Understanding Neville Goddard and the "Resurrection" Philosophy

Neville Goddard was a prominent figure in the New Thought movement, known for his unique approach to spirituality and manifestation. His book "Resurrection" stands as one of his most influential works, delving into the idea that true transformation begins within the individual. Goddard's philosophy centers on the belief that consciousness is the only reality, and that through the deliberate use of imagination, one can resurrect aspects of their life, bringing forth desired experiences and outcomes. "Resurrection" is both a metaphysical treatise and a practical manual, guiding readers to recognize the creative power within themselves.

Neville Goddard's Background and Influence

Born in Barbados in 1905, Neville Goddard moved to the United States where he developed his teachings on imagination and consciousness. Through lectures, books, and radio broadcasts, Goddard influenced generations of spiritual seekers. "Resurrection" is considered a cornerstone text,

offering a comprehensive view of his core beliefs and techniques.

The Meaning of Resurrection in Goddard's Teachings

In Goddard's context, "resurrection" refers not to a physical event, but to the awakening of one's true self and the realization of personal potential. It is the rebirth of the mind's creative faculties, enabling individuals to transcend limitations and manifest their desires.

Key Concepts in "Resurrection"

Neville Goddard's "Resurrection" introduces several foundational concepts that are essential for understanding his manifestation philosophy. These ideas form the basis of his practical teachings and spiritual insights.

Imagination as the Creator

Goddard asserts that imagination is the primary force in shaping reality. He teaches that every experience begins as a mental image, and that sustained, vivid imagining leads to its manifestation in the physical world. This concept encourages individuals to consciously direct their thoughts and emotions toward desired outcomes.

States of Consciousness

According to Goddard, every individual operates from a particular state of consciousness, which determines their experiences. By changing one's state—through visualization, affirmation, and feeling—the outer circumstances of life can be transformed. "Resurrection" emphasizes the importance of aligning inner beliefs with external goals.

Faith and Assumption

Faith, for Goddard, is not blind belief but the conviction that one's assumption is already true. The practice of "living in the end" involves assuming the feeling of the wish fulfilled and persisting in that state until it materializes. This principle is central to the manifestation process outlined in "Resurrection."

- Imagination as the foundation of creation
- Consciousness shapes reality
- States of being influence outcomes
- Faith as the acceptance of fulfilled desires

The Power of Imagination and Consciousness

Imagination and consciousness are pivotal in Neville Goddard's teachings. "Resurrection" explores how these faculties can be harnessed to achieve profound changes in personal circumstances and overall well-being.

Imagination as Reality

Goddard teaches that imagination is not merely a mental exercise but a dynamic force capable of producing tangible results. He encourages readers to cultivate vivid, sensory-rich imaginal acts that mirror the desired reality. The more real the imagined scene feels, the more likely it is to manifest.

Consciousness as the Substance of Life

Consciousness, in Goddard's philosophy, is the underlying substance from which all things arise. By elevating one's consciousness—through self-awareness, meditation, and focused intention—individuals can access new possibilities and bring their visions to life.

Manifestation Techniques from "Resurrection"

"Resurrection" offers a variety of practical techniques for manifesting desires and transforming one's life. These methods are designed to shift consciousness, activate imagination, and align inner states with external realities.

Living in the End

This technique involves imagining and feeling as if the desired outcome has already occurred. By repeatedly entering the state of the wish fulfilled, individuals impress their subconscious mind with the reality of their desire, setting the stage for its manifestation.

Revision Method

Neville Goddard's revision technique is used to alter past experiences and change the trajectory of future events. By imaginatively revisiting and revising memories to reflect desired outcomes, one can dissolve limiting beliefs and create new possibilities.

Affirmations and Inner Conversations

Goddard emphasizes the power of affirmations and self-talk. By consciously directing inner conversations and repeatedly affirming positive statements, individuals can reshape their beliefs and influence their external reality.

