kristen archives com: Producing the Archival Body Jamie A. Lee, 2020-12-21 Producing the Archival Body draws on theoretical and practical research conducted within US and Canadian archives, along with critical and cultural theory, to examine the everyday lived experiences of archivists and records creators that are often overlooked during archival and media production. Expanding on the author's previous work, which engaged archival and queer theories to develop the Queer/ed Archival Methodology that intervenes in traditional archival practices, the book invites readers interested in humanistic inquiry to re-consider how archives are defined, understood, deployed, and accessed to produce subjects. Arguing that archives and bodies are mutually constitutive and developing a keen focus on the body and embodiment alongside archival theory, the author introduces new understandings of archival bodies. Contributing to recent disciplinary moves that offer a more transdisciplinary emphasis, Lee interrogates how power circulates and is deployed in archival contexts in order to build critical understandings of how deeply archives influence and shape the production of knowledges and human subjectivities. Producing the Archival Body will be essential reading for academics and students engaged in the study of archival studies, library and information science, gender and women's studies, anthropology, history, digital humanities, and media studies. It should also be of great interest to practitioners working in and with archives

kristen archives com: "Cat Person" and Other Stories Kristen Roupenian, 2019-01-15 *Includes the story "Cat Person"—now a major film* A compulsively readable collection of short stories that explore the complex—and often darkly funny—connections between gender, sex, and power across genres. "These stories are sharp and perverse, dark and bizarre, unrelenting and utterly bananas. I love them so, so much." —Carmen Maria Machado, National Book Award Finalist and author of *Her Body and Other Parties* "Kristen Roupenian isn't just an uncannily great writer, she also knows things about the human psyche...The world has made a lot more sense since reading this book." —Miranda July, New York Times bestselling author Previously published as *You Know You Want This*, "Cat Person" and *Other Stories* brilliantly explores the ways in which women are horrifying as much as it captures the horrors that are done to them. Among its pages are a couple who becomes obsessed with their friend hearing them have sex, then seeing them have sex...until

they can't have sex without him; a ten-year-old whose birthday party takes a sinister turn when she wishes for "something mean"; a woman who finds a book of spells half hidden at the library and summons her heart's desire: a nameless, naked man; and a self-proclaimed "biter" who dreams of sneaking up behind and sinking her teeth into a green-eyed, long-haired, pink-cheeked coworker. Spanning a range of genres and topics—from the mundane to the murderous and supernatural—these are stories about sex and punishment, guilt and anger, the pleasure and terror of inflicting and experiencing pain. These stories fascinate and repel, revolt and arouse, scare and delight in equal measure. And, as a collection, they point a finger at you, daring you to feel uncomfortable—or worse, understood—as if to say, "You want this, right? You know you want this."

kristen archives com: Paper Cadavers Kirsten Weld, 2014-03-21 In Paper Cadavers, an inside account of the astonishing discovery and rescue of Guatemala's secret police archives, Kirsten Weld probes the politics of memory, the wages of the Cold War, and the stakes of historical knowledge production. After Guatemala's bloody thirty-six years of civil war (1960–1996), silence and impunity reigned. That is, until 2005, when human rights investigators stumbled on the archives of the country's National Police, which, at 75 million pages, proved to be the largest trove of secret state records ever found in Latin America. The unearthing of the archives renewed fierce debates about history, memory, and justice. In Paper Cadavers, Weld explores Guatemala's struggles to manage this avalanche of evidence of past war crimes, providing a firsthand look at how postwar justice activists worked to reconfigure terror archives into implements of social change. Tracing the history of the police files as they were transformed from weapons of counterinsurgency into tools for post-conflict reckoning, Weld sheds light on the country's fraught transition from war to an uneasy peace, reflecting on how societies forget and remember political violence.

Full Body Burden is the story of a childhood and adolescence in the shadow of the Cold War, in a landscape at once startlingly beautiful and--unknown to those who lived there--tainted with invisible yet deadly particles of plutonium. It's also a book about the destructive power of secrets--both family and government. Her father's hidden liquor bottles, the strange cancers in children in the neighborhood, the truth about what was made at Rocky Flats--best not to inquire too deeply into any of it. But as Iversen grew older, she began to ask questions and discovered some disturbing realities. Based on extensive interviews, FBI and EPA documents, and class-action testimony, this taut, beautifully written book is both captivating and unnerving.

