2012-06-04 Howard Zinn examines the politics of the South and his own experiences there. The South has long been surrounded in mystique. In this powerful volume, drawing on Zinn's own experiences teaching in the South and working within the Southern civil rights movement, Zinn challenges the stereotypes surrounding the South, race relations, and how change happens in history. With a new introduction from the author.

a peoples history of the united states: *A People's History of Sports in the United States* Dave Zirin, 2009 A riotously entertaining chronicle of larger-than-life sporting characters and dramatic contests, this is an alternative political history of the United States as seen through the games its people played. Replete with surprises for seasoned sports fans, it will also amaze anyone interested in history with the connections Zirin draws between politics and sports. A groundbreaking book, it looks at the history of sports in the US through the lens of politics and culture, and shows how athlete-rebels have used sports for social and political change.

a peoples history of the united states: *A People's History of the Supreme Court* Peter Irons, 2006-07-25 A comprehensive history of the people and cases that have changed history, this is the

definitive account of the nation's highest court featuring a forward by Howard Zinn Recent changes in the Supreme Court have placed the venerable institution at the forefront of current affairs, making this comprehensive and engaging work as timely as ever. In the tradition of Howard Zinn's classic *A People's History of the United States*, Peter Irons chronicles the decisions that have influenced virtually every aspect of our society, from the debates over judicial power to controversial rulings in the past regarding slavery, racial segregation, and abortion, as well as more current cases about school prayer, the Bush/Gore election results, and enemy combatants. To understand key issues facing the supreme court and the current battle for the court's ideological makeup, there is no better guide than Peter Irons. This revised and updated edition includes a foreword by Howard Zinn. A sophisticated narrative history of the Supreme Court . . . [Irons] breathes abundant life into old documents and reminds readers that today's fiercest arguments about rights are the continuation of the endless American conversation. -Publisher's Weekly (starred review)

a peoples history of the united states: Debunking Howard Zinn Mary Grabar, 2019-08-20 Howard Zinn's *A People's History of the United States* has sold more than 2.5 million copies. It is pushed by Hollywood celebrities, defended by university professors who know better, and assigned in high school and college classrooms to teach students that American history is nothing more than a litany of oppression, slavery, and exploitation. Zinn's history is popular, but it is also massively wrong. Scholar Mary Grabar exposes just how wrong in her stunning new book *Debunking Howard Zinn*, which demolishes Zinn's Marxist talking points that now dominate American education. In *Debunking Howard Zinn*, you'll learn, contra Zinn: How Columbus was not a genocidal maniac, and was, in fact, a defender of Indians Why the American Indians were not feminist-communist sexual revolutionaries ahead of their time How the United States was founded to protect liberty, not white males' ill-gotten wealth Why Americans of the "Greatest Generation" were not the equivalent of Nazi war criminals How the Viet Cong were not well-meaning community leaders advocating for local self-rule Why the Black Panthers were not civil rights leaders Grabar also reveals Zinn's bag of dishonest rhetorical tricks: his slavish reliance on partisan history, explicit rejection of historical balance, and selective quotation of sources to make them say the exact opposite of what their authors intended. If you care about America's past—and our future—you need this book.

a peoples history of the united states: *People's History of the United States: 1492 to Present* Howard Zinn, 2005-08 Presents the history of the United States from the point of view of those who were exploited in the name of American progress

a peoples history of the united states: A People's History of Modern Europe William A. Pelz, 2016 From the monarchical terror of the Middle Ages to the mangled Europe of the twenty-first century, *A People's History of Modern Europe* tracks the history of the continent through the deeds of those whom mainstream history tries to forget. Europe provided the perfect conditions for a great number of political revolutions from below. The German peasant wars of Thomas Muntzer, the bourgeois revolutions of the eighteenth century, the rise of the industrial worker in England, the turbulent journey of the Russian Soviets, the role of the European working class throughout the Cold War, student protests in 1968 and through to the present day, when we continue to fight to forge an alternative to the barbaric economic system. With sections focusing on the role of women, this history sweeps away the tired platitudes of the privileged upon which our current understanding is based, and provides an opportunity to see our history differently.

