Understanding "Destined for War" by Graham Allison

"Destined for War" by Graham Allison is a seminal work that examines the rising tensions between the United States and China. Allison explores the concept of Thucydides's Trap, where a rising power threatens to displace an existing one, often resulting in conflict. The book draws on historical case studies, modern geopolitical analysis, and strategic insights to understand whether the US and China can avoid war. The phrase "destined for war graham allison free download" has become popular among readers wanting to access this book without cost, but it's crucial to understand the substance and value of Allison's research before seeking copies online.

Overview and Purpose of the Book

Graham Allison's primary goal is to analyze the historical patterns of power transitions and their relevance to current US-China relations. The book discusses past examples such as Athens vs. Sparta, Britain vs. Germany, and more, providing readers with a framework to interpret present-day dynamics.

Importance in International Relations

The book is widely used in academic circles, policy-making, and diplomatic discussions. Its arguments influence how governments and analysts approach the risks of conflict and the possibility of peaceful power transition, making it a must-read for anyone interested in global affairs.

Key Themes and Insights from the Book

"Destined for War" is rich with themes and actionable insights that help readers understand the complexities of international power struggles. Allison's analysis is supported by historical evidence and offers predictive value for future global events.

Thucydides's Trap Explained

The central theme is Thucydides's Trap, a concept named after the ancient Greek historian who wrote about the Peloponnesian War. Allison posits that when a rising power threatens to overtake an established power, the structural stresses often lead to war, unless both sides actively avoid it.

Historical Case Studies

- Athens and Sparta
- Britain and Germany
- Japan and the United States
- Other major power transitions across centuries

By examining these examples, the book demonstrates recurring patterns and provides lessons for current policymakers.

Application to US-China Relations

Allison applies the Thucydides's Trap framework directly to the relationship between the United States and China, assessing risks, opportunities, and strategies for avoiding catastrophic conflict.

Author Profile: Graham Allison

Graham Allison is an esteemed scholar at Harvard University's Kennedy School of Government. His expertise lies in political science, international relations, and national security. Allison's work has significantly shaped policy debates and academic research worldwide.

Academic Achievements

- Founding Dean of Harvard's Kennedy School
- Director of the Belfer Center for Science and International Affairs
- Author of multiple influential books on policy and strategy

Allison's authority in the field is recognized by policymakers, educators, and international organizations.

Contributions to Strategic Studies

Beyond "Destined for War," Allison's publications and research have contributed to nuclear strategy, crisis management, and the understanding of global power shifts. His work is frequently cited in academic journals and government reports.

Free Download: Legal and Ethical Considerations

The search for "destined for war graham allison free download" often leads readers to websites offering unauthorized copies of the book. It's important

to recognize both the legal and ethical implications of downloading copyrighted material.

Copyright Laws and Risks

Most versions of "Destined for War" found for free online violate copyright laws. Downloading or distributing these without permission can result in legal penalties, loss of access, and security risks such as malware.

Ethical Responsibility

- Supporting authors and publishers ensures the creation of high-quality content
- Legal purchases help maintain publishing standards
- Unauthorized downloads undermine intellectual property rights

Readers are encouraged to seek legitimate avenues to respect the work of Graham Allison and promote ethical access to knowledge.

Legitimate Alternatives for Access

While searching for "destined for war graham allison free download," there are several lawful options to access the book affordably or at no cost, depending on your situation.

Library Access

Public and university libraries often stock "Destined for War" in both physical and digital formats. Library memberships are typically free or low-cost, making this an ethical way to access the book.

Official Digital Editions

Many publishers provide eBook versions for purchase or rental at reduced prices. Subscription services may also offer temporary access to a wide range of titles, including Allison's work.

Academic and Institutional Resources

- University libraries with inter-library loan services
- Online academic databases for registered students
- Non-profit organizations offering research grants and access

These resources are valuable for students, researchers, and professionals seeking credible access without violating copyright law.

Tips for Responsible Book Access

To maximize value and maintain ethical standards when searching for "destined for war graham allison free download," readers should consider the following practical tips.

Utilize Free Previews and Excerpts

Many online bookstores and publisher websites offer free samples or excerpts, allowing readers to review content before purchasing or borrowing the full version.

Look for Authorized Promotions

Occasionally, publishers release special promotions, discounts, or limited free access to educational materials. Monitoring official channels is a responsible way to obtain legal copies.

Engage With Book Communities

- Participate in discussion forums and reading groups
- Attend events or webinars featuring the author
- Share insights and summaries within academic circles

These communities not only foster deeper understanding but also promote

ethical sharing of knowledge.

Frequently Asked Questions

Q: What is "Destined for War" by Graham Allison about?

A: "Destined for War" explores the risks of conflict between the United States and China by analyzing historical power transitions and introducing the concept of Thucydides's Trap.

Q: Is it legal to download "Destined for War" by Graham Allison for free?

A: Downloading copyrighted materials without permission is generally illegal. Readers should use authorized channels to access the book.

Q: Where can I find a legitimate copy of "Destined for War"?

A: The book is available through public and university libraries, reputable online bookstores, and academic databases.

Q: What is Thucydides's Trap?

A: Thucydides's Trap refers to the tendency for war to occur when a rising power threatens to replace an established power, based on historical patterns.

Q: Who is Graham Allison?

A: Graham Allison is a renowned political scientist, professor at Harvard University, and an expert in international relations and strategy.

Q: Are there free alternatives to downloading the book?

A: Yes, readers can check libraries, authorized eBook samples, and academic resources for legal access.

Q: Why is supporting authors and publishers important?

A: Supporting authors ensures the continued creation of high-quality content and maintains intellectual property rights.

Q: What are the risks of illegal downloads?

A: Risks include legal consequences, exposure to malware, and undermining ethical standards in publishing.

Q: Can students access "Destined for War" for free?

A: Many universities provide free access to enrolled students through library services and academic databases.

Q: How can I learn more about the book's themes?

A: Engaging with reading groups, academic forums, and official author events are effective ways to deepen understanding of the book's key arguments.

Destined for War: Graham Allison's Masterpiece - Exploring Free Download Options (Legally!)

Are you eager to delve into Graham Allison's chillingly prescient analysis of the US-China rivalry in *Destined for War*? This comprehensive guide explores the availability of free downloads, emphasizing ethical and legal access to this critical geopolitical text. We'll examine legitimate options for accessing Allison's work, discuss the importance of supporting authors, and offer insights into the book's key arguments. Forget dubious websites; this post focuses on responsible ways to engage with this vital piece of contemporary analysis.

