that doesn't mean it's an effective one. Despite the complicated challenges of schools, they come to and remain in the profession inspired by a conviction that through education they can move individuals and society to a more promising future. In *Teaching with Heart: Poetry that Speaks to the Courage to Teach* a diverse group of ninety teachers describe the complex of emotions and experiences of the teaching life – joy, outrage, heartbreak, hope, commitment and dedication. Each heartfelt commentary is paired with a cherished poem selected by the teacher. The contributors represent a broad array of educators: K-12 teachers, principals, superintendents, college professors, as well as many non-traditional teachers. They range from first year teachers to mid-career veterans to those who have retired after decades in the classroom. They come from inner-city, suburban, charter and private schools. The teachers identified an eclectic collection of poems and poets from Emily Dickinson, to Richard Wright, to Mary Oliver to the rapper Tupac Shakur. It is a book by teachers and for all who teach. The book also includes a poignant Foreword by Parker J. Palmer (*The Courage to Teach*), a stirring Introduction by Taylor Mali (*What Teachers Make*), and a moving Afterword by Sarah Brown Wessling (*Teaching Channel*). Where *Teaching with Fire* honored and celebrated the work of teachers; *Teaching with Heart* salutes the tenacious and relentless optimism of teachers and their belief that despite the many challenges and obstacles of the teaching life, much is possible.

a letter from your teacher book: *I've Been Meaning to Tell You* David Chariandy, 2018-05-29 In the tradition of Ta-Nehisi Coates's *Between the World and Me* and Chimamanda Ngozi Adichie's *Dear Ijeawele, or a Feminist Manifesto in Fifteen Suggestions*, acclaimed novelist David Chariandy's latest is an intimate and profoundly beautiful meditation on the politics of race today. When a moment of quietly ignored bigotry prompted his three-year-old daughter to ask what happened? David Chariandy began wondering how to discuss with his children the politics of race. A decade later, in a newly heated era of both struggle and divisions, he writes a letter to his now thirteen-year-old daughter. David is the son of Black and South Asian migrants from Trinidad, and he draws upon his personal and ancestral past, including the legacies of slavery, indenture, and immigration, as well as the experiences of growing up a visible minority within the land of one's birth. In sharing with his daughter his own story, he hopes to help cultivate within her a sense of identity and responsibility that balances the painful truths of the past and present with hopeful

possibilities for the future.

a letter from your teacher book: *A Letter to Teachers* Vito Perrone, 1991-03-04 Teaching after all is about knowing children well—from A Letter to Teachers Perrone has given us a gift, a book worth reading over many times, an important reflection on his many years of close observation of schools and school people, parents, teachers, children, and their communities. —Deborah W. a letter from your teacher book: *It Won't Be Easy* Tom Rademacher, 2017-04-25 Tom Rademacher wishes someone had handed him this sort of book along with his teaching degree: a clear-eyed, frank, boots-on-the ground account of what he was getting into. But first he had to write it. And as 2014's Minnesota Teacher of the Year, Rademacher knows what he's talking about. Less a how-to manual than a tribute to an impossible and impossibly rewarding profession, *It Won't Be Easy* captures the experience of teaching in all its messy glory. The book follows a year of teaching, with each chapter tackling a different aspect of the job. Pulling no punches (and resisting no punch lines), he writes about establishing yourself in a new building; teaching meaningful classes, keeping students a priority; investigating how race, gender, and identity affect your work; and why it's a good idea to keep an extra pair of pants at school. Along the way he answers the inevitable and the unanticipated questions, from what to do with Google to how to tell if you're really a terrible teacher, to why "Keep your head down" might well be the worst advice for a new teacher. Though directed at prospective and newer teachers, *It Won't Be Easy* is mercifully short on jargon and long on practical wisdom, accessible to anyone—teacher, student, parent, pundit—who is interested in a behind-the-curtain look at teaching and willing to understand that, while there are no simple answers, there is power in learning to ask the right questions.

Written by Gabbie Stroud, author of the national bestseller Teacher, Dear Parents is a passionate call to arms for all parents to understand their role as their children's lifelong teachers, showing how they can help their kids' educators and schools achieve the best outcomes for the next generation. So many Australian parents are buying the government line about standardised testing of students through programs like NAPLAN and My School, which make them think they are getting results because of rankings and comparisons. But they don't seem to realise that these new forms of assessment are actually negatively affecting our kids' ability to gain the crucial life skills and appreciation for learning that have been, and should be, the main aim of teaching. In Dear Parents, a funny, heartfelt and impassioned series of letters to the mothers, fathers and caregivers of Australia, Gabbie Stroud makes a plea to all parents to understand the fundamental changes to the way their children are being taught, and the results of this process on the development of future generations. She wants parents to recognise their responsibility as their children's primary educators and to appreciate the lifelong benefits that committed and dedicated school teachers can bring to their kids. If you have a young person in your life, or know somebody who does, please read this book.' - Morris Gleitzman, Australian Children's Laureate 'Gabbie Stroud's Dear Parents is a crucial bridge between two important pillars in education - parents and teachers - but most importantly, it holds at its passionate heart the best interests of children. a letter from your teacher book: Germs Vs. Soap Didi Dragon, 2020-06-30 You know who really doesn't want you to wash your hands? Germs. Germs vs. Soap shows children (and adults) the secret world of germs and how much germs absolutely, positively do NOT like soap. In fact, these germs will do anything to trick kids into not washing their hands with soap because it's the one thing standing between them and their beloved energy cupcakes. And all they want is to gobble up all the energy cupcakes humans have to offer and then spread to eat some more. But only if soap doesn't get in the way. Otherwise, it's all down the drain for them. Children need to learn proper hand hygiene, but it does matter how you tell them. Did you jumpstart their imagination? A quirky book like Germs vs. Soap sticks with kids. The story becomes real, right there in the palm of their hands, the moment they step in front of the sink and pump some soap. Germs, beware!
