rise reading workshop answers: *Literature and the Rise of the Interview* Rebecca Roach, 2018-11-21 Today interviews proliferate everywhere: in newspapers, on television, and in anthologies; as a method they are a major tool of medicine, the law, the social sciences, oral history

projects, and journalism; and in the book trade interviews with authors are a major promotional device. We live in an 'interview society'. How did this happen? What is it about the interview form that we find so appealing and horrifying? Are we all just gossips or is there something more to it? What are the implications of our reliance on this bizarre dynamic for publicity, subjectivity, and democracy? *Literature and the Rise of the Interview* addresses these questions from the perspective of literary culture. The book traces the ways in which the interview form has been conceived and deployed by writers, and interviewing has been understood as a literary-critical practice. It excavates what we might call a 'poetics' of the interview form and practice. In so doing it covers 150 years and four continents. It includes a diverse rostrum of well-known writers, such as Henry James, T. S. Eliot, Ezra Pound, Djuna Barnes, William Burroughs, Philip Roth, J. M. Coetzee and Toni Morrison, while reintroducing some individuals that history has forgotten, such as Betty Ross, 'Queen of Interviewers', and Julian Hawthorne, Nathaniel's profligate son. Together these stories expose the interview's position in the literary imagination and consider what this might tell us about conceptions of literature, authorship, and reading communities in modernity.

rise reading workshop answers: The Program Era Mark McGurl, 2011-11-30 In *The Program Era*, Mark McGurl offers a fundamental reinterpretation of postwar American fiction, asserting that it can be properly understood only in relation to the rise of mass higher education and the creative writing program. McGurl asks both how the patronage of the university has reorganized American literature and—even more important—how the increasing intimacy of writing and schooling can be brought to bear on a reading of this literature. McGurl argues that far from occasioning a decline in

the quality or interest of American writing, the rise of the creative writing program has instead generated a complex and evolving constellation of aesthetic problems that have been explored with energy and at times brilliance by authors ranging from Flannery O'Connor to Vladimir Nabokov, Philip Roth, Raymond Carver, Joyce Carol Oates, and Toni Morrison. Through transformative readings of these and many other writers, The Program Era becomes a meditation on systematic creativity—an idea that until recently would have seemed a contradiction in terms, but which in our time has become central to cultural production both within and beyond the university. An engaging and stylishly written examination of an era we thought we knew, The Program Era will be at the center of debates about postwar literature and culture for years to come.

rise reading workshop answers: *Because the Light Will Not Forgive Me* Shaun T. Griffin, 2019-06-05 "Think of a man walking in the desert," writes Griffin, "looking for the path to its summit, looking for the observatory that may, at last, shed light on what's below." In this luminous and moving book of essays, award-winning author Shaun Griffin weaves together a poetic meditation on living meaningfully in this world. Anchored in the American West but reaching well beyond, he recounts his discoveries as a poet and devoted reader of poetry, a teacher of the disadvantaged, a friend of poets and artists, and a responsible member of the human family. Always grounded in place, be it Nevada, South Africa, North Dakota, Spain, Zimbabwe, or Mexico, Griffin confronts the world with an openness that allows him to learn and grow from the people he meets. This is a meditation on how all of us can confront our own influences to achieve wholeness in our lives. Along with Griffin, readers will reflect on how they might respond to a homeless man walking through central Nevada, viewing the open desert as Thoreau might have viewed Walden, seeing the US-Mexico border as a region of lost identity, reconciling how poets who live west of the Hudson River find anonymity to be their laurel, and experiencing how writing poetry in prison becomes lifesaving. Whether poets or places in the West or beyond, experiences with other cultures, or an acute awareness that poetry is the refuge of redress—all have influenced Griffin's writing and thinking as a poet and activist in the Great Basin. The mindfulness of *Because the Light Will Not Forgive Me* demonstrates that even though the light does not forgive, it still reveals.

rise reading workshop answers: Interrogation in War and Conflict Christopher Andrew, Simona Tobia, 2014-04-29 This edited volume offers a comparative and interdisciplinary analysis of interrogation and questioning in war and conflict in the twentieth century. Despite the current public interest and its military importance, interrogation and questioning in conflict is still a largely under-researched theme. This volume's methodological thrust is to select historical case studies ranging in time from the Great War to the conflicts in former Yugoslavia, and including the Second World War, decolonization, the Cold War, the 'Troubles' in Northern Ireland and international justice cases in The Hague, each of which raises interdisciplinary issues about the role of interrogation. These case-studies were selected because they resurface previously unexplored sources on the topic, or revisit known cases which allow us to analyse the role of interrogation and questioning in intelligence, security and military operations. Written by a group of experts from a range of disciplines including history, intelligence, psychology, law and human rights, *Interrogation in War and Conflict* provides a study of the main turning points in interrogation and questioning in twentieth-century conflicts, over a wide geographical area. The collection also looks at issues such as the extent of the use of harsh techniques, the value of interrogation to military intelligence, security and international justice, the development of interrogation as a separate profession in intelligence, as well as the relationship between interrogation and questioning and wider society. This book will be of much interest to students of intelligence studies, strategic studies, counter-terrorism, international justice, history and IR in general.

