inherit the wind play script: The Lion in Winter James Goldman, 2004-12-14 Insecure siblings fighting for their parents' attention; bickering spouses who can't stand to be together or apart; adultery and sexual experimentation; even the struggle to balance work and family: These are themes as much at home in our time as they were in the twelfth century. By imagining the inner lives of Henry, Eleanor, and their sons, John, Geoffrey, and Richard, Goldman created the quintessential drama of family strife and competing ambitions, a work that gives visceral, modern-day relevance to the intrigues of Angevin England. Combining keen historical and psychological insight with delicious, mordant wit, the stage play has become a touchstone of today's theater scene, and Goldman's screenplay for the 1968 film adaptation won him an Academy Award. Told in "marvelously articulate language, with humor that bristles and burns" (Los Angeles Times), *The Lion in Winter* is the rare play that bursts into life on the printed page.

In 1967, John Scopes published his memoirs, which focused overwhelmingly on his eight-day trial and not on the rest of his life, ignoring several important events, such as his divorce and remarriage, his run for the U.S. Congress, and his challenges with his family. This volume is the first complete, annotated biography of John Scopes. It details his entire life and, where appropriate, those of his parents, siblings, wife, and children, all supported by hundreds of cited sources, quotations, and family stories. Ideal for readers with an interest in academic freedom, free speech, or the evolution-creationism controversy, this book uncovers the facts of Scopes's post-trial life, including the challenges that Scopes faced in his personal life, his conversion from a socialist to a political conservative, and his final years and death. Readers will be surprised to learn that John Scopes's life differed significantly from what has often been presented in the media.

inherit the wind play script: A New Literary History of America Greil Marcus, Werner Sollors, 2012-05-07 America is a nation making itself up as it goes along—A story of discovery and invention unfolding in speeches and images, letters and poetry, unprecedented feats of scholarship and imagination. In these myriad, multiform, endlessly changing expressions of the American experience, the authors and editors of this volume find a new American history. In more than two hundred original essays, *A New Literary History of America* brings together the nation's many voices. From the first conception of a New World in the sixteenth century to the latest re-envisioning of that world in cartoons, television, science fiction, and hip hop, the book gives us a new, kaleidoscopic view of what "Made in America" means. Literature, music, film, art, history, science, philosophy, political rhetoric—cultural creations of every kind appear in relation to each other, and to the time and place that give them shape. The meeting of minds is extraordinary as T. J. Clark writes on Jackson Pollock, Paul Muldoon on Carl Sandburg, Camille Paglia on Tennessee Williams, Sarah Vowell on Grant Wood's American Gothic, Walter Mosley on hard-boiled detective fiction, Jonathan Lethem on Thomas Edison, Gerald Early on Tarzan, Bharati Mukherjee on *The Scarlet Letter*, Gish Jen on *Catcher in the Rye*, and Ishmael Reed on *Huckleberry Finn*. From Anne Bradstreet and John Winthrop to Philip Roth and Toni Morrison, from Alexander Graham Bell and Stephen Foster to Alcoholics Anonymous, Life, Chuck Berry, Alfred Hitchcock, and Ronald Reagan, this is America singing, celebrating itself, and becoming something altogether different, plural, singular, new. inherit the wind play script: *Social Studies for the Twenty-First Century* Jack Zevin, 2013-08-21 *Social Studies for the Twenty-First Century*, Third Edition weaves theory, curriculum, methods, and assessment into a comprehensive model to guide middle and secondary teachers in setting objectives; planning lessons, units, and courses; choosing classroom strategies; and constructing tests for some of the field's most popular and enduring programs. It offers practical, interesting, exciting ways to teach social studies and a multitude of instructional and professional resources for teachers. The text includes separate chapters on teaching each of the major areas of the social studies curriculum. Its reflective and integrative framework emphasizes building imagination, insight, and critical thinking into everyday classrooms; encourages problem-solving attitudes and behavior; and provokes analysis, reflection, and debate. Throughout the text, all aspects of curriculum and instruction are viewed from a tripartite perspective that divides social studies instruction into didactic (factual), reflective (analytical), and affective (judgmental) components. These three components are seen as supporting one another, building the groundwork for taking stands on issues, past and present. At the center is the author's belief that the heart and soul of social studies instruction, perhaps all teaching, lies in stimulating the production of ideas; looking at knowledge from others' viewpoints; and formulating for oneself a set of goals, values, and beliefs that can be explained and justified in open discussion. New in the Third Edition: * Summaries of recent research, particularly in history education, that have been published since the last edition; * Increased attention to social studies standards, as well as those for civics, economics, and history; * An enriched view of teaching history and social studies with a wide array of sources ranging from material objects through primary sources on to art, music, and literature; * Tightening of the text to make it shorter and more pointed, including a few provocative new ideas; * More and better-organized ideas for classroom group and individual activities and cooperative learning; * Expanded appendices on instructional resources include the rapidly growing use of websites; * New visuals that are better integrated into the text and which teachers can use in their classrooms as lessons in visual literacy; and * Continued efforts to inject a bit of humor and self-criticism into a

field of education most students view as a sizeable trunk of dead and deadly facts. Social Studies for the Twenty-First Century, Third Edition is a primary text for secondary and middle social studies methods courses.