Understanding the Importance of Destined for War

Before diving into download options, let's briefly consider why *Destined for War* is so crucial. Published in 2017, Allison's book doesn't shy away from predicting a potential military conflict between the United States and China. He uses historical analogies and in-depth analysis of the current geopolitical landscape to build a compelling, albeit unsettling, case. Understanding the book's central arguments is paramount to comprehending the ongoing tensions between these two global superpowers.

Why Free Downloads Are Often a Risky Proposition

The allure of free downloads is undeniable. However, downloading copyrighted material without permission is illegal and ethically questionable. Many websites offering "free downloads" are rife with malware, viruses, or simply provide low-quality, pirated versions of the book. Such actions not only harm the author and publisher but also jeopardize your computer's security.

Legitimate Ways to Access Destined for War

While a completely free download of *Destined for War* is unlikely to be found through legal channels, there are several responsible and ethical alternatives:

1. Library Resources: Your Local Goldmine

Your local library, or a university library if you have access, is an excellent resource. Many libraries offer e-book lending services through apps like Overdrive or Libby. Check your local library's online catalog to see if *Destined for War* is available. This is a completely free and legal way to access the book.

2. University Research Databases: Accessing Academic Resources

If you're affiliated with a university, explore the university's research databases. Many universities subscribe to online databases that provide access to a vast collection of books and journals, including potentially *Destined for War*. Check your university's library website for details.

3. Preview Chapters & Excerpts: A Taste of Allison's Work

While you might not get the entire book for free, you can often access preview chapters or excerpts online through reputable sources such as the publisher's website or book review sites. This will give you a good sense of Allison's arguments and writing style.

4. Used Book Markets: A Cost-Effective Option

Purchasing a used copy of *Destined for War* from online marketplaces like Amazon or eBay is a significantly cheaper alternative than buying a new book. This supports the secondhand book market while allowing you to legally obtain the book.

Supporting Authors: The Ethical Dimension

It's crucial to remember that authors, like Graham Allison, rely on book sales to fund their research and writing. Downloading pirated copies deprives them of rightfully earned income and discourages future work. Supporting authors through legal purchase options ensures the continuation of valuable scholarship and analysis.

The Core Arguments of *Destined for War*

Allison's thesis rests on the idea that a war between the US and China is not only possible but increasingly probable. He examines historical precedents, particularly the Thucydides Trap—the recurring pattern of conflict between a rising power and an established power—to illustrate his argument. He explores several potential flashpoints, such as Taiwan, the South China Sea, and cyber warfare, highlighting the risks of miscalculation and escalation. The book doesn't simply predict war; it meticulously analyzes the factors that could lead to it, providing a framework for understanding the complex dynamics of the US-China relationship.

Conclusion

Accessing *Destined for War* ethically and legally is achievable. While a completely free download is unlikely, exploring library resources, university databases, and used book markets provides legitimate avenues to engage with Allison's important work. Remember that supporting authors is crucial for fostering continued insightful analysis of crucial geopolitical issues. Choose the responsible route; your access to this vital text doesn't need to compromise ethical principles.

Frequently Asked Questions (FAQs)

1. Are there any legal websites that offer free downloads of *Destined for War*? No, there are no reputable websites that legally offer free downloads of copyrighted material like *Destined for War*.

Websites offering such downloads are almost certainly engaged in illegal activities.

2. Is it legal to share a downloaded copy of *Destined for War* with friends? No, sharing a downloaded copy, even with friends, is a violation of copyright law.

3. Can I access excerpts of *Destined for War* online legally? Yes, you can often find excerpts and reviews online from legitimate sources like the publisher's website or reputable book review sites.

4. What are the risks of downloading *Destined for War* from unofficial sources? The risks include malware infection, viruses, and obtaining a low-quality or incomplete version of the book.

5. How can I support Graham Allison and his work? You can support Graham Allison by purchasing a copy of *Destined for War* through legitimate channels like bookstores, online retailers (Amazon, etc.), or directly from the publisher.

destined for war graham allison free download: [Destined For War](#) Graham Allison, 2017-05-30 NATIONAL BESTSELLER | NEW YORK TIMES NOTABLE BOOK OF THE YEAR. From an eminent international security scholar, an urgent examination of the conditions that could produce a catastrophic conflict between the United States and China—and how it might be prevented. China and the United States are heading toward a war neither wants. The reason is Thucydides's Trap: when a rising power threatens to displace a ruling one, violence is the likeliest result. Over the past five hundred years, these conditions have occurred sixteen times; war broke out in twelve. At the time of publication, an unstoppable China approached an immovable America, and both Xi Jinping and Donald Trump promised to make their countries "great again," the seventeenth case was looking grim—it still is. A trade conflict, cyberattack, Korean crisis, or accident at sea could easily spark a major war. In *Destined for War*, eminent Harvard scholar Graham Allison masterfully blends history and current events to explain the timeless machinery of Thucydides's Trap—and to explore the painful steps that might prevent disaster today. SHORT-LISTED FOR THE 2018 LIONEL GELBER PRIZE NAMED A BEST BOOK OF THE YEAR BY: FINANCIAL TIMES * THE TIMES (LONDON)* AMAZON "Allison is one of the keenest observers of international affairs around." — President Joe Biden "[A] must-read book in both Washington and Beijing." — Boston Globe "[Full of] wide-ranging, erudite case studies that span human history . . . [A] fine book." — New York Times Book Review

destined for war graham allison free download: Lee Kuan Yew Graham Allison, Robert D. Blackwill, Ali Wyne, 2020-09-22 CNN "Book of the Week" Featuring a foreword by Henry Kissinger The grand strategist and founder of modern Singapore offers key insights and opinions on globalization, geopolitics, economic growth, and democracy in a series of interviews with the author of *Destined for War*, and others "If you are interested in the future of Asia, which means the future of the world, you've got to read this book." —Fareed Zakaria, CNN When Lee Kuan Yew speaks, presidents, prime ministers, diplomats, and CEOs listen. Lee, the founding father of modern Singapore and its prime minister from 1959 to 1990, has honed his wisdom during more than fifty years on the world stage. Almost single-handedly responsible for transforming Singapore into a Western-style economic success, he offers a unique perspective on the geopolitics of East and West. American presidents from Richard Nixon to Barack Obama have welcomed him to the White House; British prime ministers from Margaret Thatcher to Tony Blair have recognized his wisdom; and business leaders from Rupert Murdoch to Rex Tillerson, CEO of Exxon Mobil, have praised his accomplishments. This book gathers key insights from interviews, speeches, and Lee's voluminous published writings and presents them in an engaging question and answer format. Lee offers his assessment of China's future, asserting, among other things, that "China will want to share this century as co-equals with the U.S." He affirms the United States' position as the world's sole

superpower but expresses dismay at the vagaries of its political system. He offers strategic advice for dealing with China and goes on to discuss India's future, Islamic terrorism, economic growth, geopolitics and globalization, and democracy. Lee does not pull his punches, offering his unvarnished opinions on multiculturalism, the welfare state, education, and the free market. This little book belongs on the reading list of every world leader.

