

magic school bus lesson plans

magic school bus lesson plans are a creative way to bring science to life in the classroom, engaging students with captivating adventures and hands-on activities. This article explores the benefits of using Magic School Bus lesson plans, provides guidance on designing effective lessons, and offers practical ideas for integrating them into your teaching. Whether you're teaching elementary science, looking for ways to inspire curiosity, or aiming to align lessons with curriculum standards, you'll find actionable tips and strategies here. We'll cover key educational themes, step-by-step lesson planning, classroom management, and ways to adapt lessons for diverse learners. Discover how Magic School Bus resources can transform your classroom into an exciting space for discovery and learning. Dive in to unlock the full potential of magic school bus lesson plans for your students.

Understanding the Value of Magic School Bus Lesson Plans

Magic School Bus lesson plans are rooted in the popular children's book and television series, which use imaginative journeys to make science accessible and fun. Incorporating these resources into your curriculum can spark students' curiosity, encourage critical thinking, and support inquiry-based learning. Teachers consistently find that Magic School Bus themes help simplify complex scientific concepts, making them easier for young learners to understand. Additionally, these lesson plans can boost student engagement and foster a lasting love for science.

The versatility of magic school bus lesson plans allows educators to address a wide range of topics, from biology and chemistry to physics and environmental science. Each adventure provides opportunities for hands-on experiments, class discussions, and cross-curricular connections. By leveraging the familiar characters and settings, teachers can create a classroom environment that supports collaboration, exploration, and discovery.

Key Components of Effective Magic School Bus Lessons

To maximize the impact of magic school bus lesson plans, it's essential to include several core elements that support learning objectives and align with curriculum standards. Effective plans are structured, engaging, and adaptable to different grade levels and learning styles.

Clear Learning Objectives

Begin each lesson with specific, measurable learning goals. These objectives should outline what students will know or be able to do by the end of the lesson. For example, after a lesson based on "The Magic School Bus Inside the Human Body," students may be expected to identify major organs and describe their functions.

Relevant Episode or Book Selection

Choose a Magic School Bus episode or book that aligns with your current science topic. Selecting the right adventure ensures your lesson is relevant and supports your learning outcomes. Consider the age group and prior knowledge of your students when making your selection.

Engaging Hands-On Activities

Interactive experiments and activities are at the heart of effective Magic School Bus lesson plans. Incorporate hands-on investigations, model building, or creative art projects that reinforce the main scientific concepts. Activities should encourage exploration, questioning, and group collaboration.

Assessment and Reflection

Include formative assessments such as quizzes, exit tickets, or group discussions to monitor understanding. Reflection activities, like science journals or drawing diagrams, help students consolidate their learning and make connections to real-world applications.

Sample Magic School Bus Lesson Plan Ideas

There are countless ways to use magic school bus lesson plans to teach key science topics. The following sample lesson plans illustrate how to create engaging, educational experiences for elementary students.

The Magic School Bus Explores the Solar System

Use the solar system episode to introduce students to planets, moons, and space exploration. Start with a KWL chart (Know, Want to know, Learned) to assess prior knowledge. Watch the episode, then have students create paper models of the planets, comparing size and distance from the sun.

- Learning objective: Identify the planets and their characteristics.
- Activity: Solar system mobile craft and planet fact cards.
- Assessment: Oral presentation or quiz on planet facts.

The Magic School Bus Inside the Earth

Explore geology and earth science by watching the episode about the Earth's layers. Discuss the crust, mantle, and core, then conduct a hands-on experiment using clay to model the Earth's layers.

- Learning objective: Describe the structure of the Earth.
- Activity: Build a cross-section model of the Earth.
- Assessment: Labeling worksheet or group discussion.

The Magic School Bus Gets Planted

Teach photosynthesis and plant biology with this engaging lesson. Start by observing real plants, then watch the corresponding episode. Guide students through a seed germination experiment and have them track plant growth in science journals.

