He explains how the Royal armored Corps contracted rapidly after 1945, then faced the twin challenges of National Service and heavy involvement in numerous wars and campaigns around the globe. He recounts how the RAC became a fully-professional organization by the early 1960s, and continues the tale of disbandments, down-sizing and amalgamations. In a narrative which is as much a social history as an operational one, the vivid personal accounts of soldiers feature heavily throughout. The story of the Cold War in Germany (BAOR) is told. Then, after the fall of the Berlin Wall, the book describes the role British armor played in conflicts in the Gulf, the Balkans and Afghanistan. Dick Taylor's thoroughgoing account concludes with an assessment of the RAC in 2021 in the immediate aftermath of another defense review.
