Eighteen-year-old Daunis Fontaine has never quite fit in, both in her hometown and on the nearby Ojibwe reservation. She dreams of a fresh start at college, but when family tragedy strikes, Daunis puts her future on hold to look after her fragile mother. The only bright spot is meeting Jamie, the charming new recruit on her brother Levi's hockey team. Yet even as Daunis falls for Jamie, she senses the dashing hockey star is hiding something. Everything comes to light when Daunis witnesses a shocking murder, thrusting her into an FBI investigation of a lethal new drug. Reluctantly, Daunis agrees to go undercover, drawing on her knowledge of chemistry and Ojibwe traditional medicine to track down the source. But the search for truth is more complicated than Daunis imagined, exposing secrets and old scars. At the same time, she grows concerned with an investigation that seems more focused on punishing the offenders than protecting the victims. Now, as the deceptions—and deaths—keep growing, Daunis must learn what it means to be a strong Anishinaabe kwe (Ojibwe woman) and how far she'll go for her community, even if it tears apart the only world she's ever known.

But the truth about Starflight's tribe is more terrible than he ever imagined: Not only do the NightWings live in a dark, miserable place, but they've imprisoned several innocent RainWings there, too. Stranded and alone, Starflight only wants to get back to his friends. But the fate of two kingdoms now rests in his talons, and with no one to save him, Starflight will have to find a way to be brave . . . before it's too late.

fourth wing online: My Year in the Online Left Eric W. Saeger, 2024-06-10 In 2020, a veteran culture critic took on a social media experiment he called Supersize Me Twitter (he refuses to call it X). For one full year (which turned into four), he would post about politics every day on leftist

Twitter, but without choosing a side between Democrats, socialists, communists or progressives. This is the story of that bad idea and what he learned during that time. Informed by such thinkers as Alvin Toffler, Barbara Ehrenreich, Chalmers Johnson, Mark Blyth, Michael Hudson, Clara Mattei, Robert Ovetz, Steve Keen and dozens of others, this book is intended as a travel guide for activists, organizers and curiosity seekers alike. It demystifies such recent developments as the decline of corporate social media platforms, the rise of independent media (the Fifth Estate) as it replaces the mainstream media, punk economics, divisions within the online left itself, and why the US economic system has entered its late stage capitalism phase. The second book from Russian Nazi Troll Bots author Eric Saeger examines what a unified online left could accomplish by coming to agreement on real-world objectives, combatting divisive propaganda and joining forces, first by looking at alternative social media platforms, then by looking at the commonalities and differences between liberals and farther-leftists, and finally by offering practical advice on activist strategies like hashtag campaigns and other techniques that could potentially augment the work of organizers involved in labor, climate and other areas of activism.

fourth wing online: *Literature Suppressed on Religious Grounds, Fourth Edition* Margaret Bald, 2019-08-01 Censorship of religious and philosophical speculation is as old as history and as current as today's headlines. Many of the world's major religious texts, including the Bible, the Talmud, the Koran, and others, have been suppressed, condemned, or proscribed at some time. Works of secular literature that touch upon religious beliefs or reflect dissenting views have also been suppressed. *Literature Suppressed on Religious Grounds, Fourth Edition* profiles the censorship of many of these works. These include the frequently challenged Harry Potter series, which critics accuse of promoting witchcraft and anti-family themes, as well as Philip Pullman's *His Dark Materials* trilogy and Dan Brown's *The Da Vinci Code*. Entries include: *The Age of Reason* (Thomas Paine) *The Analects* (Confucius) *The Battle for God* (Karen Armstrong) *The Bible Children of the Alley* (Naguib Mahfouz) *Critique of Pure Reason* (Immanuel Kant) *The Da Vinci Code* (Dan Brown) *Dialogue Concerning the Two Chief World Systems* (Galileo Galilei) *Discourse on Method* (Rene Descartes) *Don Quixote* (Miguel de Cervantes Saavedra) *The Harry Potter series* (J.K. fourth wing online: *Online Terrorist Propaganda, Recruitment, and Radicalization* John R. Vacca, 2019-07-30 *Online Terrorist Propaganda, Recruitment, and Radicalization* is most complete treatment of the rapidly growing phenomenon of how terrorists' online presence is utilized for terrorism funding, communication, and recruitment purposes. The book offers an in-depth coverage of the history and development of online footprints to target new converts, broaden their messaging, and increase their influence. Chapters present the emergence of various groups; the advancement of terrorist groups' online presences; their utilization of video, chat room, and social media; and the current capability for propaganda, training, and recruitment. With contributions from leading experts in the field—including practitioners and terrorism researchers—the coverage moves from general factors to specific groups practices as relate to Islamic State of Iraq and the Levant (ISIL), and numerous other groups. Chapters also examine the lone wolf phenomenon as a part of the disturbing trend of self-radicalization. A functional, real-world approach is used regarding the classification of the means and methods by which an online presence is often utilized to promote and support acts of terrorism. *Online Terrorist Propaganda, Recruitment, and Radicalization* examines practical solutions in identifying the threat posed by terrorist propaganda and U.S. government efforts to counter it, with a particular focus on ISIS, the Dark Web, national and international measures to identify, thwart, and prosecute terrorist activities online. As such, it will be an invaluable resources for intelligence professionals, terrorism and counterterrorism professionals, those researching terrorism funding, and policy makers looking to restrict the spread of terrorism propaganda online.