destined for war graham allison free download: Thucydides' Other "Traps" Alan Greeley Misenheimer, 2019-06-06 The notion of a Thucydides Trap that will ensnare China and the United States in a 21st century conflict-much as the rising power of Athens alarmed Sparta and made war inevitable between the Aegean superpowers of the 5th century BCE-has received global attention since entering the international relations lexicon 6 years ago. Scholars, journalists, bloggers, and politicians in many countries, notably China, have embraced this beguiling metaphor, coined by Harvard political science professor Graham Allison, as a framework for examining the likelihood of a Sino-American war. This case study examines the Thucydides Trap metaphor and the response it has elicited. Hewing closely to what the historian of the Peloponnesian War actually says about the causes and inevitability of war, it argues that, while Thucydides' text does not support Allison's normative assertion about the inevitable result of an encounter between rising and ruling powers, the History of the Peloponnesian War (hereafter, History) does identify elements of leadership and political dynamic that bear directly on whether a clash of interests between two states is resolved through peaceful means or escalates to war. It is precisely because war typically begins with a considered decision by a national command authority to reject other options and mobilize for conflict (and thus always entails an element of choice) that insight from Thucydides' History remains relevant and beneficial for the contemporary strategist, or citizen, concerned in such decisions. Accordingly, this case study concludes that the Thucydides Trap, as conceived and presented by Graham Allison, draws welcome attention both to Thucydides and to the pitfalls of great power competition, but fails as a heuristic device or predictive tool in the analysis of contemporary events. Allison's metaphor offers, at best, a potentially misleading over-simplification of Thucydides' nuanced and problematic account of the origins of the epochal conflict that defined his age. Moreover, it overlooks actual insights from the History that can help political decisionmakers-including, but not limited to, those of the United States and China-either avoid war or, if ignored, pose genuine policy traps that can make an avoidable war more likely, and a necessary war more costly.

destined for war graham allison free download: Tiger Trap David Wise, 2011-06-14 "A stunningly detailed history . . . from sexy socialite double agents to 'kill switches' implanted offshore in the computer chips for our electric grid" (R. James Woolsey, former director of Central Intelligence). For decades, while America obsessed over Soviet spies, China quietly penetrated the highest levels of government. Now, for the first time, based on numerous interviews with key insiders at the FBI and CIA as well as with Chinese agents and people close to them, David Wise tells the full story of China's many victories and defeats in its American spy wars. Two key cases interweave throughout: Katrina Leung, code-named Parlor Maid, worked for the FBI for years even after she became a secret double agent for China, aided by love affairs with both of her FBI handlers. Here, too, is the inside story of the case, code-named Tiger Trap, of a key Chinese-American scientist suspected of stealing nuclear weapons secrets. These two cases led to many others, involving famous names from Wen Ho Lee to Richard Nixon, stunning national security leaks, sophisticated cyberspying, and a West Coast spy ring whose members were sentenced in 2010. As concerns swirl about US-China relations and the challenges faced by our intelligence community, Tiger Trap provides an important overview from "America's premier writer on espionage" (The Washington Post Book World). "Wise's conclusion is sobering-China's spying on America is ongoing, current, and shows no signs of diminishing-and his book is a fascinating history of Chinese espionage." -Publishers Weekly "A fact-filled inside account, with sources named and no one spared." -Seymour M. Hersh

destined for war graham allison free download: Thucydides Thucydides, 2013-03-28 A new

translation of Thucydides, a foundational text in the history of Western political thought, with extensive student reference material.

destined for war graham allison free download: *A World in Disarray* Richard Haass, 2017-01-10 “A valuable primer on foreign policy: a primer that concerned citizens of all political persuasions—not to mention the president and his advisers—could benefit from reading.” —Michiko Kakutani, *The New York Times* An examination of a world increasingly defined by disorder and a United States unable to shape the world in its image, from the president of the Council on Foreign Relations Things fall apart; the center cannot hold. The rules, policies, and institutions that have guided the world since World War II have largely run their course. Respect for sovereignty alone cannot uphold order in an age defined by global challenges from terrorism and the spread of nuclear weapons to climate change and cyberspace. Meanwhile, great power rivalry is returning. Weak states pose problems just as confounding as strong ones. The United States remains the world’s strongest country, but American foreign policy has at times made matters worse, both by what the U.S. has done and by what it has failed to do. The Middle East is in chaos, Asia is threatened by China’s rise and a reckless North Korea, and Europe, for decades the world’s most stable region, is now anything but. As Richard Haass explains, the election of Donald Trump and the unexpected vote for “Brexit” signals that many in modern democracies reject important aspects of globalization, including borders open to trade and immigrants. In *A World in Disarray*, Haass argues for an updated global operating system—call it world order 2.0—that reflects the reality that power is widely distributed and that borders count for less. One critical element of this adjustment will be adopting a new approach to sovereignty, one that embraces its obligations and responsibilities as well as its rights and protections. Haass also details how the U.S. should act towards China and Russia, as well as in Asia, Europe, and the Middle East. He suggests, too, what the country should do to address its dysfunctional politics, mounting debt, and the lack of agreement on the nature of its relationship with the world. *A World in Disarray* is a wise examination, one rich in history, of the current world, along with how we got here and what needs doing. Haass shows that the world cannot have stability or prosperity without the United States, but that the United States cannot be a force for global stability and prosperity without its politicians and citizens reaching a new understanding.

destined for war graham allison free download: *Everything Under the Heavens* Howard W. French, 2017 From the former *New York Times* Asia correspondent and author of *China’s Second Continent*, an incisive investigation of China’s ideological development as it becomes an ever more aggressive player in regional and global diplomacy. / Verlagsinformation

destined for war graham allison free download: *The Avoidable War* Kevin Rudd, 2022-03-30 A war between China and the US would be catastrophic, deadly, and destructive. Unfortunately, it is no longer unthinkable. The relationship between the US and China, the world’s two superpowers, is peculiarly volatile. It rests on a seismic fault of cultural misunderstanding, historical grievance, and ideological incompatibility. No other nations are so quick to offend and be offended. Their militaries play a dangerous game of chicken, corporations steal intellectual property, intelligence satellites peer and AI technicians plot. The capacity for either country to cross a fatal line grows daily. Former Australian Prime Minister Kevin Rudd, who has studied, lived in, and worked with China for more than forty years, is one of the very few people who can offer real insight into the mindsets of the leadership whose judgement will determine if a war will be fought. *The Avoidable War* demystifies the actions of both sides, explaining and translating them for the benefit of the other. Geopolitical disaster is still avoidable, but only if these two giants can find a way to coexist without betraying their core interests through what Rudd calls managed strategic competition. Should they fail, down that path lies the possibility of a war that could rewrite the future of both countries, and the world. A lifelong student of China, Kevin Rudd has become one of today’s most thoughtful analysts of China’s development. *The Avoidable War* focuses on the signal challenge posed by China’s evolution to America and to world order. Can the US and China avoid sleepwalking into a conflict? Rudd offers constructive steps for the two powers to stabilize their relations. HENRY A. KISSINGER

destined for war graham allison free download: Thucydides on the Outbreak of War S.

