Despite the complicated challenges of schools, they come to and remain in the profession inspired by a conviction that through education they can move individuals and society to a more promising future. In *Teaching with Heart: Poetry that Speaks to the Courage to Teach* a diverse group of ninety teachers describe the complex of emotions and experiences of the teaching life – joy, outrage, heartbreak, hope, commitment and dedication. letter to parents about teacher appreciation week: No More Teaching a Letter a Week Rebecca McKay, William H. Teale, 2015 Letter-a-week may be a ubiquitous approach to teaching alphabet knowledge, but that doesn't mean it's an effective one. In *No More Teaching a Letter a Week*, early literacy researcher Dr. William Teale helps us understand that alphabet knowledge is more than letter recognition, and identifies research-based principles of effective alphabet instruction, which constitutes the foundation for phonics teaching and learning. Literacy coach Rebecca McKay shows us how to bring those principles to life through purposeful practices that invite children to create an identity through print. Children can and should do more than glue beans into the shape of a B; they need to learn how letters create words that carry meaning, so that they can, and do, use print to expand their understanding of the world and themselves.

letter to parents about teacher appreciation week: Confident Parents, Confident Kids Jennifer S. Miller, 2019-11-05 *Confident Parents, Confident Kids* lays out an approach for helping parents—and the kids they love—hone their emotional intelligence so that they can make wise choices, connect and communicate well with others (even when patience is thin), and become

socially conscious and confident human beings. How do we raise a happy, confident kid? And how can we be confident that our parenting is preparing our child for success? Our confidence develops from understanding and having a mastery over our emotions (aka emotional intelligence)—and helping our children do the same. Like learning to play a musical instrument, we can fine-tune our ability to skillfully react to those crazy, wonderful, big feelings that naturally arise from our child's constant growth and changes, moving from chaos to harmony. We want our children to trust that they can conquer any challenge with hard work and persistence; that they can love boundlessly; that they will find their unique sense of purpose; and they will act wisely in a complex world. This book shows you how. With author and educator Jennifer Miller as your supportive guide, you'll learn: the lies we've been told about emotions, how they shape our choices, and how we can reshape our parenting decisions in better alignment with our deepest values. how to identify the temperaments your child was born with so you can support those tendencies rather than fight them. how to align your biggest hopes and dreams for your kids with specific skills that can be practiced, along with new research to support those powerful connections. about each age and stage your child goes through and the range of learning opportunities available. how to identify and manage those big emotions (that only the parenting process can bring out in us!) and how to model emotional intelligence for your children. how to deal with the emotions and influences of your choir—the many outside individuals and communities who directly impact your child's life, including school, the digital world, extended family, neighbors, and friends. Raising confident, centered, happy kids—while feeling the same way about yourself—is possible with *Confident Parents, Confident Kids*.

letter to parents about teacher appreciation week: *My Teacher's Secret Life* Stephen Krensky, 1996-08-01 Everyone knows that teachers belong in school. And just who is that girl that looks just like her -- only smaller? In this delightfully zany picture book, every child's curiosity is made wonderfully plain as Mrs. Quirk and her cohorts are found out at last!

Gain a clearer, more cohesive relationship with their teachers. *A Teacher's Inside Advice to Parents: How Children Thrive with Leadership, Love, Laughter, and Learning* explains how to support and inspire all kids towards success and satisfaction. When parents and teachers share common goals and methods to meet a child's essential needs, this wraparound effect flows seamlessly from home to school and back again. This affirming, practical parenting approach provides expert insight for connecting with the classroom and influencing your child in four fundamental aspects: Leadership supplies the appropriate guidelines and routines your child requires in order to feel a soothing sense of security, structure, and stability. Love offers the attention, encouragement, and acceptance that create a strong bond of trust and open communication between you and your child. Laughter adds the joy, excitement, and adventure that embolden and assist in your child's personal exploration of creativity, purpose, and direction. Learning develops and reinforces your child's knowledge, wisdom, and skills vital for a contributing, self-sufficient life. The Four Ls of Parenting directly lead to the cooperation, confidence, contentment, and capabilities parents and teachers both strive to foster in every child—all accomplished with increased efficacy and delight while nurturing and educating the kids they care about so deeply.

