nys parole officer exam 2022: *The Second Chance Club* Jason Hardy, 2021-02-16 A former parole officer shines a bright light on a huge yet hidden part of our justice system through the intertwining stories of seven parolees striving to survive the chaos that awaits them after prison in this illuminating and dramatic book. Prompted by a dead-end retail job and a vague desire to increase the amount of justice in his hometown, Jason Hardy became a parole officer in New Orleans at the worst possible moment. Louisiana's incarceration rates were the highest in the US and his department's caseload had just been increased to 220 "offenders" per parole officer, whereas the national average is around 100. Almost immediately, he discovered that the biggest problem with our prison system is what we do—and don't do—when people get out of prison. Deprived of social support and jobs, these former convicts are often worse off than when they first entered prison and Hardy dramatizes their dilemmas with empathy and grace. He's given unique access to their lives and a growing recognition of their struggles and takes on his job with the hope that he can change people's fates—but he quickly learns otherwise. The best Hardy and his colleagues can do is watch out for impending disaster and help clean up the mess left behind. But he finds that some of his charges can muster the miraculous power to save themselves. By following these heroes, he both stokes our hope and fuels our outrage by showing us how most offenders, even those with the best intentions, end up back in prison—or dead—because the system systematically fails them. Our focus should be, he argues, to give offenders the tools they need to re-enter society which is not only humane but also vastly cheaper for taxpayers. As immersive and dramatic as *Evicted* and as revelatory as *The New Jim Crow*, *The Second Chance Club* shows us how to solve the cruelest problems prisons create for offenders and society at large.

nys parole officer exam 2022: *Free* Lauren Kessler, 2022-04-19 95 percent of the millions of American men and women who go to prison eventually get out. What happens to them? There's Arnoldo, who came of age inside a maximum security penitentiary, now free after nineteen years. Trevor and Catherine, who spent half of their young lives behind bars for terrible crimes committed when they were kids. Dave, inside the walls for 34 years, now about to reenter an unrecognizable world. Vicki, a five-time loser who had cycled in and out of prison for more than a third of her life. They are simultaneously joyful and overwhelmed at the prospect of freedom. Anxious, confused, sometimes terrified, and often ill-prepared to face the challenges of the free world, all are intent on reclaiming and remaking their lives. What is the road they must travel from caged to free? How do they navigate their way home? A gripping and empathetic work of immersion reportage, *FREE* reveals what awaits them and the hundreds of thousands of others who are released from prison every year: the first rush of freedom followed quickly by institutionalized obstacles and logistical roadblocks, grinding bureaucracies, lack of resources, societal stigmas and damning

self-perceptions, the sometimes overwhelming psychological challenges. Veteran reporter Lauren Kessler, both clear-eyed and compassionate, follows six people whose diverse stories paint an intimate portrait of struggle, persistence, and resilience. The truth—the many truths—about life after lockup is more interesting, more nuanced, and both more troubling and more deeply triumphant than we know.

nys parole officer exam 2022: *Excessive Punishment* Lauren-Brooke Eisen, 2024-04-09 The United States has by far the world's largest population of incarcerated people. More than a million Americans are imprisoned; hundreds of thousands more are held in jails. This vast system has doled out punishment—particularly to people from marginalized groups—on an unfathomable scale. At the same time, it has manifestly failed to secure public safety, instead perpetuating inequalities and recidivism. Why does the United States see punishment as the main response to social harm, and what are the alternatives? This book brings together essays by scholars, practitioners, activists, and writers, including incarcerated and formerly incarcerated people, to explore the harms of this punitive approach. The chapters address a range of issues, from policing to prosecution, and from how people are treated in prison to the consequences of a criminal conviction. Together, they consider a common theme: We cannot reduce our dependence on mass incarceration until we confront our impulse to punish in ways that are excessive, often wildly disproportionate to the harm caused. Essays trace how a maze of local, state, and federal agencies have contributed to mass incarceration and deterred attempts at reform. They shed light on how the excesses of America's criminal legal system are entwined with poverty, racism, and the legacy of slavery. A wide-ranging and powerful look at the failures of the status quo, *Excessive Punishment* also considers how to reimagine the justice system to support restoration instead of retribution.