N. Jaffe, 2017-03-09 The cause of great power war is a perennial issue for the student of politics. Some 2,400 years ago, in his monumental History of the Peloponnesian War, Thucydides wrote that it was the growth of Athenian power and the fear that this power inspired in Sparta which rendered the Peloponnesian War somehow necessary, inevitable, or compulsory. In this new political psychological study of Thucydides' first book, S.N. Jaffe shows how the History's account of the outbreak of the war ultimately points toward the opposing characters of the Athenian and Spartan regimes, disclosing a Thucydidean preoccupation with the interplay between nature and convention. Jaffe explores how the character of the contest between Athens and Sparta, or how the outbreak of a particular war, can reveal Thucydides' account of the recurring human causes of war and peace. The political thought of Thucydides proves bound up with his distinctive understanding of the interrelationship of particular events and more universal themes.

destined for war graham allison free download: World Order Henry Kissinger, 2014-09-09

"Dazzling and instructive . . . [a] magisterial new book." —Walter Isaacson, Time An astute analysis that illuminates many of today's critical international issues. —Kirkus Reviews Henry Kissinger offers in World Order a deep meditation on the roots of international harmony and global disorder. Drawing on his experience as one of the foremost statesmen of the modern era—advising presidents, traveling the world, observing and shaping the central foreign policy events of recent decades—Kissinger now reveals his analysis of the ultimate challenge for the twenty-first century: how to build a shared international order in a world of divergent historical perspectives, violent conflict, proliferating technology, and ideological extremism. There has never been a true "world order," Kissinger observes. For most of history, civilizations defined their own concepts of order. Each considered itself the center of the world and envisioned its distinct principles as universally relevant. China conceived of a global cultural hierarchy with the emperor at its pinnacle. In Europe, Rome imagined itself surrounded by barbarians; when Rome fragmented, European peoples refined a concept of an equilibrium of sovereign states and sought to export it across the world. Islam, in its early centuries, considered itself the world's sole legitimate political unit, destined to expand indefinitely until the world was brought into harmony by religious principles. The United States was born of a conviction about the universal applicability of democracy—a conviction that has guided its policies ever since. Now international affairs take place on a global basis, and these historical concepts of world order are meeting. Every region participates in questions of high policy in every other, often instantaneously. Yet there is no consensus among the major actors about the rules and limits guiding this process or its ultimate destination. The result is mounting tension. Grounded in Kissinger's deep study of history and his experience as national security advisor and secretary of state, World Order guides readers through crucial episodes in recent world history. Kissinger offers a unique glimpse into the inner deliberations of the Nixon administration's negotiations with Hanoi over the end of the Vietnam War, as well as Ronald Reagan's tense debates with Soviet Premier Gorbachev in Reykjavík. He offers compelling insights into the future of U.S.-China relations and the evolution of the European Union, and he examines lessons of the conflicts in Iraq and Afghanistan. Taking readers from his analysis of nuclear negotiations with Iran through the West's response to the Arab Spring and tensions with Russia over Ukraine, World Order anchors Kissinger's historical analysis in the decisive events of our time. Provocative and articulate, blending historical insight with geopolitical prognostication, World Order is a unique work that could come only from a lifelong policy maker and diplomat. Kissinger is also the author of On China.

destined for war graham allison free download: The Hundred-Year Marathon Michael

Pillsbury, 2015-02-03 One of the U.S. government's leading China experts reveals the hidden strategy fueling that country's rise – and how Americans have been seduced into helping China overtake us as the world's leading superpower. For more than forty years, the United States has played an indispensable role helping the Chinese government build a booming economy, develop its scientific and military capabilities, and take its place on the world stage, in the belief that China's rise will bring us cooperation, diplomacy, and free trade. But what if the China Dream is to replace

us, just as America replaced the British Empire, without firing a shot? Based on interviews with Chinese defectors and newly declassified, previously undisclosed national security documents, *The Hundred-Year Marathon* reveals China's secret strategy to supplant the United States as the world's dominant power, and to do so by 2049, the one-hundredth anniversary of the founding of the People's Republic. Michael Pillsbury, a fluent Mandarin speaker who has served in senior national security positions in the U.S. government since the days of Richard Nixon and Henry Kissinger, draws on his decades of contact with the hawks in China's military and intelligence agencies and translates their documents, speeches, and books to show how the teachings of traditional Chinese statecraft underpin their actions. He offers an inside look at how the Chinese really view America and its leaders – as barbarians who will be the architects of their own demise. Pillsbury also explains how the U.S. government has helped – sometimes unwittingly and sometimes deliberately – to make this China Dream come true, and he calls for the United States to implement a new, more competitive strategy toward China as it really is, and not as we might wish it to be. *The Hundred-Year Marathon* is a wake-up call as we face the greatest national security challenge of the twenty-first century.

destined for war graham allison free download: *The Long Game* Rush Doshi, 2021-06-11 For more than a century, no US adversary or coalition of adversaries - not Nazi Germany, Imperial Japan, or the Soviet Union - has ever reached sixty percent of US GDP. China is the sole exception, and it is fast emerging into a global superpower that could rival, if not eclipse, the United States. What does China want, does it have a grand strategy to achieve it, and what should the United States do about it? In *The Long Game*, Rush Doshi draws from a rich base of Chinese primary sources, including decades worth of party documents, leaked materials, memoirs by party leaders, and a careful analysis of China's conduct to provide a history of China's grand strategy since the end of the Cold War. Taking readers behind the Party's closed doors, he uncovers Beijing's long, methodical game to displace America from its hegemonic position in both the East Asia regional and global orders through three sequential strategies of displacement. Beginning in the 1980s, China focused for two decades on hiding capabilities and biding time. After the 2008 Global Financial Crisis, it became more assertive regionally, following a policy of actively accomplishing something. Finally, in the aftermath populist elections of 2016, China shifted to an even more aggressive strategy for undermining US hegemony, adopting the phrase great changes unseen in century. After charting how China's long game has evolved, Doshi offers a comprehensive yet asymmetric plan for an effective US response. Ironically, his proposed approach takes a page from Beijing's own strategic playbook to undermine China's ambitions and strengthen American order without competing dollar-for-dollar, ship-for-ship, or loan-for-loan.