Recounting her successes, trials, mishaps, and hard-won wisdom, this mother of four advocates for letting go of the expectations, the guilt, and the endless race to be the perfect parent to the perfect child in the perfect family. Doing enough? Doing it right? What's wrong with me? What's wrong with these children? Are they eighteen yet? With her signature blend of vulnerability, sarcasm, and insight, Howerton shares her unexpected journey from infertility to adoption to pregnancy to divorce to dealing with the shock and awe of raising teens. It also explores new definitions of what community archives

might encompass, particularly in relation to disciplines outside the archives. Over ten years have passed since the first volume of *Community Archives*, and inspired by continued research as well as by the formal recognition of community archives in the UK, the community archives movement has become an important area of research, recognition and appreciation by archivists, archival scholars and others worldwide. Increasingly the subject of papers and conferences, community archives are now seen as being in the vanguard of social concerns, markers of community-based activism, a participatory approach exemplifying the on-going evolution of 'professional' archival (and heritage) practice and integral to the ability of people to articulate and assert their identity. *Community Archives*, *Community Spaces* reflects the latest research and includes practical case studies on the challenges of building and sustaining community archives. This new book will appeal to practitioners, researchers, and academics in the archives and records community as well as to historians and other scholars concerned with community building and social issues.

Uncertain in her own feelings about motherhood, she tries her best—driving, cleaning, cooking, prodding him to finish projects for school—while growing increasingly resentful of Monika, her confident but absent wife. As Samson grows from feral toddler to surly teenager, Sammie's life begins to deteriorate into a mess of unruly behavior, and her struggle to create a picture-perfect queer family unravels. When her son's hostility finally spills over into physical aggression, Sammie must confront her role in the mess—and the possibility that it will never be clean again. Blending the warmth and wit of Arnett's breakout hit, *Mostly Dead Things*, with a candid take on queer family dynamics, *With Teeth* is a thought-provoking portrait of the delicate fabric of family—and the many ways it can be torn apart.

Priya worked hard to pursue her premed dreams at Stanford, but the fallout from undiagnosed Lyme disease sends her back to her childhood home in New Jersey during her sophomore year—and leaves her wondering if she'll ever be able to return to the way things were. Thankfully she has her online pen pal, Brigid, and the rest of the members of "oof ouch my bones," a virtual support group that meets on Discord to crack jokes and vent about their own chronic illnesses. When Brigid suddenly goes offline, Priya does something out of character: she steals the family car and drives to Pennsylvania to check on Brigid. Priya isn't sure what to expect, but it isn't the horrifying creature that's shut in the basement. With Brigid nowhere to be found, Priya begins to puzzle together an impossible but obvious truth: the creature might be a werewolf—and the werewolf might be Brigid. As Brigid's unique condition worsens, their friendship will be deepened and challenged in unexpected ways, forcing them to reckon with their own ideas of what it means to be normal.

kristen archives com: *Permission to Screw Up* Kristen Hadeed, 2017-10-10 The inspiring, unlikely, laugh-out-loud story of how one woman learned to lead—and how she ultimately succeeded, not despite her many mistakes, but because of them. This is the story of how Kristen Hadeed built Student Maid, a cleaning company where people are happy, loyal, productive, and empowered, even while they're mopping floors and scrubbing toilets. It's the story of how she went from being an almost comically inept leader to a sought-after CEO who teaches others how to lead. Hadeed unintentionally launched Student Maid while attending college ten years ago. Since then, Student Maid has employed hundreds of students and is widely recognized for its industry-leading retention rate and its culture of trust and accountability. But Kristen and her company were no overnight sensation. In fact, they were almost nothing at all. Along the way, Kristen got it wrong almost as often as she got it right. Giving out hugs instead of feedback, fixing errors instead of enforcing accountability, and hosting parties instead of cultivating meaningful relationships were just a few of her many mistakes. But Kristen's willingness to admit and learn from those mistakes helped her give her people the chance to learn from their own screwups too. *Permission to Screw Up* dismisses the idea that leaders and organizations should try to be perfect. It encourages people of all ages to go for it and learn to lead by acting, rather than waiting or thinking. Through a brutally honest and often hilarious account of her own struggles, Kristen encourages us to embrace our failures and proves that we'll be better leaders when we do.

Despite the divorce statistics, people are still committing to each other, instinctively believing and hoping that theirs is a sacred union that will last forever. Yet when these couples encounter problems, they often lack the resources that keep them connected to this greater mystery surrounding marriage. Rob and Kristen Bell introduce a startling new way of looking at marriage, *The Zimzum of Love*. Zimzum is a Hebrew term where God, in order to have a relationship with the world, contracts, creating space for the creation to exist. In marriage, zimzum is the dynamic energy field between two partners, in which each person contracts to allow the other to flourish. Mastering this field, this give and take of energy, is the secret to what makes marriage flourish. Rob and Kristen Bell are brutally honest about their own struggles, their ups and downs, as together they pass along what matters most for couples. In this wise book, they explore the secret of what makes a happy union—probing the mystery at the heart of the extraordinary emotional connection that binds two people. With his down-to-earth charm, a dose of whimsy, and memorable stories, Rob, writing with his wife Kristen, changes how we consider marriage, providing insight that can help all of us create satisfying and sacred unions of our own.

