hunting adeline full book: *In Trump Time* Peter Navarro, 2024-07-30 In Trump Time, A Journal of America's Plague Year, tells the story of a President who worked night and day for the American people, who built the strongest economy in modern history, who would deliver a life-saving suite of vaccines to the American people literally at warp speed, but who would ultimately

lose the 2020 election. Peter Navarro was one of only three senior White House officials by President Trump's side from the 2016 campaign to the end of the president's first term in office. Always moving In Trump Time as was his signature, Dr. Navarro was the first to sound the alarm within the West Wing about the pandemic. He played a pivotal role in the rapid development of both vaccines and therapeutics like Remdesivir. As Defense Production Act Policy Coordinator, Navarro was at the center of ramping up domestic production of critically needed Personal Protective Equipment and while helping President Trump ensure that every American who needed a ventilator had a ventilator. A compelling, page-turner of a book that tells the story of America 2020 from inside the White House.

hunting adeline full book: *Death in the Long Grass* Peter Hathaway Capstick, 1978-01-15 As thrilling as any novel, as taut and exciting as any adventure story, Peter Hathaway Capstick's *Death in the Long Grass* takes us deep into the heart of darkness to view Africa through the eyes of one of the most renowned professional hunters. Few men can say they have known Africa as Capstick has known it—leading safaris through lion country; tracking man-eating leopards along tangled jungle paths; running for cover as fear-maddened elephants stampede in all directions. And of the few who have known this dangerous way of life, fewer still can recount their adventures with the flair of this former professional hunter-turned-writer. Based on Capstick's own experiences and the personal accounts of his colleagues, *Death in the Long Grass* portrays the great killers of the African bush—not only the lion, leopard, and elephant, but the primitive rhino and the crocodile waiting for its unsuspecting prey, the titanic hippo and the Cape buffalo charging like an express train out of control. Capstick was a born raconteur whose colorful descriptions and eye for exciting, authentic detail bring us face to face with some of the most ferocious killers in the world—underrated killers like the surprisingly brave and cunning hyena, silent killers such as the lightning-fast black mamba snake, collective killers like the wild dog. Readers can lean back in a chair, sip a tall, iced drink, and revel in the kinds of hunting stories Hemingway and Ruark used to hear in hotel bars from Nairobi to Johannesburg, as veteran hunters would tell of what they heard beyond the campfire and saw through the sights of an express rifle.