fourth wing online: Nationalism on the Internet Christian Fuchs, 2019-09-17 In this timely book, critical theorist Christian Fuchs asks: What is nationalism and what is the role of social media in the communication of nationalist ideology? Advancing an applied Marxist theory of nationalism, Fuchs explores nationalist discourse in the world of contemporary digital capitalism that is shaped by social media, big data, fake news, targeted advertising, bots, algorithmic politics, and a high-speed online attention economy. Through two case studies of the German and Austrian 2017 federal elections, the book goes on to develop a critical theory of nationalism that is grounded in the works of Karl Marx, Rosa Luxemburg, and Eric J. Hobsbawm. Advanced students and scholars of Marxism, nationalism, media, and politics won't want to miss Fuchs' latest in-depth study of social media and politics that uncovers the causes, structures, and consequences of nationalism in the age of social media and fake news.

fourth wing online: European and American Extreme Right Groups and the Internet Manuela Caiani, Linda Parenti, 2016-04-29 How do right-wing extremist organizations throughout the world use the Internet as a tool for communication and recruitment? What is its role in identity-building within radical right-wing groups and how do they use the Internet to set their agenda, build contacts, spread their ideology and encourage mobilization? This important contribution to the field of Internet politics adopts a social movement perspective to address and examine these important questions. Conducting a comparative content analysis of more than 500 extreme right organizational web sites from France, Germany, Italy, Spain, the United Kingdom and the United States, it offers an overview of the Internet communication activities of these groups and systematically maps and analyses the links and structure of the virtual communities of the extreme right. Based on reports from the daily press the book presents a protest event analysis of right wing groups' mobilisation and action strategies, relating them to their online practices. In doing so it exposes the new challenges and opportunities the Internet presents to the groups themselves and the societies in which they exist.

fourth wing online: Populism, Media and Education Maria Ranieri, 2016-01-22 Based on a major research project funded by the European Commission, Populism, Media and Education studies how discriminatory stereotypes are built online with a particular focus on right-wing populism. Globalization and migration have led to a new era of populism and racism in Western countries, rekindling traditional forms of discrimination through innovative means. New media platforms are being seen by populist organizations as a method to promote hate speech and unprecedented forms of proselytism. Race, gender, disability and sexual orientation are all being used to discriminate and young people are the preferred target for populist organizations and movements. This book examines how media education can help to deconstruct such hate speech and promote young people's full participation in media-saturated societies. Drawing on rich examples from Austria, Belgium, Bulgaria, France, Italy, Slovenia, and the UK - countries characterized by different political and cultural contexts - Populism, Media and Education addresses key questions about the meaning of new populism, the nature of e-engagement, and the role of education and citizenship in the digital century. With its international and interdisciplinary approach, this book is essential reading for academics and students in the areas of education, media studies, sociology, cultural studies, political sciences, discrimination and gender studies.