nys parole officer exam 2022: *Revoked* Allison Frankel, 2020 [The report] finds that supervision -- probation and parole -- drives high numbers of people, disproportionately those who are Black and brown, right back to jail or prison, while in large part failing to help them get needed services and resources. In states examined in the report, people are often incarcerated for violating the rules of their supervision or for low-level crimes, and receive disproportionate punishment following proceedings that fail to adequately protect their fair trial rights.--Publisher website.

nys parole officer exam 2022: Torts!, third edition Jonathan L. Zittrain, Jordi Weinstock, 2022-03-15 A law school casebook that maps the progression of the law of torts through the language and example of public judicial decisions in a range of cases. A tort is a wrong that a court is prepared to recognize, usually in the form of ordering the transfer of money ("damages") from the wrongdoer to the wronged. The tort system offers recourse for people aggrieved and harmed by the actions of others. By filing a lawsuit, private citizens can demand the attention of alleged wrongdoers to account for what they've done—and of a judge and jury to weigh the claims and set terms of compensation. This book, which can be used as a primary text for a first-year law school torts course, maps the progression of the law of torts through the language and example of public judicial decisions in a range of cases. Taken together, these cases show differing approaches to the

problems of defining legal harm and applying those definitions to a messy world. The cases range from alleged assault and battery by “The Schoolboy Kicker” (1891) to the liability of General Motors for “The Crumpling Toe Plate” (1993). Each case is an artifact of its time; students can compare the judges’ societal perceptions and moral compasses to those of the current era. This book is part of the Open Casebook series from Harvard Law School Library and MIT Press.

nys parole officer exam 2022: Coxsackie Joseph F. Spillane, 2014-05-29 “Even-handed and free of jargon . . . a revealing account of how our criminal justice system operates on the ground level.” —Edward D. Berkowitz, author of *Mass Appeal* Joseph F. Spillane examines the failure of progressive reform in New York State by focusing on Coxsackie, a New Deal reformatory built for young male offenders. Opened in 1935 to serve “adolescents adrift,” Coxsackie instead became an unstable and brutalizing prison. From the start, the liberal impulse underpinning the prison’s mission was overwhelmed by challenges it was unequipped or unwilling to face—drugs, gangs, and racial conflict. Spillane draws on detailed prison records to reconstruct a life behind bars in which “ungovernable” young men posed constant challenges to racial and cultural order. The New Deal order of the prison was unstable from the start; the politics of punishment quickly became the politics of race and social exclusion, and efforts to save liberal reform in postwar New York only deepened its failures. In 1977, inmates took hostages to focus attention on their grievances. The result was stricter discipline and an end to any pretense that Coxsackie was a reform institution. In today’s era of mass incarceration, prisons have become conflict-ridden warehouses and powerful symbols of racism and inequality. This account challenges the conventional wisdom that America’s prison crisis is of comparatively recent vintage, showing instead how a racial and punitive system of control emerged from the ashes of a progressive ideal. “Should be required reading for historians of juvenile and criminal corrections . . . Presents a compelling cautionary tale that contemporary would-be reformers ignore at their peril, while offering important new insights for scholars.” —American Historical Review

nys parole officer exam 2022: Introduction to Penology and Corrections Laura Pinto Hansen, 2022-09-15 *Introduction to Penology and Corrections* offers the best of two worlds, covering the practical matters that jail and prison administrators face, along with the theories behind punishment and the management of correctional facilities. *Introduction to Penology and Corrections* by experienced author Laura Pinto Hansen combines the study of punishment alongside corrections, balancing the perspectives of academics, practitioners, and prisoners. In addition, the text includes cross-cultural, cross-national views in punishment and corrections, as well as real-life stories from professionals in corrections, family members of the accused/incarcerated, and prisoners. While taking into consideration the practical matters that jail and prison administrators and staff face, this comprehensive text also explores the theories behind punishment and the management of correctional facilities. Professors and students will benefit from: Comprehensive review of philosophies and history of punishment, both in the United States and elsewhere in the world. Each chapter includes *Stories from Behind Bars* and *International Perspectives* designed to offer an inclusive view of the culture of punishment through the eyes of staff and prisoners. *Introduction to a wide variety of potential careers in the field of corrections today, including the perceptions and realities of these jobs. Current social justice issues surrounding criminal justice and corrections are spotlighted. Comparisons of male and female detainees and inmates, along with the challenges that the transgender population face while incarcerated. Medical and mental health issues, including those that have been particularly challenging in corrections during the COVID-19 pandemic, are highlighted. Learning objectives and key terms with definitions in each chapter help students understand new concepts.*

nys parole officer exam 2022: The Cadaver King and the Country Dentist Radley Balko, Tucker Carrington, 2018-02-27 A shocking and deeply reported account of the persistent plague of institutional racism and junk forensic science in our criminal justice system, and its devastating effect on innocent lives After two three-year-old girls were raped and murdered in rural Mississippi, law enforcement pursued and convicted two innocent men: Kennedy Brewer and Levon Brooks.