1. Imagine the desired outcome with sensory detail
2. Feel the emotion of the wish fulfilled
3. Persist in the chosen state of consciousness
4. Revise past events to align with new intentions
5. Use affirmations to reinforce beliefs

Applying Goddard's Teachings in Daily Life

The principles outlined in "Resurrection" are designed for practical application. Integrating Goddard's techniques into daily routines can lead to transformative changes in health, relationships, career, and personal fulfillment.

Daily Visualization Practice

Setting aside dedicated time for visualization can accelerate the manifestation process. By consistently imagining desired scenarios and embodying their feelings, individuals reinforce new states of consciousness and attract matching experiences.

Overcoming Limiting Beliefs

Goddard's teachings offer methods for identifying and dissolving limiting beliefs. Through revision, affirmations, and conscious assumption, individuals can break free from patterns that hinder personal growth and success.

Maintaining Faith and Persistence

Persistence is essential in Goddard's system. Remaining faithful to the imagined outcome, even in the face of contrary evidence, is key to realizing desires. "Resurrection" encourages unwavering belief in the creative power of consciousness.

Impact and Legacy of "Resurrection"

Neville Goddard's "Resurrection" has left a lasting mark on the fields of spirituality, self-help, and manifestation. Its influence can be seen in contemporary teachings on the law of attraction and the power of positive thinking.

Influence on Modern Manifestation Practices

Many modern manifestation coaches and spiritual teachers draw inspiration from Goddard's work. Techniques like "living in the end" and "revision" have become staples in personal development programs worldwide.

Neville Goddard's Resurrection: A Journey into Conscious Creation

Introduction:

Have you ever felt a profound yearning for radical transformation, a desire to resurrect aspects of yourself or your life from perceived death or stagnation? Neville Goddard, the enigmatic mystic and teacher, offered a unique perspective on this very process, using the concept of "resurrection" not in a purely religious context, but as a powerful metaphor for conscious creation. This post delves into Neville Goddard's teachings on resurrection, exploring how his techniques can help you manifest your deepest desires and overcome seemingly insurmountable obstacles. We'll unpack his key principles, provide practical examples, and guide you toward experiencing your own personal resurrection.

H2: Understanding Neville Goddard's Concept of Resurrection

Neville Goddard didn't speak of resurrection in the literal, biblical sense. Instead, he used it to represent a complete and radical shift in consciousness, a rebirth of the self. He emphasized the power of imagination to reshape reality. For Neville, the "death" represented a limiting belief, a negative state of being, or a situation perceived as undesirable. The "resurrection," therefore, was the act of consciously choosing a new, more empowering belief, and then living as if that desired reality already existed. This involved feeling the feeling of the wish fulfilled, even before it manifested in the external world.

H3: The Role of Imagination and Feeling

Neville stressed the primacy of imagination and feeling. He believed that our dominant thoughts and feelings create our reality. To achieve a "resurrection," we must first vividly imagine the desired outcome, feeling its reality as intensely as possible. This isn't just wishful thinking; it's a powerful act of creation, a deliberate engagement with the subconscious mind. The more convincingly we feel the state of being as if the wish were fulfilled, the more likely we are to manifest it.

H3: The Importance of Revision

A crucial element in Neville's teaching on resurrection is the concept of "revision." This involves revisiting past experiences and reinterpreting them in a way that supports the desired future. If a past experience fuels a limiting belief, revision allows us to rewrite that narrative in our imagination, transforming negative memories into positive stepping stones towards our desired reality. This process actively re-programs the subconscious mind.

H2: Practical Techniques for Experiencing Your Own Resurrection

Neville Goddard provided several practical techniques to facilitate this "resurrection" process. These include:

H3: The State of Feeling:

This is arguably Neville's most important technique. It involves immersing yourself in the feeling of the wish fulfilled. Don't just think about what you want; feel as if you already have it. Imagine the sights, sounds, smells, tastes, and sensations associated with your desired reality. This emotional engagement is critical.

H3: The Law of Assumption:

Neville taught that by assuming the feeling of the wish fulfilled, we are essentially assuming the role of the person who already possesses what we desire. This consistent assumption, backed by unwavering faith, is a powerful tool for manifesting our desires.