fourth wing online: The Last Letter Rebecca Yarros, 2019-02-26 "The Last Letter is a haunting, heartbreaking and ultimately inspirational love story."—InTouch Weekly Beckett, If you're reading this, well, you know the last-letter drill. You made it. I didn't. Get off the guilt train, because I know if there was any chance you could have saved me, you would have. I need one thing from you: get out of the army and get to Telluride. My little sister Ella's raising the twins alone. She's too independent and won't accept help easily, but she has lost our grandmother, our parents, and now

me. It's too much for anyone to endure. It's not fair. And here's the kicker: there's something else you don't know that's tearing her family apart. She's going to need help. So if I'm gone, that means I can't be there for Ella. I can't help them through this. But you can. So I'm begging you, as my best friend, go take care of my sister, my family. Please don't make her go through it alone. Ryan

fourth wing online: *Digital Fascism* Christian Fuchs, 2022-03-14 This fourth volume in Christian Fuchs's Media, Communication and Society book series outlines the theoretical foundations of digital fascism and presents case studies of how fascism is communicated online. *Digital Fascism* presents and engages with theoretical approaches and empirical studies that allow us to understand how fascism, right-wing authoritarianism, xenophobia, and nationalism are communicated on the Internet. The book builds on theoretical foundations from key theorists such as Theodor W. Adorno, Franz L. Neumann, Erich Fromm, Herbert Marcuse, Wilhelm Reich, Leo Löwenthal, Moishe Postone, Günther Anders, M. N. Roy, and Henry Giroux. The book draws on a range of case studies, including Nazi-celebrations of Hitler's birthday on Twitter, the 'red scare 2.0' directed against Jeremy Corbyn, and political communication online (Donald Trump, Boris Johnson, the Austrian presidential election). These case studies analyse right-wing communication online and on social media. Fuchs argues for the safeguarding of the democratic public sphere and that slowing down and decommodifying the logic of the media can advance and renew debate culture in the age of digital authoritarianism, fake news, echo chambers, and filter bubbles. Each chapter focuses on a particular dimension of digital fascism or a critical theorist whose work helps us to illuminate how fascism and digital fascism work, making this book an essential reading for both undergraduate and postgraduate students of media and communication studies, sociology, politics, and political economy as well as anyone who wants to understand what digital fascism is and how it works.

While any sweeping global governance regime for the Internet simultaneously raises dangers of intrusive over centralization and irrelevance, we think that the problems, loopholes, and unsavory politics associated with certain aspects of the existing evolution of governance makes it worthwhile to take a more comprehensive look at the system as a whole. The book also created a framework for the identification of public policy issues associated with Internet governance, and looked in greater detail at four specific areas of policy.

fourth wing online: *Cyberactivism on the Participatory Web* Martha McCaughey, 2014-04-16 Cyberactivism already has a rich history, but over the past decade the participatory web—with its de-centralized information/media sharing, portability, storage capacity, and user-generated content—has reshaped political and social change. *Cyberactivism on the Participatory Web* examines the impact of these new technologies on political organizing and protest across the political spectrum, from the Arab Spring to artists to far-right groups. Linking new information and communication technologies to possibilities for solidarity and action—as well as surveillance and control—in a context of global capital flow, war, and environmental crisis, the contributors to this volume provide nuanced analyses of the dramatic transformations in media, citizenship, and social movements taking place today.

fourth wing online: *The Space of the World* Nick Couldry, 2024-09-17 Over the past thirty years, humanity has made a huge mistake. We handed over to big tech decisions that have allowed

them to build what has become our space of the world – the highly artificial space of social media platforms where much of our social life now unfolds. This has proved reckless and has huge social consequences. The toxic effects on social life, young people's mental health, and political solidarity are well known, but the key factor underlying all this has been missed: the fact that humanity allowed business to construct our space of the world at all and then exploit it for profit. In the process, we ignored two millennia of political thought about the conditions under which a healthy or even a non-violent politics is possible. We endangered the one resource that is in desperately short supply in the face of catastrophic climate change: solidarity. Is human solidarity possible in a world of continuous digital connection and commercially managed platforms, and what if it isn't? In the first book of his trilogy, *Humanising the Future*, Nick Couldry offers a radical new vision of how to design our digital spaces so that they build, rather than erode, both solidarity and community. This trenchant and vividly written book stresses that we cannot afford not to care for our space of the world. We need to rebuild it together.