a peoples history of the united states: These Truths: A History of the United States Jill Lepore, 2018-09-18 "Nothing short of a masterpiece." —NPR Books A New York Times Bestseller and a Washington Post Notable Book of the Year In the most ambitious one-volume American history in decades, award-winning historian Jill Lepore offers a magisterial account of the origins and rise of a divided nation. Widely hailed for its "sweeping, sobering account of the American past" (New York Times Book Review), Jill Lepore's one-volume history of America places truth itself—a devotion to facts, proof, and evidence—at the center of the nation's history. The American experiment rests on three ideas—"these truths," Jefferson called them—political equality, natural rights, and the sovereignty of the people. But has the nation, and democracy itself, delivered on that promise?

These Truths tells this uniquely American story, beginning in 1492, asking whether the course of events over more than five centuries has proven the nation's truths, or belied them. To answer that question, Lepore wrestles with the state of American politics, the legacy of slavery, the persistence of inequality, and the nature of technological change. "A nation born in contradiction... will fight, forever, over the meaning of its history," Lepore writes, but engaging in that struggle by studying the past is part of the work of citizenship. With *These Truths*, Lepore has produced a book that will shape our view of American history for decades to come.

a peoples history of the united states: *Part of Our Lives* Wayne A. Wiegand, 2015 Challenges conventional thinking and top-down definitions, instead drawing on the library user's perspective to argue that the public library's most important function is providing commonplace reading materials and public space. Challenges a professional ethos about public libraries and their responsibilities to fight censorship and defend intellectual freedom. Demonstrates that the American public library has been (with some notable exceptions) a place that welcomed newcomers, accepted diversity, and constructed community since the end of the 19th century. Shows how stories that cultural authorities have traditionally disparaged- i.e. books that are not serious- have often been transformative for public library users.

a peoples history of the united states: *A People's History of Baseball* Mitchell Nathanson, 2012-03-30 Baseball is much more than the national pastime. It has become an emblem of America itself. From its initial popularity in the mid-nineteenth century, the game has reflected national values and beliefs and promoted what it means to be an American. Stories abound that illustrate baseball's significance in eradicating racial barriers, bringing neighborhoods together, building civic pride, and creating on the field of play an instructive civics lesson for immigrants on the national character. In *A People's History of Baseball*, Mitchell Nathanson probes the less well-known but no less meaningful other side of baseball: episodes not involving equality, patriotism, heroism, and virtuous capitalism, but power--how it is obtained, and how it perpetuates itself. Through the growth and development of baseball Nathanson shows that, if only we choose to look for it, we can see the petty power struggles as well as the large and consequential ones that have likewise defined our nation. By offering a fresh perspective on the firmly embedded tales of baseball as America, a new and unexpected story emerges of both the game and what it represents. Exploring the founding of the National League, Nathanson focuses on the newer Americans who sought club ownership to promote their own social status in the increasingly closed caste of nineteenth-century America. His perspective on the rise and public rebuke of the Players Association shows that these baseball events reflect both the collective spirit of working and middle-class America in the mid-twentieth century as well as the countervailing forces that sought to beat back this emerging movement that threatened the status quo. And his take on baseball's racial integration that began with Branch Rickey's "Great Experiment" reveals the debilitating effects of the harsh double standard that resulted, requiring a black player to have unimpeachable character merely to take the field in a Major League game, a standard no white player was required to meet. Told with passion and occasional outrage, *A People's History of Baseball* challenges the perspective of the well-known, deeply entrenched, hyper-patriotic stories of baseball and offers an incisive alternative history of America's much-loved national pastime.

a peoples history of the united states: *U.S. History* P. Scott Corbett, Volker Janssen, John M. Lund, Todd Pfannestiel, Sylvie Waskiewicz, Paul Vickery, 2024-09-10 *U.S. History* is designed to meet the scope and sequence requirements of most introductory courses. The text provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). *U.S. History* covers key forces that form the American experience, with particular attention to issues of race, class, and gender.