H3: Living in the End:

This involves acting "as if" your desire is already a reality. This means adjusting your behavior, thoughts, and feelings to align with your desired future. If you desire a new job, for example, act as if you already have it. Dress the part, read industry publications, and network accordingly. This consistent embodiment helps to solidify the desired reality in the subconscious mind.

H2: Overcoming Obstacles in Your Resurrection Journey

The path to resurrection isn't always easy. Doubts and fears may arise. Neville Goddard acknowledged these challenges and encouraged persistence. He emphasized the importance of faith and unwavering belief in one's ability to manifest their desires. Consistent application of the techniques, despite setbacks, is key.

Conclusion:

Neville Goddard's concept of resurrection offers a transformative path to conscious creation. By understanding and applying his techniques – focusing on imagination, feeling, revision, and consistent assumption – you can actively reshape your reality and manifest your deepest desires. Remember, it's a journey, not a sprint, requiring consistent effort and unwavering faith in your ability to create the life you truly want. Embrace the power within you to resurrect your dreams and live a life filled with purpose and fulfillment.

neville goddard resurrection: Seedtime and Harvest Neville Goddard, Mitch Horowitz, 2021-12-14 THE GAME OF LIFE TAKES PLACE IN THE MIND Originally published in 1956, Seedtime and Harvest focuses on key mystical messages that run through Biblical Scripture, showing how familiar stories provide insight into the metaphysical principles that form the foundation of physical experience. "What would you think and say and do were you already the one you want to be?" Neville asks as he reveals the spiritual basis of manifestation. "A change of attitude is a change of position on the playing field of life. The game of life is not being played in space and

time... the real moves take place within the mind." NEVILLE GODDARD (1905-1972) was one of the most remarkable mystical thinkers of the past century. In more than ten books and thousands of lectures, Neville expanded on one core principle: the human imagination is God. He was a compelling presence at metaphysical churches, spiritual centers and auditoriums. Neville was not widely known during his lifetime, but today his books and lectures have attained new popularity. His principles have influenced several major spiritual writers, including Carlos Castaneda and Joseph Murphy. In this beautifully designed "deluxe edition" you benefit not only from Neville's radical statement, but also from a comprehensive and enthralling analysis and biography of Neville, "Chariot of Fire," by spiritual thinker Mitch Horowitz, who is considered the most powerful interpreter of Neville's ideas today. neville goddard resurrection: Out of This World Neville Goddard, 2017-01-12 First published in 1949, this spiritual classic by Neville Goddard captures the same intensity of thought and conviction which made Goddard famous amongst progressive thinkers. In this volume we see not only a profound religious feeling, but also a sense of the dignity and responsibility of human life. Our own feeling about the results of his experiments as a whole is that they are not just an addition to our existing knowledge, but require a revolution in our whole way of thinking about the world. A wonderful read!

neville goddard resurrection: CONTROL YOUR INNER CONVERSATIONS - Neville Goddard Lectures Neville Goddard Goddard, 2017-05-31 The whole manifested world goes to show us what use we have made of God's gift. Receiving a gift does not mean that we are going to use it wisely, but we have the gift. Everyone has the gift; and the world simply reflects the use of that gift. In *The Merchant of Venice*, Shakespeare puts these words into the mouth of Portia: If to do were as easy as to know what were good to do, chapels had been churches and poor men's cottages princes palaces. It is a good divine who follows his own instructions. I can easier teach twenty what were good to be done than to be one of the twenty to follow my own teaching. So you and I have been given a gift. To what use have we put it? In a book written in the First Century, written at the time of our Gospel, -- it's called the *Hermetica*, and this is a translation by Walter Scott. It is a wonderful series of four volumes; and in this he says: There are two gifts that God has given to man alone, and to no other mortal creature, and these two gifts are Mind and Speech. And the gifts of Mind and Speech are essential and identical with Immortality. If they are used rightly, man will not differ in any respect from the immortals; and when he quits the body, these two will be his guides and they will lead him into the troop of the gods and. to the souls that have attained to bliss.