- Learning objective: Explain the process of photosynthesis.
- Activity: Seed germination observation and journaling.
- Assessment: Draw and label the parts of a plant.

Integrating STEAM Concepts

Magic school bus lesson plans naturally support STEAM (Science, Technology, Engineering, Art, and Math) integration. By expanding activities beyond science, teachers can help students develop a broader range of skills and connect learning across disciplines.

Art and Creativity

Encourage students to illustrate scenes from their Magic School Bus adventure, design creative posters, or build dioramas. Artistic projects reinforce scientific concepts and allow students to express their understanding visually.

Engineering Challenges

Incorporate simple engineering tasks, such as designing a model of the Magic School Bus or constructing a bridge for a related episode. These challenges develop problem-solving and teamwork skills.

Math Connections

Integrate math by measuring, graphing, or calculating as part of the lesson. For example, students might graph plant growth data or calculate distances between planets.

Adapting Lessons for Diverse Learners

Magic School Bus lesson plans are flexible and can be differentiated to meet the needs of all students, including English language learners, students with special needs, and advanced learners.

Scaffolding Strategies

Provide sentence starters, visual aids, and vocabulary lists to support comprehension. Break complex tasks into smaller steps and offer additional guidance as needed.

Extension Activities

Offer challenging projects or research assignments for advanced students who need enrichment. Encourage them to explore related scientific topics or present findings to the class.

Inclusive Group Work

Organize cooperative learning groups that include students with varying abilities. Assign roles that play to each student's strengths, ensuring everyone can participate and succeed.

Classroom Management Tips for Interactive Activities

Interactive magic school bus lesson plans often involve movement, group work, and hands-on materials. Effective classroom management ensures that lessons run smoothly and maximize student engagement.

- Set clear expectations and rules before starting activities.
- Assign specific roles (e.g., materials manager, recorder, presenter) within groups.
- Use timers to structure activity segments and transitions.
- Have all materials organized and accessible before the lesson begins.
- Circulate the classroom to offer support and keep students on task.

Assessing Student Learning and Engagement

Assessment is a vital part of any lesson plan, and Magic School Bus lessons are no exception. Use a variety of assessment methods to measure understanding and adjust instruction as needed.

Formative Assessments

Incorporate quick checks for understanding, such as thumbs up/down, exit tickets, or short quizzes. These assessments provide immediate feedback and help identify areas for review.

Student Reflections

Encourage students to reflect on what they learned through science journals, drawings, or group discussions. Reflection helps deepen understanding and makes learning more meaningful.

Project-Based Assessments

Evaluate student learning through projects, presentations, or creative displays. These assessments allow students to demonstrate their knowledge in diverse ways and connect concepts to the real world.

Conclusion

Magic school bus lesson plans offer a dynamic and effective approach to teaching science in the elementary classroom. By combining engaging stories, interactive experiments, and cross-curricular connections, these lessons inspire curiosity and support student achievement. With thoughtful planning and adaptation, teachers can use Magic School Bus resources to create memorable learning experiences that resonate with all students.

Q: What are the main benefits of using magic school bus lesson plans in the classroom?

A: Magic school bus lesson plans increase student engagement, simplify complex science concepts, encourage hands-on learning, and foster curiosity through imaginative storytelling and interactive activities.

Q: How do I choose the right Magic School Bus episode for my lesson?

A: Select an episode that aligns with your science curriculum and learning objectives, and consider the age and prior knowledge of your students to ensure the topic is appropriate and engaging.

Q: What kinds of hands-on activities work well with Magic School Bus lessons?

A: Activities such as science experiments, model building, creative arts and crafts, group discussions, and data collection projects work well to reinforce key concepts and keep students actively involved.

Q: Can Magic School Bus lesson plans be adapted for different grade levels?

A: Yes, Magic School Bus lesson plans are highly adaptable. Teachers can modify lesson complexity, activity instructions, and assessment methods to suit various grade levels and student abilities.

Q: How can I integrate STEAM into my Magic School Bus lesson plans?

