addis admas amharic: *Visions of Zion* Erin C. MacLeod, 2014 In reggae song after reggae song Bob Marley and other reggae singers speak of the Promised Land of Ethiopia. Repatriation is a must they cry. The Rastafari have been travelling to Ethiopia since the movement originated in Jamaica in 1930s. They consider it the Promised Land, and repatriation is a cornerstone of their faith. Though Ethiopians see Rastafari as immigrants, the Rastafari see themselves as returning members of the Ethiopian diaspora. In *Visions of Zion*, Erin C. MacLeod offers the first in-depth investigation into how Ethiopians perceive Rastafari and Rastafarians within Ethiopia and the role this unique immigrant community plays within Ethiopian society. Rastafari are unusual among migrants, basing their movements on spiritual rather than economic choices. This volume offers those who study the movement a broader understanding of the implications of repatriation. Taking the Ethiopian perspective into account, it argues that migrant and diaspora identities are the products of negotiation, and it illuminates the implications of this negotiation for concepts of citizenship, as well as for our understandings of pan-Africanism and south-south migration. Providing a rare look at migration to a non-Western country, this volume also fills a gap in the broader immigration studies literature.

addis admas amharic: Language Policy in Ethiopia Mekonnen Alemu Gebre Yohannes, 2021-03-22 This book examines the interplay and tensions between hegemonic and counter-hegemonic language policy and processes in Tigray, a regional state of Ethiopia, in the period of pre- and post-1991. Viewing language use and language policy as dynamic social and ideological processes, the book presents Ethiopia as an example of language policy creation and implementation over time, in a highly volatile political context. The case of Ethiopia is unique in that different language policies and practices were put in place as the country's leaders changed through political takeovers. Declared language policies were not always implemented, and those implemented were often protested. The book starts with an overview and review of language policy and planning, followed by a chapter on the history of such planning in Ethiopia. It then presents the methodology used for the study, and examines the appropriation of hegemonic LPP, patterns of resistance, schools and public sites as centers of resistance, and the emergence and development of specific patterns of language use in different regions of the country. The book ends with recommendations for future research, and draws the overall conclusion that since LPP is a dynamic and multilayered contextual process, official or de facto language policy is often undermined by overt or covert unofficial language policies, ideologies, mechanisms, and agents that result in different patterns of language use.

addis admas amharic: Reconfiguring Ethiopia: The Politics of Authoritarian Reform Jon Abbink, Tobias Hagmann, 2016-04-22 This book takes stock of political reform in Ethiopia and the

transformation of Ethiopian society since the adoption of multi-party politics and ethnic federalism in 1991. Decentralization, attempted democratization via ethno-national representation, and partial economic liberalization have reconfigured Ethiopian society and state in the past two decades. Yet, as the contributors to this volume demonstrate, 'democracy' in Ethiopia has not changed the authority structures and the culture of centralist decision-making of the past. The political system is tightly engineered and controlled from top to bottom by the ruling Ethiopian Peoples' Revolutionary Democratic Front (EPRDF). Navigating between its 1991 announcements to democratise the country and its aversion to power-sharing, the EPRDF has established a de facto one-party state that enjoys considerable international support. This ruling party has embarked upon a technocratic 'developmental state' trajectory ostensibly aimed at 'depoliticizing' national policy and delegitimizing alternative courses. The contributors analyze the dynamics of authoritarian state-building, political ethnicity, electoral politics and state-society relations that have marked the Ethiopian polity since the downfall of the socialist Derg regime. Chapters on ethnic federalism, 'revolutionary democracy', opposition parties, the press, the judiciary, state-religion, and state-foreign donor relations provide the most comprehensive and thought-provoking review of contemporary Ethiopian national politics to date. This book is based on a special issue of the Journal of Eastern African Studies.

addis admas amharic: The Ethiopian Homily on the Ark of the Covenant Amsalu Tefera, 2015-08-31 In *The Ethiopian Homily on the Ark of the Covenant*, Amsalu Tefera offers an editio princeps of the Ethiopic text of *Dərsanä Šəyon* together with an annotated English translation. This homily, most likely composed in the fifteenth century, links the term Zion with the Ark of the Covenant and recounts at length its wanderings from Sinai to Ethiopia. As a Christian document, many of the events are interpreted as symbolic of Mary and the heavenly New Jerusalem. First edited by the author for his 2011 doctoral dissertation, the critical text and apparatus present a complete collation of the ten known witnesses to this homily. Detailed notes are supplied on significant and difficult terms in the translation.