neville goddard resurrection: Neville Goddard Neville Goddard, 2016-05-27 Neville Goddard (Born February, 15, 1905 in Barbados) was known as one of the most influential teachers in the New Thought movement for many years. He gave hundreds of lectures all over the United States and even had his own TV show in Los Angeles in the 50's! His philosophy states that we create our reality by our thoughts or by the human imagination. Chance or accident is not responsible for the things that happen to you, nor is predestined fate the author of your fortune or misfortune. Your subconscious impressions determine the conditions of your world. The subconscious is not selective; it is impersonal and no respecter of persons. The subconscious is not concerned with the truth or falsity of your feeling. It always accepts as true that which you feel to be true. Feeling is the assent of the subconscious to the truth of that which is declared to be true. Because of this quality of the subconscious there is nothing impossible to man. Whatever the mind of man can conceive and feel as true, the subconscious can and must objectify. Your feelings create the pattern from which your world is fashioned, and a change of feeling is a change of pattern.

neville goddard resurrection: Relax More, Try Less Neville Goddard, Tim Grimes, 2015-06-26 This book is about getting what you want by relaxing more. More specifically, this book will show you the necessity of relaxing in order to get what you want. The unusual recommendations on the following pages are practical suggestions that you can start using immediately. Whatever you

are looking for in life - whether it's more money, improved health, better relationships, more free time, a greater sense of well-being, or a fancier car - you'll often get it faster if you try less. Obviously, this isn't the normal way we think about how to acquire what we want. Our first inclination is always to try harder if we deeply desire something. We think we must work hard, and put in a lot of effort, in order to make our desires come to fruition. But the truth of the matter is that trying hard does not work well for most people. The majority of us who try hard to improve our lives still don't get what we really want. We want to get better things in our life, we try very hard to get them - and our best intentions still manage to get screwed up. I can't begin to tell you how many times I have tried hard and still managed to fail in reaching my goal. It's nothing to be embarrassed about; it's just the truth. Most of the time trying so hard really doesn't get us what we hope it will. So here's a logical question: what would happen if we stopped trying so hard? What if there's an easier way to receive what we want in life? What if we allow ourselves, instead of trying hard, to relax with more consistency? The surprising answer is that by relaxing more we can immediately start to feel wealthy within ourselves. And, from there, an even more stunning development occurs: our new sense of self-wealth miraculously starts to manifest itself in our outer world. In short, we can get more of what we want in life simply by relaxing more. By allowing ourselves to relax, we begin to naturally fall into a state of subtle gratitude and humility. Similarly, relaxation fills us with strong feelings of peaceful resignation, of momentarily not seeking or wanting anything. In such a comfortable state of not trying, ironically, we become the human definition of natural wealth, and are much more capable of receiving what we desire. Relaxing in such a way doesn't have to involve specifically thinking about, or imagining, having lots of money, or living some kind of luxurious lifestyle. We can imagine having lots of money if we want to - but deep mental relaxation is more subtle, encompassing and effective than just thinking about money or anything else you may want. We're naturally and profoundly abundant when we're deeply relaxed. If we feel more relaxed our life can literally start taking care of itself, minus all the stressful effort. Attempting to try so hard to meet our goals is largely a cultural affect that we can decide to discard. Relaxation is the opposite of struggle. We don't try to relax; we surrender to peaceful feelings of relaxation. This book is to be used pragmatically. Take advantage of it however you like, come back to it as many times as you want, and enjoy the material. Relaxation is something worth knowing about, and it can change your life.

neville goddard resurrection: Neville Goddard's Interpretation of Scripture Neville Goddard, 2022-11-09 Neville deciphered the Bible in such a way that the truth can be revealed for the first time. Many people who appreciate the old familiar verses of Scripture become disheartened when they try to read the Bible like any other book because they do not realise that the Bible is written in symbolic language. They twist their brains over it for a time before giving up, not realising that all of its characters are personifications of mental rules and functions; that the Bible is psychology rather than history.

neville goddard resurrection: *Awakened Imagination* Neville, 2018-09-15 Neville reveals how one can use their own power to reach goals, no matter how lofty, using a rather simple process. This powerful little book is well worth your attention if things have not worked out perfectly in life, but you still know that whatever is missing can truly be achieved.