(Met-a-mor-pho-sis (n) A marked or complete alteration in appearance, condition, character, or function.) In the thirty-eighth year of her life Robin Daniels made a life changing decision. She felt old and she knew she was fat and soft. She was aware that she had to do something and she did. After six weeks in a southern California `fat farm` she was no longer fat and soft. She no longer felt old and then she had to reclaim her husband and her life. Especially her sex life which had gone into limbo. At the spa she was introduced to Liz, a call girl. kristen archives com: The Occupied Garden Kristen Den Hartog, Tracy Kasaboski, 2011-10-05 A moving, revealing memoir about a man and his young family during the Nazi occupation of Holland, as told by his granddaughters, one a beloved novelist. At once a memoir and a social history of a time, *The Occupied Garden* is the story of a good but poor man, a market gardener, and his fiercely devout wife, raising their young family in Holland during the Nazi occupation. Pieced together by the couple's granddaughters, who combed through historical research, family lore, and insights from a neighbour's wartime diary, the story chronicles how the couple struggled to keep their children from starving, but could not keep them from harm, and reveals the strife and hardship endured not just by them, but by a nation. These experiences, kept from subsequent generations of the family, were almost lost until, long after their deaths, the path of the couple through the war and on to Canada was uncovered. A personal and intimate account within the larger context of a terrorized nation, this is also a story of the bonds and strains among family, told with the haunting, evocative prose for which Kristen den Hartog is known.

Valley chapters, first compiled in the early 2000's, although undeniably adult in content are, if you have the awareness to see, anything but grubby little tales. They are in fact, intended as a dedication to the beauty of youthful innocence and at their core, is a deep love and respect for the feminine form. To many, this will appear an irreconcilable paradox given the content. The girls here are loved - probably more so than most. They simply have had an opportunity to express their youth and sexuality in ways that not one in fifty million young females the world over, ever have.

Mo Rocca has always loved obituaries—reading about the remarkable lives of global leaders, Hollywood heavyweights, and innovators who changed the world. But not every notable life has gotten the send-off it deserves. His quest to right that wrong inspired *Mobituaries*, his #1 hit podcast. But here, in this "delightful, hilarious romp through history" (Booklist) he has gone much further, with all-new essays on artists, entertainers, sports stars, political pioneers, founding fathers, and more. Even if you know the names, you've never understood why they matter...until now. Take Herbert Hoover: before he was president, he was the "Great Humanitarian," the man who saved tens of millions from starvation. But after less than a year in the White House, the stock market crashed, and all the good he had done seemed to be forgotten. Then there's Marlene Dietrich, well remembered as a screen goddess, less remembered as a great patriot. Alongside servicemen on the front lines during World War II, she risked her life to help defeat the Nazis of her native Germany. And what about Billy Carter and history's unruly presidential brothers? Were they ne'er-do-well liabilities...or secret weapons? Plus, Mobits for dead sports teams, dead countries, the dearly departed station wagon, and dragons. Yes, dragons. Rocca is an expert researcher and storyteller who offers "joy for curious minds" (Walter Isaacson, #1 New York Times bestselling author of *Steve Jobs* and *Leonardo da Vinci*), and with his dogged reporting and trademark wit, he brings these men and women back to life like no one else can. "In our fact-challenged times, Rocca's joyful tour through the didja know's of history is an unexpected antidote" (The New Yorker).

A New York Times Bestseller A Washington Post Notable Book of the Year In the wake of the Supreme Court's unanimous *Brown v. Board of Education* decision, Virginia's Prince Edward County refused to obey the law. Rather than desegregate, the county closed its public schools, locking and chaining the doors. The community's white leaders quickly established a private academy, commandeering supplies from the shuttered public schools to use in their all-white classrooms. Meanwhile, black parents had few options: keep their kids at home, move across county lines, or send them to live with relatives in other states. For five years, the schools remained closed. Kristen Green, a longtime newspaper reporter, grew up in Farmville and attended Prince Edward Academy, which did not admit black students until 1986. In her journey to uncover what happened in her hometown before she was born, Green tells the stories of families divided by the school closures and of 1,700 black children denied an education. As she peels back the layers of this haunting period in our nation's past, her own family's role—no less complex and painful—comes to light. Praise for *Something Must Be Done About Prince Edward County* "[Green's] thoughtful book is a gift to a new generation of readers who need to know this story." —Washington Post "A gripping narrative. . . . [Green's] writing is powerful and persuasive." —New York Times Book Review "Intimate and candid." —Richmond Times-Dispatch "Not easily forgotten." —Minneapolis Star Tribune