letter to parents about teacher appreciation week: *A Letter to My Teacher* Deborah Hopkinson, 2025-04-15 This funny, touching picture book celebrates the difference a good teacher can make. Written as a thank-you note to a special teacher from the student who never forgot her, this moving story makes a great classroom read-aloud, and a perfect back-to-school gift for students and teachers! Dear Teacher, Whenever I had something to tell you, I tugged on your shirt and whispered in your ear. This time I'm writing a letter. So begins this heartfelt picture book about a girl who prefers running and jumping to listening and learning—and the teacher who gently inspires

her. From stomping through creeks on a field trip to pretending to choke when called upon to read aloud, this book's young heroine would be a challenge to any teacher. But this teacher isn't just any teacher. By listening carefully and knowing just the right thing to say, she quickly learns that the girl's unruly behavior is due to her struggles with reading. And at the very end, we learn what this former student is now: a teacher herself. From award winning author Deborah Hopkinson and acclaimed illustrator Nancy Carpenter, this picture book is made to be treasured by both those who teach and those who learn.

letter to parents about teacher appreciation week: All the Feels for Teens Elizabeth Laing Thompson, 2021-10-05 "Part workbook, part self-help guide, part Bible study, this handbook is geared toward those who experience big feelings and could use some support navigating the challenges that come with this territory. . . . Overwhelmed teens can find validation in this faith-based guide." —Kirkus Reviews No one knows about having all the feels quite like teenage girls—but few girls know what to do with all those feelings. They can flit from giddy to anxious to insecure to in love—oops, wait, just kidding, out of love—to chill to stressed to ecstatic to despairing to rebellious to penitent to cynical to naïve to independent to clingy to selfish to selfless, all with a heaping side order of angst and adorkability, all in a span of hours . . . sometimes minutes. In other words: all the feels all the time. Christian teens need Bible-based help to show them that it's okay to feel deeply (after all, God himself is the Author of all feelings), but each of us must learn to train our emotions in the ways of Christ. As they learn how to deal with all the feels, girls need scriptural foundations, practical strategies, and the assurance that they are not weird—and never alone. Includes: Quizzes and interactive charts Journal questions Prayer prompts Scripture lists for different needs Discussion starters for mothers and daughters or mentors and mentees looking to learn together All the Feels for Teens pairs great with All the Feels, a book designed for adult women.

By mastering these skills, students will improve their syntax and fluency, and they will also acquire a stronger writer's vocabulary that will aid them in enhancing their overall written communication skills, academic writing assignments, and demand writing tasks found in various state-mandated standardized tests. Incorporating sentence combining with classroom activities, such as peer-review/peer-assessment, and writing workshops, will also promote very powerful data for teachers who are engaging in action research. Using the sentence combining activities in this book, along with writers' workshop activities, can provide teachers of English Language Learners and struggling writers with a means to conduct whole-group, small-group, and differentiated instruction as students continue their development of vocabulary and language necessary for academic success. Such activities will have the desirable effect of increasing ELL students' understanding and maturity in written expression, as well as their increased metalinguistic awareness and the use of rubrics, particularly those that target the conventions of writing.

letter to parents about teacher appreciation week: The Knowledge Gap Natalie Wexler, 2020-08-04 The untold story of the root cause of America's education crisis--and the seemingly endless cycle of multigenerational poverty. It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country's frustrating lack of progress when it comes to providing every child with a quality education. The problem wasn't one of the usual scapegoats: lazy teachers, shoddy facilities, lack of accountability. It was something no one was talking about: the elementary school curriculum's intense focus on decontextualized reading comprehension skills at the expense of actual knowledge. In the tradition of Dale Russakoff's *The Prize* and Dana Goldstein's *The Teacher Wars*, Wexler brings together history, research, and compelling characters to pull back the curtain on this fundamental flaw in our education system--one that fellow reformers, journalists, and policymakers have long overlooked, and of which the general public, including many parents, remains unaware. But *The Knowledge Gap* isn't just a story of what schools have gotten so wrong--it also follows innovative educators who are in the process of shedding their deeply ingrained habits, and describes the rewards that have come along: students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed. If we truly want to fix our education system and unlock the potential of our neediest children, we have no choice but to pay attention.

letter to parents about teacher appreciation week: *It's OK to Go Up the Slide* Heather Shumaker, 2016-03-08 When it comes to parenting, sometimes you have to trust your gut. With her first book, *It's OK Not to Share*, Heather Shumaker overturned all the conventional rules of parenting with her "renegade rules" for raising competent and compassionate kids. Up the Slide, Shumaker takes on new hot-button issues with renegade rules such as: - Recess Is A Right - It's Ok Not To Kiss Grandma - Ban Homework in Elementary School - Safety Second - Don't Force Participation Shumaker also offers broader guidance on how parents can control their own fears and move from an overscheduled life to one of more free play. Parenting can too often be reduced to shuttling kids between enrichment classes, but Shumaker challenges parents to reevaluate how they're spending their precious family time. This book helps parents help their kids develop important life skills in an age-appropriate way. Most important, parents must model these skills, whether it's technology use, confronting conflict, or coping emotionally with setbacks. Sometimes being a good parent means breaking all the rules.