destined for war graham allison free download: *The Chief Witness* Sayragul Sauytbay, 2021-05-04 A shocking depiction of one of the world's most ruthless regimes -- and the story of one woman's fight to survive. I will never forget the camp. I cannot forget the eyes of the prisoners, expecting me to do something for them. They are innocent. I have to tell their story, to tell about the darkness they are in. It is so easy to suffocate us with the demons of powerlessness, shame, and guilt. But we aren't the ones who should feel ashamed. Born in China's north-western province, Sayragul Sauytbay trained as a doctor before being appointed a senior civil servant. But her life was upended when the Chinese authorities incarcerated her. Her crime: being Kazakh, one of China's ethnic minorities. The north-western province borders the largest number of foreign nations and is the point in China that is the closest to Europe. In recent years it has become home to over 1,200 penal camps -- modern-day gulags that are estimated to house three million members of the Kazakh and Uyghur minorities. Imprisoned solely due to their ethnicity, inmates are subjected to relentless punishment and torture, including being beaten, raped, and used as subjects for medical experiments. The camps represent the greatest systematic incarceration of an entire people since the Third Reich. In prison, Sauytbay was put to work teaching Chinese language, culture, and politics, in the course of which she gained access to secret information that revealed Beijing's long-term plans to undermine not only its minorities, but democracies around the world. Upon her

escape to Europe she was reunited with her family, but still lives under constant threat of reprisal. This rare testimony from the biggest surveillance state in the world reveals not only the full, frightening scope of China's tyrannical ambitions, but also the resilience and courage of its author.

destined for war graham allison free download: The Asian 21st Century Kishore Mahbubani, 2022 This open access book consists of essays written by Kishore Mahbubani to explore the challenges and dilemmas faced by the West and Asia in an increasingly interdependent world village and intensifying geopolitical competition. The contents cover four parts: Part One The End of the Era of Western Domination. The major strategic error that the West is now making is to refuse to accept this reality. The West needs to learn how to act strategically in a world where they are no longer the number 1. Part Two The Return of Asia. From the years 1 to 1820, the largest economies in the world were Asian. After 1820 and the rise of the West, however, great Asian civilizations like China and India were dominated and humiliated. The twenty-first century will see the return of Asia to the center of the world stage. Part Three The Peaceful Rise of China. The shift in the balance of power to the East has been most pronounced in the rise of China. While this rise has been peaceful, many in the West have responded with considerable concern over the influence China will have on the world order. Part Four Globalization, Multilateralism and Cooperation. Many of the world's pressing issues, such as COVID-19 and climate change, are global issues and will require global cooperation to deal with. In short, human beings now live in a global village. States must work with each other, and we need a world order that enables and facilitates cooperation in our global village.

destined for war graham allison free download: Talking to Strangers Malcolm Gladwell, 2019-09-10 Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller *Outliers*, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? *Talking to Strangers* is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller *David and Goliath*, Malcolm Gladwell has written a gripping guidebook for troubled times.

destined for war graham allison free download: The Billy Graham Training Center Bible Nelson Bibles, Thomas Nelson Publishing Staff, 2004-11-22 The Billy Graham Training Center Bible is a valuable resource that guides you to discover what the Bible says about anger, forgiveness, grief, marriage, peace, salvation, suffering, and temptation - more than 100 time-tested answers to your toughest questions from over 50 years of the Billy Graham Evangelistic Association's ministry. destined for war graham allison free download: World War Z Max Brooks, 2013 An account of the decade-long conflict between humankind and hordes of the predatory undead is told from the perspective of dozens of survivors who describe in their own words the epic human battle for survival, in a novel that is the basis for the June 2013 film starring Brad Pitt. Reissue. Movie Tie-In.

destined for war graham allison free download: Property of the Rebel Librarian Allison

Varnes, 2018-09-18 Celebrate the freedom to read with this timely, empowering middle-grade debut in the spirit of *The View from Saturday* or *Frindle*. When twelve-year-old June Harper's parents discover what they deem an inappropriate library book, they take strict parenting to a whole new level. And everything June loves about Dogwood Middle School unravels: librarian Ms. Bradshaw is suspended, an author appearance is canceled, the library is gutted, and all books on the premises must have administrative approval. But June can't give up books . . . and she realizes she doesn't have to when she spies a Little Free Library on her walk to school. As the rules become stricter at school and at home, June keeps turning the pages of the banned books that continue to appear in the little library. It's a delicious secret . . . and one she can't keep to herself. June starts a banned book library of her own in an abandoned locker at school. The risks grow alongside her library's popularity, and a movement begins at Dogwood Middle--a movement that, if exposed, could destroy her. But if it's powerful enough, maybe it can save Ms. Bradshaw and all that she represents: the freedom to read. Equal parts fun and empowering, this novel explores censorship, freedom of speech, and activism. For any kid who doesn't believe one person can effect change...and for all the kids who already know they can!

destined for war graham allison free download: India in the Era of China's Belt and Road Initiative Anil Sigdel, 2020-10-19 Anil Sigdel dives into some of the most interesting trends in international relations, such as the rising influence of China and the instruments it uses to advance its interests worldwide, chiefly among them the Belt and Road Initiative(BRI) and the interplay between China and India, and what means New Delhi employs to come after China in the wider world. To this end, Sigdel takes both a geographic view by analyzing China's and India's relations with key regions - South East to Central Asia, Indian Ocean Region and Africa - and a functional view scrutinizing issues of relevance to the main topic - from cultural ties to infrastructure investment and maritime security. In his incisive analysis, Sigdel provides rich details on how India's partnership is shaping with the major stakeholders in the Indo-Pacific region such US, Japan and France, and how India is balancing these partnerships vis-à-vis the one with Russia. The conclusions point to interesting prospects for the future - China challenge has, in a way, helped India further advance its own ambition of becoming a separate pole or leading power, therefore, India is likely to pursue that status by aligning issue-wise with all the powers.