rise reading workshop answers: Museums, Equality and Social Justice Richard Sandell, Eithne Nightingale, 2013-05-20 The last two decades have seen concerns for equality, diversity, social justice and human rights move from the margins of museum thinking and practice, to the core. The arguments - both moral and pragmatic - for engaging diverse audiences, creating the conditions for more equitable access to museum resources, and opening up opportunities for participation, now

enjoy considerable consensus in many parts of the world. A growing number of institutions are concerned to construct new narratives that represent a plurality of lived experiences, histories and identities which aim to nurture support for more progressive, ethically-informed ways of seeing and to actively inform contemporary public debates on often contested rights-related issues. At the same time it would be misleading to suggest an even and uncontested transition from the museum as an organisation that has been widely understood to marginalise, exclude and oppress to one which is wholly inclusive. Moreover, there are signs that momentum towards making museums more inclusive and equitable is slowing down or, in some contexts, reversing. Museums, Equality and Social Justice aims to reflect on and, crucially, to inform debates in museum research, policy and practice at this critical time. It brings together new research from academics and practitioners and insights from artists, activists, and commentators to explore the ways in which museums, galleries and heritage organisations are engaging with the fast-changing equalities terrain and the shifting politics of identity at global, national and local levels and to investigate their potential to contribute to more equitable, fair and just societies.

rise reading workshop answers: *Escape Emerald* 2 Bill H. Ritchie, 2024-03-27 Disclosure: This description was prompted and edited by Bill Ritchie, in Microsoft's current Copilot, an AI text generator for the second volume of Bill H. Ritchie's two-part autobiography. We traverse the years from 1991 to 2023. Ritchie, a trailblazer in the art world continues his life story. In the first book he told how he embarked on a remarkable odyssey that defied convention and reshaped the art, craft, and design of fine art printmaking. At the tender age of 24, Ritchie secured a groundbreaking position—the youngest ever—in the vibrant city of Seattle. His appointment as a teaching artist in fine art printmaking at the University of Washington marked the beginning of a transformative chapter. But this was no ordinary academic journey; Ritchie's innovative spirit would soon set him apart, a maverick in academe. The traditional classroom was too confining for Ritchie. Driven by a hunger for exploration, he wove technology into his art courses in the 1980s. Bill Ritchie's experiments disrupted the staid printmaking department and shocked the UW School of Art. Forced to leave the stifling ivory towers, by the 1990s the emergence of electronic arts opened with the Internet and would extend the boundaries of printmaking. Ritchie's vision blurred the lines between historic creativity and cutting-edge technology, birthing a new era dating back to the Paleolithic era when printmaking was invented. Ritchie pushed the envelope. Printmaking was no longer confined to ink and paper; it now danced with video, performance, computer graphics, and games. His colleagues, patrons, and former students watched in awe, wondering at the audacity of his moves. Telling all, Ritchie weaves rich, detailed tales. In his printed books he placed thousands of pictures to enliven the narrative, capturing moments shared with those who left their marks on his journey. QR codes link videos and backstories, bridging epochs—from prehistoric cave paintings to the digital age. The echoes of ancient handprints resonate, showing that explication transcends time if replicated creatively. In a world illuminated and echoed by electronic media, Ritchie poses a poignant question: Is there hope? As climate change and global stressors threaten the future, his words resonate. Whether through brushstrokes or those fleeting, elusive pixels and here in eBook form and auxiliary Read Aloud option, Ritchie's legacy endures—a beacon for students of all ages, urging them to embrace creativity, defy boundaries, and find hope in the interplay of art, technology, and the human imagination.

rise reading workshop answers: *La Pinta* B. V. Olguín, 2010-01-01 In this groundbreaking study based on archival research about Chicana and Chicano prisoners—known as Pintas and Pintos—as well as fresh interpretations of works by renowned Pinta and Pinto authors and activists, B. V. Olguín provides crucial insights into the central roles that incarceration and the incarcerated have played in the evolution of Chicana/o history, cultural paradigms, and oppositional political praxis. This is the first text on prisoners in general, and Chicana/o and Latina/o prisoners in particular, that provides a range of case studies from the nineteenth century to the present. Olguín places multiple approaches in dialogue through the pairing of representational figures in the history of Chicana/o incarceration with specific themes and topics. Case studies on the first nineteenth-century Chicana prisoner in San Quentin State Prison, Modesta Avila; renowned late-twentieth-century Chicano poets Raúl Salinas, Ricardo Sánchez, and Jimmy Santiago Baca; lesser-known Chicana pinta and author Judy Lucero; and infamous Chicano drug baron and social bandit Fred Gómez Carrasco are aligned with themes from popular culture such as prisoner tattoo art and handkerchief art, Hollywood Chicana/o gangxploitation and the prisoner film *American Me*, and prisoner education projects. Olguín provides a refreshing critical interrogation of Chicana/o subaltern agency, which too often is celebrated as unambiguously resistant and oppositional. As such, this study challenges long-held presumptions about Chicana/o cultures of resistance and proposes important explorations of the complex and contradictory relationship between Chicana/o agency and ideology.
