mattingly college happy place: *Happy Place* by Emily Henry Francis Thomas, 2023-06-10 Summary of *Happy Place* by Emily Henry Nestled on the rocky shoreline, a quaint cottage beckons with its knotty pine floorboards and perpetually open windows. The invigorating aroma of evergreens and brine wafts in on the breeze, as white linen drapes sway lazily. Here, amidst this idyllic setting, I find solace with my cherished friends, Sabrina and Cleo. Since our fateful encounter at Mattingly College, they have become my dearest confidantes. It still astounds me that fate, embodied by an obscure housing committee in Vermont, united us. Sabrina, a refined Manhattan heiress, and Cleo, an artistic soul hailing from New Orleans, are improbable counterparts to a small-town Indiana girl like myself. On our first night together, Sabrina had us gathered on her bed, enjoying *Clueless* on her laptop while munching on a mix of popcorn and gummy worms. Soon after, she surprised us with personalized shirts, inspired by our very first inside joke. Our room in the white building held a special charm, and we delighted in exploring the campus and indulging in open-window study sessions with spicy chai and the fragrance of autumn leaves. Cleo's exquisite nude painting of Sabrina and me adorned our door, accompanied by treasured Polaroids capturing our shared moments. I tried to prevent the shouting because the subsequent silence filled me with dread. Yet, my best friends showed me a serene quietness born from profound understanding and a joyful noise that celebrated life. It was only when Sabrina took us to her family's summer home in Maine that I met Wyn, and everything changed Here is a Preview of What You Will Get: □ A Detailed Introduction □ A Comprehensive Chapter by Chapter Summary □ Etc Get a copy of this summary and learn about the book.

mattingly college happy place: Mrs. Mattingly's Miracle Nancy Lusignan Schultz, 2011-04-26 In 1824 in Washington, D.C., Ann Mattingly, widowed sister of the city's mayor, was miraculously cured of a ravaging cancer. Just days, or perhaps even hours, from her predicted demise, she arose from her sickbed free from agonizing pain and able to enjoy an additional thirty-one years of life. The Mattingly miracle purportedly came through the intervention of a charismatic German cleric, Prince Alexander Hohenlohe, who was credited already with hundreds of cures across Europe and Great Britain. Though nearly forgotten today, Mattingly's astonishing healing became a polarizing event. It heralded a rising tide of anti-Catholicism in the United States that would culminate in violence over the next two decades. Nancy L. Schultz deftly weaves analysis of this episode in American social and religious history together with the astonishing personal stories of both Ann Mattingly and the healer Prince Hohenlohe, around whom a cult was arising in Europe. Schultz's riveting book brings to light an early episode in the ongoing battle between faith and reason in the United States.

mattingly college happy place: The Sea and Civilization Lincoln Paine, 2013-10-29 A monumental retelling of world history through the lens of maritime enterprise, revealing in breathtaking depth how people first came into contact with one another by ocean and river, lake and stream, and how goods, languages, religions, and entire cultures spread across and along the world's waterways, bringing together civilizations and defining what makes us most human. Lincoln Paine takes us back to the origins of long-distance migration by sea with our ancestors' first forays from Africa and Eurasia to Australia and the Americas. He demonstrates the critical role of maritime trade to the civilizations of ancient Egypt, Mesopotamia, and the Indus Valley. He reacquaints us with the great seafaring cultures of antiquity like those of the Phoenicians and Greeks, as well as

those of India and Southeast and East Asia, who parlayed their navigational skills, shipbuilding techniques, and commercial acumen to establish thriving overseas colonies and trade routes in the centuries leading up to the age of European expansion. And finally, his narrative traces how commercial shipping and naval warfare brought about the enormous demographic, cultural, and political changes that have globalized the world throughout the post-Cold War era. This tremendously readable intellectual adventure shows us the world in a new light, in which the sea reigns supreme. We find out how a once-enslaved East African king brought Islam to his people, what the American “sail-around territories” were, and what the Song Dynasty did with twenty-wheel, human-powered paddleboats with twenty paddle wheels and up to three hundred crew. Above all, Paine makes clear how the rise and fall of civilizations can be linked to the sea. An accomplishment of both great sweep and illuminating detail, *The Sea and Civilization* is a stunning work of history.