fourth wing online: Digital Communication and Learning Anna Wing Bo Tso, Alex Chi-keung Chan, Wendy Wing Lam Chan, Peter Edward Sidorko, Will W. K. Ma, 2022-04-12 This edited book collects papers with perspectives from scholars and practitioners in Asia, Australia, and Europe to reveal the pros and cons, chances and challenges, constraints, and potential risks that educators and learners are facing as the new paradigm for communication and learning takes place, with a view to shedding light on the global education climate in the midst of the pandemic. Since the onset of the global pandemic, education has been revolutionized in almost every aspect. The emergency precautionary measures which were once supposed to be temporary school arrangements only have now become the new normal, reshaping our understanding of learning environments, redefining the pedagogic standards in terms of teaching practices, learning designs, teacher-student interaction, feedback, and assessment. Online teaching, distanced learning, flipped classrooms, and self-paced e-learning have all played an increasingly vital role in shaping a new education culture in various education settings, affecting school management, teachers, students, and parents alike. While ICT in education, alongside new media, has provided ample benefits and convenience for educators and students, communication and virtual lessons conducted in the socially distanced classroom appear to have brought issues such as the digital divide, e-mental health, insufficient technical support, inefficient classroom management, reduced interaction between teachers and students, not to mention the growing concerns over privacy and security.

fourth wing online: Cyberspace, Cyberterrorism and the International Security in the Fourth Industrial Revolution Reza Montasari, 2024-02-19 This book represents an interdisciplinary academic endeavour intended to provide readers with a comprehensive, balanced, and nuanced examination of critical issues at the intersection of cyberspace, cyberterrorism, and national and international security. It draws insights from a range of diverse fields, including Computer Science, Social Science, Political Science, International Relations, Criminology, and Law. Furthermore, the book investigates the field of Artificial Intelligence (AI) and related technologies, exploring their dual role in this dynamic landscape of contemporary cyberthreats, with both constructive and malicious implications. The book comprises four distinct themes, with each theme represented by a dedicated Part. Within this organisational framework, each overarching theme is systematically explored through a series of chapters, providing readers with a clear and thematic roadmap for their journey through the content. Part I, *Understanding Terrorism and Counter-Terrorism Strategies*, of the book explores complexities surrounding contemporary global security challenges. It serves as the foundational segment of the book, consisting of three chapters that critically analyse various dimensions of terrorism and the strategies implemented to combat it. Part II, *Cyberterrorism Landscape*, of the book offers an in-depth assessment of the current cyberterrorism landscape. This section comprises two critical chapters, each contributing to a comprehensive understanding of the contemporary threats posed by cyberterrorism and their implications for national security. Part III, *Countering Cyberterrorism with Technology*, of the book forms the core of the book's exploration into leveraging technology to mitigate the threats of

such as Alibaba and YouTube to important current controversies such as Net neutrality and cyberterrorism. The goal of the encyclopedia is to provide the most comprehensive collection of authoritative entries on the Internet available, written in a style accessible to academic and non-academic audiences alike.