neville goddard resurrection: *A Magical Journey with Carlos Castaneda* Margaret Runyan Castaneda, 2001 Carlos Castaneda burst onto the academic and cultural scene in 1968 when he published the first of four books detailing his supposed apprenticeship with a Yaqui Indian sorcerer named Don Juan. While academic critics contend Castaneda invented Don Juan, believers say the fog surrounding his existence express the very ideals that Castaneda attributed to his apprenticeship. Little is known of the Peruvian claiming to be Don Juan's apprentice, but in addition to leading a

generation into a mystical otherworld, Carlos Castaneda was also a man. Married to him for thirteen years was Margaret Runyan Castaneda. A Magical Journey with Carlos Castaneda reads partly like a love story, partly like a tell-all account of a celebrity writer. Margaret Castaneda concentrates on the years leading up to her marriage in 1960. It was then Margaret and Carlos explored many of the ideas -- from controlling dreams to using hallucinogenic mushrooms -- that he claims to have learned from Don Juan. Nevertheless, Margaret Castaneda believes her husband was indeed a sorcerer, and she still loves him. She insists Castaneda's academic critics miss the point. I'm willing to accept Don Juan as a spiritual teacher, and it really doesn't matter if he's not real. But the role she claims -- in developing the ideas Carlos purports to be Don Juan's -- ought to be recognized, she says, so she wrote this book.

neville goddard resurrection: *Five Lessons* Neville Goddard, 2020-05-18 "The difference between FEELING yourself in action, here and now, and visualizing yourself in action, as though you were on a motion-picture screen, is the difference between success and failure."- Neville Goddard In 1948 the modern mystic Neville Goddard presented a series of lessons in Los Angeles that many have come to regard as the teacher's clearest, most penetrating explanation of his methods of mental creativity. In them, Neville explains why your mental images and feelings determine your future. He provides his most direct, exquisitely clear method on how to explore the divine nature of your mind and use it to create the life you want. Preserving his words exactly as those original students heard them, the five lessons are: 1. Consciousness Is the Only Reality 2. Assumptions Harden into Fact 3. Thinking Fourth-Dimensionally 4. No One to Change but Self 5. Remain Faithful to Your Idea Neville's writings and lectures are as fresh and relevant today as when he first wrote and spoke them. He walked the talk and has left us with ample material to ponder and the practical suggestions and techniques in this book can profoundly change your life. Neville concludes his lectures with his oft stated premise: "Assume you are what you want to be. Walk in that assumption and it will harden into fact."

When you realize this, Neville Goddard taught, you will discover yourself to be a slumbering branch of the Creator clothed in human form, and at the helm of limitless possibilities. - Mitch Horowitz - Neville Goddard is best described as an enlightened mystic and hermetic. neville goddard resurrection: *Imagination* Neville Goddard, 2016-11-09 Imagination, is a collection of lectures given by Neville Goddard on the power of Imagination. If you don't believe by now that your Imagination is the one and only reality also known as the cause of the outer world then you are in luck because in this book you will find a great and detailed explanation on why it is so, and the method of operation. This Book contains six lectures Titled: HOW TO USE YOUR IMAGINATION Now, this whole record is technique. I want to show you today how to put your wonderful imagination right into the feeling of your wish fulfilled and let it remain there and fall asleep in that state. And I promise you, from my own experience, you will realize the state in which you sleep - if you could actually feel yourself right into the situation of your fulfilled desire and continue therein until you fall asleep. MENTAL DIETS Talking to oneself is a habit everyone indulges in. We could no more stop talking to ourselves than we could stop eating and drinking. All that we can do is control the nature and the direction of our inner conversations. Most of us are totally unaware of the fact that our inner conversations are the causes of the circumstance of our life. AWAKENED IMAGINATION It may startle you to identify the central figure of the Gospels as human imagination, but I am quite sure before the series is over, you will be convinced that this what the ancients intended that we should know, but man has misread the Gospels as history and biography and cosmology, and so completely has gone asleep as to the power within himself. IMAGINATION So, God in man is man's own wonderful human Imagination. It's difficult for man to make the adjustment, having been trained to turn on the outside to some god that he worships. IMAGINATION FULFILLS ITSELF I say imagination creates reality, and if this premise is true then imagination fulfills itself in what your life becomes. Although I have changed the words, what I am saying is not new. Scripture says it in this manner: Whatsoever you desire, believe you have received it and you will. THE FOUNDATION STONE - IMAGINATION We believe that man can create anything he desires. We believe the Universe is infinite response and the one who causes it is the individual perceiver. Nothing is independent of your perception of it. We are so interwoven we are part of the machine, but as we awake we detach ourselves from this machine and make life as we wish it to be.