Together they spent a combined thirty years in prison before finally being exonerated in 2008. Meanwhile, the real killer remained free. The Cadaver King and the Country Dentist recounts the story of how the criminal justice system allowed this to happen, and of how two men, Dr. Steven Hayne and Dr. Michael West, built successful careers on the back of that structure. For nearly two decades, Hayne, a medical examiner, performed the vast majority of Mississippi's autopsies, while his friend Dr. West, a local dentist, pitched himself as a forensic jack-of-all-trades. Together they became the go-to experts for prosecutors and helped put countless Mississippians in prison. But then some of those convictions began to fall apart. Here, Radley Balko and Tucker Carrington tell the haunting story of how the courts and Mississippi's death investigation system -- a relic of the Jim Crow era -- failed to deliver justice for its citizens. The authors argue that bad forensics, structural racism, and institutional failures are at fault, raising sobering questions about our ability and willingness to address these crucial issues.

nys parole officer exam 2022: **The Cult of Smart** Fredrik deBoer, 2020-08-04 Named one of Vulture's Top 10 Best Books of 2020! Leftist firebrand Fredrik deBoer exposes the lie at the heart of our educational system and demands top-to-bottom reform. Everyone agrees that education is the key to creating a more just and equal world, and that our schools are broken and failing. Proposed reforms variously target incompetent teachers, corrupt union practices, or outdated curricula, but no one acknowledges a scientifically-proven fact that we all understand intuitively: Academic potential varies between individuals, and cannot be dramatically improved. In *The Cult of Smart*, educator and outspoken leftist Fredrik deBoer exposes this omission as the central flaw of our entire society, which has created and perpetuated an unjust class structure based on intellectual ability. Since cognitive talent varies from person to person, our education system can never create equal opportunity for all. Instead, it teaches our children that hierarchy and competition are natural, and that human value should be based on intelligence. These ideas are counter to everything that the left believes, but until they acknowledge the existence of individual cognitive differences, progressives remain complicit in keeping the status quo in place. This passionate, voice-driven manifesto demands that we embrace a new goal for education: equality of outcomes. We must create a world that has a place for everyone, not just the academically talented. But we'll never achieve this dream until the Cult of Smart is destroyed.

nys parole officer exam 2022: **The Whartons' War** William C. Davis, Sue Heth Bell, 2022-05-03 Between March 1863 and July 1865, Confederate newlyweds Brigadier General Gabriel C. Wharton and Anne Radford Wharton wrote 524 letters, and all survived, unknown until now. Separated by twenty years in age and differing opinions on myriad subjects, these educated and articulate Confederates wrote frankly and perceptively on their Civil War world. Sharing opinions on generals and politicians, the course of the war, the fate of the Confederacy, life at home, and their wavering loyalties, the Whartons explored the shifting gender roles brought on by war, changing relations between slave owners and enslaved people, the challenges of life behind Confederate lines, the pain of familial loss, the definitions of duty and honor, and more. Featuring one of the fullest known sets of correspondence by a high-level officer and his wife, this volume reveals the Whartons' wartime experience from their courtship in the spring of 1863 to June 1865, when Gabriel Wharton swore loyalty to the United States and accepted parole before returning home. William C. Davis and Sue Heth Bell's thoughtful editing guides readers into this world of experience and its ongoing historical relevance.