destined for war graham allison free download: *The Uninhabitable Earth* David Wallace-Wells, 2019-02-19 #1 NEW YORK TIMES BESTSELLER • "The Uninhabitable Earth hits you like a comet, with an overflow of insanely lyrical prose about our pending Armageddon."—Andrew Solomon, author of *The Noonday Demon* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New Yorker • The New York Times Book Review • Time • NPR • The Economist • The Paris Review • Toronto Star • GQ • The Times Literary Supplement • The New York Public Library • Kirkus Reviews It is worse, much worse, than you think. If your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible—food shortages, refugee emergencies, climate wars and economic devastation. An "epoch-defining book" (The Guardian) and "this generation's Silent Spring" (The Washington Post), *The Uninhabitable Earth* is both a travelogue of the near future and a meditation on how that future will look to those living through it—the ways that warming promises to transform global politics, the meaning of technology and nature in the modern world, the sustainability of capitalism and the trajectory of human progress. *The Uninhabitable Earth* is also an impassioned call to action. For just as the world was brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single generation—today's. LONGLISTED FOR THE PEN/E.O. WILSON LITERARY SCIENCE WRITING AWARD "The Uninhabitable Earth is the most terrifying book I have ever read. Its subject is climate change, and its method is scientific, but its mode is Old Testament. The book is a meticulously documented, white-knuckled tour through the cascading catastrophes that will soon engulf our warming planet."—Farhad Manjoo, The New York Times "Riveting. . . . Some readers will find Mr. Wallace-Wells's outline of possible futures alarmist. He is indeed alarmed. You should be, too."—The Economist "Potent and evocative. . . . Wallace-Wells has resolved to offer something other

than the standard narrative of climate change. . . . He avoids the 'eerily banal language of climatology' in favor of lush, rolling prose."—Jennifer Szalai, *The New York Times* "The book has potential to be this generation's *Silent Spring*."—*The Washington Post* "The *Uninhabitable Earth*, which has become a best seller, taps into the underlying emotion of the day: fear. . . . I encourage people to read this book."—Alan Weisman, *The New York Review of Books*

destined for war graham allison free download: [The Tragedy of Great Power Politics \(Updated Edition\)](#) John J. Mearsheimer, 2003-01-17 A superb book....Mearsheimer has made a significant contribution to our understanding of the behavior of great powers.—Barry R. Posen, *The National Interest* The updated edition of this classic treatise on the behavior of great powers takes a penetrating look at the question likely to dominate international relations in the twenty-first century: Can China rise peacefully? In clear, eloquent prose, John Mearsheimer explains why the answer is no: a rising China will seek to dominate Asia, while the United States, determined to remain the world's sole regional hegemon, will go to great lengths to prevent that from happening. The tragedy of great power politics is inescapable.

destined for war graham allison free download: *Imperial Hubris* Michael Scheuer, 2004-06-30 Though U.S. leaders try to convince the world of their success in fighting al Qaeda, one anonymous member of the U.S. intelligence community would like to inform the public that we are, in fact, losing the war on terror. Further, until U.S. leaders recognize the errant path they have irresponsibly chosen, he says, our enemies will only grow stronger. According to the author, the greatest danger for Americans confronting the Islamist threat is to believe—at the urging of U.S. leaders—that Muslims attack us for what we are and what we think rather than for what we do. Blustering political rhetoric.

destined for war graham allison free download: *Destined for War* Graham Allison, 2017-07-03 China and the United States are heading toward a war neither wants. The reason is Thucydides's Trap, a deadly pattern of structural stress that results when a rising power challenges a ruling one. This phenomenon is as old as history itself. About the Peloponnesian War that devastated ancient Greece, the historian Thucydides explained: 'It was the rise of Athens and the fear that this instilled in Sparta that made war inevitable.' Over the past 500 years, these conditions have occurred sixteen times. War broke out in twelve of them. Today, as an unstoppable China approaches an immovable America, and both Xi Jinping and Donald Trump promise to make their countries 'great again', the seventeenth case looks grim. Unless China is willing to scale back its ambitions or Washington can accept becoming number two in the Pacific, a trade conflict, cyberattack, or accident at sea could soon escalate into all-out war. In *Destined for War*, the eminent Harvard scholar Graham Allison explains why Thucydides's Trap is the best lens for understanding U.S.-China relations in the twenty-first century. Through uncanny historical parallels and war scenarios, he shows how close we are to the unthinkable. Yet, stressing that war is not inevitable, Allison also reveals how clashing powers have kept the peace in the past — and what painful steps the United States and China must take to avoid disaster today.

destined for war graham allison free download: [The Peacemaker](#) William Inboden, 2022-11-15 A masterful account of how Ronald Reagan and his national security team confronted the Soviets, reduced the nuclear threat, won the Cold War, and supported the spread of freedom around the world. "Remarkable... a great read."—Robert Gates • "Mesmerizing... hard to put down."—Paul Kennedy • "Full of fresh information... will shape all future studies of the role the United States played in ending the Cold War."—John Lewis Gaddis • "A major contribution to our understanding of the Reagan presidency and the twilight of the Cold War era."—David Kennedy With decades of hindsight, the peaceful end of the Cold War seems a foregone conclusion. But in the early 1980s, most experts believed the Soviet Union was strong, stable, and would last into the next century. Ronald Reagan entered the White House with no certainty of what would happen next, only an overriding faith in democracy and an abiding belief that Soviet communism—and the threat of nuclear war—must end. *The Peacemaker* reveals how Reagan's White House waged the Cold War while managing multiple crises around the globe. From the emergence of global terrorism, wars in

the Middle East, the rise of Japan, and the awakening of China to proxy conflicts in Latin America, Africa, and Asia, Reagan's team oversaw the worldwide expansion of democracy, globalization, free trade, and the information revolution. Yet no issue was greater than the Cold War standoff with the Soviet Union. As president, Reagan remade the four-decades-old policy of containment and challenged the Soviets in an arms race and ideological contest that pushed them toward economic and political collapse, all while extending an olive branch of diplomacy as he sought a peaceful end to the conflict. Reagan's revolving team included Secretaries of State Al Haig and George Shultz; Secretaries of Defense Caspar Weinberger and Frank Carlucci; National Security Advisors Bill Clark, John Poindexter, and Bud McFarlane; Chief of Staff James Baker; CIA Director Bill Casey; and United Nations Ambassador Jeane Kirkpatrick. Talented and devoted to their president, they were often at odds with one another as rivalries and backstabbing led to missteps and crises. But over the course of the presidency, Reagan and his team still developed the strategies that brought about the Cold War's peaceful conclusion and remade the world. Based on thousands of pages of newly-declassified documents and interviews with senior Reagan officials, *The Peacemaker* brims with fresh insights into one of America's most consequential presidents. Along the way, it shows how the pivotal decade of the 1980s shaped the world today.

