early year little sandra set: Our Wild Farming Life Lynn Cassells, Sandra Baer, 2023-03-10 As seen on the BBC's This Farming Life The inspirational story of Lynbreck Croft—a regenerative

Scottish farm rooted in local food, community, and the dreams of two women. Lynn and Sandra left their friends, family, and jobs in England to travel north to Scotland to find a bit of land that they could call their own. They had in mind keeping a few chickens, a kitchen garden, and renting out some camping space; instead, they fell in love with Lynbreck Croft—150 acres of opportunity and beauty, shrouded by the Cairngorms and deep in the Highlands of Scotland. But they had no money, no plan, and no experience in farming. In *Our Wild Farming Life*, Lynn and Sandra recount their experiences as they work out what kind of farmers they want to be, learning how to work with Highland cattle, become part of the crofting community, and understand how they can farm with nature to produce food for themselves and the people around them. “Through their journey to becoming farmers,” as *The Guardian* recently wrote, “it’s clear that nature and the health of the environment plays a central role in everything they do, from planting 17,500 native broadleaf trees for wood pasture to setting aside 22 hectares for rewilding.” And through efforts like these, Lynn and Sandra have been able to combine regenerative farming practices with old crofting traditions to keep their own personal values intact. *Our Wild Farming Life* is what happens when you follow your dreams of living on the land; a story of how two people became farmers—and how they learned to make a living from it, their way.

early year little sandra set: *Defining Moments in the Life And Times of Tyrone Pierre Dumas* Tyrone Pierre (Kofi) Dumas, 2022-07-14 My life and times have taken many twist and turns. When I was in grade school, at Twelfth Street School, I thought I was going to be a piano player after taking lessons because we had to piano at home for me to practice that did not last long. In junior high school at Robert Fulton Junior High, I fell in love with playing the drums and really got good at it. My mom broke down and purchased me a set of drums and even got to our community’s great drummers to teach me. Victor Sword was jazz drummer, and Vic Pitts was a drummer with the Seven Sounds R&B group. I learned so much from them and thought I would play in a band one day. In junior high I also fell in love with design and drafting in drafting class with the added learning in metal shop and carpentry class. Using my hand was one of the common things about all those possible career choices. The piano and the drum made noise while I could sit for hours with a pencil/pen and draw. By 1970-71, while in my first year of college, I settled on architecture. I quit when I found no time to practice as my studies and assignments started to take all my time. I should add that along with my college work and study requirements, I found some friends and girls who became a part of my new priorities. As a Black first-generation college student, I lost my mind while partying with my brotherhood and sisterhood most of the week and weekends. I also found love in all that chaos when I met my future wife, and we had kids, while starting a family in 1972-73. Life changed again as I figured out that many sacrifices would have to take center stage in pursuit of completing college. I started college at MATC (Milwaukee Area Technical College) in 1970, and in 1973/74, I was admitted into UWM (University of WI-Milwaukee) School of Architecture. I was so in the groove to get my degree. During a two-year period (1973-1975), I decided to finish up at MATC part-time to get my associates degree, while attending UWM full-time from 1973 to 1977 to get my bachelor’s degree. For a two-year period, I attended both day and night schools, worked PT jobs and work study jobs, and participated in the raising of out two children while my wife worked full-time. I had quit drinking, partying, and smoking after I got married and was needing some mental-health stability, which I found in 1974, when I started doing stand-up comedy, as inspired by comedian Richard Pryor. The rest is history, as I achieved all my goals by getting both my associate and bachelor’s degrees, with the intervention of my Lord and Savior/God during all the times I thought I could not make it. In fact, during the times I wanted to quit, my wife would call my mother and my mother-in-law, and I would go to sit with them and get the words of wisdom from these angels for support. There were other significant help and support during my career launch from the beginning until now. Ms. Margaret Garner-Thompson gave me the money to pay my MATC tuition in 1970. Mr. Prentice McKinney told me about student financial aid, which allowed me to pay for my college years. Dr. Earnest Spaight, Rachel Seymore, Clara New, Paul Pettie, Dr. Sandra Moore, and many others at UWM and MATC helped me clarify purpose and meaning in my life from 1970 to 1977. Triumph the Church of God in Christ became a foundation of faith while in college where Aunt Red, Reverend Buck, Queenie, and my mother-in-law, Hagar Harrel, lifted me up to do well as they worked to build a new church and they added me to the design committee. My school time, life, and family got an intervention-based boost from these angels, sent by God. My sister Sharon was married with her family at that time while my brother Anthony was in the US Navy. My grandmother, Grandcheer/Arvella Twine, was always cheering for me from her home in Fordyce, Arkansas, where I spent my summers as a kid. I am a product of my family, good people, friends,