neville goddard resurrection: *Your Faith is Your Fortune* Neville Goddard, 2012-11-20 Your Faith Is Your Fortune by Neville Goddard. Man can decree a thing and it will come to pass. Man has always decreed that which has appeared in his world. He is today decreeing that which is appearing in his world and he shall continue to do so as long as man is conscious of being man. Nothing has ever appeared in man's world but what man decreed that it should. This you may deny; but try as you will you cannot disprove it for this decreeing is based upon a changeless principle. Man does not

command things to appear by his words which are, more often than not, a confession of his doubts and fears. Decreeing is ever done in consciousness. Every man automatically expresses that which he is conscious of being. Without effort or the use of words, at every moment of time, man is commanding himself to be and to possess that which he is conscious of being and possessing.

neville goddard resurrection: Feeling Is the Secret Neville Goddard, 2024-03-31 The central premise of the book revolves around the idea that our predominant feelings and emotions shape our reality. Goddard argues that the key to manifesting our desires lies not only in visualizing them but also in feeling as though they have already been realized. Goddard emphasizes the importance of assuming the feeling of the wish fulfilled, meaning that individuals should immerse themselves emotionally in the experience of having already achieved their desires. He asserts that this emotional state, when sustained consistently, impresses upon the subconscious mind and sets in motion the forces necessary to bring those desires into physical reality. Furthermore, Goddard discusses the concept of mental imagery and its power to create and shape our experiences. He suggests that individuals should use their imagination to create vivid mental scenes that evoke the desired feelings, thereby attracting corresponding circumstances and events. Feeling Is The Secret serves as a practical guide for harnessing the creative power of the mind to transform one's life. It encourages readers to cultivate a sense of inner conviction and emotional congruence with their desires, ultimately leading to the manifestation of their dreams and aspirations.

neville goddard resurrection: Prayer Neville Goddard, 2023-04-05 With your desire defined, quietly go within and shut the door behind you. Lose yourself in your desire; feel yourself to be one with it; remain in this fixation until you have absorbed the life and name by claiming and feeling yourself to be and to have that which you desired. When you emerge from the hour of prayer you must do so conscious of being and possessing that which you heretofore desired.-Neville Goddard

neville goddard resurrection: Scripting the Life You Want Royce Christyn, 2020-04-07 A step-by-step guide to the process of "scripting" your future and successfully manifesting what you want in life • Explores the science behind how the scripting method works and shares the vivid journal entries from the author's big breakthrough--when he successfully used his method to land a lead role on a TV show • Details how the understanding of incredible new (and, until now, mostly

