However, the University of Washington team defied stereotypes and proved that grit and determination could surpass privilege and tradition. boys in the boat: Under a Flaming Sky Daniel Brown, 2016-02-01 On September 1, 1894 two forest fires converged on the town of Hinckley, Minnesota, trapping over 2,000 people. Daniel J. Brown recounts the events surrounding the fire in the first and only book on to chronicle the dramatic story that unfolded. Whereas Oregon's famous Biscuit fire in 2002 burned 350,000 acres in one week, the Hinckley fire did the same damage in five hours. The fire created its own weather, including hurricane-strength winds, bubbles of plasma-like glowing gas, and 200-foot-tall flames. In some instances, fire whirls, or tornadoes of fire, danced out from the main body of the fire to knock down buildings and carry flaming debris into the sky. Temperatures reached 1,600 degrees Fahrenheit—the melting point of steel. As the fire surrounded the town, two railroads became the only means of escape. Two trains ran the gauntlet of fire. One train caught on fire from one end to the other. The heroic young African-American porter ran up and down the length of the train, reassuring the passengers even as the flames tore at their clothes. On the other train, the engineer refused to back his locomotive out of town until the last possible minute of escape. In all, more than 400 people died, leading to a revolution in forestry management practices and federal agencies that monitor and fight wildfires today. Author Daniel Brown has woven together numerous survivors' stories, historical sources, and interviews with forest fire experts in a gripping narrative that tells the fascinating story of one of North America's most devastating fires and how it changed the nation.

boys in the boat: The Cloudbuster Nine Anne R. Keene, 2018-04-06 In 1943, while the New York Yankees and St. Louis Cardinals were winning pennants and meeting in that year's World Series, Ted Williams, Johnny Pesky, and Johnny Sain practiced on a skinned-out college field in the heart of North Carolina. They and other past and future stars formed one of the greatest baseball teams of all time. They were among a cadre of fighter-pilot cadets who wore the Cloudbuster Nine baseball jersey at an elite Navy training school at the University of North Carolina at Chapel Hill. As a child, Anne Keene's father, Jim Raugh, suited up as the team batboy and mascot. He got to know his baseball heroes personally, watching players hit the road on cramped, tin-can buses, dazzling factory workers, kids, and service members at dozens of games, including a war-bond exhibition

with Babe Ruth at Yankee Stadium. Jimmy followed his baseball dreams as a college All-American but was crushed later in life by a failed major-league bid with the Detroit Tigers. He would have carried this story to his grave had Anne not discovered his scrapbook from a Navy school that shaped America's greatest heroes including George H. W. Bush, Gerald Ford, John Glenn, and Paul Bear Bryant. With the help of rare images and insights from World War II baseball veterans such as Dr. Bobby Brown and Eddie Robinson, the story of this remarkable team is brought to life for the first time in *The Cloudbuster Nine: The Untold Story of Ted Williams and the Baseball Team That Helped Win World War II*.

boys in the boat: *Assault on Lake Casitas* Brad Lewis, 2011-04-07 Brad Alan Lewis' determination to win an Olympic medal had taken over his life by 1984. He would be too old for the 1988 Games and his spot on the 1980 team had been lost to world politics. Only 1984 remained. But Lewis had a problem. Emotionally crushed after losing a guaranteed spot on the team by nine-tenths of a second in the single scull trials, Lewis went to the dreaded Olympic selection camp, where he hoped to earn a place in a national team boat. Again he failed. Lewis refused to be denied. He teamed up with Paul Enquist, who had been cut from the camp, and began training to challenge the national boat. It would be their last chance to compete in the Los Angeles Olympic Games. Using innovative psychological and physical training techniques developed by Lewis, they defeated the national entry at the double scull trials, three weeks after being considered failures by the system. In an event dominated by the Europeans, they won the first United States gold medal in rowing since 1964 and the first in the double scull since 1932. Lewis' story is more than a book about a man winning a gold medal in a sport that offers little more than personal rewards. It is about challenging convention, overcoming defeat and working outside of an established system. *Assault on Lake Casitas* is a compelling tale of competition at the highest possible level and the emotions that fuel obsession.

boys in the boat: *Reinventing Public Education* Paul Hill, Lawrence C. Pierce, James W. Guthrie, 2009-02-15 A heated debate is raging over our nation's public schools and how they should be reformed, with proposals ranging from imposing national standards to replacing public education altogether with a voucher system for private schools. Combining decades of experience in education, the authors propose an innovative approach to solving the problems of our school system and find a middle ground between these extremes. *Reinventing Public Education* shows how contracting would radically change the way we operate our schools, while keeping them public and accessible to all, and making them better able to meet standards of achievement and equity. Using public funds, local school boards would select private providers to operate individual schools under formal contracts specifying the type and quality of instruction. In a hands-on, concrete fashion, the authors provide a thorough explanation of the pros and cons of school contracting and how it would work in practice. They show how contracting would free local school boards from operating schools so they can focus on improving educational policy; how it would allow parents to choose the best school for their children; and, finally, how it would ensure that schools are held accountable and academic standards are met. While retaining a strong public role in education, contracting enables schools to be more imaginative, adaptable, and suited to the needs of children and families. In presenting an alternative vision for America's schools, *Reinventing Public Education* is too important to be ignored.

