realidades 1: Early Spanish American Narrative Naomi Lindstrom, 2004-11-01 The world

discovered Latin American literature in the twentieth century, but the roots of this rich literary tradition reach back beyond Columbus's discovery of the New World. The great pre-Hispanic civilizations composed narrative accounts of the acts of gods and kings. Conquistadors and friars, as well as their Amerindian subjects, recorded the clash of cultures that followed the Spanish conquest. Three hundred years of colonization and the struggle for independence gave rise to a diverse body of literature—including the novel, which flourished in the second half of the nineteenth century. To give everyone interested in contemporary Spanish American fiction a broad understanding of its literary antecedents, this book offers an authoritative survey of four centuries of Spanish American narrative. Naomi Lindstrom begins with Amerindian narratives and moves forward chronologically through the conquest and colonial eras, the wars for independence, and the nineteenth century. She focuses on the trends and movements that characterized the development of prose narrative in Spanish America, with incisive discussions of representative works from each era. Her inclusion of women and Amerindian authors who have been downplayed in other survey works, as well as her overview of recent critical assessments of early Spanish American narratives, makes this book especially useful for college students and professors.

Sin embargo, se puede explicar la mente solo por la actividad neuronal? La mayoría de los científicos opinan, sobre la base de los conocimientos actuales en el campo de las neurociencias, que la mente es debida solo a la función electroquímica de las neuronas y a sus circuitos sinápticos. Hay elementos, no obstante, que no pueden atribuirse únicamente a una función neurobiológica. Aplicando la filosofía a la neurociencia, se ha elaborado un modelo mente-cerebro que permite una visión global y adecuada de lo que es el cerebro reafirmando el saber científico sin entrar en contradicción con él.

realidades 1: Inventing Indigenism Natalia Majluf, 2021-12-21 2023 ALAA Book Award, Association for Latin American Art/Arvey Foundation A fascinating account of the modern reinvention of the image of the Indian in nineteenth-century literature and visual culture, seen through the work of Peruvian painter Francisco Laso. One of the outstanding painters of the nineteenth century, Francisco Laso (1823-1869) set out to give visual form to modern Peru. His solemn and still paintings of indigenous subjects were part of a larger project, spurred by writers and intellectuals actively crafting a nation in the aftermath of independence from Spain. In this book, at once an innovative account of modern indigenism and the first major monograph on Laso, Natalia Majluf explores the rise of the image of the Indian in literature and visual culture. Reading Laso's works through a broad range of sources, Majluf traces a decisive break in a long history of representations of indigenous peoples that began with the Spanish conquest. She ties this transformation to the modern concept of culture, which redefined both the artistic field and the notion of indigeneity. As an abstraction produced through indigenist discourse, an icon of authenticity, and a densely racialized cultural construct, the Indian would emerge as a central symbol of modern Andean nationalisms. Inventing Indigenism brings the work and influence of this extraordinary painter to the forefront as it offers a broad perspective on the dynamics of art and visual culture in nineteenth-century Latin America.

El ministerio de Experiencia con Dios tiene más vitalidad hoy que cuando comenzó. Mientras sigue creciendo y el mundo sigue cambiando, el libro Experiencia con Dios ha sido revisado y ampliado, y tiene más de un 70% de material reescrito. Experiencia con Dios, un clásico moderno que ha vendido millones de copias en todo el mundo, está basado en siete realidades de las Escrituras que nos enseñan a desarrollar una verdadera relación con el Creador. Al comprender cómo Dios obra en nosotros, aun mientras intentamos comprender sus caminos, podemos comenzar a conocer claramente su voluntad y hacerla, y a descubrir cómo cambian nuestras vidas en forma radical por medio de la gracia.

realidades 1: Factor Zombi Luis Carlos Molina Acevedo, 2016-03-22 FACTOR ZOMBI es un estudio sobre el factor determinante para el cambio de las personas y la sociedad. En la personas se presenta como el indicativo de un cambio biológico en la pubertad. Es la transición del niño al adulto. En las sociedades se presenta cuando los grupos humanos alcanzan la cúspide de la organización social y comienza el declive hasta la disolución de ese modelo social. Este factor se caracteriza en esencia por dos rasgos fácilmente observables, el aislamiento y el automatismo. El aislamiento es de carácter psíquico y está marcado por una apatía total de la persona hacia todo y todos. El automatismo en cambio, es de carácter físico. Se identifica por una baja movilidad de las articulaciones y alta rigidez al caminar. La persona parece un autómatas al moverse. En muchos casos arrastra los pies al caminar. Además de estos dos rasgos, aquí estudiaremos otros diez rasgos para un total de doce en la caracterización del Factor Zombi. Se hace un rastreo de los rasgos del Factor Zombi a través de la cultura de los muertos vivientes. Luego se consideran los rasgos en sí. Y

finalmente se aplican los rasgos al estudio de las transiciones históricas de la Antigüedad a la Edad Media, de ésta a la Modernidad y de ésta a la Postmodernidad. Estos periodos de la historia de la humanidad se caracterizan por presentar una manifestación fuerte del Factor Zombi.