unheard of) scientific discoveries and emerging technologies is the most important key to creating and manifesting in your life • Reveals fun, easy tools for manifesting and self-help, updated for a new generation In this step-by-step guide, filled with success stories and practical exercises, Royce Christyn details a simple “scripting” process for harnessing the Law of Attraction and manifesting what you want in your life--happiness, wealth, travel, love, health, the perfect career, or simply a productive day. The process is backed by science and experience, yet it feels like magic. And all you need is a pen and paper. Inspired by New Thought and Positive Thinking classics, Christyn explains how he developed his scripting method through 4 years of trial and error, keeping what worked and dropping what didn't until he brought his success rate from 5% to nearly 100%. Sharing pages from his own journals, he outlines how to create the life you want with daily journaling exercises, beginning with a simple list-making practice to figure out your wants and intentions and then progressing to actual scripting of your future, whether the next 12 hours or the next 10 days. He shows how, over time, your scripts will increase in accuracy until they converge with reality. He shares the vivid entries from his big breakthrough--when he successfully used his method to land a lead guest-starring role on Disney Channel's *Wizards of Waverly Place* with Selena Gomez. He explores how “feeling” your future success as you write your daily scripts helps attract your desired outcomes, and he shares the key phrases to include to make your script come true. The author also explores the science behind how the scripting method works, including a down-to-earth examination of quantum mechanics. From small dreams to lifelong goals, this book gives you the tools to put your thoughts into action and finally close the gap between where you are and where you want to be in your life.

neville goddard resurrection: The Ideal Realized Mitch Horowitz, 2020-08-11 How to Move Mountains The extraordinary mystic Neville Goddard (1905-1972) is one of today's most influential metaphysical voices—and spiritual writer Mitch Horowitz is widely acknowledged as the leading interpreter of the teacher's ideas and life story. Now, in an unparalleled effort, Mitch combs through Neville's extensive body of work to distill the master's most practical and effective methods and techniques for operating the creative powers of your mind. *The Ideal Realized* helps you vault past difficulties in using Neville's work, particularly in the all-important area of entering the “feeling state” of your wish fulfilled. Mitch selects and highlights key passages that supply hands-on methods from Neville himself. This collection also includes key passages on dream interpretation, analysis of numbers and symbols, the use of objects for meditation, and the uses and misuses of speech. Mitch's introduction, “The Triumph of Imagination,” identifies and addresses some of the challenges you might experience on the creative-mind path; supplies fresh techniques; and suggests works to read hand-in-hand with Neville. Mitch's afterword, “Chariot of Fire,” which is the first-ever transcript of his earliest talk on Neville, provides the full background of the ideas and history from which Neville emerged. This anthology also features the first print version of one of Neville's final lectures, “Even the Wicked,” delivered shortly before the teacher's death in 1972; the complete text of his classic *Prayer: The Art of Believing* from 1945; and many valuable and overlooked works, including radio, record, and television lectures. The collection is capped with a timeline of Neville's life and a selection of his most powerful aphorisms. *The Ideal Realized* is a wholly original volume that spans Neville's career and helps you to speed past bumps and deepen your practical understanding of the master's ideas.

neville goddard resurrection: A Lesson in Scripture Neville Goddard, 2017-03-13 THIS LECTURE TITLED, A DIVINE EVENT, BY NEVILLE GODDARD IS APPROXIMATELY A 24 PAGE BOOK (PAPERBACK 5X8) The story of Jesus is a persistent assumption. This is true in every aspect of your life. You want to be rich? That's the story of Jesus, which is a persistent assumption in the conviction that I am rich, for unless you believe that I am rich you die in your sins and continue to claim I am poor. You want to be known? Then persistently assume: I am known. Want to be healthy? I am healthy! Regardless of what you want to be, you must declare you already are it and persist in that assumption. An assumption is an act of faith, and without faith it is impossible to please God. Your reasoning mind may deny wealth. Your senses deny it too, but if you have faith you will dare to

assume wealth, thereby becoming the man you want to be. Neville may eventually be recognized as one of the world's great mystics. -Joseph Murphy, author of *The Power of Your Subconscious Mind* A popular speaker on metaphysical themes from the late '30s until his death in 1972, Neville authored ten books in which he captured the sheer logic of creative mind principles. His work has impacted me in a very profound way; in fact, he's been a great mentor to me in the past few years. -Dr. Wayne Dyer in *Wishes Fulfilled* Neville may be the positive-thinking movement's most radical and subtly influential voice. -Mitch Horowitz, *Time.com* Of all the metaphysical systems with which I am acquainted, Neville's is the most magical. -Israel Regardie The words of spiritual teacher Neville Goddard retain their power to electrify... Neville captured the sheer logic of creative mind principles as perhaps no other figure of his era. -*Science of Mind* magazine