A: Integrate STEAM by including art projects, engineering challenges, and math activities such as measuring or graphing, along with science experiments and technology-enhanced learning experiences.

Q: What strategies help manage classroom behavior during interactive Magic School Bus lessons?

A: Establish clear rules and expectations, assign group roles, organize materials beforehand, use timers for activities, and actively monitor and

support students during lessons for smooth classroom management.

Q: How do I assess student understanding after a Magic School Bus lesson?

A: Use formative assessments like quizzes, exit tickets, science journals, group presentations, and creative projects to measure student understanding and provide feedback.

Q: Are Magic School Bus lesson plans suitable for students with special needs?

A: Yes, these lesson plans can be differentiated with visual aids, step-by-step instructions, group work, and tailored activities to meet the diverse needs of all learners.

Q: What materials are commonly needed for Magic School Bus science activities?

A: Common materials include basic classroom supplies such as paper, markers, clay, craft materials, simple science experiment kits, and everyday household items for hands-on investigations.

Q: How can parents support Magic School Bus lessons at home?

A: Parents can watch episodes or read books with their children, help with simple science experiments, encourage curiosity by discussing scientific topics, and provide materials for related projects at home.

Magic School Bus Lesson Plans: Exploring Science with Ms. Frizzle

Are you ready to take your students on an unforgettable journey through the fascinating world of science? Forget boring textbooks and tedious lectures! With the help of Ms. Frizzle and her wacky, wonder-filled Magic School Bus, you can transform science education into an exciting adventure.

This comprehensive guide provides a wealth of magic school bus lesson plans, covering various scientific concepts and adaptable to different grade levels. We'll explore engaging activities, creative projects, and resources to help you bring the magic of the Magic School Bus to your classroom.

Harnessing the Power of the Magic School Bus for Engaging Science Lessons

The Magic School Bus series offers an unparalleled opportunity to teach science concepts in a fun, memorable, and accessible way. Ms. Frizzle's enthusiastic approach and the bus's incredible adventures captivate young minds, fostering a love for learning and exploration. These magic school bus lesson plans are designed to leverage that inherent appeal.

Adapting the Magic School Bus for Different Grade Levels

The versatility of the Magic School Bus series makes it suitable for a broad range of ages. For example:

Elementary School (K-5): Focus on simpler concepts like the water cycle ("The Magic School Bus at the Waterworks"), basic human biology ("The Magic School Bus Inside Ralphie"), or the life cycle of plants ("The Magic School Bus Plants Seeds"). Activities could involve simple experiments, drawings, and role-playing.

Middle School (6-8): Tackle more complex topics like the solar system ("The Magic School Bus Lost in the Solar System"), ecosystems ("The Magic School Bus and the Electric Eel"), or the human digestive system ("The Magic School Bus Inside the Human Body"). Lesson plans can incorporate more in-depth research, data analysis, and debates.

High School (9-12): Explore advanced concepts like genetics ("The Magic School Bus and the DNA Factory"), climate change ("The Magic School Bus and the Climate Challenge" - a hypothetical episode focusing on relevant themes), or advanced physics concepts (drawing parallels from episodes focusing on motion and energy). Projects can involve scientific reports, presentations, and even creating their own "Magic School Bus" adventures.

Creating Engaging Magic School Bus Lesson Plans: A Step-by-Step Guide

Developing effective magic school bus lesson plans requires a structured approach:

1. **Choose an Episode:** Select an episode aligning with your curriculum and students' age group.

2. Identify Key Concepts: Pinpoint the core scientific principles presented in the episode.
3. Develop Learning Objectives: Define what students should know, understand, and be able to do after the lesson.
4. Select Activities: Design activities that actively engage students and reinforce the key concepts. This could include experiments, discussions, research projects, creative writing, art projects, or games. Consider incorporating technology – virtual field trips related to the episode's theme could be highly engaging.
5. Assess Learning: Incorporate methods to assess student understanding, such as quizzes, presentations, or written assignments.