destined for war graham allison free download: Nuclear Terrorism Graham Allison, 2004-08-09 A leading strategist opens our eyes to the greatest terrorist threat of all-and how to prevent it before it's too late Americans in the twenty-first century are keenly aware of the many forms of terrorism: hijackings, biological attacks, chemical weapons. But rarely do we allow ourselves to face squarely the deadliest form of terrorism, because it is almost too scary to think about-a terrorist group exploding a nuclear device in an American city. In this urgent call to action, Graham Allison, one of America's leading experts on nuclear weapons and national security, presents the evidence for two provocative, compelling conclusions. First, if policy makers in Washington keep doing what they are currently doing about the threat, a nuclear terrorist attack on America is likely to occur in the next decade. And if one lengthens the time frame, a nuclear strike is inevitable. Second, the surprising and largely unrecognized good news is that nuclear terrorism is, in fact, preventable. In these pages, Allison offers an ambitious but feasible blueprint for eliminating the possibility of nuclear terrorist attacks. The United States once relied on the threat of mutually assured destruction to deter the Soviet Union from launching a nuclear strike. But in today's fragmented world, a new strategy is needed, especially with nuclear material vulnerable to theft or sale through black-market channels. The choice is ours: to grab this beast by the horns or to be impaled on those horns. We do not have the luxury of hoping the problem will go away, and Allison shows why.

destined for war graham allison free download: *Blinders, Blunders, and Wars* David C. Gompert, Hans Binnendijk, Bonny Lin, 2014-11-26 The history of wars caused by misjudgments, from Napoleon's invasion of Russia to America's invasion of Iraq, reveals that leaders relied on cognitive models that were seriously at odds with objective reality. *Blinders, Blunders, and Wars* analyzes eight historical examples of strategic blunders regarding war and peace and four examples of decisions that turned out well, and then applies those lessons to the current Sino-American case.

destined for war graham allison free download: The Third Revolution Elizabeth Economy, 2018 In *The Third Revolution*, Elizabeth Economy, one of America's leading China scholars, provides an authoritative overview of contemporary China that makes sense of all of the seeming inconsistencies and ambiguities in its policies and actions.

destined for war graham allison free download: *Thucydides on Choice and Decision Making* Ilias Kouskouvelis, 2018-11-05 This book uncovers a different perspective on the great classical thinker, who has largely been misread. Through the scrupulous and holistic analysis of *The Peloponnesian War* - or, as the author suggests, of *The War* - a different Thucydides emerges. One who understands power and its distribution, but considers as crucial the choices made by people or

leaders. One who suggests, according to the book's interpretation on the outbreak of war and the Sicilian expedition, that the war was a result of decision making and, thus, not inevitable. One with his own view on domestic and international politics, a Thucydidean view; a view certainly containing elements of the modern International Relations paradigms, but clearly linking external behavior with deliberations and choice. A Thucydides, finally, holding a more benign than believed view on human nature, and informs our understanding of human behavior, especially when in a position of power or in war. Professor Kouskouvelis' curiosity evolved from his school days when he realized that there was much more to Thucydides than simply an account of The War. His scholarship in Ancient Greek and a lifetime of studying Thucydides and international relations has led him to reappraise Thucydides, provide to his views their true and unobserved dimension, and assign to him his appropriate position; that of a shrewd observer of life and politics, and a thinker on how people decide. This book will be of interest to anyone trying to understand how the major decisions of statecraft are shaped by both context and choice. The text elucidates for us how Thucydides' schemata on decision making and the flawed decisions that reoccur are rooted in our human foibles and our entrapment by interest, fear, and honor, to name just a few. It will be of significant interest to political thinkers, academics, military, decision makers, and the wider public who thirst for classical thinking about security, strategy and decision making.

destined for war graham allison free download: *Thirteen Days: A Memoir of the Cuban Missile Crisis* Robert F. Kennedy, 2011-04-25 A minor classic in its laconic, spare, compelling evocation by a participant of the shifting moods and maneuvers of the most dangerous moment in human history. —Arthur M. Schlesinger, Jr. During the thirteen days in October 1962 when the United States confronted the Soviet Union over its installation of missiles in Cuba, few people shared the behind-the-scenes story as it is told here by the late Senator Robert F. Kennedy. In this unique account, he describes each of the participants during the sometimes hour-to-hour negotiations, with particular attention to the actions and views of his brother, President John F. Kennedy. In a new foreword, the distinguished historian and Kennedy adviser Arthur Schlesinger, Jr., discusses the book's enduring importance and the significance of new information about the crisis that has come to light, especially from the Soviet Union.

destined for war graham allison free download: *Between Peace and Conflict in the East and the West* Anja Mihr, 2021-08-05 This open access book features various studies on democratization, transformation, socio-economic development, and security issues in the Organization for Security and Cooperation in Europe (OSCE) geographical region and beyond. Written by experts and scholars working in the field of human dimension, security, transformation and development in Europe and Asia, particularly in post-soviet and communist countries, it examines the connectivity that the OSCE provides between the East and the West. The 2021 edition of this Compilation Series of the OSCE Academy presents studies on peace and conflict as well as political regime development in various member states of the OSCE as well as their economic, security and human rights performance and the challenges countries and society face currently. The OSCE is working in promoting Human Rights and Democratization under the notion of Human Dimension of ODIHR and is enhancing securitization and development policies in Eurasia, Europe, Central Asia and North America since 1991. 2021 marks the 30th anniversary on the tremendous efforts in promoting democracy, security and development. This compilation reviews some of these efforts in light of this anniversary, the achievements and shortcomings.

destined for war graham allison free download: *The Patriots Club* Christopher Reich, 2006-07-25 Thomas Bolden grew up on the streets, his childhood a blur of fragmented memories. But now he's managed to put his past behind him, find the woman he wants to share his life with, and carve out a successful career on Wall Street. Until, in the blink of an eye, his world is turned upside down. A bizarre kidnapping sends him fleeing for his life, his face everywhere on the TV news, and a violent, shadowy organization is framing him for crimes he did not commit. Desperately trying to get back to where he was just a day before, Bolden must re-learn the survival skills of his hardscrabble boyhood. But as Bolden—with just eleven dollars in his pocket and hunters all around

him-survives one violent, harrowing hour after another, he makes a series of startling discoveries: about a mysterious woman wanted for murder...about an astounding secret rooted in history, among the country's Founding Fathers and families...about a conspiracy lurking in the darkest corners of corporate America—and a deadly plan that only he can stop. And in the process, maybe Bolden will also find out who he really is.... Furiously paced, filled with brilliantly drawn characters from politicians to patriots, from Wall Street players to battle-hardened cops, *The Patriots Club* is vintage Reich: brilliant, breathtaking, and impossible to put down until the final unforgettable page is turned.