inherit the wind play script: Broadway Plays and Musicals Thomas S. Hischak, 2009-04-22 New York City's Broadway district is by far the most prestigious and lucrative venue for American performers, playwrights, entertainers and technicians. While there are many reference works and critical studies of selected Broadway plays or musicals and even more works about the highlights of the American theater, this is the first single-volume book to cover all of the activities on Broadway between 1919 and 2007. More than 14,000 productions are briefly described, including hundreds of plays, musicals, revivals, and specialty programs. Entries include famous and forgotten works, designed to give a complete picture of Broadway's history and development, its evolution since the early twentieth century, and its rise to unparalleled prominence in the world of American theater. The productions are identified in terms of plot, cast, personnel, critical reaction, and significance in the history of New York theater and culture. In addition to a chronological list of all Broadway productions between 1919 and 2007, the book also includes approximately 600 important productions performed on Broadway before 1919.

inherit the wind play script: Uncle Mame Eric Myers, 2000-11-11 Edward Everett Tanner III, under his pseudonyms of Patrick Dennis and Virginia Rowans, was the author of sixteen novels - most of them bestsellers - including the classics Little Me and Genius. But, despite the success of his other works, he is by best known and best remembered for his most indelible creation - Auntie

Mame. Born and raised in the affluent suburbs of Chicago, Tanner moved to New York City after World War II and embarked upon a writing career. His first two books were published with a whimper - attracting few reviews and fewer sales - and his third book was rejected by nineteen publishers before being accepted at a relatively small house. But Auntie Mame became a phenomena spending two years on the bestseller lists, adapting into a successful play, movie, and later a musical. As a result of this and later successes, Tanner made millions and became the toast of a certain bohemian segment of Manhattan arts society. He also spent every cent he ever made. Torn between his wife and family and his own awakening realization of his homosexuality, he separated from his wife and moved to Mexico. By the early 70's, his writing career over, he embarked upon a new career - as a butler to some of the wealthiest families in America. Based on extensive interviews with co-workers, friends, and relatives, Uncle Mame is a revealing, appealing portrait of a great American character. Easily the counterpart of such revered wits as P. G. Wodehouse and Evelyn Waugh, Dennis is not only the man who brought camp to the American mainstream but he also lived a life as wild, poignant, madcap, and intriguing as any of his own books.

Being immortal isn't all it's cracked up to be. Life's hard for a Greek god in the twenty-first century: nobody believes in you any more, even your own family doesn't respect you, and you're stuck in a dilapidated hovel in North London with too many siblings and not enough hot water. But for Artemis (goddess of hunting, professional dog walker), Aphrodite (goddess of beauty, telephone sex operator) and Apollo (god of the sun, TV psychic) there's no way out... until a meek cleaner and her would-be boyfriend come into their lives and turn the world upside down. Gods Behaving Badly is that rare thing, a charming, funny, utterly original novel that satisfies the head and the heart.

inherit the wind play script: Modern American Drama: Playwriting in the 1950s Susan C. W. Abbotson, 2019-11-14 The Decades of Modern American Drama series provides a comprehensive survey and study of the theatre produced in each decade from the 1930s to 2009 in eight volumes. Each volume equips readers with a detailed understanding of the context from which work emerged: an introduction considers life in the decade with a focus on domestic life and conditions, social changes, culture, media, technology, industry and political events; while a chapter on the theatre of the decade offers a wide-ranging and thorough survey of theatres, companies, dramatists, new movements and developments in response to the economic and political conditions of the day. The work of the four most prominent playwrights from the decade receives in-depth analysis and re-evaluation by a team of experts, together with commentary on their subsequent work and legacy. A final section brings together original documents such as interviews with the playwrights and with directors, drafts of play scenes, and other previously unpublished material. The major writers and their works to receive in-depth coverage in this volume include: * William Inge: Picnic (1953), Bus Stop (1955) and The Dark at the Top of the Stairs (1957); * Stephen Sondheim, Arthur Laurents and Jerome Robbins: West Side Story (1957) and Gypsy (1959); * Alice Childress: Just a Little Simple (1950), Gold Through the Trees (1952) and Trouble in Mind (1955); * Jerome Lawrence and Robert Lee: Inherit the Wind (1955), Auntie Mame (1956) and The Gang's All Here (1959).