Sample Magic School Bus Lesson Plan: The Water Cycle

Let's outline a sample lesson plan based on "The Magic School Bus at the Waterworks":

Grade Level: 3-5

Topic: The Water Cycle

Learning Objectives: Students will be able to define evaporation, condensation, precipitation, and collection; draw a diagram of the water cycle; and explain how the water cycle works.

Activities:

Watch the Episode: Start with viewing the episode.

Class Discussion: Discuss the key concepts introduced in the episode.

Diagram Creation: Students create their own diagrams of the water cycle, labeling each stage.

Experiment: Conduct a simple experiment demonstrating evaporation and condensation.

Creative Writing: Students write a short story about a drop of water traveling through the water cycle.

Assessment: Students will be assessed based on their participation in the discussion, the accuracy of their diagram, and the creativity of their story.

Resources for Implementing Your Magic School Bus Lesson Plans

Numerous online resources can enhance your magic school bus lesson plans:

Scholastic's Website: Scholastic, the publisher of the Magic School Bus books and videos, offers

educational materials and resources.

YouTube: Find educational videos and clips related to the episodes' scientific concepts.

Online Encyclopedias: Use reputable online encyclopedias to supplement the information presented in the episodes.

Remember to always adapt and modify these plans to suit your specific classroom needs and the learning styles of your students.

Conclusion

The Magic School Bus provides a unique and engaging platform for teaching science. By incorporating these magic school bus lesson plans into your curriculum, you can inspire a lifelong love of learning in your students. Remember to be creative, have fun, and embrace the wonder of scientific discovery, just like Ms. Frizzle!

FAQs

1. Are there Magic School Bus lesson plans available for free online? While comprehensive, structured lesson plans might require some creation on your part, numerous free resources, such as activity suggestions and printable worksheets related to specific episodes, are available online through fan sites and educational platforms.

2. How can I adapt Magic School Bus lesson plans for students with diverse learning needs? Differentiation is key. Provide varied learning materials (visual aids, hands-on activities, audio descriptions) and adjust the complexity of assignments based on individual student capabilities. Collaboration with special education teachers can also be extremely helpful.

3. Can I use Magic School Bus materials beyond science lessons? Absolutely! The series can integrate into other subjects, including literacy (reading comprehension, creative writing), art (drawing characters, creating scenes), and even social studies (exploring different environments and cultures depicted in the episodes).

4. Are the scientific concepts in the Magic School Bus episodes always entirely accurate? While generally aiming for scientific accuracy, some creative liberties are taken for the sake of storytelling. Teachers should supplement the episodes with accurate and up-to-date scientific information.

5. Where can I find the Magic School Bus books and videos? The Magic School Bus books and videos are widely available from bookstores, libraries, and online retailers like Amazon. Many schools also have copies available in their media centers.

Cole, 2010 Ms. Frizzle takes her kids on a whirlwind tour, from the Arctic to the equator so they can see telltale signs of climate change.

magic school bus lesson plans: *The Magic School Bus at the Waterworks* Joanna Cole, 1986 A collection of children's books on the subject of summer activities.

magic school bus lesson plans: *The Magic School Bus* Joanna Cole, 1989 A special field trip on the magic school bus gives a look at major parts of the body and how they work.

magic school bus lesson plans: *The Magic School Bus Wet All Over* Patricia Relf, Joanna Cole, 1996 Experience the earth's water cycle first hand as Ms. Frizzle's class rises into the air, forms a rain cloud and drizzles down upon earth, just like rain!

magic school bus lesson plans: *National Geographic Readers: Dolphins* Melissa Stewart, 2012-07-24 Everyone loves the smile on a dolphin's face. Though smart enough to become theme park tricksters, dolphins are first and foremost wild mammals. Melissa Stewart's lively text outlines our responsibility to conserve their natural environment. This high-interest book also offers an interactive experience to boost awareness of these adorable creatures. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.

