He's a not afraid of anything except maybe a strange women with hair the color of tinsel and weird pointed ears. Or the

crazy female in a cat suit shooting weird arrows at him. Two beings who never should have met end up falling for each other in the most hilarious ways possible all because Christmas Goes Camo and Kendil and Teague end up Trapped By Ice. 'Tempered by Ice' by Brenna Zinn Not even the extreme cold of the South Pole can cool down one of Santa's sexy female battle elves and an Army officer when they're busy making their own heat. After years of attending military boarding schools and a career as an Army medical researcher, Lieutenant Colonel Axel Cole's long awaited retirement from the world of physical fitness tests and any type of commitment will come to an end with the end of his next and last mission. Only a week before Christmas, he'll determine if his experimental drug, Thermavan, maintains his internal body temperature at 98.7 degrees in the severe cold climate while he participates in training exercises at the South Pole, without the extreme sexual arousal and hallucinations of having wild sex with a six-foot warrior elf that he experienced the last time he tested the drug at the North Pole. Tasha Tinsel, an accident prone member of Santa's elite warrior force, the B.E.L.L.S.(Battle Elves trained in Logic warfare and Land defense Scouts), is just not like the other elves in Santa Claus' crew. The product of a human father and an overbearing elf mother who wants nothing more than to see her daughter working in the toy factory like a regular elf, Tasha stands six foot in her green stockinged feet and towers above everyone in Santa's village. Though she's only a snowman's breath away from losing her beloved position in the B.E.L.L.S. she'll stop at nothing to stay on the force, help locate Santa's second workshop on the South Pole, and then protect the site from anyone who stands in her way.

my butt is so christmassy: Claus: Legend of the Fat Man Tony Bertauski, 2013-12-28 This week only, save 10% to 40% on the boxed sets, Claus Boxed (Volume 1 and Volume 2)... In the early 1800s, Nicholas Santa discovered an ancient race of elven. Short, fat and hairy, they have lived peacefully on the North Pole since the Ice Age but Nicholas is quickly swept into the colony's first and only fracture. The elven known as the Cold One has divided his people. His name is Jack. And Jack's tired of hiding. Why should they live in a shrinking ice cap when humans occupy the rest of the world? It's just not fair. There's no stopping Jack from world domination until Nicholas Santa, the only human to enter the elven colony, joins helium-bladder reindeer, artificially-intelligent snowmen, and a merry band of big-footed elven to bring peace back to the North Pole. And becomes a legend. my butt is so christmassy: The Quincunx Charles Palliser, 1990-11-27 An extraordinary modern novel in the Victorian tradition, Charles Palliser has created something extraordinary—a plot within a plot within a plot of family secrets, mysterious clues, low-born birth, high-reaching immorality, and, always, always the fog-enshrouded, enigmatic character of 19th century—London itself. "So compulsively absorbing that reality disappears . . . One is swept along by those enduring emotions that defy modern art and a random universe: hunger for revenge, longing for justice and the fantasy secretly entertained by most people that the bad will be punished and the good rewarded."—The New York Times "A virtuoso achievement . . . It is an epic, a tour de force, a staggeringly complex and tantalizingly layered tale that will keep readers engrossed in days. . . . The Quincunx will not disappoint you. It is, quite simply, superb."—Chicago Sun-Times "A bold and vivid tale that invites the reader to get lost in the intoxicating rhythms of another world. And the invitation is irresistible."—San Francisco Chronicle "A remarkable book . . . In mood, color, atmosphere and characters, this is Charles Dickens reincarnated . . . It is an immersing experience."—Los Angeles Times Book Review "To read the first pages is to be trapped for seven-hundred odd more: you cannot stop turning them."—The New Yorker "Few books, at most a dozen or two in a lifetime, affect us this way. . . . For sheer intricacy and ingenuity, for skill and clarity of storytelling, it is the kind of book readers wait for, a book to get lost in."—The Philadelphia Inquirer
