realidades 2 book: *Spanish Books in the Europe of the Enlightenment (Paris and London)* Nicolás Bas Martín, 2018-02-12 In *Spanish Books in the Europe of the Enlightenment (Paris and London)* Nicolás Bas examines the image of Spain in eighteenth-century Europe, and in Paris and London in particular. His material has been scoured from an exhaustive interrogation of the records of the book trade. He refers to booksellers' catalogues, private collections, auctions, and other sources of information in order to reconstruct the country's cultural image. Rarely have these sources been searched for Spanish books, and never have they been as exhaustively exploited as they are in Bas' book. Both England and France were conversant with some very negative ideas about Spain. The Black Legend, dating back to the sixteenth century, condemned Spain as repressive and priest-ridden. Bas shows however, that an alternative, more sympathetic, vision ran parallel with these negative views. His bibliographical approach brings to light the Spanish books that were bought, sold and ultimately read. The impression thus obtained is likely to help us understand not only Spain's past, but also something of its present.

realidades 2 book: Queer in Europe Robert Gillett, 2016-04-15 *Queer in Europe* takes stock of the intellectual and social status and treatment of queer in the New Europe of the twenty-first century, addressing the ways in which the Anglo-American term and concept 'queer' is adapted in different national contexts, where it takes on subtly different overtones, determined by local political

specificities and intellectual traditions. Bringing together contributions by carefully chosen experts, this book explores key aspects of queer in a range of European national contexts, namely: Belgium, Cyprus, England, France, Germany, Hungary, Ireland, Italy, The Nordic Region, The Netherlands, Poland, Russia and Spain. Rather than prescribing a universalizing definition, the book engages with a wide spectrum of what is meant by 'queer', as each chapter negotiates the contested border between direct queer activist action based on identity categories, and more plural queer strategies that call these categories into question. The first volume in English devoted to the exploration of queer in Europe, this book makes an important intervention in contemporary queer studies.