magic school bus lesson plans: *The Magic School Bus Ups and Downs* Jane B. Mason, Joanna Cole, 1997 Ms. Frizzle's class takes school excursions on the Magic School Bus and encounter all kinds of weird and wonderful scientific challenges.

magic school bus lesson plans: *Space Explorers* Eva Moore, 2000 The Magic School Bus blasts off on a tour of the Milky Way planets, and the kids discover how the other planets are different from Earth. Not only do they all have different temperatures, but each planet has a different atmosphere as well. Ms. Frizzle's class finds out how far away the planets are, and how long it would really take to get there if they didn't have a Magic School Bus.

magic school bus lesson plans: *The Truth about Bats* Eva Moore, 2000 Magic School Bus Science Chapter Book #1.

magic school bus lesson plans: *The Magic School Bus Explores the Senses* Joanna Cole, 2016-04-26 To celebrate its 20th anniversary, Scholastic is re-releasing the ten original Magic School Bus titles in paperback. With updated scientific information, the bestselling science series ever is back! On a most sense-sational trip that takes them through an eye, an ear, a tongue, and even a dog's nose, Ms. Frizzle's class learns about the senses. Using their trademark sense of humor, Joanna Cole and Bruce Degen provide facts about the senses in both the human and animal worlds.

magic school bus lesson plans: *The Magic School Bus Hops Home* Patricia Relf, Joanna Cole, 1995 Oh, no! Wanda's best friend, Bella the bullfrog, is missing. The class wants to help look for her. Ms. Frizzle says, The best way to find a frog is to be a frog! So, the kids take a ride on the Magic School Bus. Join them as they shrink to frog size and learn all about animal habitats!

magic school bus lesson plans: *Gets Cold Feet* Tracey West, Joanna Cole, 1998 Liz, the class lizard, is missing! Is she in some sort of trouble? The class forms a rescue party. But to find Liz, they need to learn what it is like to be a reptile. Join the Magic School Bus gang on this cool field trip, and find out what it really means to be cold-blooded.

magic school bus lesson plans: *The Giant Germ* Anne Capeci, Joanna Cole, 2000 When Keesha discovers mold on her sandwich, the class takes off on a tour of the mini microbe world, and they learn first hand that these little creatures can have huge effects. Ms. Frizzle proves that there is always more than meets the eye in this gigantic adventure. Illustrations.

magic school bus lesson plans: *Butterfly Battle* Joanna Cole, Nancy White, 2003-10 Ms. Frizzle's students learn lessons in survival after she accidentally turns them into butterflies

magic school bus lesson plans: *The Wild Whale Watch* Eva Moore, 2000 The Magic School Sub takes the kids deep into the ocean, where they learn allsorts of fascinating facts about whales.

magic school bus lesson plans: *The Little School Bus* Margery Cuyler, 2014-06-24 Join Driver Bob the school bus driver and his little school bus as they wake early, pick up the children, and drop them off at school. Then it's off to the garage to fix a tail light. All in a day's work for this trusty

team. The lyrical text, catchy rhyme, and bright pictures of Margery Cuyler's *The Little School Bus* make this a perfect choice for preschoolers who are soon to be school bus riders!

magic school bus lesson plans: *The Magic School Bus Plants Seeds* Patricia Relf, Joanna Cole, 1995 Ms. Frizzle's class is growing a beautiful garden. But, Phoebe's plot is empty. Her flowers are back at her old school! So, the class climbs aboard the Magic School Bus. And, of course, the kids don't only go back to Phoebe's school, but they go inside one of Phoebe's flowers! Follow the kids' adventure and learn how living things grow.

magic school bus lesson plans: *Look Both Ways* Jason Reynolds, 2020-10-27 A collection of ten short stories that all take place in the same day about kids walking home from school--

magic school bus lesson plans: *The Magic School Bus and the Missing Tooth* Jeanette Lane, 2007 For use in schools and libraries only. When Ms. Frizzle takes her class on the Magic School Bus, it transports them into Maria's mouth to teach them about teeth.