neighborhoods and community, which allowed the moments of my life to happen! Life for me is comparable to the alphabet, with A being the beginning of life (born date) and Z being the end of life (death). The real life and book you write is done in the B through Y. The many chapters are written by you and all those members of your family whom you have impacted. The chapters of the book continue to be written even when you have passed on and become an ancestor by your family members and friends. As an ancestor, every time your name is remembered, spoken, or thought about, you still live in love, peace, faith, and spirit within those still writing their book chapters! 1

early year little sandra set: Way Ward Life Ron D Young, 2012-11-01 Everybody needs a get away from the normal mundane lifestyle of routine work and happenstance. They need an outlet that leads the imagination into a different time-period. A time period that represents the difference in the lifestyle between now and the 1800's, understanding that a hundred years ago people lived much simpler lives that had various outcomes, and conclusions that represented how hard work adds to success. We all like to recall our childhood memories and the way things used to be when we were growing up. Listening to our grandparents ramble on endlessly about how we have it easier and how they had it harder growing up than what we have it now. Wayward Life is a story about a boy growing up on a Tennessee farm with his family in the late 1800's. This story whispers the sound of Civil War and the beginning of the industrial revolution that made America such a great nation. The main character, Christopher, explains the hardships and uncertainty of the small farmer. The small farming communities that emerged during the Civil War have relevance as to keeping the country going during a time of war. Christopher tells a story about what hard work ethic, good integrity, and study can do for him and his family living on an 1800 farm. Some of which Wayward Life displays to the reader is how the family interacts and pulls together to accomplish tasks that are invited into

their day-to-day lives. Wayward Life also has a child's like playfulness between friends and family that most often creates a tight bond between family siblings and friends. Simplicity is the key; thus, passing knowledge from one generation to another, Christopher and his family (the Smiths) survives our changing America during a time of war and industrial revolution. This is a fun-loving book about a boy named Christopher Smith who tells his story about the South during the late 1800's.

Christopher lives on a farm located in Knoxville, Tennessee, owned by his father, Henry Smith and his mother, Rebecca Smith. His family pulls together to get the farm work done; when they are not working on chores, Christopher, his brothers, sisters, and friends find time to play. This story goes in depth about growing up on a farm and the trials that present themselves while working on a farm. Many tasks are part of the everyday life of Christopher and his family, such as selling at the market, building houses, and finding new means of transportation that is, trains, and bicycles. They have an uncle, Nick Smith, who lives in Nashville, where they like to visit. As Christopher stays at Uncle Nick's house and plays with his cousins, he notices that keeping close to family is important.

