moravian falls spiritual history: The Moravian Springplace Mission to the Cherokees, Abridged Edition Rowena McClinton, 2010-12-01 In 1801 the Moravians, a Pietist German-speaking group from Central Europe, founded the Springplace Mission at a site in present-day northwestern Georgia. The Moravians remained among the Cherokees for more than thirty years, longer than any other Christian group. John and Anna Rosina Gambold served at the mission from 1805 until Anna's death in 1821. Anna, the principal author of the diaries, chronicles the intimate details of Cherokee daily life for seventeen years. Anna describes mission life and what she heard and saw at Springplace: food preparation and consumption, transactions pertaining to land, Cherokee body ornaments, conjuring, Cherokee law and punishment, Green Corn ceremonies, ball play, and matriarchal and marriage traditions. She similarly recounts stories she heard about rainmaking, the origins of the Cherokee people, and how she herself conversed with curious Cherokees about Christian images and fixtures. She also recalls earthquakes, conversions, notable visitors, annuity distributions, and illnesses. This abridged edition offers selected excerpts from the definitive edition of the Springplace diary, enabling significant themes and events of Cherokee culture and history to emerge. Anna's carefully recorded observations reveal the Cherokees' worldview and allow readers a glimpse into a time of change and upheaval for the tribe.

moravian falls spiritual history: Bodies in Early Modern Religious Dissent Elisabeth Fischer, Xenia von Tippelskirch, 2021-05-31 In early modern times, religious affiliation was often communicated through bodily practices. Despite various attempts at definition, these practices remained extremely fluid and lent themselves to individual appropriation and to evasion of church and state control. Because bodily practices prompted much debate, they serve as a useful starting point for examining denominational divisions, allowing scholars to explore the actions of smaller and more radical divergent groups. The focus on bodies and conflicts over bodily practices are the starting point for the contributors to this volume who depart from established national and denominational historiographies to probe the often-ambiguous phenomena occurring at the interstices of confessional boundaries. In this way, the authors examine a variety of religious living conditions, socio-cultural groups, and spiritual networks of early modern Europe and the Americas. The cases gathered here skillfully demonstrate the diverse ways in which regional and local differences affected the interpretation of bodily signs. This book will appeal to scholars and students of early modern Europe and the Americas, as well as those interested in religious and gender history, and the history of dissent.

moravian falls spiritual history: A History of Moravian Missions J. E. Hutton, J E Hutton Ma, 2017-10-14 This is an original reprinting of the official Moravian missions history with new maps detailing their numerous missionary journeys. This printing is the first of three volumes, and covers the initial years of Moravian missions. Get beyond the myth and pulpit folklore about the Moravians and see what God really did in using this group of believers to bring the Gospel to unreached people groups around the world in the 17th and 18th centuries. This band of refugees, displaced by Catholic persecutions in their own land, found safety with the benevolent Count

Zinzendorf in Herrnhut, Germany. After the group experienced a true Holy Spirit revival, Count Zinzendorf found in them a zealous band of dedicated missionaries that carried the Gospel across the world while those back home maintained an unbroken, 24/7 prayer meeting for a hundred years. Just as remarkable is that the Moravians went out with no steady financial support. They were 'tentmakers' in most places they went to enable the rapid spread of workers without reliance on a large home financial support network. The Moravians are among the most significant, and least known, influencers of the modern missions movement that began in the 1700s and continues to today. John Wesley, founder of the Methodist church, witnessed the Moravians during his fateful voyage across the Atlantic, later attributing Moravian influence to his own conversion. William Carey, considered the father of modern missions and a pioneer in bringing the Gospel to India, attributed his initial impetus for missions after reading about the activity of the Moravians. How did God use a band of largely uneducated craftsman and farmers to reach the world? You should read this definitive history of the Moravians to find out!