fourth wing online: Online synergizing alternative media for empowering people in India Francis Arackal Thummy, 2019-04-11 Essay from the year 2017 in the subject Communications - Multimedia, Internet, New Technologies, , language: English, abstract: This paper analyses three examples of alternative media in India. These are The Citizen, The Wire and News Laundry. The main task is to show the advantages and limitations of alternative media compared with mainstream media. Historically and conceptually the roots of media go back to the prophetic times and prophetic mission respectively. The prophetic times were a difficult period in the history of Israel. At that time the prophets were charged with a message to communicate. The prophetic role had a social dimension; it wasn't purely a personal religious experience. On the one hand the prophets belonged as a religious model in the king's entourage but on the other they did not refrain from castigating the ruler for their misdeeds often by pointed parables. They also performed their role as critics of the Israelite society. Prophetic castigation and criticism was to empower the ruler and the society and not to pull the ruler down and leave the society in tatters. Thus it was a very positive role. Historically and conceptually has the role of media been any different? Should the role of media today be any different? But the concern the world over regarding mainstream media today is its big fall from genuine and even limited expectations. The concern of failure of not living up to the expectations of media's role was there even in the age of the old media. Therefore the need for an alternative media was very much felt. This need was partly taken care of by Non-Governmental Organizations, their affiliates, and other cultural, religious, and social organizations. But there were limitations imposed by various factors such as scarcity of resources, state and government interferences and regulations. The post-truth nature of our world has influenced today's mainstream media very badly. Thankfully, the age of the internet has facilitated to some extent to overcome the drawbacks of the mainstream media and provide an alternative forum. The present contribution is focused on how the online has synergized an alternative media that might empower the people in terms of information gathering and information dissemination. For, today information is power.

fourth wing online: The Chinese Internet Qingning Wang, 2020-11-01 This book discusses the use of the internet in China, the complicated power relations in online political communications, and the interactions and struggles between the government and the public over the use of the internet. It argues that there is a semi-structured online public sphere, in which there is a certain amount of equal and liberal political communication, but that the online political debates are also limited by government control and censorship, as well as by inequality and exclusions, and moreover that the government rarely engages in the political debates. Based on extensive original research, and considering specific debates around particular issues, the book analyses how Chinese net-users debate about political issues, how they problematize the government's actions and policies, what language they use, what online discourses are produced, and how the debates and online discourses are limited. Overall, the book provides a rich picture of the current state of online political communication in China.

fourth wing online: The Yearling Marjorie Kinnan Rawlings, 2011-06-28 An American classic—and Pulitzer Prize-winning story—that shows the ultimate bond between child and pet. No novel better epitomizes the love between a child and a pet than *The Yearling*. Young Jody adopts an orphaned fawn he calls Flag and makes it a part of his family and his best friend. But life in the Florida backwoods is harsh, and so, as his family fights off wolves, bears, and even alligators, and faces failure in their tenuous subsistence farming, Jody must finally part with his dear animal friend. There has been a film and even a musical based on this moving story, a fine work of great American literature.

fourth wing online: *Microaggression Theory* Gina C. Torino, David P. Rivera, Christina M.

Capodilupo, Kevin L. Nadal, Derald Wing Sue, 2018-10-02 Get to know the sociopolitical context behind microaggressions Microaggressions are brief, everyday exchanges that send denigrating messages to certain individuals because of their group membership (e.g., race, gender, culture, religion, social class, sexual orientation, etc.). These daily, common manifestations of aggression leave many people feeling vulnerable, targeted, angry, and afraid. How has this become such a pervasive part of our social and political rhetoric, and what is the psychology behind it? In *Microaggression Theory*, the original research team that created the microaggressions taxonomy, Gina Torino, David Rivera, Christina Capodilupo, Kevin Nadal, and Derald Wing Sue, address these issues head-on in a fascinating work that explores the newest findings of microaggressions in their sociopolitical context. It delves into how the often invisible nature of this phenomenon prevents perpetrators from realizing and confronting their own complicity in creating psychological dilemmas for marginalized groups, and discusses how prejudice, privilege, safe spaces, and cultural appropriation have become themes in our contentious social and political discourse. Details the psychological effects of microaggressions in separate chapters covering clinical impact, trauma, related stress syndromes, and the effect on perpetrators Examines how microaggressions affect education, employment, health care, and the media Explores how social policies and practices can minimize the occurrence and impact of microaggressions in a range of environments Investigates how microaggressions relate to larger social movements If you come across the topic of microaggressions in your day-to-day life, you can keep the conversation going in a productive manner—with research to back it up!

