drake and josh script: Robot Ecology and the Science Fiction Film J. P. Telotte, 2016-01-22 This book offers the first specific application in film studies of what is generally known as ecology theory, shifting attention from history to the (in this case media) environment. It takes the robot as its subject because it has attained a status that resonates not only with some of the key concerns of contemporary culture over the last century, but also with the very nature of film. While the robot has given us a vehicle for exploring issues of gender, race, and a variety of forms of otherness, and increasingly for asking questions about the very nature and meaning of life, this image of an artificial being, typically anthropomorphic, also invariably implicates the cinema's own and quite fundamental artificing of the human. Looking across genres, across specific media forms, and across closely linked conceptualizations, Telotte sketches a context of interwoven influences and meanings. The result is that this study of the cinematic robot, while mainly focused on science fiction film, also incorporates its appearance in, for example, musicals, cartoons, television, advertising, toys, and literature.

drake and josh script: Hunks, Hotties, and Pretty Boys Steven L. Davis, Maglina Lubovich, 2010-08-11 White, heterosexual, middle-class men have long served as the standard for masculine "beauty," even if such men have refused to embrace this term. This study seeks to denaturalize this standard by exploring the connections between beauty and the broad spectrum of masculinities. The chapters included in *Hunks, Hotties, and Pretty Boys* contribute primarily to the field of gender studies, specifically masculinity studies. They consider twentieth-century representations of male beauty through a variety of mediums: performance, literature, art, photography, film and television. Although the contributors hail from both the humanities and the social sciences, all share a concern for how beauty informs, shapes, defines, and re-defines our understanding of masculinity itself. These scholars investigate a range of historical periods and draw from a broad scope of critical approaches. Some interrogate male beauty through the female gaze and look to the influence of female performance on notions of masculine beauty. Others examine how queer and racial constructions of male beauty refuse and offer alternatives to hegemonic models of identity. Another revisits previous philosophical and theoretical conceptions of beauty, only to deconstruct gendered conceptions of the beautiful and the sublime. In all, these essays complicate masculine beauty by examining Chicano, Asian, working class, and female constructions of male beauty in Western culture.

drake and josh script: [Nancy Meyers](#) Deborah Jermyn, 2017-07-27 Nancy Meyers is acknowledged as the most commercially successful woman filmmaker of all time, described by Daphne Merkin in *The New York Times* on the release of *It's Complicated* as a singular figure in Hollywood - [she] may, in fact, be the most powerful female writer-director-producer currently working. Yet Meyers remains a director who, alongside being widely dismissed by critics, has been largely absent in scholarly accounts both of contemporary Hollywood cinema, and of feminism and film. Despite Meyers' impressive track record for turning a profit (including the biggest box-office return ever achieved by a woman filmmaker at that time for *What Women Want* in 2000), and a multifaceted career as a writer/producer/director dating back to her co-writing *Private Benjamin* in 1980, Meyers has been oddly neglected by Film Studies to date. Including Nancy Meyers in the *Bloomsbury Companions to Contemporary Filmmakers* rectifies this omission, giving her the kind of detailed consideration and recognition she warrants and exploring how, notwithstanding the challenges authorship holds for feminist film studies, Meyers can be situated as a skilled 'auteur'. This book proposes that Meyers' box-office success, the consistency of style and theme across her films, and the breadth of her body of work as a writer/producer/director across more than three decades at the forefront of Hollywood, (thus importantly bridging the second/third waves of feminism) make her a key contemporary US filmmaker. Structured to meet the needs of both the student and scholar, Jermyn's volume situates Meyers within this historical and critical context, exploring the distinctive qualities of her body of work, the reasons behind the pervasive resistance to it and new ways of understanding her films.

Taking some of the most popular, bestselling recent games, Schreier immerses readers in the hellfire of the development process, whether it's RPG studio BioWare's challenge to beat an impossible schedule and overcome countless technical nightmares to build *Dragon Age: Inquisition*; indie developer Eric Barone's single-handed efforts to grow country-life RPG *Stardew Valley* from one man's vision into a multi-million-dollar franchise; or Bungie spinning out from their corporate overlords at Microsoft to create *Destiny*, a brand new universe that they hoped would become as iconic as *Star Wars* and *Lord of the Rings*—even as it nearly ripped their studio apart. Documenting the round-the-clock crunches, buggy-eyed burnout, and last-minute saves, *Blood, Sweat, and Pixels* is a journey through development hell—and ultimately a tribute to the dedicated diehards and unsung heroes who scale mountains of obstacles in their quests to create the best games imaginable.

drake and josh script: *Lee Marvin* Robert J. Lentz, 2015-09-15 Lee Marvin did not receive his first starring film role until he was 40, but in three short years--following the successes of *Cat Ballou* (for which he won the Academy Award as Best Actor), *The Professionals* and especially *The Dirty Dozen*--he was the most popular film actor in America. Marvin was a fascinating man, a loving husband and father, and one of the most natural, effective actors of his time. This is a

comprehensive reference of the Oscar-winning actor's work. It includes biographical information on Marvin, an analysis of each of his 64 movies, chapters on his two television shows (M Squad and Lawbreaker), a listing of his television appearances, and a complete filmography (which includes video availability). The work is supplemented with dozens of photographs and film stills.

drake and josh script: The Ballad of John Latouche Howard Pollack, 2017-10-06 Born into a poor Virginian family, John Treville Latouche (1914-56), in his short life, made a profound mark on America's musical theater as a lyricist, book writer, and librettist. The wit and skill of his lyrics elicited comparisons with the likes of Ira Gershwin, Lorenz Hart, and Cole Porter, but he had too, noted Stephen Sondheim, a large vision of what musical theater could be, and he proved especially venturesome in helping to develop a lyric theater that innovatively combined music, word, dance, and costume and set design. Many of his pieces, even if not commonly known today, remain high points in the history of American musical theater. A great American genius in the words of Duke Ellington, Latouche initially came to wide public attention in his early twenties with his cantata for soloist and chorus, *Ballad for Americans* (1939), with music by Earl Robinson—a work that swept the nation during the Second World War. Other milestones in his career included the all-black musical fable, *Cabin in the Sky* (1940), with Vernon Duke; an interracial updating of John Gay's classic, *The Beggar's Opera*, as *Beggar's Holiday* (1946), with Duke Ellington; two acclaimed Broadway operas with Jerome Moross: *Ballet Ballads* (1948) and *The Golden Apple* (1954); one of the most enduring operas in the American canon, *The Ballad of Baby Doe* (1956), with Douglas Moore; and the operetta *Candide* (1956), with Leonard Bernstein and Lillian Hellman. Extremely versatile, he also wrote cabaret songs, participated in documentary and avant-garde film, translated poetry, adapted plays, and much else. Meanwhile, as one of Manhattan's most celebrated raconteurs and hosts, he developed a wide range of friends in the arts, including, to name only a few, Paul and Jane Bowles (whom he introduced to each other), Yul Brynner, John Cage, Jack Kerouac, Frederick Kiesler, Carson McCullers, Frank O'Hara, Dawn Powell, Ned Rorem, Virgil Thomson, Gore Vidal, and Tennessee Williams—a dazzling constellation of diverse artists working in sundry fields, all attracted to Latouche's brilliance and joie de vivre, not to mention his support for their work. This book draws widely on archival collections both at home and abroad, including Latouche's diaries and the papers of Bernstein, Ellington, Moore, Moross, and many others, to tell for the first time, the story of this fascinating man and his work.