magic school bus lesson plans: *The Magic School Bus Gets Recycled* Anne Capeci, 2007 Ms. Frizzle's class is holding a recycling drive. But when Phoebe loses her necklace, the kids hop on the bus to track it down.

magic school bus lesson plans: *The Magic School Bus* Joanna Cole, 2021 On a special field trip in the magic school bus, Ms. Frizzle's class goes into outer space and visits each planet in the solar system.

magic school bus lesson plans: *Eddie the Electron* Melissa Rooney, 2015 Eddie the Electron introduces children to basic concept of atoms. --

magic school bus lesson plans: *Scholastic's The Magic School Bus Going Batty* Nancy E. Krulik, Joanna Cole, 1996 Ms. Frizzle and her class explore the work of bats.

magic school bus lesson plans: *The Magic School Bus Comes to Its Senses* Kristin Earhart, Joanna Cole, Bruce Degen, 2009 Ms. Frizzle and her class explore the senses by traveling on the magic school bus on a clue-hunting trip inside the human body.

magic school bus lesson plans: *81 Fresh & Fun Critical-thinking Activities* Laurie Rozakis, 1998 Help children of all learning styles and strengths improve their critical thinking skills with these creative, cross-curricular activities. Each engaging activity focuses on skills such as recognizing and recalling, evaluating, and analyzing.

magic school bus lesson plans: *Scholastic's the Magic School Bus Inside Ralphie* Joanna Cole, 1995 It's Broadcast Day in Ms. Frizzle's class. Ralphie promised everyone he'd figure out what kind of show they should put on. But, Ralphie is sick and can't come to school. So, everyone climbs aboard the Magic School Bus, because if Ralphie can't come to class Ms. Frizzle's class will come to him! Join the class as they travel Ralphie's bloodstream to find out how germs make him sick and how his body can make him well again.

magic school bus lesson plans: *Class Clown* Robert N. Munsch, 2007 Leonardo can't stop being the class clown despite his teacher's protestations.

magic school bus lesson plans: *The Magic School Bus Inside a Beehive* Joanna Cole, 1996 Ms. Frizzle takes her class on a fieldtrip to a beehive in her magic school bus.

magic school bus lesson plans: *Sounds Like School Spirit* Meg Fleming, 2021-07-20 The ultimate back-to-school ode, this interactive, cheer-filled picture book joyfully celebrates the community we build at school They have spirit, yes they do! Follow kids from circle time to the lunch line in this lively, rhyming picture book that perfectly matches the high energy of a new classroom. With a call and response like We say ALPHA, you say BET, built into the text, kids will love reading and cheering along.

magic school bus lesson plans: *A Balloon for Isabel* Deborah K. Underwood, 2011-06-14 Balloons are bright and floaty and shiny and perfect. More than anything else in the whole wide world, Isabel wants a balloon. Everyone will get one on Graduation Day—everyone except the porcupines, because Porcupines + Balloons = Trouble But Isabel isn't going to settle for another boring bookmark. She has a plan. . . .

magic school bus lesson plans: *The Search for the Missing Bones* Eva Moore, 1999 Ms.

Frizzle and her class visit the Hugh Mann Costume Company to learn all about skeletons: why we need them, what different bones are for, how doctors fix them when they're broken, and lots more. Illustrations.

magic school bus lesson plans: Food Chain Frenzy Anne Capeci, 2004-02 Magic School Bus Science Chapter Book #17.