addis admas amharic: Sing and Sing On Kay Kaufman Shelemay, 2022-01-11 A sweeping history of Ethiopian musicians during and following the 1974 Ethiopian revolution. *Sing and Sing On* is the first study of the forced migration of musicians out of the Horn of Africa dating from the 1974 Ethiopian revolution, a political event that overthrew one of the world's oldest monarchies and installed a brutal military regime. Musicians were among the first to depart the region, their lives shattered by revolutionary violence, curfews, and civil war. Reconstructing the memories of forced migration, *Sing and Sing On* traces the challenges musicians faced amidst revolutionary violence and the critical role they played in building communities abroad. Drawing on the recollections of dozens of musicians, *Sing and Sing On* details personal, cultural, and economic hardships experienced by musicians who have resettled in new locales abroad. Kay Kaufman Shelemay highlights their many artistic and social initiatives and the ways they have offered inspiration and leadership within and beyond a rapidly growing Ethiopian American diaspora. While musicians held this role as sentinels in Ethiopian culture long before the revolution began, it has taken on new meanings and contours in the Ethiopian diaspora. The book details the ongoing creativity of these musicians while exploring the attraction of return to their Ethiopian homeland over the course of decades abroad. Ultimately, Shelemay shows that musicians are uniquely positioned to serve this sentinel role as both guardians and challengers of cultural heritage.

addis admas amharic: Separation of Powers in African Constitutionalism Charles M. Fombad, 2016-03-03 The new series Stellenbosch Handbooks in African Constitutional Law will engage with contemporary issues of constitutionalism in Africa, filling a notable gap in African comparative constitutional law. *Separation of Powers in African Constitutionalism* is the first in the series, examining one of the critical measures introduced by African constitutional designers in their attempts to entrench an ethos of constitutionalism on the continent. Taking a critical look at the different ways in which attempts have been made to separate the different branches of government, the Handbook examines the impact this is having on transparent and accountable governance.

Beginning with an overview of constitutionalism in Africa and the different influences on modern African constitutional developments, it looks at the relationship between the legislature and the executive as well as the relationship between the judiciary and the political branches. Despite differences in approaches between the different constitutional cultures that have influenced developments in Africa, there remain common problems. One of these problems is the constant friction in the relationship between the three branches and the resurgent threats of authoritarianism which clearly suggest that there remain serious problems in both constitutional design and implementation. The book also studies the increasing role being played by independent constitutional institutions and how they complement the checks and balances associated with the traditional three branches of government.

Over the years, academics, journalists and individuals have produced a body of work connected directly, if in complex and varied ways, to contemporary ideological beliefs. This volume draws together various scholars from different parts of the world examining facets of the new visualization of wars and crisis in a range of innovative ways. All the contributors here pose questions concerned with the significance of visual political works today, and ask how images and personas have developed and been appropriated by others with their own distinct political agendas.

addis admas amharic: **Citizens, Civil Society, and Activism under the EPRDF Regime in Ethiopia** Camille Louise Pellerin, Logan Cochrane, 2023-07-15 In 2014-15, the Ethiopian government, together with many academics and observers, was surprised by the outbreak of anti-government protests, as large-scale public contestation of the Ethiopian People's Revolutionary Democratic Front (EPRDF) had been largely absent in the regime's history. The dominant narrative about the EPRDF regime was that it was a top-down government, using authoritarian methods to ensure the population abided by its visions and directives, and describing its role in paternalistic ways, such as being the protector and guardian of the people. Changing this narrative, *Citizens, Civil Society, and Activism under the EPRDF Regime in Ethiopia* considers how citizens and civil society expressed their interests and exerted their agency in an authoritarian setting. Focusing on the EPRDF regime over a period of three decades up to 2019, the book explores civic activism in Ethiopia, presenting diverse examples of how citizens have (re)shaped the country. Challenging state-centric readings of state-society relations under EPRDF governance, this collection provides a counternarrative that emphasizes the role and agency of citizens and civil society. The contributing authors draw on a heuristic analytical framework that examines different types of interactions between civil society and state actors (co-optation, co-operation, coexistence, and contestation) and captures the ways in which civil society actors make their voices heard. At a time when authoritarian forms of governance are increasingly prevalent across the world, this critically important collection offers insight into how citizens claim their agency and challenge state power in apparently top-down contexts.
