self guided tour sleepy hollow cemetery map: The Gangs Of New York Herbert Asbury, 2016-07-26 Herbert Asbury presents here a vivid and startling account of New York gangdom from its beginning in Revolutionary times to comparatively recent days. Here are the stories of the great gangs which terrorized the city and at times menaced its very existence—from the Bowery Boys and the Dead Rabbits to the Gophers and the Eastmans. Kid Dropper, Dopey Benny, Gyp the Blood and Owney Madden are a few of the gangster luminaries described, not to mention such female evildoers as Gallus Mag and Sadie the Goat. Nor have the underworld's lesser lights been overlooked; for these pages are crowded with a host of gang warriors, pickpockets, tong leaders, murderers, politicians, gamblers, prostitutes, dive-keepers and a few would-be reformers. Mr. Asbury has created such a rich, factual background for this chronicle of crime and gangsterism that the book gains considerable stature as a revealing picture of New York City's history through a century of frenzied growth and expansion. Whether you read it as such or merely for amusement, it is a swift, exciting experience.

self guided tour sleepy hollow cemetery map: *Aids To Scouting* Robert Baden-Powell, 2015-02-10 In 1899 while serving in the 2nd Boer War, Robert Baden-Powell penned his sixth military book, *Aids To Scouting*. It was a non-typical training manual filled with personal stories of intrigue and even games. Its goal was to encourage the development of light reconnaissance scouting skills within the British Army. The book was well received by various armies of its time, including the French Army. His successful defense of Mafeking (1899-1900) in South Africa made Baden-Powell a well-known national hero in Britain. But what completely surprised Baden-Powell was that his book was eagerly taken up by teachers and youth groups to help organize outdoor activities and sport. He eventually embraced the idea of adapting his work into a new youth-oriented book, *Scouting for Boys* (1908) which went on to sell approx. 150 million copies to date. It was that follow-on book that firmly launched the international Boy Scouts movement. *Aids to Scouting* contains sections on the characters of a scout, as well as practical advice on observation, stealth/camouflage, map reading, sketching, tracking, reporting and care of horses. It presents these topics in a simple conversational style that makes it easy to read, and is illustrated with personal anecdotes of military adventures by the author. It gives scholars clear insights into his mindset and beliefs that served him well in the siege of Mafeking and shows a clear lineage to the formation of the tenets of his formation of the Boy Scouts. Anyone interested in the history of Boy Scouting will definitely want to read this interesting and formative book. (NOTE - Appendix C contents is missing in this Kindle version - but we hope to update the ebook with it once a suitable facsimile can be referenced). self guided tour sleepy hollow cemetery map: *The Condition of the Working-Class in England in 1844* Frederick Engels, 2014-02-12 *The Condition of the Working Class in England* is one of the best-known works of Friedrich Engels. Originally written in German as *Die Lage der arbeitenden Klasse in England*, it is a study of the working class in Victorian England. It was also Engels' first book, written during his stay in Manchester from 1842 to 1844. Manchester was then at the very heart of the Industrial Revolution, and Engels compiled his study from his own observations and detailed contemporary reports. Engels argues that the Industrial Revolution made workers worse off. He shows, for example, that in large industrial cities mortality from disease, as well as death-rates for workers were higher than in the countryside. In cities like Manchester and Liverpool mortality from smallpox, measles, scarlet fever and whooping cough was four times as high as in the surrounding countryside, and mortality from convulsions was ten times as high as in the countryside. The overall death-rate in Manchester and Liverpool was significantly higher than the national average (one in 32.72 and one in 31.90 and even one in 29.90, compared with one in 45 or one in 46). An interesting example shows the increase in the overall death-rates in the industrial town of Carlisle where before the introduction of mills (1779-1787), 4,408 out of 10,000 children died before reaching the age of five, and after their introduction the figure rose to 4,738. Before the introduction of mills, 1,006 out of 10,000 adults died before reaching 39 years old, and after their introduction the death rate rose to 1,261 out of 10,000.

