marisol jose rivera: *Cloud Tectonics* José Rivera, 1997 During a record-breaking Los Angeles deluge, a man gives shelter to a beautiful, pregnant hitch-hiker who is searching for the father of her child. ... CLOUD TECTONICS, José Rivera's often enchanting new play ... Rivera has successfully mixed two styles in which he previously dabbled, realism and magic realism, to produce a naturalistic play interlaced with symbols and magical occurrences. In doing so, he has found a voice to probe the mystery of the kind of love that stops your heart as surely as it does your sense of time and space. And he does it without goo. -Laurie Winer, Los Angeles Times The operative phrase for José Rivera's work is 'magic realism,' which doesn't mean much until you've been put under the spell of his brief and lovely play, CLOUD TECTONICS. It's a love story, an old boy-meets-girl story, but ... it's also a story of theatrical enchantment, in which the ordinary is suddenly transformed into the miraculous. On a fantastically rainy night in Los Angeles, the city of Angels, a plain Joe named Anibal de la Luna picks up and brings home with him a poor, bedraggled woman hitchhiker who calls herself Celestina del Sol. She is fifty-four years old, she says, and she has been pregnant two years. She is indeed a rare and heavenly creature, a mystic wanderer with no sense of time and an infinite capacity to love. Alone in his little house, sealed off from the wails of the decaying city outside, De la Luna and Del Sol come together, joining their bodies and their dreams. -Richard Christiansen, Chicago Tribune

This fantastical tragicomedy leaps from coast to coast and from one outrageous moment to the next. Here is a production to restore our faith in live theater, and a play to restore our interest in new theater. Jose Rivera ... an American playwright born in Puerto Rico - wrote EACH

DAY DIES WITH SLEEP ... it's real subject is the primitive human struggle between animal instincts and civilized order. The language - poetic, intense, heightened, rude, stunted, funny, by turns - is always vivid. I simply testify that it is months since I was so worked up by characters in a play as here ... Rivera's play brings fresh imaginative vitality to the London theater. Its conception of the human condition as a psychic battleground - lively, funny, erotic, tragic - has a rare force. -Alastair Macaulay, Financial Times Surrealism, magic realism, expressionism, alternate-world realism - Rivera's tortured triangle of father, daughter and son-in-law writhes across the entire map of modern Hispanic literature, in a beautifully lofty English - unsettling, disturbing, rich with excitement and hope. -Michael Feingold, Village Voice

marisol jose rivera: Semmelweis Jens Bjørneboe, 1998 Translated from the Norwegian and with an introduction by Joe Martin. Novelist and essayist Jens Bjorneboe turned to playwriting during the 1960's, as a genre in which he might stage his literary assault on hierarchical society with an aggressive, extroverted form of theater (from the Introduction). This play had its world premiere in Oslo in 1969, and recounts the tragic history of Dr. Ignaz Semmelweis, the founder of modern antiseptic techniques, whose biography illustrates the pitfalls and even horrors of the man or woman of science who is naively in search of truth and improvement in the human condition, in a society who is naively in search of truth and improvement in the human condition, in a society that reveres prestige and power and its own received belief systems to the exclusion of any new 'truths' (from the Introduction). Brechtian in style and somewhat anarchic in its politics, Semmelweis provides a biting critique of obtuse authority.

marisol jose rivera: The Last Colonial Massacre Greg Grandin, 2011-07-30 After decades of bloodshed and political terror, many lament the rise of the left in Latin America. Since the triumph of Castro, politicians and historians have accused the left there of rejecting democracy, embracing communist totalitarianism, and prompting both revolutionary violence and a right-wing backlash. Through unprecedented archival research and gripping personal testimonies, Greg Grandin powerfully challenges these views in this classic work. In doing so, he uncovers the hidden history of the Latin American Cold War: of hidebound reactionaries holding on to their power and privilege; of Mayan Marxists blending indigenous notions of justice with universal ideas of equality; and of a United States supporting new styles of state terror throughout the region. With Guatemala as his case study, Grandin argues that the Latin American Cold War was a struggle not between political liberalism and Soviet communism but two visions of democracy—one vibrant and egalitarian, the other tepid and unequal—and that the conflict's main effect was to eliminate homegrown notions of social democracy. Updated with a new preface by the author and an interview with Naomi Klein, *The Last Colonial Massacre* is history of the highest order—a work that will dramatically recast our understanding of Latin American politics and the role of the United States in the Cold War and beyond. "This work admirably explains the process in which hopes of democracy were brutally repressed in Guatemala and its people experienced a civil war lasting for half a century."—International History Review "A richly detailed, humane, and passionately subversive portrait of inspiring reformers tragically redefined by the Cold War as enemies of the state."—Journal of American History

