dmv written test farsi: *I Am Like You!* Ali Kian, 2016-02-05 When I was 18 years old, I left Iran after graduating from high school to come to America to continue my education, with the hope that someday I might become a physician. I suffer from multiple disabilities. The most troubling issue revolves around polio. At the age of five, I contracted polio as a result of a bad dose of the vaccine I received. As an adult with a severe twisted body, I have been forced to walk with a cane and stand only four feet tall. Over the course of my life, I've had to deal with additional medical issues as a result of my initial infection. It would be easy for me to be bitter about my situation, but I have chosen a different path. I've written a short memoir which I have titled *I Am Like You*. My hope is that my book will both inspire and encourage others with disabilities to recognize that they need not

be defined or limited by whatever physical limitations they may encounter in the world. Certainly, my life has been a challenge, but I've chosen to remain optimistic about the limitless possibilities available to anyone who isn't ready to throw in the towel. I've tried to tell my story with a mixture of humor and pathos. Additionally, I think there is a unique perspective to my story. Coming from a Third World country allows me to compare and contrast the differences between the treatment of the disabled in a country like America compared to how someone with my kinds of issues may be dealt with in Iran (or any Third World country for that matter).

dmv written test farsi: U.S. Marines in Afghanistan, 2001-2009 U S Marine Corps History Division, 2017-02-05 This volume presents a collection of 38 articles, interviews, and speeches describing many aspects of the U.S. Marine Corps' participation in Operation Enduring Freedom from 2001 to 2009. This work is intended to serve as a general overview and provisional reference to inform both Marines and the general public until the History Division completes monographs dealing with major Marine Corps operations during the campaign. The accompanying annotated bibliography provides a detailed look at selected sources that currently exist until new scholarship and archival materials become available. From the Preface - From the outset, some experts doubted that the U.S. Marines Corps would play a major role in Afghanistan given the landlocked nature of the battlefield. Naval expeditionary Task Force 58 (TF-58) commanded by then-Brigadier General James N. Mattis silenced naysayers with the farthest ranging amphibious assault in Marine

Corps/Navy history. In late November 2001, Mattis' force seized what became Forward Operating Base Rhino, Afghanistan, from naval shipping some 400 miles away. The historic assault not only blazed a path for follow-on forces, it also cut off fleeing al-Qaeda and Taliban elements and aided in the seizure of Kandahar. While Corps doctrine and culture advocates Marine employment as a fully integrated Marine air-ground task force (MAGTF), deployments to Afghanistan often reflected what former Commandant General Charles C. Krulak coined as the three-block war. Following TF-58's deployment during the initial take down of the Taliban regime, the MAGTF made few appearances in Afghanistan until 2008. Before then, subsequent Marine units often deployed as a single battalion under the command of the U.S. Army Combined Joint Task Force (CJTF) to provide security for provincial reconstruction teams. The Marine Corps also provided embedded training teams to train and mentor the fledgling Afghan National Army and Police. Aviation assets sporadically deployed to support the U.S.-led coalition mostly to conduct a specific mission or to bridge a gap in capability, such as close air support or electronic warfare to counter the improvised explosive device threat. From 2003 to late 2007, the national preoccupation with stabilizing Iraq focused most Marine Corps assets on stemming the insurgency, largely centered in the restive al-Anbar Province. As a result of the North Atlantic Treaty Organization (NATO) taking over command of Afghan operations and Marine Corps' commitments in Iraq, relatively few Marine units operated in Afghanistan from late 2006 to 2007. Although Marines first advocated shifting resources from al-Anbar to southern Afghanistan in early 2007, the George W. Bush administration delayed the Marine proposal for fear of losing the gains made as a result of Army General David H. Petraeus' surge strategy in Iraq. By late 2007, the situation in Afghanistan had deteriorated to the point that it inspired Rolling Stone to later publish the story *How We Lost the War We Won*. In recognition of the shifting tides in both Iraq and Afghanistan, the Bush administration began to transfer additional resources to Afghanistan in early 2008. The shift prompted senior Marines to again push for a more prominent role in the Afghan campaign, even proposing to take over the Afghan mission from the Army. . . .

dmv written test farsi: Vanguard of Valor Combat Studies Institute Press, 2012-02 From the foreword by Genral (ret.) David Petraeus: In 2010, as the scale and tempo of Coalition operations in Afghanistan increased, so did the need for historical accounts of small-unit actions. As commander of the International Security Assistance Force (ISAF), I commissioned the Combat Studies Institute to research and write the cases collected in this volume and in those that will follow. By capturing key insights from both lethal and non-lethal operations, I hoped these accounts would be of immediate utility to sergeants and lieutenants at the center of future operations. The eight actions described in these pages take the reader through a wide range of platoon-level operations, from an intense firefight near Kandahar to an intricate civic action project in Kunar Province. Drawing from dozens of Soldier interviews, these accounts vividly depict the actions themselves and offer critical insights of greatest benefit to the small-unit actions leaders of today and tomorrow. The US Army always has prided itself as an institution of constant learning, strongly committed to drawing lessons from its past. This volume from the Combat Studies Institute is an excellent example of that long and honorable tradition. I hope that you will find the actions in Vanguard of Valor to be both instructive and compelling. I am sure that you will find them to be inspirational.