boys in the boat: Alpha David Philipps, 2022-09-13 An "infuriating, fast-paced" (The Washington Post) account of the Navy SEALs of Alpha platoon, the startling accusations against their chief, Eddie Gallagher, and the courtroom battle that exposed the dark underbelly of America's special forces—from a Pulitzer Prize-winning reporter WINNER OF THE COLORADO BOOK AWARD • "Nearly impossible to put down."—Jon Krakauer, New York Times bestselling author of *Where Men Win Glory* and *Into the Wild* In this "brilliantly written" (The New York Times Book Review) and startling account, Pulitzer Prize-winning New York Times correspondent David Philipps reveals a powerful moral crucible, one that would define the American military during the years of combat that became known as "the forever war." When the Navy SEALs of Alpha platoon returned from

their 2017 deployment to Iraq, a group of them reported their chief, Eddie Gallagher, for war crimes, alleging that he'd stabbed a prisoner in cold blood and taken lethal sniper shots at unarmed civilians. The story of Alpha's war, both in Iraq and in the shocking trial that followed the men's accusations, would complicate the SEALs' post-9/11 hero narrative, turning brothers-in-arms against one another and bringing into stark relief the choice that elite soldiers face between loyalty to their unit and to their country. One of the great stories written about American special forces, Alpha is by turns a battlefield drama, a courtroom thriller, and a compelling examination of how soldiers define themselves and live with the decisions in the heat of combat.

He fantasizes about being "the catcher in the rye," a guardian who saves children from losing their innocence by catching them before they fall off a cliff into adulthood. boys in the boat: *The Children's Blizzard* David Laskin, 2009-10-13 "David Laskin deploys historical fact of the finest grain to tell the story of a monstrous blizzard that caught the settlers of the Great Plains utterly by surprise. . . . This is a book best read with a fire roaring in the hearth and a blanket and box of tissues near at hand." — Erik Larson, author of *The Devil in the White City* "Heartbreaking. . . . This account of the 1888 blizzard reads like a thriller." — *Entertainment Weekly* The gripping true story of an epic prairie snowstorm that killed hundreds of newly arrived settlers and cast a shadow on the promise of the American frontier. January 12, 1888, began as an unseasonably warm morning across Nebraska, the Dakotas, and Minnesota, the weather so mild that children walked to school without coats and gloves. But that afternoon, without warning, the atmosphere suddenly, violently changed. One moment the air was calm; the next the sky exploded in a raging chaos of horizontal snow and hurricane-force winds. Temperatures plunged as an unprecedented cold front ripped through the center of the continent. By the next morning, some five hundred people lay dead on the drifted prairie, many of them children who had perished on their way home from country schools. In a few terrifying hours, the hopes of the pioneers had been blasted by the bitter realities of their harsh environment. Recent immigrants from Germany, Norway, Denmark, and the Ukraine learned that their free homestead was not a paradise but a hard, unforgiving place governed by natural forces they neither understood nor controlled. With the storm as its dramatic, heartbreaking focal point, *The Children's Blizzard* captures this pivotal moment in American history by tracing the stories of five families who were forever changed that day. David Laskin has produced a masterful portrait of a tragic crucible in the settlement of the American heartland. The P.S. edition features an extra 16 pages of insights into the book, including author interviews, recommended reading, and more.

boys in the boat: Good Boy Jennifer Finney Boylan, 2020-04-21 From bestselling author of *She's Not There*, New York Times opinion columnist, and human rights activist Jennifer Finney Boylan, *Good Boy: My Life in Seven Dogs*, a memoir of the transformative power of loving dogs. This is a book about dogs: the love we have for them, and the way that love helps us understand the people we have been. It's in the love of dogs, and my love for them, that I can best now take the measure of the child I once was, and the bottomless, unfathomable desires that once haunted me. There are times when it is hard for me to fully remember that love, which was once so fragile, and so fierce. Sometimes it seems to fade before me, like breath on a mirror. But I remember the dogs. In her New York Times opinion column, Jennifer Finney Boylan wrote about her relationship with her beloved dog Indigo, and her wise, funny, heartbreaking piece went viral. In *Good Boy*, Boylan explores what should be the simplest topic in the world, but never is: finding and giving love. *Good Boy* is a universal account of a remarkable story: showing how a young boy became a middle-aged woman—accompanied at seven crucial moments of growth and transformation by seven memorable dogs. “Everything I know about love,” she writes, “I learned from dogs.” Their love enables us to pull off what seem like impossible feats: to find our way home when we are lost, to live our lives with humor and courage, and above all, to best become our true selves.

Sethe works at beating back the past, but it makes itself heard and felt incessantly in her memory and in the lives of those around her. boys in the boat: The Three-Year Swim Club Julie Checkoway, 2013-11-19 The New York Times bestselling inspirational story of impoverished children who transformed themselves into world-class swimmers. In 1937, a schoolteacher on the island of Maui challenged a group of poverty-stricken sugar plantation kids to swim upstream against the current of their circumstance. The goal? To become Olympians. They faced seemingly insurmountable obstacles. The children were Japanese-American and were malnourished and barefoot. They had no pool; they trained in the filthy irrigation ditches that snaked down from the mountains into the sugarcane fields. Their future was in those same fields, working alongside their parents in virtual slavery, known not by their names but by numbered tags that hung around their necks. Their teacher, Soichi Sakamoto, was an ordinary man whose swimming ability didn't extend much beyond treading water. In spite of everything, including the virulent anti-Japanese sentiment of the late 1930s, in their first year the children outraced Olympic athletes twice their size; in their second year, they were national and international champs, shattering American and world records and making headlines from L.A. to Nazi Germany. In their third year, they'd be declared the greatest swimmers in the world. But they'd also face their greatest obstacle: the dawning of a world war and the cancellation of the Games. Still, on the battlefield, they'd become the 20th century's most celebrated heroes, and in 1948, they'd have one last chance for Olympic glory. They were the Three-Year Swim Club. This is their story.