mattingly college happy place: Driving Mr. Yogi Harvey Araton, 2012-04-03 “A warm, sentimental look at a baseball icon” (The Tampa Tribune). *Driving Mr. Yogi* is the story of a unique friendship between two New York Yankees legends—a pitcher and catcher—who share rides, meals, and a bond that transcends the twenty-five-year difference in their ages. The story begins in 1999, when Hall of Famer Yogi Berra is reunited with the Yankees after a long self-exile, the result of being unceremoniously fired by team owner George Steinbrenner fourteen years before. A reconciliation between Berra and the boss means that Berra will once again attend spring training. Retired-pitcher-turned-pitching-coach Ron Guidry knows the club’s young players will benefit from “Mr. Yogi’s” encyclopedic knowledge of the game, just as Guidry had during his playing days, so he encourages his old mentor to share his insights. In *Yogi*, Guidry finds not just a personable dinner companion or source of amusement—he finds a best friend. At turns tender and laugh-out-loud funny, and teeming with unforgettable baseball yarns that span more than fifty years, *Driving Mr. Yogi* is a universal story about the importance of wisdom being passed from one generation to the next, as well as a reminder that time is what we make of it and compassion never gets old. “Funny, revealing, and surprising . . . Anything that brings new Yogi Berra stories is a good book.” —MLB.com “Lovingly documented . . . You’ll find yourself wishing it ain’t over till it’s over.” —Parade magazine

mattingly college happy place: The Soul of Genius Jeffrey Orens, 2021-07-06 A prismatic look at the meeting of Marie Curie and Albert Einstein and the impact these two pillars of science had on the world of physics, which was in turmoil. In 1911, some of the greatest minds in science convened at the First Solvay Conference in Physics, a meeting like no other. Almost half of the attendees had won or would go on to win the Nobel Prize. Over the course of those few days, these minds began to realize that classical physics was about to give way to quantum theory, a seismic shift in our history and how we understand not just our world, but the universe. At the center of this meeting were Marie Curie and a young Albert Einstein. In the years preceding, Curie had faced the death of her husband and soul mate, Pierre. She was on the cusp of being awarded her second Nobel Prize, but scandal erupted all around her when the French press revealed that she was having an affair with a fellow scientist, Paul Langevin. The subject of vicious misogynist and xenophobic attacks in the French press, Curie found herself in a storm that threatened her scientific legacy. Albert Einstein proved an supporter in her travails. They had an instant connection at Solvay. He was young and already showing flourishes of his enormous genius. Curie had been responsible for one of the greatest discoveries in modern science (radioactivity) but still faced resistance and scorn. Einstein recognized this grave injustice, and their mutual admiration and respect, borne out of this, their first meeting, would go on to serve them in their paths forward to making history. Curie and Einstein come alive as the complex people they were in the pages of *The Soul of Genius*. Utilizing never before seen correspondance and notes, Jeffrey Orens reveals the human side of these brilliant scientists, one who pushed boundaries and demanded equality in a man’s world, no matter the cost, and the other, who was destined to become synonymous with genius.

mattingly college happy place: Through to You Lauren Barnholdt, 2014-07-08 “Fans of Sarah

Dessen, Lauren Myracle, Morgan Matson, and Simone Elkeles will enjoy this story told from both Harper and Penn's points of view, widening the appeal to all teens, not just females" (VOYA). It starts with a scribbled note in class: I like your sparkle. Harper had casually threaded a piece of blue and silver tinsel through her ponytail in honor of school spirit day. And that carefree, corny gesture is what grabs Penn Mattingly's eye. Penn—resident heartbreaker of the senior class. Reliably unreliable. Trouble with a capital "T." And okay, smolderingly sexy. Harper's surprised by Penn's attention—and so is Penn. The last thing he needs is a girlfriend. Or even a friend-with-benefits. The note is not supposed to lead to anything. Oh, but it does. They hang out. They have fun. They talk. They make out. And after a while, it seems like they just click. But Penn and Harper have very different ideas about what relationships look like, in no small part because of their very different family backgrounds. Of course they could talk about these differences—if Penn knew how to talk about his feelings. Harper and Penn understand their attraction is illogical, yet something keeps pulling them together. It's like a crazy roller coaster—exhilarating, terrifying, and amazing all at once. And neither knows how to stop the ride...