destined for war graham allison free download: *Invasion of Privacy* Christopher Reich, 2015-06-16 One woman's quest to discover the truth behind her husband's death will pit her against a new generation of cutting-edge surveillance technology and the most dangerous conspiracy in America—*Invasion of Privacy* is the riveting, new standalone suspense novel from New York Times bestselling author Christopher Reich. On a remote, dusty road forty miles outside of Austin, Texas, FBI agent Joe Grant and a confidential informant are killed in a deadly shootout. Left to pick up the pieces is Mary Grant, Joe's young wife and mother of their two daughters. The official report places blame for the deaths on Joe's shoulders . . . but the story just doesn't add up and Mary has too many troubling questions that need answers. How did Joe's final voice mail—containing a cryptic warning for Mary, recorded moments before the fatal shooting—disappear without a trace from her phone? Stonewalled by the FBI, Mary will be drawn into a deadly conspiracy that puts her in the crosshairs of the richest and most powerful men in America . . . and the newest and most terrifying surveillance system known to man. New York Times bestselling author Christopher Reich is the master of crafting thrillers of the highest caliber, with nonstop action and nail-biting suspense. *Invasion of Privacy* is his richest, most relevant novel to date and will have readers hooked from the first page to the last. Your privacy is for sale.

destined for war graham allison free download: *The End of Poverty* Jeffrey D. Sachs, 2006-02-28 Book and man are brilliant, passionate, optimistic and impatient . . . Outstanding. —*The Economist* The landmark exploration of economic prosperity and how the world can escape from extreme poverty for the world's poorest citizens, from one of the world's most renowned economists. Hailed by *Time* as one of the world's hundred most influential people, Jeffrey D. Sachs is renowned for his work around the globe advising economies in crisis. Now a classic of its genre, *The End of Poverty* distills more than thirty years of experience to offer a uniquely informed vision of the steps that can transform impoverished countries into prosperous ones. Marrying vivid storytelling with rigorous analysis, Sachs lays out a clear conceptual map of the world economy. Explaining his own work in Bolivia, Russia, India, China, and Africa, he offers an integrated set of solutions to the interwoven economic, political, environmental, and social problems that challenge the world's poorest countries. Ten years after its initial publication, *The End of Poverty* remains an indispensable and influential work. In this 10th anniversary edition, Sachs presents an extensive new foreword assessing the progress of the past decade, the work that remains to be done, and how each of us can help. He also looks ahead across the next fifteen years to 2030, the United Nations' target date for ending extreme poverty, offering new insights and recommendations.

destined for war graham allison free download: *China's Rise in the Global South* Dawn C. Murphy, 2022-01-11 As China and the U.S. increasingly compete for power in key areas of U.S. influence, great power conflict looms. Yet few studies have looked to the Middle East and Africa, regions of major political, economic, and military importance for both China and the U.S., to theorize how China competes in a changing world system. *China's Rise in the Global South* examines China's behavior as a rising power in two key Global South regions, the Middle East and sub-Saharan Africa. Dawn C. Murphy, drawing on extensive fieldwork and hundreds of interviews, compares and analyzes thirty years of China's interactions with these regions across a range of functional areas: political, economic, foreign aid, and military. From the Belt and Road initiative to the founding of new cooperation forums and special envoys, *China's Rise in the Global South* offers an in-depth look at China's foreign policy approach to the countries it considers its partners in South-South

cooperation. Intervening in the emerging debate between liberals and realists about China's future as a great power, Murphy contends that China is constructing an alternate international order to interact with these regions, and this book provides policymakers and scholars of international relations with the tools to analyze it.

destined for war graham allison free download: Getting China Wrong Aaron L. Friedberg, 2022-03-14 The West's strategy of engagement with China has failed. More than three decades of trade and investment with the advanced democracies have left that country far richer and stronger than it would otherwise have been. But growth and development have not caused China's rulers to relax their grip on political power, abandon their mercantilist economic policies, or accept the rules and norms of the existing international system. To the contrary: China today is more repressive at home, more aggressive abroad, and more obviously intent on establishing itself as the world's preponderant power than at any time since the death of Chairman Mao. What went wrong? Put simply, the democracies underestimated the resilience, resourcefulness, and ruthlessness of the Chinese Communist Party. For far too long, the United States and its allies failed to take seriously the Party's unwavering determination to crush opposition, build national power, and fulfill its ideological and geopolitical ambitions. In this timely and powerfully argued study, Aaron Friedberg identifies the assumptions underpinning engagement, describes the counterstrategy that China's Communist Party rulers devised in order to exploit the West's openness while defeating its plans, and explains what the democracies must do now if they wish to preserve their prosperity, protect their security, and defend their common values.

destined for war graham allison free download: Qualitative Research from Start to Finish, First Edition Robert K. Yin, 2011-09-26 This lively, practical text presents a fresh and comprehensive approach to doing qualitative research. The book offers a unique balance of theory and clear-cut choices for customizing every phase of a qualitative study. A scholarly mix of classic and contemporary studies from multiple disciplines provides compelling, field-based examples of the full range of qualitative approaches. Readers learn about adaptive ways of designing studies, collecting data, analyzing data, and reporting findings. Key aspects of the researcher's craft are addressed, such as fieldwork options, the five phases of data analysis (with and without using computer-based software), and how to incorporate the researcher's "declarative" and "reflective" selves into a final report. Ideal for graduate-level courses, the text includes:* Discussions of ethnography, grounded theory, phenomenology, feminist research, and other approaches.* Instructions for creating a study bank to get a new study started.* End-of-chapter exercises and a semester-long, field-based project.* Quick study boxes, research vignettes, sample studies, and a glossary.* Previews for sections within chapters, and chapter recaps.* Discussion of the place of qualitative research among other social science methods, including mixed methods research.

destined for war graham allison free download: The Great Paleolithic War David J. Meltzer, 2015-11-03 Only a few years after the discovery in Europe in the late 1850s that humanity had roots predating history and the Biblical chronicles, and reaching deep into the Pleistocene, came the suggestion that North American prehistory might be just as old. And why not? There seemed to be an exact synchronism [of geological strata] between Europe and America, and so by extension there ought to be a parallelism as to the antiquity of man. That triggered an eager search for traces of the people who may have occupied North America in the recesses of the Ice Age. The Great Paleolithic War is the history of the longstanding and bitter dispute in North America over whether people had arrived here in Ice Age times.