marisol jose rivera: Sonnets for an Old Century José Rivera, 2004 SONNETS FOR AN OLD CENTURY examines what it means to be alive at this particular time and place and what traces each of us will leave behind. In a series of exquisitely written monologues, using dance and live music, SONNETS captures the subtle, often overlooked treasures of everyday life. Now we have a SPOON RIVER ANTHOLOGY to call our own, a work whose scope and insights begin to suggest an OUR TOWN for our generation. The only question left involves what we do with the information. It is a fearsome enough thing. Its name is SONNETS FOR AN OLD CENTURY. Much as Edgar Masters did nearly ninety years before - with a much larger sample from a much smaller town - playwright Jose Rivera gives eighteen characters from present-day Los Angeles and environs one final chance in this collection of dramatic monologues to speak their peace about their lives, apparently from just the other side of the grave. -Byron Woods, The Independent Could you tell your life story In the space of

a moment, the length of a sonnet? Playwright Jose Rivera attempts to answer that question for sixteen different individuals in a moving yet amazingly unencumbered play he has titled SONNETS FOR AN OLD CENTURY. In a moment somewhere between life and afterlife, these individuals are assembled. One man, who has been waiting for them, tells them that they have one final chance to tell their stories, and that their words will go out to the universe. This is a deceptively simple work. Yet it builds in its intensity as each storyteller brings his or her own story to life. These are people that we would meet on the street; they are ordinary souls. But their stories are not. They focus power center-stage with their individual stories and what they learned from them. There is not a plot here; there are sixteen individual plots. And each story, small as it might be in and of itself, fills the space, and our ears and our minds, with feeling; joy, fear, rage, love, sorrow; and makes each one expand to fill this void. We as listeners are forced to face these ravaging emotions, even as we contemplate the death of the storyteller. This work is simple, and simply potent in its impact. And while it seems to do without the trappings of stagework, set, plot, scenes, etc, it is powerfully theatrical. -Alan R Hall, Front Row Center

marisol jose rivera: *State and Nation Making in Latin America and Spain: Volume 1* Miguel A. Centeno, Agustin E. Ferraro, 2013-03-29 The growth of institutional capacity in the developing world has become a central theme in twenty-first-century social science. Many studies have shown that public institutions are an important determinant of long-run rates of economic growth. This book argues that to understand the difficulties and pitfalls of state building in the contemporary world, it is necessary to analyze previous efforts to create institutional capacity in conflictive contexts. It provides a comprehensive analysis of the process of state and nation building in Latin America and Spain from independence to the 1930s. The book examines how Latin American countries and Spain tried to build modern and efficient state institutions for more than a century - without much success. The Spanish and Latin American experience of the nineteenth century was arguably the first regional stage on which the organizational and political dilemmas that still haunt states were faced. This book provides an unprecedented perspective on the development and contemporary outcome of those state and nation-building projects.

marisol jose rivera: The Red Umbrella Christina Diaz Gonzalez, 2011-12-13 The Red Umbrella is a moving tale of a 14-year-old girl's journey from Cuba to America as part of Operation Pedro Pan—an organized exodus of more than 14,000 unaccompanied children, whose parents sent them away to escape Fidel Castro's revolution. In 1961, two years after the Communist revolution, Lucía Álvarez still leads a carefree life, dreaming of parties and her first crush. But when the soldiers come to her sleepy Cuban town, everything begins to change. Freedoms are stripped away. Neighbors disappear. And soon, Lucía's parents make the heart-wrenching decision to send her and her little brother to the United States—on their own. Suddenly plunked down in Nebraska with well-meaning strangers, Lucía struggles to adapt to a new country, a new language, a new way of life. But what of her old life? Will she ever see her home or her parents again? And if she does, will she still be the same girl? The Red Umbrella is a touching story of country, culture, family, and the true meaning of home. "Captures the fervor, uncertainty and fear of the times. . . . Compelling."