fourth wing online: Archaeologists and the Dead Howard Williams, Melanie Giles, 2016 This volume addresses the relationship between archaeologists and the dead, through the many dimensions of their relationships: in the field (through practical and legal issues), in the lab (through their analysis and interpretation), and in their written, visual and exhibitionary practice--disseminated to a variety of academic and public audiences. Written from a variety of perspectives, its authors address the experience, effect, ethical considerations, and cultural politics of working with mortuary archaeology. Whilst some papers reflect institutional or organizational approaches, others are more personal in their view: creating exciting and frank insights into contemporary issues that have hitherto often remained unspoken among the discipline. Reframing funerary archaeologists as death-workers of a kind, the contributors reflect on their own experience to provide both guidance and inspiration to future practitioners, arguing strongly that we have a central role to play in engaging the public with themes of mortality and commemoration, through the lens of the past. Spurred by the recent debates in the UK, papers from Scandinavia, Austria, Italy, the US, and the mid-Atlantic, frame these issues within a much wider international context that highlights the importance of cultural and historical context in which this work takes place.

fourth wing online: The Revolution That Wasn't Jen Schradie, 2019-05-01 This surprising study of online political mobilization shows that money and organizational sophistication influence politics online as much as off, and casts doubt on the democratizing power of digital activism. The internet has been hailed as a leveling force that is reshaping activism. From the Arab Spring and Occupy Wall Street to Black Lives Matter and #MeToo, digital activism seemed cheap, fast, and open to all. Now this celebratory narrative finds itself competing with an increasingly sinister story as platforms like Facebook and Twitter—once the darlings of digital democracy—are on the defensive for their role in promoting fake news. While hashtag activism captures headlines, conservative digital activism is proving more effective on the ground. In this sharp-eyed and counterintuitive study, Jen Schradie shows how the web has become another weapon in the arsenal of the powerful. She zeroes in on workers' rights advocacy in North Carolina and finds a case study with broad implications. North Carolina's hard-right turn in the early 2010s should have alerted

political analysts to the web's antidemocratic potential: amid booming online organizing, one of the country's most closely contested states elected the most conservative government in North Carolina's history. The Revolution That Wasn't identifies the reasons behind this previously undiagnosed digital-activism gap. Large hierarchical political organizations with professional staff can amplify their digital impact, while horizontally organized volunteer groups tend to be less effective at translating online goodwill into meaningful action. Not only does technology fail to level the playing field, it tilts it further, so that only the most sophisticated and well-funded players can compete.

fourth wing online: Contemporary Germany and the Fourth Wave of Far-Right Politics

Manès Weisskircher, 2023-09-28 This volume provides a state-of-the-art analysis on the fourth wave of far-right politics in Germany by leading scholars in the field. Innovatively, the book focuses not only on the role of the electoral breakthrough of AfD, the Federal Republic's first-ever nationally established far-right party, but also on the many crucial instances of non-party activism, such as the 'New Right' intellectual circles, PEGIDA street protest, and political violence. For a long time, Germany was regarded as an exceptional case because of the lack of an established far-right party on the national level. Times have changed – but Germany still remains unique. The book highlights four features that continue to make the case exceptional within Western Europe: (I) The strong diversity of vibrant far-right political players in Germany and their many interconnections, (II) the electoral success of AfD, i.e. the delayed electoral breakthrough of a far-right party on the national level, (III) the importance of 'militant democracy', specifically how established players have responded to AfD, and (IV) the relevance of the east-west divide for understanding far-right politics in Germany. Contributions on these topics highlight the broader theoretical relevance of the analysis of the German far-right, connecting to many research questions that have occupied scholars also in other contexts. The book is essential reading for all those with an interest in the far right, German and European politics, as well as in the interconnections between political parties, social movements, and subcultural milieus.

fourth wing online: *After the Fact?* Marcus Gilroy-Ware, 2020-11-10 Why do we no longer trust facts, experts and statistics? In this essential guide to the turbulent times in which we live, Marcus Gilroy-Ware investigates our era of post-truths and fake news and answers the question of where we can go from here. We are supposed to have more information at our disposal now than at any time in history. So why, in a world of rising sea levels, populist leaders, resurgent fascism and a global pandemic, do so many people believe bizarre and untrue things about the world we live in? In *After the Fact?*, Marcus Gilroy-Ware shows us what really created the conditions for mis- and disinformation, from fake news and conspiracy theories, to bullshit journalism and the resurgence of the far-right, and why liberal newspaper columnists and centrist politicians are unable to turn back this tide. Spanning politics, culture, psychology, journalism, and much more, *After the Fact?* is a timely wake-up call for those who believe we can simply go back to normal, and instead argues that, if we are to put an end to fake news we must deal with the broader social crises that are responsible for it.