Christopher finds himself in a world of war and peace at the same time, holding on to family and school values in an uncertain South that is in the midst of abolishing slavery. The Civil War to me seemed to be a conflict in which the North and the South could not possibly reverse. It split the very being of the Northerners making them deathening against the Southerners. The North wanted to end slavery, with more and more needs contracted to be met the South used slaves to sustain their wealthier with hard to field crops such as cotton, strawberries, corn, and in the Midwest wheat. The lowerure going against the South the North thought that within the first two battles the South would suffer a major defeat withdrawing the South lowering their flag in a meaningful retreat. Once this didn't happen, an hourly battle became days as the standoff lasted weeks. The South at Arlington had defended their side, at Arlington, Manassas, and Central Juncture handed the South major victories. To the North Virginia brigade the Civil War was not going to be a quick and easy conflict to resolve. This persistence forced President Lincoln to find resources to assist the North in the battle with the South. Likewise this was not an easy War for the North, thinking in part that they should have defeated the South at Arlington, Manassas, and Central Junction, this did not happen leaving the North looking for new strategist to figure tactics of how to defeat the South. See not only did the proclamation changed life of the people in the United States but it also changed the life of those who lived overseas. The Proclamation Emancipation made it so that slave trading was illegal within the United States. Having that been said Abraham Lincoln had to pass new amendments to hold the South in treason against the United States for their actions. The North and the South activated West Point graduates to take over the military difficulties. The North needed the Military to only partner with the United States of America. The actual government financing the North should have had all of the best war strategist by the third battle the United States Government realized that this was not true. What wasn't happening was the unparallel, recognizable, infallible, invaluable, decision making of West Point to split their graduates in a way that jeopardized the carriers of the commanders them selves. New graduates eagerly went off to war with out practical understanding that they had entered a dispute that wore no boundaries and had no limits. Soon fresh graduates found out the capacity of the United States to go as far as to levy the land underneath their opponent to win the battle. As the North went to war against the South they noticed that more West Point graduates participated with the Northside even though many graduates had come from the Southside. The President of the South being Jefferson Davis happened to be a West Point graduate that respected his parents and families greater than his career with the United States Government. Jeopardizing both Family and career in the end the South lead by Jefferson Davis condemned the Norths propersition to protect runaway slaves. The United States became divided, the South followed absurd dictation from the Bible that was worded in a way to make slavery seem as if it was proper for upright citizens to own and trade slaves. Truthfully, it was not proper for leglets to change the words of the Bible and dictating it in such a way that made it sound as if it was legal to own and trade slaves. The Fellowship of the church became distraught over the legality of human rights and slavery. This made preachers feel in such a way, that the

United States could no longer tame the fire that raged deep in the heart of Noble men, that the United States was now unable to be righteously before God thus creating a split straight to the heart of America that no one could deny. Families that once had names that were conjunctions such as the Smithfield's then became Smiths and the fields split by proprietor rights to own slaves. Also families such as the Bass-Mason and the West-England's now broke their names down into more commonly known one syllable names while one clan swayed towards the North as the other clan went South. As the Civil War waged on those friends and family disembarked from their original family ties who became sworn enemies of one another due to their beliefs. A bitter fight that took the lives of tens of millions, lost over a dispute about life. Whole towns set out to paint their towns red as others yellow to show that they where against the North and for the south as yellow was common during the Civil War to claim the North side. The change was evident as the South took trains to their destinations, the North also flew by train as it was called before aeronautics was even thought of in history. Often the train was used to carry troops back and forth to battles. The train being the only other means of transportation made a major difference in logistics support as well as massing troops across the land. The train becoming main stream in 1817, it was composed of burning fuels to heat boilers which granted them the name steam locomotives. The need for slaves rose as it was easier to move products by train to there destinations especially coal and timber. In Chattanooga Tennessee slaves were used in a completely different way, as they moved wash wood to the Mills. As times got harder the expenses grew greater, the rich became richer as it happened until the land owners couldn't operate without slaves, due to supply meet demand scales of work production, the South became dependent on slavery. Being a distinct difference in the metropolis of the Northern States vs the horticultural living of the Southern States, the propaganda went into a profound cross road of good vs evil, that the United States could no longer ignore this disagreement of human rights, war became eminent. President Lincoln left with no other means or choices to control the Southern land owners, optioning out of war was not an opinionated decision there was no way to deter the conceivable fact that slavery was wrong being unstoppable the Civil War rang out.