—The Washington Post "Gonzalez deals effectively with separation, culture shock, homesickness, uncertainty and identity as she captures what is also a grand adventure." —San Francisco Chronicle

marisol jose rivera: Handbook of Research on Bioenergy and Biomaterials Leopoldo Javier Ríos González, José Antonio Rodríguez-De La Garza, Miguel Ángel Medina Morales, Cristóbal Noé Aguilar, 2021-12-23 The handbook provides an understanding of consolidated processing and biorefinery systems for the production of bio-based chemicals and value-added bioproducts from renewable sources. The chapters look at a variety of bioenergy technological advances and improvements in the energy and materials sectors that aim to lower our dependence of fossil fuels and consequently reduce greenhouse gas (GHG) emissions. The volume looks at a selection of processes for the production of energy and biomaterials, including the Fischer-Tropsch process, gasification, pyrolysis, combustion, fermentation from renewable sources (such as, plants, animals and their byproducts), and others. Applications that are explored include transportation fuels, biodiesel production, wastewater treatment, edible packaging, bioplastics, physical rehabilitation, tissue engineering, biomedical applications, thermal insulation, industrial value compounds, and more. All of the topics covered in this publication address consolidated processes that play a pivotal role in the production of bioenergy and biomaterials because these processes require fewer unitary operations needed in the process, leading to a more direct method of production. This type of production system contributes to decreasing negative effects on the environment, lowering costs, saving energy and time, and improving profitability and efficiency. This volume will be valuable for the industrial sector, for researchers and scientists, as well as for faculty and advanced students.

about coming of age in America between the world wars: “So warm, so likable and so disarmingly funny” (The New York Times). One of the New York Times’ “50 Best Memoirs of the Past 50 Years” Ranging from the backwoods of Virginia to a New Jersey commuter town to the city of Baltimore, this remarkable memoir recounts Russell Baker’s experience of growing up in pre-World War II America, before he went on to a celebrated career in journalism. With poignant, humorous tales of powerful love, awkward sex, and courage in the face of adversity, Baker reveals how he helped his mother and family through the Great Depression by delivering papers and hustling subscriptions to the Saturday Evening Post—a job which introduced him to bullies, mentors, and heroes who endured this national disaster with hard work and good cheer. Called “a treasure” by Anne Tyler and “a blessing” by Time magazine, this autobiography is a modern-day classic—“a wondrous book [with scenes] as funny and touching as Mark Twain’s” (Los Angeles Times Book Review). “In lovely, haunting prose, he has told a story that is deeply in the American grain.” —The Washington Post Book World “A terrific book.” —St. Louis Post-Dispatch

marisol jose rivera: *Heat and Alterity in Contemporary Dance* Ananya Chatterjea, 2020-10-28 This book argues that contemporary dance, imagined to have a global belonging, is vitiated by euro-white constructions of risk and currency that remain at its core. Differently, the book reimagines contemporary dance along a “South-South” axis, as a poly-centric, justice-oriented, aesthetic-temporal category, with intersectional understandings of difference as a central organizing principle. Placing alterity and heat, generated via multiple pathways, at its center, it foregrounds the work of South-South artists, who push against constructions of “tradition” and white-centered aesthetic imperatives, to reinvent their choreographic toolkit and respond to urgent questions of their times. In recasting the grounds for a different “global stage,” the argument widens its scope to indicate how dance-making both indexes current contextual inequities and broader relations of social, economic, political, and cultural power, and inaugurates future dimensions of justice. Winner of the 2022 Oscar G. Brockett Prize for Dance Research
