juan salvador gaviota: *The Penguin Lessons* Tom Michell, 2015-10-27 A unique and moving real-life story of the extraordinary bond between a young teacher and a penguin, this book will delight readers who loved *Marley & Me*, *Dewey the Library Cat*, *The Good Good Pig*, and any book by Jon Katz. In 1975, twenty-three-year-old Englishman Tom Michell follows his wanderlust to Argentina, where he becomes assistant master at a prestigious boarding school. But Michell's adventures really begin when, on a weekend in Uruguay, he rescues a penguin covered in oil from an ocean spill, cleans the bird up, and attempts to return him to the sea. The penguin refuses to leave his rescuer's side. "That was the moment at which he became my penguin, and whatever the future held, we'd face it together," says Michell in this charming memoir. Michell names the penguin Juan Salvador ("John Saved"), but Juan Salvador, as it turns out, is the one who saves Michell. After Michell smuggles the bird back to Argentina and into his campus apartment, word spreads about the young Englishman's unusual roommate. Juan Salvador is suddenly the center of attention—as mascot of the rugby team, confidant to the dorm housekeeper, co-host of Michell's parties, and an unprecedented swimming coach to a shy boy. Even through the collapse of the Perónist government and amid the country's economic and political strife, Juan Salvador brings joy to everyone around him—especially Michell, who considers the affectionate animal a compadre and kindred spirit. Witty and heartwarming, *The Penguin Lessons* is a classic in the making, a story that is both absurd and wonderful, exactly like Juan Salvador. Praise for *The Penguin Lessons* "I loved this book, and you will, too! It's as charming, heartwarming, and surprising as a penguin on a roof terrace. What's more, *The Penguin Lessons* teaches an important truth: that a single act of compassion can be repaid a thousand-fold."—Sy Montgomery, author of *The Good Good Pig* and the National Book Award finalist *The Soul of an Octopus* "[Tom Michell's] tone suits the material perfectly. . . . You believe every word. . . . No fool, this penguin. No fools, these publishers, who have unleashed such a delightful and charming book just in time for Christmas."—Daily Mail (U.K.) "Heart-warming is a

wholly inadequate phrase to describe this captivating story that is pure delight from beginning to end.”—The Bookseller (U.K.)

juan salvador gaviota: *One* Richard Bach, 1989-10-02 I gave my life to become the person I am right now. Was it worth it? Would we change if we knew what waits beyond space and time? “With *One*, the ninth novel from the ever spiritual and imaginative author of *Jonathan Livingston Seagull*, [Richard] Bach continues his quest for a deeper understanding of human nature. . . . Although the elements of a great science fiction novel are present, the plot is secondary to the novel's theme of humanity's ability to control destiny”—The Boston Herald “If you have ever tried to judge a book by its cover . . . One lives up to this question [in the headline] . . . and more . . . Bach gives the reader much to ponder, so much so in some chapters that the thoughtful may be tempted to read no more than a page at a sitting. Not because it's cumbersome reading, but because the ideas are worth savoring.”—USA Today “One is a provocative book . . . it gives beautiful, hope-filled answers.”—Indianapolis News “Uplifting . . . Each of the inspirational set pieces preaches the same message: of the power of each individual to choose the ways of peace, brotherhood and love, to live with a reverence for nature and at harmony with the universe. Back again displays an inventive imagination and inspirational zeal.”—Publishers Weekly “One presents a number of provocative speculations: What would it be like to meet yourself when you were older or younger? How would your life turn out if you had made different choices, split up with your spouse, been born in a different time and place? . . . With love and hope as their guides and ‘what matters most’ as their destination, the Bachs touch down in different times and places, where they commune with some of their alternative selves.”—The New York Times Book Review “This is a strange and though-provoking fantasy from the man who gave us *Jonathan Livingston Seagull* and *Illusions*, one that is imaginative, playful, and, in places, startling in concept.”—The Anniston Star “Instead of soaring and diving through space, passengers on this flight must be prepared to cruise slowly, making several stops to look at their motivation and lifestyles as the Bachs look at their own.”—Detroit Free Press

juan salvador gaviota: **The Serengeti Rules** Sean B. Carroll, 2024-08-20 One of today's most accomplished biologists and gifted storytellers reveals the rules that regulate all life How does life

work? How does nature produce the right numbers of zebras and lions on the African savanna, or fish in the ocean? How do our bodies produce the right numbers of cells in our organs and bloodstream? In *The Serengeti Rules*, award-winning biologist and author Sean Carroll tells the stories of the pioneering scientists who sought the answers to such simple yet profoundly important questions, and shows how their discoveries matter for our health and the health of the planet we depend upon. One of the most important revelations about the natural world is that everything is regulated—there are rules that regulate the amount of every molecule in our bodies and rules that govern the numbers of every animal and plant in the wild. And the most surprising revelation about the rules that regulate life at such different scales is that they are remarkably similar—there is a common underlying logic of life. Carroll recounts how our deep knowledge of the rules and logic of the human body has spurred the advent of revolutionary life-saving medicines, and makes the compelling case that it is now time to use the Serengeti Rules to heal our ailing planet. Bold and inspiring, *The Serengeti Rules* illuminates how life works at vastly different scales. Read it and you will never look at the world the same way again.