neville goddard resurrection: I Am Is the Way Neville, 2016-05-11 Neville was born in Barbados, West Indies in 1905 into a poor English family nine boys and one girl where he was raised and educated in a traditional Christian manner. His father who knew about the power of imagining, along with the help of his industrious sons, made the Goddards into the largest business presence in the island, and at his death left all ten children independently wealthy. At age seventeen Neville left Barbados for New York City where he worked in retail for several years until he became a dancer in Broadway shows. This led to a stint in London where he was introduced to metaphysical thought, and upon returning to New York he began to teach the law of imagining in 1938 to ever-growing audiences in the East, Los Angeles and San Francisco. When he moved his family to Los Angeles in the early 1950s he was attracting crowds of 2,000 for his Sunday talks. Everyone wanted something homes, new jobs, mates, money and he successfully taught them how to fulfill those desires through the use of their all-powerful human imaginations. The techniques, testimonies from his audiences, the creative formula, visions, dreams and Bible interpretations are discussed simply and in detail in these lectures. They encourage any seeker to apply his or her imagination for success, and ultimately lead to the appreciation that there is no intermediary between God (mans I AM) and man. Starting in 1959 he had a series of six visions over a three and a half year period resurrection/birth from above; David; splitting of the temple/ascension; and the doves descent. Then he understood his mission: To first experience these visions, understand their meanings, and then teach the meaning of these signs that are given to man after multiple lifetimes and all states of consciousness have been played by each individual. These signs confirm the awakening of mans soul. Mans origin and destiny are divine from unity into diversity back to unity, with no loss of individuality. All is forgiven and the exile, the prodigal returns to Lordship, greatly expanded by the journey through limitation, illusion and a sleep likened unto death.

neville goddard resurrection: The Law and the Promise Neville Goddard, 2016-11-01 *The Law And The Promise: Man is all Imagination!* (1st edition, 12pt/Georgia font.) by Neville Goddard. The future will not be fundamentally different from the imaginal activities of man; therefore, the individual who can summon at will whatever imaginal activity he pleases and to whom the visions of his imagination are as real as the forms of nature, is master of his fate. The future is the imaginal activity of man in its creative march. Imagining is the creative power not only of the poet, the artist, the actor and orator, but of the scientist, the inventor, the merchant and the artisan. Its abuse in unrestrained unlovely image-making is obvious; but its abuse in undue repression breeds a sterility which robs man of actual wealth of experience. Imagining novel solutions to ever more complex problems is far more noble than to run from problems. Life is the continual solution of a continuously synthetic problem. Imagining creates events. The world, created out of men's imagining, comprises un-numbered warring beliefs; therefore, there can never be a perfectly stable or static state. Today's events are bound to disturb yesterday's established order. Imaginative men and women invariably unsettle a pre-existing peace of mind. Neville may eventually be recognized as one of the world's great mystics. -Joseph Murphy, author of *The Power of Your Subconscious Mind* A popular speaker on metaphysical themes from the late '30s until his death in 1972, Neville authored ten books in which he captured the sheer logic of creative mind principles. neville goddard resurrection: *Neville Goddard* Neville Goddard, 2016-05-26 Neville Goddard (Born February, 15, 1905 in Barbados) was known as one of the most influential teachers in the New Thought movement for many years. He gave hundreds of lectures all over the United States and even had his own TV show in Los Angeles in the 50's! His philosophy states that we create our reality by our thoughts or by the human imagination. Chance or accident is not responsible for the things that happen to you, nor is predestined fate the author of your fortune or misfortune. Your subconscious impressions determine the conditions of your world. The subconscious is not selective; it is impersonal and no respecter of persons. The subconscious is not concerned with the truth or falsity of your feeling. It always accepts as true that which you feel to be true. Feeling is the assent of the subconscious to the truth of that which is declared to be true. Because of this quality of the subconscious there is nothing impossible to man. Whatever the mind of man can conceive and feel as true, the subconscious can and must objectify. Your feelings create the pattern from which your world is fashioned, and a change of feeling is a change of pattern.