self guided tour sleepy hollow cemetery map: *Haunting Experiences* Diane Goldstein, Sylvia Grider, Jeannie Banks Thomas, 2007-09-15 Ghosts and other supernatural phenomena are widely represented throughout modern culture. They can be found in any number of entertainment, commercial, and other contexts, but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them, based on tradition or direct experience. Personal belief and cultural tradition on the one hand, and popular and commercial representation on the other, nevertheless continually feed each other. They frequently share space in how people think about the supernatural. In *Haunting Experiences*, three well-known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts. Diane E. Goldstein, Sylvia Ann Grider, and Jeannie Banks Thomas take ghosts seriously, as they draw on contemporary scholarship that emphasizes both the basis of belief in experience (rather

than mere fantasy) and the usefulness of ghost stories. They look closely at the narrative role of such lore in matters such as socialization and gender. And they unravel the complex mix of mass media, commodification, and popular culture that today puts old spirits into new contexts.

self guided tour sleepy hollow cemetery map: *Almost Christian* Kenda Creasy Dean, 2010-07-16 Based on the National Study of Youth and Religion--the same invaluable data as its predecessor, *Soul Searching: The Religious and Spiritual Lives of American Teenagers*--Kenda Creasy Dean's compelling new book, *Almost Christian*, investigates why American teenagers are at once so positive about Christianity and at the same time so apathetic about genuine religious practice. In *Soul Searching*, Christian Smith and Melinda Lundquist Denton found that American teenagers have embraced a Moralistic Therapeutic Deism--a hodgepodge of banal, self-serving, feel-good beliefs that bears little resemblance to traditional Christianity. But far from faulting teens, Dean places the blame for this theological watering down squarely on the churches themselves. Instead of proclaiming a God who calls believers to lives of love, service and sacrifice, churches offer instead a bargain religion, easy to use, easy to forget, offering little and demanding less. But what is to be done? In order to produce ardent young Christians, Dean argues, churches must rediscover their sense of mission and model an understanding of being Christian as not something you do for yourself, but something that calls you to share God's love, in word and deed, with others. Dean found that the most committed young Christians shared four important traits: they could tell a personal and powerful story about God; they belonged to a significant faith community; they exhibited a sense of vocation; and they possessed a profound sense of hope. Based on these findings, Dean proposes an approach to Christian education that places the idea of mission at its core and offers a wealth of

concrete suggestions for inspiring teens to live more authentically engaged Christian lives. Persuasively and accessibly written, *Almost Christian* is a wake up call no one concerned about the future of Christianity in America can afford to ignore.

self guided tour sleepy hollow cemetery map: *The Production of Space* Henri Lefebvre, 1992-04-08 Henri Lefebvre has considerable claims to be the greatest living philosopher. His work spans some sixty years and includes original work on a diverse range of subjects, from dialectical materialism to architecture, urbanism and the experience of everyday life. *The Production of Space* is his major philosophical work and its translation has been long awaited by scholars in many different fields. The book is a search for a reconciliation between mental space (the space of the philosophers) and real space (the physical and social spheres in which we all live). In the course of his exploration, Henri Lefebvre moves from metaphysical and ideological considerations of the meaning of space to its experience in the everyday life of home and city. He seeks, in other words, to bridge the gap between the realms of theory and practice, between the mental and the social, and between philosophy and reality. In doing so, he ranges through art, literature, architecture and economics, and further provides a powerful antidote to the sterile and obfuscatory methods and theories characteristic of much recent continental philosophy. This is a work of great vision and incisiveness. It is also characterized by its author's wit and by anecdote, as well as by a deftness of style which Donald Nicholson-Smith's sensitive translation precisely captures.

The inspiration for the new film adaptation of the Tony-winning Broadway musical Alice Walker's iconic modern classic, and winner of the Pulitzer Prize and the National Book Award A powerful cultural touchstone of modern literature, *The Color Purple* depicts the lives of African American women in early twentieth-century rural Georgia. Separated as girls, sisters Celie and Nettie sustain their loyalty to and hope in each other across time, distance, and silence. Through a series of letters spanning twenty years, first from Celie to God, then the sisters to each other despite the unknown, the novel draws readers into its rich and memorable portrayals of Celie, Nettie, Shug Avery and Sofia and their experience. *The Color Purple* broke the silence around domestic and sexual abuse, narrating the lives of women through their pain and struggle, companionship and growth, resilience and bravery. Deeply compassionate and beautifully imagined, Alice Walker's epic carries readers on a spirit-affirming journey toward redemption and love.
