ballad of songbirds and snakes free: The Panic Years Nell Frizzell, 2021-02-09 Renowned journalist Nell Frizzell explores what happens when a woman begins to ask herself: should I have a

baby? We have descriptors for many periods of life—adolescence, menopause, mid-life crisis, quarter-life crisis—but there is a period of profound change that many women face, often in their late twenties to early forties, that does not yet have a name. Nell Frizzell is calling this period of flux “the panic years,” and it is often characterized by a preoccupation with one major question: should I have a baby? And from there—do I want a baby? With whom should I have a baby? How will I know when I’m ready? Decisions made during this period suddenly take on more weight, as questions of love, career, friendship, fertility, and family clash together while peers begin the process of coupling and breeding. But this very important process is rarely written or talked about beyond the clichés of the “ticking clock.” Enter Frizzell, our comforting guide, who uses personal stories from her own experiences in the panic years to illuminate the larger social and cultural trends, and gives voice to the uncertainty, confusion, and urgency that tends to characterize this time of life. Frizzell reminds us that we are not alone in this, and encourages us to share our experiences and those of the women around us—as she does with honesty and vulnerability in these pages. Raw and hilarious, *The Panic Years* is an arm around the shoulder for every woman trying to navigate life’s big decisions against the backdrop of the mother of all questions.

ballad of songbirds and snakes free: Map of My Dead Pilots Colleen Mondor, 2013-04-02 The Map of My Dead Pilots is about flying, pilots, and Alaska, the beautiful and deadly Last Frontier. Author Colleen Mondor spent four years running dispatch operations for a Fairbanks-based commuter and charter airline, and she knows all too well the gap between the romance and reality of small plane piloting in the wildest territory of the United States. From overloaded aircraft to wings covered in ice, from flying sled dogs and dead bodies, piloting in Alaska is about living hard and working even harder. What Mondor witnessed day to day would make anyone's hair stand on end. Ultimately, it is the pilots themselves—laced with ice and whiskey, death and camaraderie, silence and engine roar—and their harrowing tales who capture her imagination. In fine detail, this series of stories reveals the technical side of flying, the history of Alaskan aviation, and a world that demands a close communion with extreme physical danger and emotional toughness.
