flacs exam italian: Grading Smarter, Not Harder Myron Dueck, 2014-07-15 All the talk of closing the achievement gap in schools obscures a more fundamental issue: do the grades we assign to students truly reflect the extent of their learning? In sharing lessons, anecdotes, and cautionary tales from his own experiences revamping assessment procedures in the classroom, Dueck offers a variety of practical strategies for ensuring that grades measure what students know without punishing them for factors outside their control; critically examining the fairness and effectiveness of grading homework assignments; designing and distributing unit plans that make assessment criteria crystal-clear to students; creating a flexible and modular retesting system so that students can improve their scores on individual sections of important tests. *Grading Smarter, Not Harder* is brimming with reproducible forms, templates, and real-life examples of grading solutions developed to allow students every opportunity to demonstrate their learning. flacs exam italian: Marcabru Marcabrun, Simon Gaunt, Ruth Harvey, Linda M. Paterson, 2000 One of the earliest troubadours, Marcabru was a remarkable artist and entertainer, and a figure of crucial importance to the development of the European courtly lyric. His blistering attacks on contemporary court society reveal an intellectual insider's view of the clash between clerical

morality and the emerging secular ethics of love and courtesy. His fervent, often acerbic engagement with contemporary events also provides a unique southern perspective on political upheavals and crusading movements in twelfth-century Occitania and northern Spain. This new critical edition, the first for nearly 100 years, makes his complete corpus accessible to a wide readership, supplying translations, full critical apparatus, and copious textual notes, with a substantial glossary of Marcabru's extraordinarily inventive vocabulary. The introduction supplies historical information, discussion of the poet's language, and an analysis of the manuscript transmission. It also raises fresh issues of troubadour versification techniques in this formative period, and engages in a new way with the current debate about editorial methodology and medieval textual criticism. It is the earliest such work by a competent Hebrew scholar. Discussing or alluding to a wide variety of theological, philosophical, political, legal, and psychological subjects, it is one of the most important books of early Renaissance humanism. As the indispensable basis of his annotated English translation, Isaac Rabinowitz has provided the first critical edition of the Hebrew text, drawing on an early manuscript, the first print edition of 1475/6, and other pertinent sources. Besides supplying paragraphing and punctuation, his Hebrew text includes references to all passages of Scripture cited for exposition or for illustration of rhetorical doctrine, apparatuses of the variant readings and of the book's implicit scriptural allusions and reminiscences, and other textual notes. The annotated translation—the first in any modern European language—includes full references to all Messer Leon's classical sources. The introduction to the entire work contains a detailed reconstruction of Messer Leon's life and a full discussion of the nature and intended purposes of *The Book of the Honeycomb's Flow*. The publication of *The Book of the Honeycomb's Flow* will help scholars to appreciate more fully the importance of the vital Italian Jewish culture of the Renaissance.