nys parole officer exam 2022: What Is a Criminal? Katherine S. Gaudet, 2022-12-30 Bringing together a collection of essays by writers with diverse knowledge of the US criminal justice system, from those with personal experience in prison and on patrol to scholarly researchers, *What Is a Criminal?* explores the category of criminal through the human stories of those who bear and administer that label. This book performs a rare feat in bringing together the perspectives of justice-impacted people, those who work in law enforcement and social services, and scholarly researchers. Each chapter is a compelling narrative sharing the experience and perspective of a unique person with knowledge of the justice system. The first section, Incarceration, Reentry, and Rebuilding, gives a glimpse into the black box of prison, with firsthand accounts of daily life on the inside and the struggle to begin a new life after prison. Section 2, Journeys in Law Enforcement, presents perspectives from police officers, school resource officers, and corrections officers who are working to better their communities. The third section, Ripple Effects, addresses some of the broader impacts of the justice system, showing what it is like to be the child of an incarcerated parent, to be profiled, to be an undocumented immigrant, and to make art about the justice system. The final section, Scholarly Perspectives, is comprised of accessible articles by academics who study law and crime. Each chapter stands alone as an individual story, but taken together they provide a uniquely nuanced view of the US justice system. This book will be of interest to anyone who wants to know more about criminality, the US justice system, and the people involved in it. It is designed for a general audience, with accessible, compelling stories that will appeal to a variety of readers. nys parole officer exam 2022: Reframing Police Education and Freedom in America Martin Alan Greenberg, Beth Allen Easterling, 2023-09-15 This book untangles the components of police education and advocates a robust community-based training model with significant civilian oversight. The recommended approach recognizes that the citizenry needs to be included in the provision of basic police education, for it is they who must both support and be served by their police. The police must be role models for society, demonstrating that freedom and rights come with obligations, both to the community as a whole and to individuals in need within that community. Ultimately, the quality of police training and the public’s safety depend not only on the leadership of police executives as well as the quality of educational institutions and police candidates but also on the building of a community’s trust in its police. The issues of police recruitment, education, and retention have greater consequence in an era when protests and other signs of negativity surround law enforcement. Several incidents, including, most notably, George Floyd’s murder by police, have

sparked new training initiatives regarding police de-escalation and community engagement. At the same time, the proliferation of gun violence and a contentious political climate have led some officers to refrain from undertaking proactive types of policing. In this context, reform of the police education system is urgent. This book examines police training at all levels of government—local, regional, state, and federal. In addition, citizen participation programs, including the role of the media and programs for furthering law-related education (LRE), are highlighted. The proposed police education model recognizes that ordinary members of the American public need to contribute to the provision of basic police education, for it is they who must both support and be served by their police. The focus is on teaching a guardian style of policing at the local level. Police education would combine higher education, necessary practical proficiencies, and intensive field experiences through a gradual level of greater responsibility—likely extending over a 2-plus-year period for trainees with less than a year of previous college credits. This book will be of interest to a wide range of audiences such as law enforcement professionals and trainers, including those in executive development programs in police departments; community leaders, scholars, and policy experts who specialize in policing; concerned citizens; and students of criminal justice, especially those interested in police organization and management, criminal justice policy, and the historical development of police.

nys parole officer exam 2022: Didn't Nobody Give a Shit What Happened to Carlotta James Hannaham, 2022-08-30 Winner of the Hurston/Wright Legacy Award In this “dangerously hilarious” novel (Los Angeles Times), a trans woman reenters life on the outside after more than twenty years in a men’s prison, over one consequential Fourth of July weekend—from the author of the PEN/Faulkner Award winner *Delicious Foods*. Carlotta Mercedes has been misunderstood her entire life. When she was pulled into a robbery gone wrong, she still went by the name she’d grown up with in Fort Greene, Brooklyn—before it gentrified. But not long after her conviction, she took the name Carlotta and began to live as a woman, an embrace of selfhood that prison authorities rejected, keeping Carlotta trapped in an all-male cell block, abused by both inmates and guards, and often placed in solitary. In her fifth appearance before the parole board, Carlotta is at last granted conditional freedom and returns to a much-changed New York City. Over a whirlwind Fourth of July weekend, she struggles to reconcile with the son she left behind, to reunite with a family reluctant to accept her true identity, and to avoid any minor parole infraction that might get her consigned back to lockup. Written with the same astonishing verve of *Delicious Foods*, which dazzled critics and readers alike, *Didn’t Nobody Give a Shit What Happened to Carlotta* sweeps the reader through seemingly every street of Brooklyn, much as Joyce’s *Ulysses* does through Dublin. The novel sings with brio and ambition, delivering a fantastically entertaining read and a cast of unforgettable characters even as it challenges us to confront the glaring injustices of a prison system that continues to punish people long after their time has been served.