a peoples history of the united states: *A People's History of Latin America* Hernán Horna, 2014-02 Original title: *A history of Latin America*.

a peoples history of the united states: *A People's History of the United States* Howard

Zinn, 2003 This account of US history from the bottom up tells the real story of the people, rather than the flag-waving official story.

a peoples history of the united states: A People's Art History of the United States Nicolas Lampert, 2013-11-05 Most people outside of the art world view art as something that is foreign to their experiences and everyday lives. A People's Art History of the United States places art history squarely in the rough-;and-;tumble of politics, social struggles, and the fight for justice from the colonial era through the present day. Author and radical artist Nicolas Lampert combines historical sweep with detailed examinations of individual artists and works in a politically charged narrative that spans the conquest of the Americas, the American Revolution, slavery and abolition, western expansion, the suffragette movement and feminism, civil rights movements, environmental movements, LGBT movements, antiglobalization movements, contemporary antiwar movements, and beyond. A People's Art History of the United States introduces us to key works of American radical art alongside dramatic retellings of the histories that inspired them. Stylishly illustrated with over two hundred images, this book is nothing less than an alternative education for anyone interested in the powerful role that art plays in our society.

a peoples history of the united states: The Other Civil War Howard Zinn, 2011-03-15 The Other Civil War offers historian and activist Howard Zinn's view of the social and civil background of the American Civil War—a view that is rarely provided in standard historical texts. Drawn from his New York Times bestseller A People's History of the United States, this set of essays recounts the history of American labor, free and not free, in the years leading up to and during the Civil War. He offers an alternative yet necessary account of that terrible nation-defining epoch.

a peoples history of the united states: The Immigrants Howard Fast, 2010-03-01 A most wonderful book...there hasn't been a novel in years that can do a job on readers' emotions that the last fifty pages of The Immigrants does.—Los Angeles Times The first book in bestselling author Howard Fast's beloved family saga, The Immigrants is a transcendent work of historical fiction. In this sweeping journey of love and fortune, master storyteller Howard Fast recounts the family saga of roughneck immigrants determined to make their way in America at the turn of the century. Quick to ascend from the tragic depths of the 1906 San Francisco earthquake, Dan Lavette becomes the head of a powerful shipping empire and establishes himself among the city's cultural elite. But when he finds himself caught in a loveless marriage to the daughter of San Francisco's richest family, a scandalous love affair threatens to destroy the empire Dan has built for himself. The first novel of a compelling family saga, The Immigrants is fast-paced, emotional historical fiction that captures the wide range of relationships across Immigrant America during the tumultuous defining events of the early twentieth century. NOW A MOTION PICTURE

a peoples history of the united states: Failure to Quit Howard Zinn, 2002 A selection of Howard Zinn's most popular and accessible essays on history and politics. In this lively collection of essays, now with a new afterword, Zinn discusses a wide range of historical and political topics, from the role of the Supreme Court in U.S. history to the nature of higher education today.

a peoples history of the united states: Icons Steve Kenson, Gareth-Michael Skarka, Walt Ciechanowski, Morgan Davie, 2010 What kid raised in recent generations hasn't pretended to be a superhero at some point: worn a cape, flown around, bounced imaginary bullets or shot blasts of power from hands or eyes? Why not? After all, the superhero is the perfect modern fantasy: powerful, respected, and loved by the public, but with a message of responsibility, duty, truth, and justice that appeals to parents as well as kids. In countless comic books (and now graphic novels), cartoons, and live-action television shows and films, superheroes continue to thrill and capture our imagination while also celebrating some of our better qualities. Who wouldn't want to be a hero? With ICONS, you can be! Steve Kenson, the designer of the best-selling Mutants & Masterminds delivers a superpowered new role-playing game, inspired by the fast-playing old-school games and the new generation of narrative role-play! Within its pages are complete rules for character creation, abilities and powers, random adventure generation, a rogue's gallery of villains, a complete adventure and all the superheroic action you can handle!