fourth wing online: *The History of Religious Liberty* Michael Farris, 2015-04-01 Early American advocates of freedom did not believe in religious liberty in spite of their Christianity, but explicitly because of their individual faith in Christ, which had been molded and instructed by the Bible. The greatest evidence of their commitment to liberty can be found in their willingness to support the cause of freedom for those different from themselves. The assertion that the Enlightenment is responsible for the American Bill of Rights may be common, but it is devoid of any meaningful connection to the actual historical account. History reveals a different story, intricately gathered from the following: Influence of William Tyndale's translation work and the court intrigues of Henry VIII Spread of the Reformation through the eyes of Martin Luther, John Knox, and John Calvin The fight to establish a bill of rights that would guarantee every American citizen the free exercise of their religion. James Madison played a key role in the founding of America and in the establishment of religious liberty. But the true heroes of our story are the common people whom

Tyndale inspired and Madison marshaled for political victory. These individuals read the Word of God for themselves and truly understood both the liberty of the soul and the liberty of the mind. The History of Religious Liberty is a sweeping literary work that passionately traces the epic history of religious liberty across three centuries, from the turbulent days of medieval Europe to colonial America and the birth pangs of a new nation.

fourth wing online: The Things We Leave Unfinished Rebecca Yarros, 2021-02-23 Told in alternating timelines, THE THINGS WE LEAVE UNFINISHED examines the risks we take for love, the scars too deep to heal, and the endings we can't bring ourselves to see coming. Twenty-eight-year-old Georgia Stanton has to start over after she gave up almost everything in a brutal divorce—the New York house, the friends, and her pride. Now back home at her late great-grandmother's estate in Colorado, she finds herself face-to-face with Noah Harrison, the bestselling author of a million books where the cover is always people nearly kissing. He's just as arrogant in person as in interviews, and she'll be damned if the good-looking writer of love stories thinks he's the one to finish her grandmother's final novel...even if the publisher swears he's the perfect fit. Noah is at the pinnacle of his career. With book and movie deals galore, there isn't much the "golden boy" of modern fiction hasn't accomplished. But he can't walk away from what might be the best book of the century—the one his idol, Scarlett Stanton, left unfinished. Coming up with a fitting ending for the legendary author is one thing, but dealing with her beautiful, stubborn, cynical great-granddaughter, Georgia, is quite another. But as they read Scarlett's words in both the manuscript and her box of letters, they start to realize why Scarlett never finished the book—it's based on her real-life romance with a World War II pilot, and the ending isn't a happy one. Georgia knows all too well that love never works out, and while the chemistry and connection between her and Noah is undeniable, she's as determined as ever to learn from her great-grandmother's mistakes—even if it means destroying Noah's career.

fourth wing online: **Migration and the Contested Politics of Justice** Giorgio Grappi, 2021-05-19 This book discusses the politics of justice in relation to migration addressing both the controversies of governance and the active role of migrants' struggles in shaping the materiality of justice. Considering justice and migration as globally contested fields, the book questions received

wisdoms of European migration politics, including images of a migratory 'crises', the reconfiguration of the borders of justice, and the spurious pretensions of controlling and governing mobility. Gathering global scholars from migration studies, international relations and critical theory, as well as social activists, it advances an extended concept of contestation that goes beyond the simple clash of interests between national and international political actors. As such the book expands the discourse to a wider politics of justice and advances different angles and methodological perspectives from which to question purely normative conceptions of justice. Looking beyond the simple transformations in laws and regulations, the book updates the debate on migration adopting a global perspective. This book is of key interest to scholars and students of migration studies, European studies, global justice, and labour, gender and EU studies.