magic school bus lesson plans: Tomas and the Library Lady Pat Mora, 2020-08-25 A Common Core Exemplar Text by an award-winning author-illustrator team Tomás is a son of migrant workers. Every summer he and his family follow the crops north from Texas to Iowa, spending long, arduous days in the fields. At night they gather around to hear Grandfather's wonderful stories. But before long, Tomás knows all the stories by heart. There are more stories in the library, Papa Grande tells him. The very next day, Tomás meets the library lady and a whole new world opens up for him. Based on the true story of the Mexican-American author and educator Tomás Rivera, a child of migrant workers who went on to become the first minority Chancellor in the University of California system, this inspirational story suggests what libraries--and education--can make possible. Raul Colón's warm, expressive paintings perfectly interweave the harsh realities of Tomás's life, the joyful imaginings he finds in books, and his special relationships with a wise grandfather and a caring librarian. A gentle text and innovative artwork. . . . While young readers and future librarians will find this an inspiring tale, the end note gives it a real kick: the story is based on an actual migrant worker [Tomás Rivera] who became chancellor of a university--where the library now bears his name.--Publishers Weekly

magic school bus lesson plans: Life Hacks for Kids Sunny Keller, 2017 Presents unique craft projects that have been seen on the Life hacks for kids YouTube show, including feather earrings, melted crayon art, a headband holder, and indoor s'mores, and includes questions answered by Sunny.

magic school bus lesson plans: Splat and the Cool School Trip Rob Scotton, 2013-06-25 Join Splat the Cat on a school trip to the zoo in New York Times bestselling author-artist Rob Scotton's hilarious new adventure, Splat and the Cool School Trip. Splat the Cat is so excited when Mrs. Wimpydimple announces that the class will be going to the zoo. While everyone calls out his or her favorite animal—Elephant! Giraffe! Monkey!—Splat only wants to see the penguins. After all, penguins are perfect; they are black and white, just like Splat! All day long, Splat just can't wait. But when the smallest animal makes the biggest splash and shuts down the penguin exhibit, Splat goes home disappointed and alone . . . or does he? Fans of Splat the Cat will delight in this story about zoo animals and enjoy Splat's always-present enthusiasm.

magic school bus lesson plans: My Teacher for President Kay Winters, 2008 A second-grader writes a television station with reasons why his teacher would make a good president, but only if she can continue teaching till the end of the year.

magic school bus lesson plans: My Magic Breath Nick Ortner, Alison Taylor, 2018-05-15 From New York Times bestselling author Nick Ortner comes a beautiful picture book that will help children discover calm through the magic of mindful breathing: Do YOU have the magic breath? Let's see...Take a deeeeeeep breath in...and BLOW it out... ...and like magic, you can feel better just by breathing! Sometimes it's hard to feel happy. But with this interactive picture book, children breathe along as they learn how to make angry or sad thoughts disappear. In a world that is sometimes too busy, with too many things going on, My Magic Breath will help steer children into a serene space of mindfulness, self-awareness, and balance. A wonderful classroom and naptime story, this book is perfect for fans of Susan Verde's I Am Yoga and I Am Peace, Mariam Gates's Good Night Yoga, and Deborah Underwood's The Quiet Book.

magic school bus lesson plans: The Things They Carried Tim O'Brien, 2009-10-13 A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, The Things They Carried is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. The Things They Carried depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa,

and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

magic school bus lesson plans: *The Magic School Bus Gets Planted* Joanna Cole, 1997 Ms Frizzle's class takes a trip into a nearby plant to find out what plants eat. Join the gang as they get to the root of the matter, and learn all about a plant's private food factory.

magic school bus lesson plans: *Early Learning Thematic Lesson Plans, Grades PK - 1* Sherrill B. Flora, M.S., 2005-01-02 Includes over 600 activities. Reproducibles.

magic school bus lesson plans: *Early Learning Thematic Lesson Plans, Grades PK - 1* Flora, 2010-06-11 Encourage a love of learning in students in grades PK-1 with *Early Learning Thematic Lesson Plans*! This 160-page resource engages young learners with 32 weekly themes and more than 600 developmentally appropriate activities. All of the research, planning, and scheduling has already been done. Just open the book, choose a theme, and start teaching! The book includes morning circle activities, a guide to children's literature, and integrated activities. This book supports NCTE, NCTM, NCSS, and NAEYC standards.
