SELECTION "A profound, beautiful novel." —People * "Poignant." —BuzzFeed * "A breathtaking story of the unimaginable prices paid for a better life." —Esquire This "heartbreaking portrait of a family dealing with the realities of migration and separation" (Time) is "a sweeping love story and tragic drama [and] an authentic vision of what the American Dream looks like in a nationalistic country" (Elle). I often wonder if we are living the wrong life in the wrong country. Talia is being held at a correctional facility for adolescent girls in the forested mountains of Colombia after committing an impulsive act of violence that may or may not have been warranted. She urgently needs to get out and get back home to Bogotá, where her father and a plane ticket to the United States are waiting for her. If she misses her flight, she might also miss her chance to finally be reunited with her family. How this family came to occupy two different countries, two different worlds, comes into focus like twists of a kaleidoscope. We see Talia's parents, Mauro and Elena, fall in love in a market stall as teenagers against a backdrop of civil war and social unrest. We see them leave Bogotá with their firstborn, Karina, in pursuit of safety and opportunity in the United States on a temporary visa, and we see the births of two more children, Nando and Talia, on American soil. We witness the decisions and indecisions that lead to Mauro's deportation and the family's splintering—the costs they've all been living with ever since. Award-winning, internationally acclaimed author Patricia Engel, herself a dual citizen and the daughter of Colombian immigrants, gives voice to all five family members as they navigate the particulars of their respective circumstances. Rich with Bogotá urban life, steeped in Andean myth, and tense with the daily reality of the undocumented in America, *Infinite Country* "is as much an all-American story as it is a global one" (Booklist, starred review).

patricia va a california: On Rereading Patricia Meyer Spacks, 2013-11-18 After retiring from a lifetime of teaching literature, Patricia Meyer Spacks embarked on a year-long project of rereading dozens of novels: childhood favorites, fiction first encountered in young adulthood and never before revisited, books frequently reread, canonical works of literature she was supposed to have liked but didn't, guilty pleasures (books she oughtn't to have liked but did), and stories reread for fun vs. those read for the classroom. *On Rereading* records the sometimes surprising, always fascinating, results of her personal experiment. Spacks addresses a number of intriguing questions raised by the purposeful act of rereading: Why do we reread novels when, in many instances, we can remember the plot? Why, for example, do some lovers of Jane Austen's fiction reread her novels every year (or oftener)? Why do young children love to hear the same story read aloud every night at bedtime? And why, as adults, do we return to childhood favorites such as *The Hobbit*, *Alice in Wonderland*, and the *Harry Potter* novels? What pleasures does rereading bring? What psychological needs does it answer? What guilt does it induce when life is short and there are so many other things to do (and so many other books to read)? Rereading, Spacks discovers, helps us to make sense of ourselves. It brings us sharply in contact with how we, like the books we reread, have both changed and remained the same.

Now, with that career about to dead-end and no true connections at home, she must take the one assignment available-at a remote British army outpost in northern Afghanistan. Unwelcome among the soldiers and unaccepted by the local government and warlords, Angela has to fight to earn the respect of her colleagues, especially the enigmatic Mark Davies, a British major who is by turns her staunchest ally and her fiercest critic. Frustrated at her inability to contribute to the nation's reconstruction, Angela slips out of camp disguised in a burka to provide aid to the refugees in the war-torn region. She becomes their farishta, or angel, in the local Dari language-and discovers a new purpose for her life, a way to finally put her grief behind her. Drawing on the experiences of the author as a diplomat in Afghanistan, *Farishta* is a deeply moving and fast-paced story of a woman struggling to move beyond a past trauma, and finding a new community, a new love, and a new sense of self in the process.

patricia va a california: The Nature of Life and Death Patricia E. J. Wiltshire, 2019 A riveting blend of science writing and true-crime narrative that explores the valuable but often shocking interface between crime and nature--and the secrets each can reveal about the other--from a pioneer in forensic ecology and a trailblazing female scientist. From mud tracks on a quiet country road to dirt specks on the soles of walking boots, forensic ecologist Patricia Wiltshire uses her decades of scientific expertise to find often-overlooked clues left behind by criminal activity. She detects evidence and eliminates hypotheses armed with little more than a microscope, eventually developing a compelling thesis of the who, what, how, and when of a crime. Wiltshire's remarkable accuracy has made her one of the most in-demand police consultants in the world, and her curiosity, humility, and passion for the truth have guided her every step of the way. A riveting blend of science writing and true-crime narrative, *The Nature of Life and Death* details Wiltshire's unique journey from college professor to crime fighter: solving murders, locating corpses, and exonerating the falsely accused. Along the way, she introduces us to the unseen world all around us and underneath our feet: plants, animals, pollen, spores, fungi, and microbes that we move through every day. Her

story is a testament to the power of persistence and reveals how our relationship with the vast natural world reaches far deeper than we might think.

Throughout her triumphant career, Patricia Neal faced a series of devastating challenges and losses, sometimes privately, sometimes before an audience of millions. By age twenty-one, the self-confident, determined, Southern-bred actress had starred in a Broadway hit, won a Tony, was “the toast of New York” and was featured on a *Life* cover—only the first of many triumphs in a celebrity life. “In this account, Neal writes candidly about her numerous love affairs, both transient and profound, such as a liaison with Gary Cooper and her twenty-five-year marriage to writer Roald Dahl. More arresting are the tragedies that beset her, including the deaths of two of her five children and, at age thirty-nine, a massive stroke suffered when she was at the peak of her career and carrying her fifth child. Her heroic struggle to regain her speech, mobility, and mental capacities adds another dimension to an already courageous human being” (*Publishers Weekly*).