nys parole officer exam 2022: *Forced Out* Kevin Maxwell, 2020-07-05 A gay, black, British police officer's memoir of prejudice, racism and homophobia on the force in the twenty-first century. Kevin Maxwell was a dream candidate for the police force—he had a long-held desire to serve his community, a strong moral compass and a clear aptitude for both the strategic and practical aspects of policing. And, as a gay black man from a working-class family, he could easily have been a poster boy for the force's stated commitment to equal opportunities. Joining just after the 9/11 attacks, Kevin entered policing determined to keep communities safe in the face of a changing world. But instead, he came up against entrenched prejudice, open racism and homophobia. For more than ten years, Kevin strove against the odds, until he took the force to an employment tribunal—with devastating results. *Forced Out* is a revelatory exposé combining deeply affecting memoir with sharp analysis and a fascinating insider perspective on day-to-day life in the force. It is a touchstone for the silent many who have either tried to ignore abuse for the sake of their career or who have been bullied out of their jobs. It paints a sobering portrait of an institution that has not yet learned the lessons of the past and whose prejudice is informing the cases it chooses to investigate and the way it investigates them. And it asks the important question: what needs to change? "One of the most compulsive books I've read in a long while." –Bernadine Evaristo, award-winning author of *Girl, Woman, Other*

nys parole officer exam 2022: *Are Prisons Obsolete?* Angela Y. Davis, 2011-01-04 With her characteristic brilliance, grace and radical audacity, Angela Y. Davis has put the case for the latest abolition movement in American life: the abolition of the prison. As she quite correctly notes, American life is replete with abolition movements, and when they were engaged in these struggles, their chances of success seemed almost unthinkable. For generations of Americans, the abolition of slavery was sheerest illusion. Similarly, the entrenched system of racial segregation seemed to last forever, and generations lived in the midst of the practice, with few predicting its passage from custom. The brutal, exploitative (dare one say lucrative?) convict-lease system that succeeded formal slavery reaped millions to southern jurisdictions (and untold miseries for tens of thousands of men, and women). Few predicted its passing from the American penal landscape. Davis expertly argues how social movements transformed these social, political and cultural institutions, and made such practices untenable. In *Are Prisons Obsolete?*, Professor Davis seeks to illustrate that the time for the prison is approaching an end. She argues forthrightly for decarceration, and argues for the transformation of the society as a whole.

nys parole officer exam 2022: *Eileen* Ottessa Moshfegh, 2015-08-18 Now a major motion picture streaming on Hulu, starring Anne Hathaway and Thomasin McKenzie Shortlisted for the Man Booker Prize "Eileen is a remarkable piece of writing, always dark and surprising, sometimes ugly and occasionally hilarious. Its first-person narrator is one of the strangest, most messed-up, most pathetic—and yet, in her own inimitable way, endearing—misfits I've encountered in fiction. Trust me, you have never read anything remotely like Eileen." —Washington Post So here we are. My name was Eileen Dunlop. Now you know me. I was twenty-four years old then, and had a job that paid fifty-seven dollars a week as a kind of secretary at a private juvenile correctional facility for teenage boys. I think of it now as what it really was for all intents and purposes—a prison for boys. I will call it Moorehead. Delvin Moorehead was a terrible landlord I had years later, and so to use his

name for such a place feels appropriate. In a week, I would run away from home and never go back. This is the story of how I disappeared. The Christmas season offers little cheer for Eileen Dunlop, an unassuming yet disturbed young woman trapped between her role as her alcoholic father's caretaker in a home whose squalor is the talk of the neighborhood and a day job as a secretary at the boys' prison, filled with its own quotidian horrors. Consumed by resentment and self-loathing, Eileen tempers her dreary days with perverse fantasies and dreams of escaping to the big city. In the meantime, she fills her nights and weekends with shoplifting, stalking a buff prison guard named Randy, and cleaning up her increasingly deranged father's messes. When the bright, beautiful, and cheery Rebecca Saint John arrives on the scene as the new counselor at Moorehead, Eileen is enchanted and proves unable to resist what appears at first to be a miraculously budding friendship. In a Hitchcockian twist, her affection for Rebecca ultimately pulls her into complicity in a crime that surpasses her wildest imaginings. Played out against the snowy landscape of coastal New England in the days leading up to Christmas, young Eileen's story is told from the gimlet-eyed perspective of the now much older narrator. Creepy, mesmerizing, and sublimely funny, in the tradition of Shirley Jackson and early Vladimir Nabokov, this powerful debut novel enthralls and shocks, and introduces one of the most original new voices in contemporary literature. Ottessa Moshfegh is also the author of *My Year of Rest and Relaxation*, *Homesick for Another World: Stories*, and *McGlue*.