Welcome to The Land of Laughs. A novel about how terrifying that would be. Schoolteacher Thomas Abbey, unsure son of a film star, doesn't know who he is or what he wants—in life, in love, or in his relationship with the strange and intense Saxony Gardner. What he knows is that in his whole life nothing has touched him so deeply as the novels of Marshall France, a reclusive author of fabulous children's tales who died at forty-four. Now Thomas and Saxony have come to France's hometown, the dreamy Midwestern town of Galen, Missouri, to write France's biography. Warned in advance that France's family may oppose them, they're surprised to find France's daughter warmly welcoming instead. But slowly they begin to see that something fantastic and horrible is happening. The magic of Marshall France has extended far beyond the printed page...leaving them with a terrifying task to undertake. mattingly college happy place: American Academic Cultures Paul H. Mattingly, 2017-11-23 At a time when American higher education seems ever more to be reflecting on its purpose and potential, we are more inclined than ever to look to its history for context and inspiration. But that

history only helps, Paul H. Mattingly argues, if it's seen as something more than a linear progress through time. With *American Academic Cultures*, he offers a different type of history of American higher learning, showing how its current state is the product of different, varied generational cultures, each grounded in its own moment in time and driven by historically distinct values that generated specific problems and responses. Mattingly sketches out seven broad generational cultures: evangelical, Jeffersonian, republican/nondenominational, industrially driven, progressively pragmatic, internationally minded, and the current corporate model. What we see through his close analysis of each of these cultures in their historical moments is that the politics of higher education, both inside and outside institutions, are ultimately driven by the dominant culture of the time. By looking at the history of higher education in this new way, Mattingly opens our eyes to our own moment, and the part its culture plays in generating its politics and promise.

mattingly college happy place: *Families on the Edge* Elizabeth Carpenter-Song, 2023-08-15 An intimate account of rural New England families living on the edge of homelessness, as well as the practices and policies of care that fail them. *Families on the Edge* is an ethnographic portrait of families in rural and small-town New England who are often undercut by the very systems that are set up to help them. In this book, author and medical anthropologist Elizabeth Carpenter-Song draws on a decade of ethnographic research to chart the struggles of a cohort of families she met in a Vermont family shelter in 2009, as they contend with housing insecurity, mental illness, and substance use. Few other works have attempted to take such a long-term view of how vulnerability to homelessness unfolds over time or to engage so fully with existing scholarship in the fields of anthropology and health services. Research on homelessness in the United States has been overwhelmingly conducted in urban settings, so much less is known about its trajectory in rural areas and small towns. Carpenter-Song's book identifies how specific aspects of rural New England—including scarce affordable housing stock, extremely limited transportation, and cultural expectations of self-reliance—come together to thwart opportunities for families despite their continual striving to “make it” in this environment. Carpenter-Song shines a light on the many high-stakes consequences that occur when systems of care fail and offers a way forward for clinicians, health researchers, and policymakers seeking practical solutions.

mattingly college happy place: *The Novel of Ferrara* Giorgio Bassani, 2018-10-16 Bassani's six classic books, collected for the first time in English as the epic masterwork they were intended to be. Set in the northern Italian town of Ferrara before, during, and after the Second World War, *The Novel of Ferrara* brings together Bassani's six classic books, fully revised as a single volume by the author at the end of his life: *Within the Walls*, *The Gold-Rimmed Spectacles*, *The Garden of the Finzi-Continis*, *Behind the Door*, *The Heron* and *The Smell of Hay*. These interlocking stories present a fully rounded world of unforgettable characters, memorializing not only the Ferrarese people, but the city itself, which assumes a character and a voice deeply inflected by the Jewish community to which the narrator belongs. 'Exquisite . . . from his boyhood Ferrara and the families he knew, Bassani has carved out a corner of Italy that rises above regionalism with fiction that can stand alongside the most lingering written in Europe to day' *The New York Times*