moravian falls spiritual history: **Final Report of the Truth and Reconciliation Commission of Canada, Volume One: Summary** Truth and Reconciliation Commission of Canada, 2015-07-22 This is the Final Report of Canada's Truth and Reconciliation Commission and its six-year investigation of the residential school system for Aboriginal youth and the legacy of these schools. This report, the summary volume, includes the history of residential schools, the legacy of that school system, and the full text of the Commission's 94 recommendations for action to address that legacy. This report lays bare a part of Canada's history that until recently was little-known to most non-Aboriginal Canadians. The Commission discusses the logic of the colonization of Canada's territories, and why and how policy and practice developed to end the existence of distinct societies of Aboriginal peoples. Using brief excerpts from the powerful testimony heard from Survivors, this report documents the residential school system which forced children into institutions where they

were forbidden to speak their language, required to discard their clothing in favour of institutional wear, given inadequate food, housed in inferior and fire-prone buildings, required to work when they should have been studying, and subjected to emotional, psychological and often physical abuse. In this setting, cruel punishments were all too common, as was sexual abuse. More than 30,000 Survivors have been compensated financially by the Government of Canada for their experiences in residential schools, but the legacy of this experience is ongoing today. This report explains the links to high rates of Aboriginal children being taken from their families, abuse of drugs and alcohol, and high rates of suicide. The report documents the drastic decline in the presence of Aboriginal languages, even as Survivors and others work to maintain their distinctive cultures, traditions, and governance. The report offers 94 calls to action on the part of governments, churches, public institutions and non-Aboriginal Canadians as a path to meaningful reconciliation of Canada today with Aboriginal citizens. Even though the historical experience of residential schools constituted an act of cultural genocide by Canadian government authorities, the United Nation's declaration of the rights of aboriginal peoples and the specific recommendations of the Commission offer a path to move from apology for these events to true reconciliation that can be embraced by all Canadians.

moravian falls spiritual history: Colour-Coded Constance Backhouse, 1999-11-20

Historically Canadians have considered themselves to be more or less free of racial prejudice. Although this conception has been challenged in recent years, it has not been completely dispelled. In *Colour-Coded*, Constance Backhouse illustrates the tenacious hold that white supremacy had on our legal system in the first half of this century, and underscores the damaging legacy of inequality that continues today. Backhouse presents detailed narratives of six court cases, each giving evidence of blatant racism created and enforced through law. The cases focus on Aboriginal, Inuit, Chinese-Canadian, and African-Canadian individuals, taking us from the criminal prosecution of traditional Aboriginal dance to the trial of members of the 'Ku Klux Klan of Canada.' From thousands of possibilities, Backhouse has selected studies that constitute central moments in the legal history of race in Canada. Her selection also considers a wide range of legal forums, including administrative rulings by municipal councils, criminal trials before police magistrates, and criminal and civil cases heard by the highest courts in the provinces and by the Supreme Court of Canada. The extensive and detailed documentation presented here leaves no doubt that the Canadian legal system played a dominant role in creating and preserving racial discrimination. A central message of this book is that racism is deeply embedded in Canadian history despite Canada's reputation as a raceless society. moravian falls spiritual history: *The Movement of the Free Spirit* Raoul Vaneigem, 1994 This book by the legendary Situationist activist and author of *The Revolution of Everyday Life* examines the heretical and millenarian movements that challenged social and ecclesiastical authority in Europe from the 1200s into the 1500s. Although Vaneigem discusses a number of different movements such as the Cathars and Joachimite millenarians, his main emphasis is on the various manifestations of the Movement of the Free Spirit in northern Europe. He sees not only resistance to the power of state and church but also the immensely creative invention of new forms of love, sexuality, community, and exchange. Vaneigem is particularly interested in the radical opposition presented by these movements to the imperatives of an emerging market-based economy, and he evokes crucial historical parallels with the antisystemic rebellions of the 1960s. The book includes translations of original texts and source materials.

moravian falls spiritual history: *Ogimaag* Cary Miller, 2010-11-01 Cary Miller's *Ogimaag: Anishinaabeg Leadership, 1760-1845* reexamines Ojibwe leadership practices and processes in the late eighteenth and early nineteenth centuries. At the end of the nineteenth century, anthropologists who had studied Ojibwe leadership practices developed theories about human societies and cultures derived from the perceived Ojibwe model. Scholars believed that the Ojibwes typified an anthropological type of Native society, one characterized by weak social structures and political institutions. Miller counters those assumptions by looking at the historical record and examining

how leadership was distributed and enacted long before scholars arrived on the scene. Miller uses research produced by Ojibwes themselves, American and British officials, and individuals who dealt with the Ojibwes, both in official and unofficial capacities. By examining the hereditary position of leaders who served as civil authorities over land and resources and handled relations with outsiders, the warriors, and the respected religious leaders of the Midewiwin society, Miller provides an important new perspective on Ojibwe history.
